			44 (L) Inf Bde Adm Order No 5 issued.	Folio 6
Outside TILBURG	28	0900	Bde Comd drove through TILBURG.	
		1100	Bde HQ moved into TILBURG to a large ho at 172323. The rest of the day was given over to liberation scenes in the streets of TILBURG, which were as exciting as any in FRANCE and BELGIUM. Pipe band of 6 RSF contributed to the gaiety and there was singing and dancing in the streets which went on until a late hr. This was perhaps the most gratifying day 44 Bde has experienced since the landing in NORMANDY, as the battle for TILBURG was won by 15 (S) Div only and mainly by 44 Bde, who were the first BRITISH tps to enter the city.	
		1620	Warning Order from Div that Bde Gp might be required to move overnight.	
		1820	Warning Order issued to Bde Gp to prepare to move at 0230 hrs. The situation in area MEIJEL - LIESEL, EAST of HELMOND, was serious as 9 PZ Div and 15 PZ GREN Div, had crossed the MEIJEL - DEURNE Canal and had driven in through elements of 7 US Armd Div.	
Outside TILBURG		2400	Adv parties left to recce area DEURNE.	
TILBURG moving to DEURNE	29	0300	Bde Gp moved from TILBURG.	
		0800	Bde Gp began to arrive at DEURNE. The situation was still more menacing, as the GERMAN tks were driving up the rd beyond LIESEL within five miles of DEURNE, with nothing to stop them but 1 E YORKS of 3 Div and 15/19 HUSSARS of 11 Armd Div. 44 Bde drove straight into def posn covering DEURNE.	
		1100	All bns were in posn. The situation was precarious in view of shortage of sp arms, who were still on rd from TILBURG. The enemy tks got within three miles of DEURNE but did NOT press fwd and gradually the situation eased, as more of 15 (S) Div arrived.	
		1300	6 KOSB moved fwd two miles SOUTH of DEURNE to a def posn covering rd in wood 6516.	
		1500	GOC 15 (S) Div ordered 44 Bde less 6 KOSB but with 2 GLAS H under comd to relieve CCB of 7 US Armd in area LIESEL astride rd LIESEL - ASTEN, while 46 Bde took over posn covering DEURNE.	
		1600	Bde Comd visited CCB 7 US Armd Div nr ASTEN and found that the situation was very confused, as the enemy appeared to be in behind the US CCB in area LIESEL and it was impossible to relieve them. 44 Bde accordingly took up def posn in woods WEST of LIESEL astride rd	

		1755	LIESEL - ASTEN with 2 GLAS H on RIGHT, 6 RSF on LEFT and 8 RS behind. CCB 7 US Armd came out after dark as best they could. Bde HQ moved to ASTEN 610130. This was a lively night with hy shelling and mortaring of bns. Enemy were holding LIESEL and pushing WEST.	
ASTEN	30	0930 1100 1120 1300 1545 1700 1740 2050	Enemy in area SLOT appeared to be attempting to push WEST into the big wood held by 2 GLAS H. 6 RSF reported one of their coys had infiltrated into western end of LIESEL, but enemy still held centre of village. 2 GLAS H reported enemy infiltration attacks into wood 668138. These attacks continued all day and at one time enemy were reported to have infiltrated almost through the wood. Two coys of 8 RS were moved up behind 2 GLAS H as additional def in the wood. 46 Bde started pushing SOUTH towards LIESEL and linked up with 6 RSF NORTH of LIESEL. The enemy were still in LIESEL but the threat to DEURNE seemed definitely to have been checked. 6 RSF started pushing EAST into LIESEL. 2 GLAS H completed clearing of the wood in their area. Counter-attack by enemy from EAST of LIESEL was dispersed by arty. 2 GLAS H beat off counter-attack. The enemy were still in LIESEL tonight.	
	31	0815 0900 1015 1545 1545	2 GLAS H carried out wood clearing op SOUTH from their posns sp by sqn of 4 Tk GREN GDS. 46 Bde adv SOUTH to clear LIESEL. On LEFT of rd they were successful, but on RIGHT, progress was slow, LIESEL only being cleared by 1500 hrs. 8 RS ordered to occupy SOUTH area of large wood 665122. 8 RS moved to carry out this order and got into posn all right. 6 KOSB moved down rd and captured SLOT. They destroyed two GERMAN Mk IV tks at 674137. The enemy threat was now removed and he was already removing 9 PZ Div and 15 PZ GREN Div, replacing them by Para Regt HUBNER, which had been holding the line in this area for weeks.

During the day 46 Bde dispositions were changed and bns were disposed to cover each side of the brhead from incl crossing I 0894 to incl crossing 117938. The reorg was completed by 2105 hrs.	
	19		There was little of note to record and dispositions of bns remained unchanged.	
	20	1030 1830 2200	Although the night had been quiet there was little indication of the enemy withdrawing. Bde Comd and IO attended Div O Gp at HQ 227 Bde. 46 Bde would come under comd 53 (W) Div. 9 CAMERONIANS to move forthwith under comd 158 Bde to take over protection of br at LOMMEL 3195. The remainder of the Bde was to move early next day. Bde Comd and IO then went to HQ 160 Bde to meet Comd 53 (W) Div. Bde Comd was ordered to conc the Bde less 9 CAMERONIANS in the area astride the rd between LOMMEL 3195 and the Canal. Bde Comd held O Gp. Orders were changed and Bde was ordered to conc in area VELDHOVEN 3715 and 9 CAMERONIANS were to relieve 1 Oxf and Bucks (43 LI) on the SOUTH bank of the Canal opposite OIRSCHOT E 3324. 7 SEAFORTH were to adv as quickly as possible and attempt a crossing of the Canal at BEST E 3824.	

392181	21		<p>Move of Bde Gp was carried out in accordance with Amendment to Mov Order No 15, and by 2010 hrs 9 CAMERONIANS had completed relief of 1 Oxf and Bucks.</p> <p>During the night 7 SEAFORTH also crossed the Canal at BEST.</p>	See Appx D/10
<p>ACHT 398227</p> <p>ACHT 398227</p>	22	1500	<p>By 0340 hrs 7 SEAFORTH had all coys on objectives and patrols had reached town which was apparently clear of enemy. At 0800 hrs Bde Comd ordered 7 SEAFORTH to send one coy to occupy BEST. This coy however ran up against stiff enemy resistance and could not get on and one pl was lost. It was later established BEST was strongly held and it was decided to make an attack on BEST with 2 GLAS H preceded by a sqn of 15 (S) Recce Regt. On capture of BEST 2 GLAS H to adv WEST preceded by Recce Regt towards OIRSCHOT with a view to clearing enemy out of that area and allowing 9 CAMERONIANS to cross the Canal. This operation however was unsuccessful as 2 GLAS H did not succeed in clearing the enemy wholly out of BEST.</p>	
	23	2200	<p>6 KOSB came under comd 46 (H) Inf Bde to protect our flank to the NE. It was later learned that 9 CAMERONIANS were being relieved by the 1 Oxf and Bucks at first light and were to conc in the area I 4022 to take over brhead from 7 SEAFORTH, and it was decided to make a two bn attack to capture the line of the rly from incl crossing I 3726 - incl crossing I 3724. This was timed for 1530 hrs. Neither bn reached their objectives owing to fierce resistance and the battle ended with 2 GLAS H in posn round the Church in BEST 3727 and 7 SEAFORTH just short of the rly line held up by strong enemy posn in a big stone Factory at 3726. Bns were ordered to stay in these posns for the night.</p> <p>6 KOSB reverted to comd 44 Bde but still protecting our right flank.</p>	
	24		<p>2 GLAS H who had suffered fairly hy cas were relieved by 9 CAMERONIANS, 15 (S) Recce Regt being responsible for protection of the br. 7 SEAFORTH were then ordered to patrol to the line of the rly to gain as much infm as possible and to occupy the area of the Factory should it be found clear of enemy, the Divisional plan being for 227 Bde to attack along the NORTH bank of the Canal to the rly and then to turn NORTH and clear the enemy in the area NAASTEBESTE I 3625. This attack to take place the following morning.</p>	
	25		<p>Attack by 227 Bde failed and the Div plan was changed once more, 44 Bde and 227 Bde being ordered to adv NW the next day. The strongest enemy resistance seemed to be coming from the Factory 3726 area, and it was decided to withdraw tps and attack it with</p>	

			Typhoons. This attack seemed highly successful. The clearing of BEST was still left to 46 Bde and it was planned to carry it out as laid down in OO No 9.	See Appx D/11
ACHT 398227	26		Clearing ops were carried out in accordance with OO No 9 and the line of rly was eventually reached and firm posns est by both bns. Active patrolling was carried out during the night.	
	27		Our posns on the rly were still intact and one coy of 9 CAMERONIANS was moved up onto the rly to reinforce the line. More patrolling was carried out during the night.	
	28		Active patrolling continued.	
383278	29	1500 2230	Bde HQ moved to new location 383278. Bns were ordered to continue patrolling during the night. Small arms fire heard in vicinity of Bde HQ. Infm received that 2 GORDONS on our immediate front had contacted an enemy patrol. Bde HQ ordered to Stand To.	
	30	0030 1200	Bde HQ ordered to Stand Down. Bns had a quiet day and there was very little to report. Bde Comd summoned to Div HQ for conference. He was infm that Bde was being relieved in one or two days time by a Bde of 51 (H) Div and that probably 15 (S) Inf Div would be conc in a Rest Area for at least four to five days prior to reverting to under comd 8 Corps.

Enemy opposition was stiff and both bns were held up in the wooded area SW of MOYLAND. Owing to their inability to adv any further a new plan was made for the eventual capture of MOYLAND. Issue of OP Order No: 21.	See Appx 'D'-10
892564	15	1415  2330	The attack did not go well and we were held up by a very determined enemy. 10 HLI were put under comd 46 (H) Inf Bde and at 1645 hrs CO 10 HLI was ordered to report to Bde HQ as soon as possible for orders. 10 HLI were to attack during the night and capture the area Pt 328 964495. 9 CAMERONIANS were ordered to continue fighting to capture their objective, even if it meant fighting throughout the night. 10 HLI began their attack and 0105 hours they were reported to be on their objective. Later in the morning the enemy put in a fairly heavy counter-attack and over-ran the RIGHT hand coy but the position was restored later.	
	16	0805  0815 0910	2 GLAS H were ordered to have one coy ready to move under comd 10 HLI. Bde Comd visited 10 HLI. 9 CAMERONIANS who had been fighting throughout the night reported that they had captured their last objective. At the same time 7 SEAFORTH had reached the wood 959522 but had suffered fairly	

		1200 1300	heavy casualties. The enemy was still aggressive and 9 CAMERONIANS were counter-attacked in the area 962513. This however came to nothing. We were informed that 7 CDN Bde were going to attack through us to try and clear the enemy out of the wooded area SOUTH of MOYLAND and 9 CAMERONIANS were therefore ordered to clear the wood 957511 and give all possible help. 7 CDN Bde attacked through 46 Bde but without success. 7 SEAFORTH were ordered to patrol forward to the houses at 963519 during the night.

Roads and tracks leading to the area were in a very bad state and it was difficult to find suitable FUPs. See Movement Order No: 24	See Appx 'D'-13
	21	0900	Bde Comd, BM and IO left for HQ 227 Bde where Bde Comd held an 'O' Gp and afterwards made final recces. Issue of Op Order No: 23	See Appx 'D'-14
934456	22		Bde Gp moved in accordance with Mov Order No: 24 and Bde HQ was established at 934456. Owing to stiff enemy resistance 6 RSF had only been able to make a small bridgehead at 941422 and the plan for 46 Bde was changed, Bde Comd ordering an 'O' Gp for 1100 hrs at Bde HQ. 9 CAMERONIANS were now ordered to enlarge the bridgehead made by 6 RSF and 7 SEAFORTH would then carry out their original task. The Bde objective for the day being limited to a line running approx EAST and WEST about 500 yards SOUTH of the rly. 2 GLAS H were ordered	

			to take over from 6 RSF at night after the completion of 9 CAMERONIANS attack. Attacks by 9 CAMERONIANS and 7 SEAFORTH went well and all objectives were taken by night.

By 1340 hrs 7 SEAFORTH had cleared SANDENHOF 1047 and were advancing towards MEHR by 1430 hrs. 7 SEAFORTH reported they had one coy in the centre of MEHR. By 1745 MEHR had been cleared and both 2 GLAS H and 9 CAMERONIANS had crossed the RHINE and had received orders from Bde Comd for future ops. Although 7 SEAFORTH had captured MEHR they were unable to cross the water obstacle in front owing to enemy resistance. Bde Comd ordered that 9 CAMERONIANS would adv to a line running from BRUCKSHOF 125500 to WISSHOF 119503 and 2 GLAS H would	

			assemble behind them ready to pass through and adv NW and attempt the crossing of the obstacle. Owing to enemy resistance it was not possible to carry out this plan.	
088456	25	<p>0630 Bde Comd and 'R' Gp went fwd to meet three Bn Comds but delay in crossing R RHINE prevented their arrival till 0900 hrs.</p> <p>0945 2 A &amp; SH put under comd 46 Bde and Bde Comd gave out verbal orders for 2 GLAS H and 2 A &amp; SH to move by march route round SOUTH of LANGE RENNE 1348. 2 GLAS H were to obtain footing in Southern edge of wood 1448, then 2 A &amp; SH on the RIGHT and 2 GLAS H on the LEFT were to clear wood Northwards. Approx 150 PW were taken during this op.</p> <p>2130 9 CAMERONIANS reported objective taken - about 65 PW. Reorg took place after objectives had been cleared and final disposns for night were - 2 A &amp; SH 144495, 2 GLAS H 145486, 7 SEAFORTH area br 134494 and 9 CAMERONIANS conc in area 109494 10 HLI having taken over their responsibilities in the BRUCKSHOF - WISSHOF area. 119476	26	<p>0130 Orders were given for 2 GLAS H and 2 A &amp; SH to exploit Eastwards at first light so as to clear rd running NORTH and SOUTH EAST of wood 1448. At the same time 7 SEAFORTH were to adv Northwards, EAST of BELLINGHOVER MEER 1349. 2 GLAS H completed their part successfully by 0800 hrs and took about 50 PW. 2 A &amp; SH were unable to move to X rds 1449 and coy of 7 SEAFORTH was held up soon after starting.</p> <p>0900 Bde Comd ordered 7 SEAFORTH to clear X rds 1449 and at the same time to attack Northwards sp by A Sqn RTR (Crocodiles). This op was not started till 1400 hrs and by 1550 hrs the bn was on its objective.</p> <p>1600 9 CAMERONIANS advanced through 7 SEAFORTH to capture the CLASENHO 146515 feature and by 1722 hrs they reported having one coy on the left-hand objective in the area 142513. Another coy was attacking CLASENHO but was held up by stiff enemy resistance and no further progress was made that day.</p>		

		1945	Orders were received for 2 GLAS H to move during the night to the area 1749 preparatory to clearing Northwards to line 174520 - 168517 - 160516. 2 A & SH would remain in present area in Div res and get as much rest as possible. 7 SEAFORTH were to move to the area 160503 to cover the gap between 9 CAMERONIANS and 2 GLAS H.	See Appx D-7
152498	27	1120	2 GLAS H had completed their conc in the new area during the early morning and patrols moved fwd at 0900 hrs. Bde HQ moved to 152498. By the end of the day 2 GLAS H were held up on the line 174519 - 170518 - 166517 - 157504. 9 CAMERONIANS had been unable to clear the CLASENHO feature and an 'O' Gp was called for 2000 hrs at Bde HQ.	See Notes at Appx D-8
152498		2000	Bde Comd held 'O' Gp at 152498 and gave out orders for the following day. 2 A & SH and 6 HLI were now under comd 46 Bde and 9 CAMERONIANS under comd 227 Bde. 7 SEAFORTH were to clear the enemy from the CLASENHO feature working from EAST to WEST through 2 GLAS H. 6 HLI and 2 A & SH would then adv NORTH up to the line from 151534 - 137534 and clear that wooded area.	See Notes at Appx D-8
	28	0830	7 SEAFORTH began their attack and reached their objectives without a cas. They took about 50 PW. It appears that enemy had left fwd tps and withdrawn all res. It was the first day that German paratps had given up without firing a round. They were dazed by the weight of arty, tired out after four days fighting, and dispirited to find that their res had withdrawn. 2 A & SH and 6 HLI also reached their objectives without opposition and 2 GLAS H cleared the wooded area 163526. By 1500 hrs patrols had reached as far fwd as 154544 reporting the whole area clear of enemy. Bde Comd then made a recce and gave orders for bns to take over following areas : 2 GLAS H 165529, 6 HLI 155538, 2 A & SH 145530, 7 SEAFORTH 153519.	
	29	0001 1000	2 A & SH were infm that they would revert to under comd 227 (H) Inf Bde at 1000 hrs. This would not involve a move. 9 CAMERONIANS reverted to under comd 46 (H) Inf Bde and took over from 6 HLI.	
	30 )		As far as possible all tps were put under cover and ordered to	
	31 )		get maximum rest. No move was likely for the next few days.

Plan for eventual capture of UELZEN was then changed. At 0600 hrs 46 Bde was to adv with RIGHT 2 GLAS H and LEFT 7 SEAFORTH, SL to be "EVE".</p> <p>Attack began as planned and 7 SEAFORTH made good progress. By 1040 hrs they had one coy on "PHARAOH". 2 GLAS H had been held up on "MOSES" and at 1100 hrs Bde Comd ordered 9 CAMERONIANS to adv through 2 GLAS H when the latter had reached "PHARAOH", and capture areas "D" and "G". By 1445 hrs all organised resistance in UELZEN was considered at an end.</p>	

		1515	<p>Div Comd arrived at Bde HQ to discuss with Bde Comd whether he could pass 227 Bde through 46 Bde and NORTH of UELZEN that evening.</p> <p>Owing to the greater part of UELZEN being ablaze the civ problem caused some embarrassment for a time but owing to energetic action on the part of the Mil Gov offr the situation was soon in hand. By night 46 Bde was firmly est in the town and infm was received that 227 Bde would pass through at 0600 hrs next day and adv Northwards. There would be no move for 46 Bde before 1400 hrs next day.</p>	
BEVENSEN 9002	19	1800	<p>46 Bde Gp moved to conc area BEVENSEN 9002 in accordance with Mov Order No 32.</p> <p>Owing to excellent progress made by 11 Armd Div in adv toward the R ELBE orders were received that 46 Bde would move again next day and adv to the R ELBE.</p> <p>Bde Comd held 'O' Gp and gave orders for adv next day. BEVENSEN 9002	20		<p>46 (H) Inf Bde Gp adv according to Op Instr No 20. 9 CAMERONIANS were held up on main axis by small enemy pockets and Bde Comd decided to divert remainder of coln WEST from DAHLENDORF 0114. 9 CAMERONIANS were directed on BLECKEDE 0127, 7 SEAFORTH on NEETZE 9322, 2 GLAS H on BREETZE 9823.</p> <p>Stiff enemy resistance prevented 9 CAMERONIANS from entering BLECKEDE. CO 9 CAMERONIANS decided to send a deputation into BLECKEDE to negotiate surrender of the enemy. Negotiations however failed.</p> <p>7 SEAFORTH made good progress and reached NEETZE without opposition. They were then ordered to adv to area KARZE 9629 and GARZE 9828 and to send a coy as soon as possible to the area WENDEWISCHE 9333.</p> <p>Owing to change of inter-Div bdy BLECKEDE was now the responsibility of 5 Br Div on our right and 9 CAMERONIANS were ordered to occupy BREETZE 9822 leaving one coy in the area 0122. 2 GLAS H were ordered to occupy the area 9425. By 2100 hrs bns were est in these posns and Bde HQ was at 9422.</p>	
9422	21		<p>No enemy activity was reported during the night and at 1000 hrs Bde Comd visited bns with the following plan. 7 SEAFORTH were to go to area HITTBERGEN 9031, with one coy in area 9532 and one coy in area 9432 with a pl or det with OP at BARFORDE 9334. 2 GLAS H to area KARZE 9628 with one or two coys in BRACKEDE 9832 and RADEGAST 9931. 9 CAMERONIANS were to conc in GARZE 9828.</p>	

			By 1700 hrs the Bde was disposed as above and bn OPs began to observe enemy mov on the opposite bank of the R ELBE of which there was a considerable amount. Bde HQ moved during day to area 9526.	
9526	22		Enemy mov particularly MT was observed throughout the day along the rd BOIZENBURG 9935 - LAUENBURG 8835. Owing to shortage of amn guns were not able to engage.	
	23		The usual enemy mov was observed during the day and at 2110 hrs one pl was seen to move into area 971347 and dig in.	
	24	0900	Bde Comd and BM attended preliminary conferences at Div HQ for OP ENTERPRISE which involved a crossing of the R ELBE.	
9526	25	1000 1700	Bde Comd held 'O' Gp at Bde HQ to give out his Outline Plan for OP ENTERPRISE. Issue of Outline Plan and Outline Adm Plan. Bde HQ moved to new location 909292.	See Appces D-11 and G2.
909292	26	1800	Bde Comd held further 'O' Gp at Bde HQ to discuss Outline Plan and Veh priorities. Issue Veh priority Tables.	See Appx D-12.
	27	1000	Bde Comd and BM attended co-ordinating conference at Div HQ. Original plan had now been changed and Bde Comd called another 'O' Gp for 2100 hrs and issued OO No 26. During the day 1 CDO Bde made unsuccessful attempts to persuade the enemy in LAUENBURG to surrender. During the night 2 GLAS H and 7 SEAFORTH were relieved by 15 (S) Recce Regt and conc in KARZE and HITTBERGEN ready for OP ENTERPRISE.	See Appx D-13.
	28	1000 2130	Issue of amendments and Addendum to OO No 26. Issue of Adm Order No 22. Bde Comd and IO reced site for Bde Tac HQ in BULLENDORF 8831. Bde Tac HQ was set up in BULLENDORF and comns est.	See Appx D-14. See Appx G-3.
	29	0200	OP ENTERPRISE started according to plan and 1 CDO Bde captured LAUENBURG against only slight enemy resistance. By 0345 hrs 7 SEAFORTH (under comd 1 CDO Bde) were all across. Inf of 9 CAMERONIANS and 2 GLAS H were across in their conc area by 0600 hrs. Some difficulty was experienced in finding a suitable landing place for vehs. At 0900 hrs therefore Bde Comd ordered 2 GLAS H and 9 CAMERONIANS inf to move to areas X rds 859369 and 870368 respectively and not to VAA to join vehs. Vehs would be guided up to them later and as soon as bns had minimum tpt for their tasks they would adv to carry them out. A landing site was eventually found at 870345 and owing to good work on the	

909292		0930	<p>part of Buffaloes a considerable number of vehs was across in a short time.</p> <p>Bde Comd and Tac HQ moved fwd and crossed the river to Bde HQ conc area at 868346.</p> <p>Good progress was made throughout the day. On the right 9 CAMERONIANS succeeded in capturing BASEDOW 8939 and on the left 2 GLAS H captured the important high ground HEID-B and HUNGER-B 8639. 7 SEAFORTH moved up to the wooded area astride the rd in area 8837 and Bde Tac HQ moved to 878364 which was to be the eventual location of Bde HQ.</p>	
878364	30	0500	<p>Bde HQ arrived at new location 878364.</p> <p>During the night enemy resistance on 9 CAMERONIANS front had stiffened considerably and at 0500 hrs the enemy put in a strong counter attack with a force estimated at one bn. Some enemy succeeded in penetrating to the SE edge of BASEDOW. This counter attack was eventually dealt with but it had succeeded in delaying the adv of 7 SEAFORTH.</p>	
878364		0630	<p>Bde Comd visited 9 CAMERONIANS to discuss the situation with the CO. There were still enemy in the woods at 893403 and 904404 and 7 SEAFORTH would not be able to adv until the enemy were cleared out. The enemy continued to be troublesome and shelled the 9 CAMERONIANS area fairly heavily. It looked as if the enemy were very determined and unlike in recent encounters he had become 'offensive-minded'. 9 CAMERONIANS however held firmly and inflicted by losses on the enemy.</p>	
		0930	<p>Div Comd arrived at Bde HQ with new plan. 15 (Brit) Inf Bde were to adv through 46 Bde and capture DALLDORF 9141 and ZUCKER HOLZ 8941.</p> <p>9 CAMERONIANS and 7 SEAFORTH would provide a firm base astride the rd in the area BASEDOW 8939.</p>	

		2000	<p>7 SEAFORTH were ordered to clear the enemy from the wood at 893403. 9 CAMERONIANS to patrol to wood 904404 and obtain all possible infm for 15 (Brit) Bde.</p> <p>2 GLAS H were to continue adv on LUTAU.</p> <p>By 1700 hrs 7 SEAFORTH had cleared the wood 893403 and occupied it with two coys. Offensive action by 9 CAMERONIANS against enemy in wood 904404 had produced 38 PW but it still could not be considered as clear.</p> <p>2 GLAS H made good progress and although encountering stiff opposition at first the enemy resistance seemed to melt suddenly and the village was captured by 1400 hrs. With 2 GLAS H in LUTAU and 9 CAMERONIANS and 7 SEAFORTH firmly astride main rd at 8939 ops for 46 (H) Inf Bde were called to a halt and orders were received that the Bde would conc next day in Div res in the area GULZOW 8342.</p> <p>At 1830 hrs 15 (Brit) Bde passed through 9 CAMERONIANS and 7 SEAFORTH and advanced on DALLDORF.</p> <p>Bde Comd visited 9 CAMERONIANS and 7 SEAFORTH and infm COs of future plans. There would be no move before 0900 hrs.</p>

BATTLE FOR BRIDGEHEAD  
OVER RIVER ODON

Monday, 26 June

Brigade group moved to concentration area near SECQUEVILLE-EN-BESSIN (9274) and arrived there 90 minutes before H hour which was 0730 hours.

The attack opened with a barrage of 624 guns, and although the promised air support did not materialise owing to the weather, 44 Brigade gained their objective -- ST MAUVIEU (9268) -- by 1130 hours and 46 Brigade were on their objective -- CHEUX (9167) -- by midday.

10 HLI and 2 GORDONS moved up for the second phase of the battle at 1830 hours.

The attack by 10 HLI was held up for one hour owing to congestion in CHEUX, and it was finally decided to put off the attack until first light next day because they could not reach their Start Line or make contact with the supporting tanks.

Some of the Squadron of tanks that were to support the 2 GORDONS' attack were also unable to get through CHEUX, and the 2 GORDONS attacked with only a few tanks at 1900 hours. They suffered heavy casualties through sniping and mortar fire and lost touch with their two leading companies which reached COLLEVILLE.

Battalion Headquarters was held up 800 yards NORTH of COLLEVILLE (9265) and reorganised during the night.

Tuesday, 27 June

10 HLI's attack was due to start at 0630 hours, but they had more difficulty in contacting their tanks.

10 HLI reached the Start Line only to find it covered with fire from MGs and Mortars. They suffered casualties and were unable to get forward; they were attacked by four Mk VI tanks in orchard SW of CHEUX (9065). At 0900 hours the Adjutant reported that the right hand company was encircled by tanks and cut off, and that a Mk VI had penetrated to within 150 yards of Battalion Headquarters. Later reported that this tank was knocked out, as well as the other four.

10 HLI attempted to push on and reach a point 300 yards from their Start Line, but they suffered casualties and were forced to withdraw to the Start Line, where they remained pinned down for the rest of the day. A tank battle was proceeding on the right in area LE HAUT DU BOSQUE (9066).

2 A & SH passed through the 2 GORDONS with TOURVILLE (9364) as their objective. After skirmishing in TOURVILLE 2 A & SH got astride the main road with two companies and formed a firm base.

2 A & SH ordered by Brigade Commander to push on and capture bridge 935635. This was captured intact at 1630 hours.

2 A & SH then dug in while elements of 11 Armoured Division crossed the bridge and 2 GORDONS made a firm base at TOURVILLE.

Wednesday, 28 June

During the day, 2 GLAS H, who had taken over at COLLEVILLE, were attacked from the EAST. To clear up this situation 10 HLI put in an attack on MOUEN (9365) at 1945 hours supported by a squadron of tanks.

On the left flank their leading elements reached their objective -- the road-railway bridge EAST of MOUEN 940657. The right leading company, however, was held up by two dug in tanks. Snipers in the orchards and MG fire from the tanks caused casualties.

The tanks were engaged by our armour and one was destroyed. Later 10 HLI accounted for the second tank. 10 HLI could advance no further and dug in for the night in a position a few hundred yards from their start line.

Bde Tac Headquarters moved to TOURVILLE in the 2 GORDONS area.

Tuesday, 29 June

At first light 10 HLI were withdrawn to COLLEVILLE to enable 43 DIV to carry out a successful attack in a Southerly direction.

2 A & SH pushed out patrols fwd to secure the bridge on OBAN route (915623). This bridge was captured intact.

The Bn followed up and took up an all round defensive position to North and South of river on the outskirts of GAVRUS (9161).

Enemy counter attacks were reported with tanks and infantry against 7 SEAFORTH at LE VALTRU (9163) and 9 CAMERONIANS at GRAINVILLE-SUR-ODON (9064).

An armoured battle took place all afternoon South of River ODON. The bridge over the ODON was now held by 159 Inf Bde and 2 A & SH, who repulsed several counter attacks during the course of the afternoon and evening.

2 GORDONS also repelled several small counter attacks during the day. During one of these and when enemy tanks were reported in the rear, the Bde Comd, who had been a favourite target for snipers and mortars throughout the operation, looked at his watch and remarked "It's time for tea". Tea was then taken.

In the evening, the Brigade Commander received orders from the GOC to place 10 HLI and 2 GORDONS under command 46 Brigade. Tactical Headquarters moved to COLLEVILLE beside 46 Brigade Tactical Headquarters.

Friday, 30 June

At 0200 hours a long Slidex message was received ordering 227 (H) Infantry Brigade to move to area GAVRUS - MISSY (8962) and to be clear of road bridge over ODON by 0230 hours. Brigade Commander decided to move at 0700 hours. Led by a section of carriers from 2 GORDONS, Tactical Headquarters headed column to bridge 935635.

It was reported that a few enemy tanks were active on the Southern bank of the ODON overlooking the road and at 0930 hours the Brigade Commander was recalled to meet the GOC at COLLEVILLE.

At 0930 hours 2 GORDONS were heavily mortared in an orchard off the road TOURVILLE - TOURMAUVILLE (9362). They suffered heavy casualties, among whom was the Brigade Major, Major J.A. LOCHORE, who was killed by a mortar bomb when on foot seeking to deploy the GORDONS from the road in order to avoid casualties.

At 0300 hrs 29 Armoured Brigade had been withdrawn across the ODon and the GOC decided to concentrate 2 GORDONS and 10 HLI at TOURVILLE and in wood SOUTH of MONDRAINVILLE respectively.

Brigade Tactical Headquarters then returned to COLLEVILLE and Battalions took up their positions as ordered. It was then decided to withdraw 2 A & SH into reserve at COLLEVILLE, but 2 A & SH were out of communication with Brigade, their wireless vehicle having been hit and for 12 hours they were cut off.

During this time the 2 A & SH were frequently attacked by enemy infantry who did not press home the attack and were held. Two troops of tanks were sent by the Brigade Commander to the Bridge SOUTH of LE VALTRU to extricate them. By first light next morning the majority of the Battalion had been withdrawn safely to COLLEVILLE. During the night the Brigade Tactical Headquarters, 2 GORDONS and 10 HLI were heavily mortared.

Saturday, 1 July

Mortaring and shelling continued throughout this day, during which arrangements were made for the relief of the Brigade by 158 Infantry Brigade. The relief was completed by 0400 hours, 2 July, and the Brigade were concentrated in reserve area NORREY-EN-BESSIN (9270) and BRETTEVILLE L'ORGUEILLEUSE (9272)

Total casualties for the whole action were 38 Officers and 661 Other Ranks, made up as follows:-

|----------------------|---|

BRETTEVILLE	14	0900	Bde Comd held a briefing conference for Coy Comds on Operation "Greenline"	Appx E
-do- VERSON -do-	15	0030 0400 2145	227 (H) Inf Bde moved to concentration area at VERSON 227 (H) Inf Bde concentrated in area VERSON Preceded by a hy barrage, and aided by artificial "moonlight", the Glas H, who had been placed under comd of the Bde for this op, left the start line NW of Pt 112. Early in the battle, the leading Coys lost touch with Bn HQ and the smoke programme interfered with the direction of the attack. Comd of 2 Glas H asked for the smoke to stop and this was done.	

		<p>At 2300 hrs LE BON REPOS, the first objective, was taken. At 2335 hrs 2 Glas H reported everything going to plan and at 2359 hrs ESQUAY was captured. Glas H then withdrew from ESQUAY according to plan and consolidated on the high ground on the East side of LE BON REPOS.</p> <p>At about 2320 hrs 2 Gordons and 2 A &amp; SH moved forward and 2 Gordons made contact with units of 44 (L) Inf Bde.</p> <p>Bde Tac HQ, which has been established at 1900 hrs in a field north of the Calvary at BARON, came under heavy mortar fire from 2130 hrs onwards, and at 0100 hrs four mortar bombs dropped on and around the White Scout car. Both wireless sets were knocked out and the Bde Comd was killed.</p>	
VERSON	16	<p>Infm of this was passed over the wireless through RA channels by OC 131 Fd Regt, RA, who took over comd of the Bde until the arrival of OC 2 Gordons, Lt Col EC Colville, who had been authorised by the GOC to take comd of the Bde.</p> <p>The death of Brig JR Macintosh-Walker was a great loss. His demeanour and presence forward in the battles were an inspiration to the troops under his comd. He was buried by two of his staff officers under mortar fire in the churchyard at BARON 942625 at 1400 hrs.</p> <p>The acting Bde Comd, Lt Col EC Colville moved Bde Tac HQ to 44 (L) Inf Bde HQ and a LO with wireless set went there and contact with Units was restored.</p> <p>In the meantime 2 Gordons had taken their objective and were instructed to dig in.</p> <p>Every effort was made to arrange timings for further advance of 2 A &amp; SH and HLI, but they proved unsuccessful owing to the inability of the tanks and infantry to tie up.</p> <p>The Bde Comd then ordered all four Bns to dig in where they were and to form a firm base.</p> <p>Many further attempts were made to plan and execute further attacks by 2 A &amp; SH and 10 HLI, but they proved unsuccessful. HLI</p>	

VERSON			<p>remained dug in supporting 2 Glas H to the SE of BARON and A &amp; SH remained dug in in the area LES VILAINS.</p> <p>Throughout the day, 2 Glas H were counter attacked repeatedly especially from the area of the rd LE BON REPOS - EVRECY. Although tanks supported the German attacks they were all repelled.</p> <p>In the later stages the Germans employed as many as six tanks, and the Gordons, thanks to some good shooting by 131 Fd Regt RA, destroyed five Mk IVs.</p> <p>During the night, a small force of German bombers attacked the forward areas and one stick of bombs fell in the Bde HQ area, but there were no casualties.</p>	
VERSON	17		<p>The position remained unchanged throughout the day until the night when the Bde gp, excl 2 Gordons, was relieved by 160 Bde at 2100 hrs. 227 Bde then moved to reserve areas around LE HAUTE DU BOSQUE.</p> <p>At about 0645 hrs the Bde Sig Offr, Captain N MacLean, with three signalmen, left Bde HQ to visit Bns with signal equipment. He left 2 Glas H about 0730 hrs and has not been heard of since. On investigation no sign could be found of the party or jeep in which they were travelling and it is thought that they took the wrong turning and drove into the enemy line.</p>	
CHEUX	18 -	23	<p>Authority was received from 21 Army Group for the promotion and appointment of Lt Col EC Colville to comd 227 (H) Inf Bde, and several other changes were made in the Staff. Captain I MacPherson-Rait (HLI) was appointed Staff Captain in place of Capt RD Spence (HAC) and Captain C Alexander (A &amp; SH) was appointed IO in place of Captain JN Watkins (Seaforth).</p> <p>The Bde remained in the reserve area until 23 July when they moved to the CAUMONT Sector (see att Move Order Appx "F") to relieve the 11 Regt of the 2 American Division.</p>	
CAUMONT	24		<p>The relief was completed by 2359 hrs, and the Bde dispositions were as follows:-</p> <p>10 HLI = CAUMONT</p> <p>2 A &amp; SH = LE REPAS</p> <p>2 Gordons = In area Pt 172 North of CAUMONT with a counter-attack role on CAUMONT.</p> <p>Bde HQ = Situated in the Gordons area.</p>	

CAUMONT	25 -	28	<p>The period from 25 - 28 Jul was devoted to patrolling on this front to find out the enemy dispositions and to keep them under complete subjection.</p> <p>This was the first time the Bde had had the opportunity of patrolling on a large scale, and changes in routine procedure and handling of patrols were effected as experience was gained.</p> <p>Most outstanding lesson learned was the inability to move large patrols through "Bocage" country. Patrol strength of one officer and three ORs was most suitable</p> <p>Due to vigorous patrolling and the arrival of deserters through our lines it was learned that the 326 Inf Div had relieved 2 Pz Div on 22 and 23 July.</p> <p>Shelling and mortaring during this period was intermittent and there were few casualties.</p>	
CAUMONT	28	-	<p>To take full advantage of the American successes in the ST LO Sector preparations were made for an attack by 15 (S) Inf Div on the CAUMONT Sector.</p> <p>44 (L) Inf Bde relieved 227 (H) Inf Bde, who moved into concentration areas on the night 28/29 July.</p> <p>On the night 29/30 July the Bde moved into assembly areas for the attack on the morning of 30 July.</p> <p>At approximately 1900 hrs 29 July LUTAIN WOOD was attacked by rocket firing Typhoons.</p> <p>The operation was carried out as laid down in attached Confirmatory Notes (Appx "G")</p> <p><u>PHASE I</u>:- 9 Cameronians on the right encountered a minefield between LE BOURG and SEPT VENTS which delayed the armour but did not prevent the infantry reaching their objective.</p> <p>On the left LUTAIN WOOD was the strongest enemy locality encountered during the op, but Phase I was completed by 1030 hrs.</p> <p><u>PHASE II</u>:- On the right 10 HLI dropped behind their tanks on the move forward; married up again, and soon reached their objective.</p>	

		<p>2 A &amp; SH on the left were far behind their tanks as the going was slow due to mopping up South of LA FORTERIE which took some time. Phase II was completed by 1500 hrs.</p> <p><u>PHASE III</u>:- This was carried out by 46 (H) Inf Bde and was completed by 1830 hrs.</p> <p>During the night 30/31 Jul all Bns were subjected to heavy mortar fire and 2 Gordons were still clearing LUTAIN WOOD.</p>	
CAUMONT	31	<p>Bde HQ moved to LA TEINTURIER (6955) at 1700 hrs. Due to the fact that 43 Inf Div on the left could make little progress, 6 RSF, of 44 (L) Inf Bde were put under comd of the Bde and took up positions South East of LUTAIN WOOD to protect the left flank of the Bde.</p> <p>The task of 15 (S) Inf Div, especially 227 Bde, now was to protect the left flank of 8 Corps while 11 Armd Div and the Guards Armd Div passed through to exploit the breach already made by 15 (S) Inf Div</p> <p>Strength States for Bde HQ, LAD and Def Pl are attached as Appx "H"</p>

-- DO --	10 -	13	This period was devoted entirely to patrolling, and aided by many Polish deserters, a clear picture of the enemy defences and strength was built up before the Division was relieved by 11 Armd Div.	
-- DO --	14		The Bde moved to a reserve area at MALTOT (South of CAEN), where they remained until AUG 17 when they moved to Divisional conc area at BOIS HALBOUT (0146).	APPX "E"

EMANVILLE	26		The Bde Gp pushed on to the SEINE and were concentrated around LOUVIERS R2299 by 1800 hrs ----- the 95 miles advance from PERTHVILLE NERS having been completed without a major incident. The Bde took up positions at LOUVIERS as follows:-  Bde HQ 215885 10 HLI LOUVIERS 2188 2 Gordons LOUVIERS 2188 (with one coy on the high ground 2 A & S H 1988. over the River EURE at 2489)

The only opposition they encountered was light MG fire and they lost only two ORs killed and ten wounded in reaching their objective, HERQUEVILLE (2993). 2 Gordons attempted to cross in assault boats in the area of VENABLES 3387, but they met heavy MG fire. In addition many of the boats capsized due to engine trouble, and <del>only ten men of the leading coy reached the opposite bank</del> they lost 25 killed, including 'D' Coy Commander, Major Tindall, and 25 wounded. Only ten men of the leading Coy reached the opposite bank and they were immediately taken prisoner. 10 HLI were then ordered to send a Platoon to intercept this column and release the prisoners. This was accomplished very quickly and without a fight. It was then decided that 2 Gordons should cross on 10 HLI's bridgehead. Place	Date	Hour	Summary of Events and Information	References to Appendices
MUIDS	1		At short notice 2 A & S H were placed under comd 53 (W) Inf Div and ordered to take over a bridgehead on the SOMME.	APPX "D" Folio 1
MUIDS	3		At 1100 hrs the Bde Gp, less 2 A & S H, moved to area LE TRONQUAY (5115), where they harboured for the night.	
LE TRONQUAY	4		The Bde moved to CRIQUIERS (6338)	
LE CRIQUIERS	5		The Bde Gp, less 2 Gordons marching personnel, crossed the R SOMME to BOUBERS-sur-CONCHE (0603), where 2 A & S H rejoined the Bde. A small party from Bde HQ stayed behind to make arrangements for TCVs to lift 2 Gordons.	
BOUBERS	7		<p>The Bde was now given the task of occupying COURTRAI (8558) and taking up defensive positions around the town.</p> <p>The shortage of TCVs made it impossible for 2 Gordons to be brought forward and 2 Glas H were placed under comd for this op, but at the last minute 2 Glas H were taken away to rejoin their own Bde, 46 (H) Inf Bde.</p> <p>When the Bde Gp reached a point four miles from MENIN, it was learned that the enemy were holding COURTRAI in strength. Consequently, the Bde was ordered to harbour for the night in an area East of COURTRAI.</p> <p>The Bde crossed the BELGIAN Frontier at 2100 hrs at MOUSCRON and harboured for the night in the BOSSUYT area (9547).</p> <p>The troops received a tremendous welcome from the civilians in the move fwd, but the enthusiasm shown by the people when the Bde column moved through TOURCOING and MOUSCRON was unparalleled.</p> <p>At times it was impossible for the convoy to move. The road was blocked by crowds of people who insisted on shaking hands with the troops and decorating the vehicles with flags and flowers.</p>	APPX "D" Folio 2
BOSSUYT	8		The role of 15 (S) Inf Div now was to stop any enemy movement from West to East by holding the COURTRAI - GHENT road. 227 (H) Inf Bde then started to advance to contact in the general direction GHENT,	

			<p>with 2 A &amp; S H leading, followed by 10 HLI with 2 Gordons coming up direct from BOUBERS.</p> <p>No enemy opposition was encountered, and after an uneventful advance the Bde Gp concentrated in area South of GHENT as follows:-</p> <p style="padding-left: 40px;">Bde HQ           - NAZARETH 0972  10 HLI           - LA PINT 1474  2 Gordons       - NAZARETH 0972  2 A &amp; S H       - MACHELEN 0271</p>	
NAZARETH	11		<p>After three uneventful days in this area, the Bde Gp was ordered forward to the HOMBEEK area (6874), North of BRUSSELS, where the Div concentrated for ops in the ALBERT CANAL area.</p>	
HOMBEEK	12		<p>The men were given a holiday, and many of them were able to spend a few hours in BRUSSELS.</p>	
HOMBEEK	13		<p>The Bde left to take over the bridge head established by 50 Div over the ALBERT CANAL at STEELEN (0786).</p> <p>During the move forward, however, the C-in-C, Fd Marshall Montgomery visited the Div Comd and gave <del>a change of plan</del> the news that the enemy was withdrawing from the ALBERT CANAL.</p> <p>This necessitated a change of plan, and 227 (H) Inf Bde was now ordered to push forward to the ESCAUT CANAL, with 10 HLI to occupy MOLL 1791 and 2 A &amp; S H to push through to the ESCAUT Canal At DONK 1695.</p> <p>This was completed by last light with little opposition, and the Bde concentrated as follows:-</p> <p style="padding-left: 40px;">BDE HQ       - MEERHOUT (1485)  10 HLI       - MOLL (1792)  2 Gordons - MEERHOUT (1485)  2 A &amp; S H - DONK (1695)</p>	
MEERHOUT  MEERHOUT	15		<p>The Bde Comd, Brig EC Colville, DSO, and other Offrs and Men of the Bde attended investiture held at HQ 15 (S) Inf Div, where he was presented with the DSO by Field Marshall Montgomery.</p> <p>During this time, 44 (L) Inf Bde had established a bridge head over the ESCAUT Canal, North of GHEEL (0888), and it was decided that 227 (H) Inf Bde should establish a second bridge head over the canal in the area West of DONK.</p> <p>The Bde Comd ordered 2 Gordons to cross first, and the crossing was to be done by means of barges and planks. 10 HLI were to follow and secure DESSCHEL (1697). 2 A &amp; S H would then cross and take up posns to the right of DESSCHEL, and 2 Gordons would occupy posns to the left of DESSCHEL.</p>	

MEERHOUT		-	<p>During the planning air photos revealed many errors on the map, and the position chosen for the bridge head actually entailed the crossing of two canals.</p> <p>However, the first Canal was blocked with barges and it was thought that it would not prove difficult to cross this first obstacle. At 2300 hrs it was finally decided that the op would start before first light 16 Sept.</p>	
MEERHOUT	16		<p>2 Gordons started to move forward at 0130 hrs and 227 Bde Tac HQ moved to the College at MOLL (1690) at 0300 hrs.</p> <p>C Coy, 2 Gordons leading Coy, began to cross the first Canal at 0315 hrs. Bargees, who were living on the barges, assisted the leading troops by placing sacks on the boats, and the leading Coy, together with a dismounted section from the Carrier Platoon, reached the 'Island' without incident. B and D Coys also reached the 'Island' without mishap, but dawn was now beginning to break and as the leading coy moved down to the lock, where they were going to cross the Canal by planks, they were seen and fired on by a MG post. This post was quickly silenced by Bren, mortar and PIAT fire, but the alarm had now been raised and the enemy brought down heavy fire, including 88s and mortars, on to the 'Island'.</p> <p>It was now daylight, and 2 Gordons were pinned to the ground by the weight of the enemy fire.</p> <p>At 1200 hrs it was decided to abandon the operation and 2 Gordons pulled back into ACHTERBOSCH (1592), leaving C Coy on the 'Island' to guard the southern bank of the canal.</p> <p>Despite the fierce enemy fire put down on them, the 2 Gordons casualties were light, four being killed, including one officer, and 12 wounded.</p> <p>It was now decided that 227 (H) Inf Bde should move to the area of GHEEL (0888) and extend 44 (L) Inf Bde's bridge head.</p> <p>Consequently, 10 HLI were moved to GHEEL at 1600 hrs and given the task of taping areas and start lines for an attack by 2 Gordons and 2 A &amp; S H to widen 44 Bde's bridge head on the night 17/18 Sept.</p>	
MOLL	17		<p>C Coy, 2 Gordons, was withdrawn from the 'Island' during the night, and 227 (H) Inf Bde, less 10 HLI, moved to the area North of GHEEL with dispositions as follows:-</p> <p style="text-align: center;">Bde HQ - 099903 10 HLI - 0888 2 Gordons - 0989</p>	APPX "D" Folio 3

		<p style="text-align: center;">2 A &amp; S H - 0789</p> <p>There was another change of plan, however, and 227 (H) Inf Bde were ordered to relieve 44 (L) Inf Bde in the bridge head during the nights 17/18 and 18/19 Sept.</p> <p>On completion of the relieve 227 Bde was to take offensive action and attempt to burst out of the bridge head while 44 (L) Inf Bde and 46 (H) Inf Bde covered the canal line.</p> <p>This change of plan was due to 15 (S) Inf Div being given the task of guarding the left flank of 53 (W) Inf Div.</p> <p>Although the enemy had the exact range of the crossing with his guns and mortars and frequently put down a concentration on the crossing, the first relief, 2 A &amp; S H taking over from 8 RS, was completed without incident.</p>	
GHEEL	18	<p>It was now decided that 2 Gordons would relieve 6 KOSBs in the bridge head to-night, and 10 HLI withdrawn into reserve in the GHEEL area.</p> <p>7 Seaforth, from 46 (H) Inf Bde, took over the task of guarding the Southern bank of the Canal from 10 HLI.</p> <p>The relief of 10 HLI by 7 Seaforth was completed by 1830 hrs. Due to heavy enemy artillery action, the relief of 6 KOSB by 2 Gordons was delayed from 2100 to 2000 hrs, but eventually the relief was completed by 0100 hrs without mishap.</p> <p>At last light, the enemy launched a counter attack of approx one Bn strength with two tanks against 2 A &amp; S H. The full weight of this attack fell on one platoon, but they fought magnificently and after reaching a point 50 yards from our forward positions the enemy fell back in disorder.</p>	
GHEEL	19	<p>After a day of constant shelling of the bridgehead the enemy launched another counter attack at last light, but this was not as strong and determined as the previous night and was quickly broken up.</p> <p>It was now decided that 10 HLI would relieve 6 RSF in the bridgehead to-night and this was carried out without incident.</p>	
GHEEL	20	<p>As the bridgehead had now served its purpose by containing large numbers of enemy troops and preventing any large scale enemy movement Eastwards towards the British Second Army 'Corridor' from EINDHOVEN to NIJMEGEN, it was decided to evacuate the bridgehead.</p> <p>The task of watching the Canal line was given to 7 Armd Div and 227 (H) Inf Bde was placed under comd of 7 Armd Div.</p>	

			<p>It was arranged to evacuate the bridgehead during the night, and due to good planning this particularly tricky operation, which started at 2215 hours, was completed by midnight without the loss of a single man.</p>	
GHEEL	21		<p>The Bde now concentrated in and to the South of GHEEL, except 10 HLI who were given the task of watching the Canal crossing and preventing any enemy infiltration across the Canal.</p> <p>The Bde was now dispositioned as follows:-</p> <p style="padding-left: 40px;">Bde HQ - 101865 10 HLI - 084939 2 Gordons - 091892 2 A &amp; S H - 092859</p>	
GHEEL	22		<p>The Bde, less 10 HLI, rejoined 15 (S) Inf Div, and was ordered to concentrate in area WILHELMINA CANAL (3825) prior to attacking BEST (3726).</p> <p>10 HLI remained under comd of 7 Armd Div.</p> <p>The Bde moved at 1330 hrs, and after crossing the DUTCH Frontier in BORKEL area (3799) at 1700 hrs, harboured for the night at VELDHOVEN (3714), as follows:-</p> <p style="padding-left: 40px;">Bde HQ - 375144 2 Gordons - 373148 2 A &amp; S H - 379146</p>	APPX "D" Folio 4
VELDHOVEN	23		<p>The Bde moved at 0930 hrs to area of WILHELMINA CANAL (3825), and concentrated North of EINDHOVEN as follows:-</p> <p style="padding-left: 40px;">Bde HQ - 418201 2 Gordons - 423204 2 A &amp; S H - 405223</p> <p>At 1500 hrs the Army Comd, Lt Gen Dempsey, visited Bde HQ and informed the Bde Comd that 227 (H) Inf Bde was being placed under Army comd and would be used in ops in conjunction with either 15 (S) Inf Div or 50 (N) Div.</p> <p>10 HLI left 7 Armd Div and rejoined the Bde w.e.f. 1800 hrs. They arrived at EINDHOVEN at 2200 hrs and were located at 421198.</p>	APPX "D" Folio 5
EINDHOVEN	24		<p>Plans were made and re-made during the day until finally at 1700 hrs it was decided that 227 (H) Inf Bde would rejoin 15 (S) Inf Div and carry out mopping up operations in the area of BEST (3726), West and North of the Railway.</p> <p>The Bde Comd held an O Gp at 2100 hrs and gave his plan, as detailed in 227 (H) Inf Bde Op Instr No. 6</p>	APPX "D" Folio 6

EINDHOVEN	25		<p>Prior to the attack Bde HQ moved fwd to ACHT 393232.</p> <p>2 Gordons began the attack at 1000 hrs, and although they encountered heavy mortar and MG fire from well sited weapon pits, they got two coys astride the railway line.</p> <p>At this juncture the Divisional Comd visited Bde HQ and informed the Bde Comd that another change in plan had been made, and 227 (H) Inf Bde were now to advance towards LIEMDE (3632)</p> <p>2 Gordons, who had suffered heavy casualties, were told to halt and return.</p> <p>The advance on LIEMDE was to be made by 10 HLI on the right and 2 A &amp; S H on the left.</p>	APPX 'D' Folios 7 & 8
<p>ACHT</p> <p>ACHT</p>	26		<p>Starting at 0700 hrs, good progress was made by both 10 HLI and 2 A &amp; S H until they reached the woods north and West of DONDERDONK (3930).</p> <p>The enemy had strong dug in positions along the wood and air support was asked for to enable the advance to proceed.</p> <p>Rocket firing Typhoons attacked the wood, and although more than 80 prisoners were taken the enemy held the woods too strongly for the advance to continue.</p> <p>The Bde then took up defensive positions as shown on the attached trace with Bde HQ at 395289.</p>	
DE VLEUT	27 -	30	<p>During the next four days vigorous patrolling was carried out by the Bde, and in addition to taking many prisoners a detailed enemy order of battle was built up.</p> <p>During Sept 28 a propaganda effort, backed up by rocket firing Typhoons, was tried against the enemy from 10 HLI area.</p> <p>This was successful, and brought many deserters and PW. One patrol from 2 A &amp; S H consisting of two men brought in 40 PW.</p> <p>All PW during interrogation said that they were tired of fighting and were only waiting for a chance to surrender.</p> <p>Nevertheless, the enemy mortars and arty were active but caused few casualties.</p> <p>During the afternoon of 29 Sept, enemy arty and mortars got the range of Bde HQ and the HQ was moved to 407292.</p>

1 - 4	VLEUT	227 (H) Inf Bde was relieved by units of 51 (H) Inf Div during this period and by 4 OCT was concentrated in the reserve area of BAKEL (6125) - MILHEEZE (6424) - DEURNE (6520). The relief was completed without incident and on the afternoon of 3 Oct Bde HQ moved to BAKEL (612248).	Appx D Folios 1 & 2
4 - 18	BAKEL	<p>The Bde Comd directed that during rest period Bns should concentrate on house clearing and that in view of the number of personnel from other arms being transferred to the infantry a permanent Bde training wing should be started by Maj GH Hutcheson (2 Gordons). In addition, Bns also carried out training with armd troop carriers.</p> <p>Although termed a "rest" area, the ground in front of the Bde area was only thinly held by units of 11 Armd Div and 7 US Armd Div, and on the night 7/8 Oct enemy patrols laid mines on the main road between MILHEEZE (10 HLI area) and DEURNE (2 Gordons area) at 652227 and on several tracks North East of MILHEEZE. Following this incident Bns were ordered to send out patrols along the road during darkness. On 8 Oct, however, more US units moved into the area they were discontinued.</p> <p>Lt Gen Sir Richard O'Connor, Comd 8 Corps, visited Bde HQ during the afternoon of 7 Oct and Lt.Gen Sir Miles Dempsey, Comd Second Army, during the morning of 10 Oct. Senior officers of the Bde were introduced on both occasions.</p> <p>Two operations were planned for the Bde during this period, but were cancelled at the last minute. Finally on 18 Oct it was decided that the Bde would return to the ST OEDENRODE (4232) - BEST (3926) area and relieve two Bdes of 51 (H) Inf Div.</p>	Appx D Folio 3
19	BAKEL	<p>In addition to the usual Bde Gping, 15 (S) Recce Regt and 9 Cameronians were placed under comd of the Bde.</p> <p>The Bde moved during the morning and the relief was completed by first light 20 Oct.</p> <p>The Bde HQ moved into its previous location at VLEUT (403289) and the remainder of the Gp was disposed as shown on the attached trace.</p>	Appx J Folio 1

20 - 24	VLEUT	<p>A vigorous patrolling policy was adopted and together with previous patrol results provided an excellent enemy picture. The attached enemy defence plan was produced by Bde HQ on 22 Oct.</p> <p>On 22 Oct 51 (H) Inf Div launched an attack on the enemy positions to the North East of the Bde front, and it was decided that when 51 Div captured ESCH (3037) and BOXTEL (3234), 227 Bde would clear the wooded area of LIEMPDE (3632) to the line of the BOXTEL - BEST railway.</p> <p>For this operation, 6 RSF, 6 KOSB and 6 Gds Tk Bde, less 3 SG, were also placed under comd of the Bde.</p> <p>So successful was the advance of 51 Div that it was thought the enemy may have been forced to pull back on the Bde front. Patrols during the night 23/24 Oct, however, stated that the enemy was still in position. Further patrols were sent out at first light and they found that the enemy had vacated his FDLs. Civilian reports also stated that the enemy was withdrawing on the Bde front, and at 1200 hrs it was decided to put the operation into motion but with only the normal three Bn gping.</p> <p>The advance met with only isolated pockets of resistance, and although mines and booby traps caused some trouble and a few casualties all Bns were dug in along the line of the BEST - BOXTEL railway by last light.</p> <p>During the afternoon, civilians entering BEST from the NAASTEBEST area stated that the enemy was also withdrawing from this sector in the direction of OIRSCHOT. Later in the day, three deserters walked into the 9 Cameronians lines. They said they were part of a rear guard left at OIRSCHOT and had walked all the way to BEST without seeing a German.</p> <p>Recce patrols were immediately sent along the BEST - OIRSCHOT road, and after overcoming trouble with mines reached OIRSCHOT which they reported clear.</p>	<p>Appx J Folio 2</p> <p>Appx D Folio 8</p>
25	VLEUT	<p>Continuing the advance the Bde moved into the area around OIRSCHOT (3125) and on 26 Oct pushed forward again to the area of MORGESTEL (2330) where the Bde concentrated prior to attacking TILBURG.</p>	Appx D 9 & 10
27	MORGESTEL	<p>Moving behind 44 (L) Inf Bde, 227 (H) Inf Bde were to clear the West half of TILBURG as shown on attached Op Instr No. 11</p> <p>44 Bde met with fierce resistance on the Southern outskirts of the Town, but after breaking through this crust they advanced quickly and entered the Town at 1430 hrs. The advance of 227 Bde was held up by bad traffic congestion and a broken bridge. However, the Bde Comd went forward to push the column on and 2 Gordons entered the Town on armd troop carriers soon after 1700 hrs, closely followed by 10 HLI and 2 A &amp; S H. Although a few snipers had been left in the town, the greatest obstacle to the Bns advance was provided by the cheering crowds blocking the roads.</p> <p>Due to heavy traffic, Bde HQ did not move into TILBURG until the following morning.</p>	Appx D Folio 11

28	TILBURG	<p>Soon after arriving in TILBURG, the Bde was placed under two hours notice to move to the ASTEN (6113) Sector, where 7 US Armd Div was being hard pressed by fierce enemy attacks over the DEURNE Canal.</p> <p>The Bde eventually left for ASTEN at 1700 hrs and arrived in the ASTEN area at 2300 hrs.</p> <p>The position on the arrival of the Bde was that the enemy had built three bridges across the DEURNE Canal and had succeeded in getting tanks and SP guns across and driven the Americans out of MEIJEL (7106).</p>	
29	ASTEN	<p>During the morning the enemy retook the villages of SLOT (6613), LIESEL (6614) and advanced six miles up the MEIJEL - ASTEN road.</p> <p><del>The American Comd decided that he would use two of the Bde's Bns to counter attack along the ASTEN - MEIJEL road in an attempt to restore the situation. This decision, however, was overridden and</del> It was decided that with the arrival of 15 (S) Inf Div in the area during the day, the Division would take over the whole sector from the Americans.</p> <p>This relief was started during the night 29/30 Oct and despite two nuisance raids by enemy bombers was successfully completed before first light. The Bde was disposed as shown on attached trace</p>	Appx J Folio 3
30	ASTEN	<p>When the enemy continued his advance at first light, he met with such fierce resistance that he quickly withdrew leaving many dead and wounded, and during the day lost one officer and 43 ORs as prisoners.</p> <p>From that time, the enemy lost the initiative, and with strong arty support and active patrolling the Bde dominated the front.</p>

1	ASTEN	2 A & S H carried out a raid on an enemy post at 649077. Bad going made Tk support ineffective and the enemy put down such a fierce concentration of mortar and arty fire that it was decided to return. One tk had to be left but this was recovered the next day. Lt Gen Sir R O'Connor, Comd 8 Corps, visited Bde HQ.	
2	ASTEN	During the morning 10 HLI and 2 Gordons made local attacks to conform with the advance made by 44 and 46 Bdes. Apart from mines and booby traps both Bns advanced unopposed and took their lines forward a mile.	
3 - 5	ASTEN	Apart from occasional shelling, the next three days were very quiet on the Bde front, and on 4 Nov 2 A & S H were withdrawn to rest at ASTEN.	
6	ASTEN	During the morning the Bde Comd visited tps of 7 US Armd Div at NEDERWEERT, where it was proposed that 227 Bde would take over from Combat Comd 'A'. 6 RSF took over from 10 HLI and 2 Gordons, who were withdrawn to rest at ASTEN and HELMOND. During the night six enemy aircraft strafed the Bde area. There was no damage or cas and two flares which failed to ignite dropped on Bde HQ.	
7	ASTEN	2 A & S H moved to area PLAT VELD (6804) during the afternoon and came under comd 152 Inf Bde, of 51 Inf Div, w.e.f. 0600 hrs 8 Nov; 51 Div having relieved 7 US Armd Div.	
8	ASTEN	The Bde relieved 44 Bde. Bde HQ moved to LIESEL at 1500 hrs, and the relief was completed without incident. Great difficulty was caused by the vast numbers of Schu mines laid throughout the area. Even the enemy experienced trouble with his own mines, and several of them were blown up by their own mines.	
9	LIESEL	During the day the Div Comd and the Bde Comd visited Bns, including 2 A & S H.	
10	LIESEL	44 Bde relieved the Bde, Bde HQ returning to ASTEN, 10 HLI to ASTEN and 2 Gordons to HELMOND.	
11 - 13	ASTEN	The next three days were very quiet, and on 13 Nov 2 Gordons relieved 2 A & S H at PLAT VELD.	
14	ASTEN	During the night civilians reported that the enemy was withdrawing, and plans were made for 10 HLI to advance into MEIJEL (7106) at first light. A patrol of pl strength was sent into the town immediately.	

15	ASTEN	<p>10 HLI moved into MEIJEL at first light and they entered the town without meeting any opposition. Extensive mining and booby traps made progress very slow and caused a few cas.</p> <p>Bde HQ moved to HEUSDEN (636105) during the afternoon.</p>	
16	HEUSDEN	<p>Apart from active patrolling there was little to report during the day.</p> <p>Lt Gen Sir R O'Connor, Comd 8 Corps, visited Bde HQ.</p>	
17	HEUSDEN	<p>2 Gordons returned to rest at HELMOND and 2 A &amp; S H moved from HELMOND to LANGSTRAAT 710041, just South of the HLI, with one coy across the NORD Canal protecting the bridge at 710041.</p> <p>Throughout this period the Bde had dominated the enemy by vigorous patrolling and secured a clear picture of the enemy's dispositions.</p>	
18	HEUSDEN	<p>During the day, 10 HLI and 2 A &amp; S H edged forward towards the canal. 10 HLI moved one coy to the canal at 727066 and 2 A &amp; S H pushed a coy forward to a feature dominating the canal at 720048.</p>	
19	HEUSDEN	<p>During the night there were indications that the enemy was pulling out from the Canal line and one coy 10 HLI crossed the canal without being opposed. They made contact with 5 Seaforth, of 51 Inf Div, who had advanced along the road from BERINGEN 7406 without encountering any enemy but they reported mines and rd blocks.</p> <p>Class 40 br was started immediately and by night 10 HLI were concentrated in BERINGEN.</p>	
20	HEUSDEN	<p>The Bde Gp, less 10 HLI, moved across the Canal, with 2 Gordons leading. 2 Gordons advanced to a point about three miles North of BERINGEN, where they harboured for the night, with 2 A &amp; S H immediately behind them. During the day's operations 2 Gordons took 41 PW.</p> <p>2 Gordons sent out patrols but they contacted the enemy in str and withdrew.</p> <p>Bde HQ moved to North of BERINGEN at 752062.</p>	
21	BERINGEN	<p>Two coys from 2 A &amp; S H attempted to outflank the enemy opposition reported by 2 Gordons patrol, but ran into mines, and as 2 Gordons were not making good progress along the main axis 2 A &amp; S H recalled their two coys and followed immediately behind the Gordons.</p> <p>Blown br at 764085 held up the advance and it was decided that the two Bns should concentrate in this area for the night.</p>	
22	BERINGEN	<p>The Bde moved forward in general direction of SEVENUM 8113. Little opposition was met, but in addition to the mines and road blocks, the operation was made very hazardous by the bad weather, continuous rain having made the roads and tracks little better than quagmires. Despite the extremely bad conditions by last light 2 Gordons had occupied VOORSTE-STEEG 8013 with 10 HLI and 2 A &amp; S H in the area of VOORST 8112 and 8113.</p>	

		<p>Bde HQ was est at VOORSTE-STEEG 803129.</p> <p>Despite the difficult going, few vehicles were lost and the advance of the Bde was highly praised by the Corps Comd.</p> <p>During the night and early morning 88 SP guns shelled the Bde HQ area, but there was no damage or cas.</p>	
23	VOORSTE-STEEG	<p>The Bde HQ advanced to capture HORST 8218. 10 HLI led the advance and apart from mines, rd blocks and craters entered the town shortly before mid-day without encountering any opposition. By 1500 hrs the Bde was concentrated in HORST.</p> <p>Continuous rain had made the main axis impassable and 131 Fd Regt RA was unable to advance in sp of the Bde.</p> <p>This was felt very keenly at night when the Bde HQ was twice shelled by SP guns, setting an amn truck on fire and wounding three ORs.</p>	
24	HORST	<p>Bns spent the day patrolling, and the shelling of the town decreased. The Corps Comd, Lt Gen Sir Richard O'Connor, visited Bde HQ during the morning.</p> <p>Although the rds to HORST were still difficult to hy traffic 131 Fd Regt were able to move forward and arrived at HORST during the afternoon.</p> <p>During the day, First Lt John B Hoggs, Jun, American Air Force pilot, who had been shot down six weeks previously and had evaded capture by acting as a deaf mute, came into Bde HQ, and was able to supply infm about the local defences.</p>	
25	HORST	<p>The Bde Gp continued the advance to TEINRAIJ 8523. Apart from mines, rd blocks and hy shelling, opposition on the ground was light and by the afternoon 2 Gordons had occupied SWOLGEN 8722, 2 A &amp; S H TIENRAIJ and 10 HLI EIKELENBOSCH 8521, with Bde HQ north of HORST at 828188.</p>	
26	HORST	<p>The HLI and Gordons edged forward again, the HLI reaching the outskirts of BLITTERSWIJK 8727 on the West Bank of the River MAAS and the Gordons reached DE HEI 8922 and the outskirts of BROEKHUIZENVOORT 9023. 2 A &amp; S H remained in the area of TIENRAIJ except for one coy which was moved onto the feature at GUN 8724.</p>	
27	HORST	<p>During the night 10 HLI moved into BLITTERSWIJK which they occupied after a sharp fight.</p> <p>2 Gordons sent a fighting patrol into BROEKHUIZEN, but were held up by mines. 2 Gordons, however, had already occupied posns overlooking the river and the Bn OP did good work in directing arty fire on the ferry.</p> <p>During the morning Bde HQ moved to EIKELENBOSCH 855213.</p>	
28	EIKELENBOSCH	<p>Plans for the relief of the Bde were now put into operation. By 2345 hrs the relief of 10 HLI by RUR of 3 Inf Div had been completed, and Bde HQ, 10 HLI and 2 A &amp; S H moved to rest at ASTEN.</p>	
29	ASTEN	<p>2 Gordons were relieved by 159 Inf Bde, of 11 Armd Div, and also moved to ASTEN to rest.</p>	

30	ASTEN	<p data-bbox="533 161 1715 240">Lt Gen Sir Richard O'Connor, comd 8 Corps, visited Bde HQ at 1100 hrs to say farewell to senior offrs of the Bde on relinquishing his comd as Corps Comd.</p> <p data-bbox="533 280 1715 360">Great praise is due to 20 Fd Coy RE for their magnificent work during the month in clearing countless minefields and maintaining roads in very bad conditions.</p>

FOR THE MONTH OF

Unit: HQ 227 (H) Inf Bde

Comd Offr: Brig EC Colville, DSO

D E C E M B E R 4 4

Between December 1-8 the Brigade, concentrated in ASTEN (6213), continued training. Brigade and Divisional conferences were held to discuss the policy of holding a line of the River MAAS (See Folio 1, Appx D).

On December 3 the Massed Pipes and Drums of the Brigade played in the town square and the Burgomaster had tea at Brigade HQ.

On December 7 the Brigade relieved Bns of 158 and 160 Bdes, of 53 Div, on a line from the Derivation Canal (7998) to North of BAARLO (8705), which was later extended on the left as far as 875080.

Throughout the month two Bns were in the line; one Bn in reserve at EGCHHEL (772037) and Bde HQ at HELDEN (793037). Reliefs were carried out as shown in Folio 6 Appx D.

The problem of observing the entire river line and covering it by fire was not an easy one and on a few occasions enemy patrols crossed the river.

On the night 11/12 Dec, 10 HLI had two skirmishes with the enemy. First a section going to its night position was ambushed at 861029. One member of the patrol was wounded and one enemy was taken prisoner, but was too seriously wounded to be interrogated. Later another patrol bumped the enemy on the road leading due east from BAARLO. One man of 10 HLI was killed and one wounded.

Three enemy patrols were seen during the night 17/18 Dec; a small one at 852024 and three enemy at wood 841015 were seen by 10 HLI and a strong patrol of 14 at 806980 by 2 Gordons. In each case the patrols were engaged by small arms fire and followed up by a fighting patrol, but no contact was made. Patrol which crossed at 806980 immediately went back across the river in a motor boat and were engaged by mortars.

On the night 21/22 a rubber boat with a crew of three crossed at 836008 and was shot up by a Gordons post. One of the crew swam to the river bank and was taken prisoner. Soon afterwards three enemy, who had been lying up all day on the West bank, came down to the river bank expecting to be taken back across the river and were captured. Much useful information was obtained from these prisoners of 7 and 15 coys of Para Regt HARDEGG (See Folio 16 Appx F).

By day excellent OPs were established by Inf and RA and a great deal of information was obtained (See Folios 1-15 Appx F).

In general, the enemy had every advantage in establishing OPs as the ground on the East bank overlooks that on the West, but he took little advantage of this, and it is interesting to note that the prisoners taken by 2 Gordons were

sent on recce because it was thought that there were few troops in this sector as very little movement had been observed.

An exercise to test communications and observation from OPs was held on 23 Dec (See Folios 1-3 Appx J)

The Comd-in-Chief, Field Marshall Sir Bernard L Montgomery, KCB, DSO, presented medal ribbons to men of the Division at ZOMERON School (591112) on 13 Dec, when seven officers, including Lt Col RWM de Winton, CO of 2 Gordons, and seven ORs of the Brigade received awards.

After the presentation, the Bde Comd, BM and DAA and QMG attended an address given by the C-in-C to senior officers.

At Christmas the best was made of difficult circumstances and each Bn in turn had a good dinner when out of the line. Messages of good wishes were received from the Divisional and Corps Commanders (See Folio 4 Appx J).

Month and Year JANUARY 1945

Commanding Officer Brig EC Colville, DSO

Place	Date	Hour	Summary of Events and Information	References to Appendices
HELDEN	1	-	<p>The enemy opened the New Year with a well planned raid on 10 HLI outpost on the bank of the R MAAS at 828999. Starting at 0230 hrs a box barrage was put down around the post and then the position was attacked by at least 12 enemy. Four HLI men were missing after the raid, presumably PW.</p> <p>The Commanding Officer visited the area at 0030 hrs when all was quiet. At 0230 hrs the outpost reported being fired on from the West bank of the river. Section of the rear platoon was immediately ordered forward by the Coy Comd, but on approaching the post they came under fire from each flank of the position and were pinned down. The reserve platoon of 2 A &amp; S H, under comd 10 HLI, were then sent forward but on reaching the post found no trace of the enemy except a stick grenade.</p> <p>No one was seen to cross or recross the river in the vicinity of the outpost although this part of the river was under observation the whole time. It was thought that the enemy must have been lying up on the West bank of the river.</p> <p>During the morning there was considerable enemy air activity over the Div Front and of the 30 enemy planes seen five were shot down and two more damaged by AA fire.</p> <p>At 1715 hrs the enemy put down 50 shells in 15 minutes on the HELDEN (7804) area. No damage or casualties were caused by the shelling except 2 Gordons had one three-ton vehicle damaged.</p>	
HELDEN	2-20	-	<p>Then followed a quiet period, with heavy snow storms proving the worst enemy.</p> <p>As the Bde area had not been thoroughly searched by the units previously in this sector, it was arranged that members of the Interior Military Forces of the Netherlands should be given this task, and on 9 Jan they swept the woods in the area but found no trace of the enemy.</p>	APPX 'J' Folio 5

This spell of quietness was enlivened by a mock crossing of the river staged by 2 A & S H, who launched a boat from the slipway in KESSEL (8200) at 2057 hrs on 11 Jan. There was only slight reaction from enemy guns and mortars, but the enemy appeared to 'Stand To' all night and there was considerable MG fire.

Comd 8 Corps, Lt Gen EH Barker, CB, CBE, DSO, MC, visited the Bde area on 14 Jan and went round Coy areas. He also visited several OPs. One OP in the Kessel area was hit by mortar bombs half an hour before the Corps Comd arrived there. Lt Gen Barker had lunch at Bde HQ before leaving the area.

Later in the day the Bde Comd left for HQ 15 (S) Inf Div to take over comd of the Division while the Div Comd was absent on leave. Lt Col HP Mackley, OBE, OC 10 HLI, arrived at Bde HQ to assume comd of the Bde.

COs Conference was held at Bde HQ at 1000 hrs 15 Jan to discuss the relief of the Bde by 1 SS Bde and plans for training.

A small party of RAF pilots and air gunners paid a two-day visit to the fwd bns, 10 HLI and 2 Gordons, from 16-17 Jan to see how the infantry live in the line. On their return they gave a very appreciative account of their visit.

On 17 Jan Brig EC Colville, DSO left for leave to ENGLAND.

The Bde was relieved by 1 SS Bde on 20 Jan, 6 Cdo relieving 10 HLI at BAARLO (8604) and 45 (Marine) Cdo relieving 2 Gordons at KESSEL. The relief was completed without incident, and the Bde then moved to the SEVENUM (8114) area to relieve 44 (L) Inf Bde. 2 Gordons relieved 6 RSF in BLERICK (9009) and 2 A & S H relieved 6 KOSB North of BLERICK in area (8912), 10 HLI being in reserve at MAASBREE (8207).

During the Bde's stay in the BAARLO- KESSEL sector, a fairly comprehensive picture of the enemy 'layout' on the East bank of the River was built up due to the excellent reports from OPs.

The Bde spent only six days in the BLERICK Sector before being relieved by 6 Air Landing Bde of 6 Airborne Division on 26 Jan.

Month and Year FEBRUARY 1945

Commanding Officer Brig EC Colville, DSO

Place	Date	Hour	Summary of Events and Information	References to Appendices
GOIRLE	1		<p>Planning for OP "Veritable", which had started soon after the Bde's arrival at GOIRLE (1527), was in full progress, and an outline of events at the end of January was as follows:-</p> <p><u>Jan 28</u> The Acting Bde Comd, Lt Col HP Mackley, OBE, 10 HLI, carried out a recce from OPs in the KAMP (7656) and GROSSBEEK (7555) area and selected FAA and Start Line.</p> <p><u>Jan 29</u> The Acting Bde Comd gave outline plan to Comds of Bns and Sp Arms. The Bde Comd returned from leave in the evening</p> <p><u>Jan 30</u> The Bde Comd and Lt Col Mackley went to the OPs North West of GROSSBEEK</p> <p><u>Jan 31</u> A cloth model discussion on "The Attack on a Strongly Fortified Position" was held, followed by the Bde Comd's first "O" Group</p> <p>During this period, conc areas in NIJMEGEN (7082) and routes forward to the FAA were recced. Routes presented a serious problem as the roads were very narrow and tree-lined and a complete thaw at the end of January, made the going, which had previously been extremely hard, very soft. In addition, another problem arose over the many minefields between the FAA and Start Line; but Cdn troops on the ground undertook to lift these prior to "D" Day.</p>	Exact details of time and place of these conferences are shown in Appx "D", Folios 1 & 5
GOIRLE	2		The Bde Comd's Briefing Conference took place at Main Div HQ at 1400 hrs, after which Bn Comds' Briefing Conferences were held. An excellent model was used.	
GOIRLE	3		Unit recce parties moved to NIJMEGEN	

GOIRLE	4		All Officers of the Div attended briefing by Corps Comd and Div Comd in TILBURG (1632) at 1100 hrs	
GOIRLE	5		The Bde Gp moved from GOIRLE to NIJMEGEN in accordance with Movement Order No. 19. In several places the bottom fell out of the road, and the last vehicles did not get in until after first light on 6 Feb	Appx "D", Folio 12
NIJMEGEN	6		The Bde Comd held his final "O" Gp at 1000 hrs and then made recce with Bn Comds	
NIJMEGEN	7		<p>The weather continued to be wet and it was questionable whether the operation could be carried out with full tank &amp; "Funny" support; but after trials had been carried out, the plan remained unchanged. However, it was decided that the inf and their "F" vehicles should move in front of the tanks and "Funnies" from the conc area to the FAA to reduce the possibility of a bogged vehicle delaying the whole column</p> <p>While Coy and Platoon Comds were making their recces, there was slight activity by enemy aircraft in the GROSSBEEK area.</p> <p>At 1830 hrs Tac Bde HQ moved down SKYE Route to HUIZE RHATIA (752566) and arrived in time to see the bombing of CLEVE (8955) and EMMERICH (9660). By 2359 hrs the Defence Platoon was dug in and the Comd Post established in a cellar. <del>This HQ, which was shared with a Bn HQ of the Cdn HLI, was surrounded by MGs Mortars and A Tk guns employed on "Pepper-Potting" and was 600 yards in front of the gun area</del></p>	
NIJMEGEN	8		<p>The Fire Plan was carried out as in Op Order No. 5, and there was only very slight enemy reaction. <del>The noise was deafening and most reassuring.</del></p> <p>Despite all difficulties Bns reached their FAAs on time and 2 A &amp; S H crossed the Start Line early and were well up behind the barrage having crossed our own A Tk minefield west of the KAMP-WYLER road.</p> <p>All Flails were bogged and first casualties were suffered getting through the enemy A Per and A Tk minefields East of this road; but the tanks had soon made a way for the inf</p> <p>The going was extremely bad, our Bde axis, SKYE Route, almost non-existent, and several vehicles were bogged. In spite of the going and the water-filled A Tk ditch West of the town, 10 HLI entered KRANENBURG (8056) as planned. Fewer demolitions had been carried out than was expected and the tanks entered the town via the main road.</p> <p>Both Bns reached their objectives on time. There was heavy mortar fire and shelling from the high ground in the REICHSWALD area.</p>	Appx "D", Folio 9

			<p>SKYE Route was quite impassable and Bde Tac HQ moved up to KRANENBURG at 1800 hrs on 46 Bde axis, AYR, and were established at 801558 by 2000 hrs.</p>	
KRANENBURG	9		<p>2 Gordons moved forward from KAMP during the night via the WYLER-KRANENBURG road which had not been cleared and encountered many obstacles.</p> <p>Under comd 44 Bde they breached the SIEGFRIED LINE at first light, taking up positions in the NUTTERDEN (8455) area</p> <p>During the afternoon 10 HLI moved forward and took up positions at 846552 on the right of 2 Gordons.</p> <p>At about 2015 hrs a heavy gun scored a direct hit on 2 Gordons Comd Post. The Sp Coy Comd, Signal Offr and nine ORs were killed, the Int Offr and two ORs wounded.</p> <p>Main Bde HQ joined Tac HQ in the evening.</p>	
KRANENBURG	10		<p>There were many changes of plan, but finally the Bde was ordered to clear the roads to allow 43 Div to pass through, as little opposition was expected in CLEVE.</p> <p>In the afternoon 2 Gordons took up positions just West of the TIERGARTEN at 854559 and 2 A &amp; S H relieved two Bns of 44 Bde on the MATERBORN feature, area 870546, to allow them to assist in the clearing of CLEVE.</p> <p>Tac Bde HQ left at 0830 hrs for NUTTERDEN and took over 2 Gordons HQ at 838557. Main Bde HQ joined at 1500 hrs.</p>	
NUTTERDEN	11		<p>10 HLI followed by 2 Gordons moved down the DONSRUGGEN-CLEVE road and by last light were engaged in clearing the North of the town, where 2 Gordons succeeded in gaining a bridgehead over the canal at 901557.</p> <p>Bde HQ moved to DONSRUGGEN and was established at 856573.</p>	
DONSRUGGEN	12		<p>The Bde was now pinched out of the battle. 10 HLI and 2 Gordons remained in CLEVE and 2 A &amp; S H moved to DONSRUGGEN.</p> <p>The Bde stayed in this area until February 19, during which time several operations were planned; but did not take place.</p> <p>The floods which had hitherto been contained by the road and railway embankments on our left flank began to spread and it was <del>only</del> with difficulty that the Bde A2 Ech vehicles were extricated from KRANENBURG.</p> <p>The road at this point became passable only to DUKWS and "Weasels", which were engaged in bringing up supplies and evacuating casualties and prisoners.</p>	
DONSRUGGEN	14		<p>Several jet propelled aircraft flew over the area and bombed CLEVE</p>	
DONSRUGGEN	15		<p>Field Marshal Montgomery visited Bde HQ at 1230 hrs.</p>	

			<p>10 HLI were placed under comd 46 Bde and advanced down the road to CALCAR, and by first light were within a mile of MOYLAND (9651) and had taken 80 prisoners. Thereafter the Bn captured the high ground South West of the village against very heavy opposition and beat off counter attacks supported by SPs.</p>	
DONSBRUGGEN	19		<p>The Bde Group, less 10 HLI, moved to PFALZDORF (9147), and Bde HQ was established at 917473.</p> <p>The Bde column was shelled when travelling through CLEVE, but there were no casualties.</p> <p>10 HLI were relieved at night and went to rest area in CLEVE.</p> <p>2 Glas H were placed under command of the Bde.</p> <p>An operation was planned and an "O" Group held at 1400 hrs for the capture of BUCHHOLT (9543), SCHLOSS CALBECK (9443) and the high ground in between.</p> <p>2 A &amp; S H, on the left, were to capture BUCHHOLT, 2 Gordons SCHLOSS CALDBECK and 2 Glas H, on a narrow front, were to push through in the centre. The Start Line was approximately the line of the GOCH-CALCAR road.</p> <p>The tanks of the Coldstream Gds were placed in support for this operation and Kangaroos were allotted to the Bde.</p> <p>At the same time, 4 Som LI, in order to conform with the Bde's attack, were to secure HALVENBOOM (9645).</p>	
PFALZDORF	20		<p>The first Bn, 2 A &amp; S H, crossed the Start Line at 1100 hrs and secured their objective by 1300 hrs. 2 Gordons were on their objective by 1530 hrs and 2 Glas H by 1700 hrs.</p> <p>4 Som LI, of 214 Bde, 43 Div, conformed by capturing HALVENBOOM by 1330 hrs.</p> <p>Initially, enemy opposition was fairly light, except from snipers, and almost 300 prisoners were taken, but all Bns, particularly 2 Gordons, encountered heavy and concentrated arty and mortar fire once on their objectives.</p> <p>In addition there were a few casualties from mines of all types.</p> <p>During the night SCHLOSS CALBECK was subjected to particularly heavy arty fire; one shelrep sent at midnight reported 200 shells.</p>	
PFALZDORF	21		<p>6 RSF came under command of the Bde and were ordered to make a bridgehead and clear the woods South of the bridge at 941421. The attack went in at 2000 hrs and by 2030 hrs had reached their objective. Fierce counter attacks were immediately launched against them and it was decided to withdraw into a tight bridgehead</p> <p>Bde Tac HQ was established at 933445.</p> <p>During the night enemy aircraft bombed the area and several sticks fell close to Bde HQ.</p>	

PFALZDORF	22	<p>10 HLI reverted to under command of the Bde and relieved 2 Glas H, who reverted under command 46 Bde.</p> <p>46 Bde attacked through the Bde, and one coy of 2 Gordons with tk sp attacked along the railway to capture the area of the farms SCHLUBECKSHOF and PLEESENHOF (9442). The coy was counter-attacked immediately after reaching its objective and another coy with tank support had to be put in to restore the situation</p>	
PFALZDORF	23	<p>During the night the Coldstream Guards, of 5 Gds Bde, Gds Armd Div, relieved 2 A &amp; S H.</p> <p>10 HLI sent out a fighting patrol to the farm of HERRING-SCHENHOF (9643), where they <del>patrol secured</del> captured 12 prisoners.</p>	
PFALZDORF	24	<p>9 Inf Bde, of 3 Brit Div, moved into the area to relieve the Bde, less 2 A &amp; S H.</p> <p>At 2130 hrs fire broke out in the farm at Bde HQ. The farm was burned out, but there were no casualties and all vehicles parked in the area were quickly driven to safety.</p>	
PFALZDORF	25	<p>The relief of the Bns was completed by 0600 hrs, and Bde HQ moved at 0730 hrs to rest in TILBURG, where they arrived at 1500 hrs.</p> <p>Throughout Op 'Veritable' over 1000 prisoners were taken by the Bde. The magnificent sp of 3 Scots Guards played a great part in this achievement.</p>

REKUM	13	-	Final arrangements were made for exercise Buffalo.	
REKUM	14	-	Exercise Buffalo took place. The exercise was not tactical and was designed to practice staffs and bank unit personnel and accustom Bns to working with LVTs. H hour was 1230 and the first wave of the assault was excellent, but the second wave was too far behind and it was decided that they should go almost one behind the other. The ferrying of vehs was far too slow and this situation was not improved when LVTs, drifting down stream, broke the ferry cables. Air Marshal Tedder, Gen Dempsey and Gen Ritchie watched the exercise.	

REKUM	15	-	<p>Exercise Buffalo was repeated, but this time H hour was at 0400 on the 16th. The movement lights were too far back and as the morning was very foggy the assault took place in total darkness. With the exception of one LVT which lost direction and landed on the near bank, driving was excellent, and the first wave had all landed by 0404 hrs.</p> <p>Move of the reserve Bn was very slow as the shear pins in many of the storm boats broke after the first coy had been landed. Movement of vehs was speeded up considerably.</p> <p>The Corps Comd visited Tac Bde HQ during the exercise after which the Bde Comd attended a co-ordinating conference on Op Torchlight.</p>	
REKUM	17	-	Detailed recce of the op marshalling area was carried out	Appx D, Folio 8

MARIENBAUM	23	-	During the evening and night, control organisations were set up and Tac Bde HQ was established at 088449 at 2000 hrs.	
	24	-	<p>At 0200 hrs the first LVTs went into the water and thereafter one wave followed another very quickly. There were almost no casualties in crossing the river itself. 2 A &amp; S H after clearing HUBSCH 0947 pushed north along the bund and were soon in the area 100494. 10 HLI met stiff opposition and when daylight came were caught on the very open ground between WOLFFSKATH 1146 and OVERKAMP 1147. Bn HQ was in contact for some time to the right of WOLFFSKATH and were fortunate in being able to make their way back to the cover of the bund.</p> <p>The central area of the bund 1046 and the farm buildings 1047 were still occupied by the enemy at daylight and one coy of 2 Gordons was placed under comd of 2 A &amp; S H and had cleared this area by 1200 hrs.</p> <p>At last light 10 HLI were in OVERKAMP, REE 1147 and the outskirts of MEHR 1248.</p> <p>During the night 2 Gordons relieved 2 A &amp; S H who were placed under command 46 Bde. 46 Bde had pushed through on the right to occupy MEHR and HAFFEN.</p> <p>Enemy on the Bde front were fanatical paratroops and they put up very stubborn resistance.</p>	
	25	-	Tac Bde HQ crossed the river at 1800 hrs and was established at 116476 by 1830 hrs.	

REE	26	-	<p>During the day 2 Gordons pushed North along the bund in area of WAYERHOF 106498 and on their left contacted patrols of 1 Gordons of 51 Div.</p> <p>During the night the Bde was ordered to relieve 9 Cameronians and 7 Seaforth of 46 Bde, and (with two Bns under comd) to take over the area between the Rhine at 0949 to the wood at 1349.</p> <p>10 HLI took over positions in MEHR and HAFFEN with posts at WISSHOF 120504 and surrounding farms. 2 Gordons re-adjusted their positions to maintain contact with them.</p>	
REE	27	-	Bde positions remained unchanged but both Bns patrolled forward to the area of the wood 1352	
REE	28	-	<p>Prior to clearing the large wood South East of HALDERN 1253 227 Bde concentrated in the area of 137494 to 147495, and 9 Cameronians came under comd in place of 2 A &amp; S H who remained under comd 46 Bde.</p> <p>At 0900 hrs 46 Bde started to clear the wooded areas in squares 1552, 1452 and 1453. They met little opposition and took 70 PWs, mainly of 22 Para Regt.</p> <p>Bde HQ moved to 144496 by 1100 hrs. Bde Comd with OC 131 Fd Regt visited CRA for arty co-ordinating conference at 0900 hrs.</p> <p>H hour was decided for 1400 hrs. The weather did not permit Typhoons to attack the wood prior to the attack.</p> <p>The Bde attacked with 2 Gordons on the left and 10 HLI on the right. Little or no opposition was encountered, but heavy mining and booby traps were found on most of the roads, particularly at the north end of the wood.</p> <p>Few PWs were taken on our front, and one when interrogated said they had been told to hold out in that area to the last but had withdrawn. SP bays, searchlights and a vacated Bde HQ were found.</p> <p>The Bde took up positions on the North and West sides of the wood. There was no contact with the enemy. Bns were ordered to take as much rest as possible and to hold the line with minimum troops.</p>	
	29	-	<p>2 A &amp; S H reverted under command of the Bde and 9 Cameronians returned to 46 Bde.</p> <p>Bde conference was held at 1000 hrs to <del>confirm</del> discuss policy of rest while in this area.</p>

Unit HQ 227 (H) Inf Bde

Month and Year APRIL 1945

Commanding Officer Brig EC Colville, DSO

Place	Date	Hour	Summary of Events and Information	References to Appendices
HALDERN	1	-	The Bde Gp was resting in the HALDERN (1253) area	
HALDERN	2	-	Bde Comd and OC 2 Gordons attended the funeral of Maj Gen TG Rennie, GOC 51 (H) Inf Bde.	
HALDERN	3	-	The Bde Gp was ordered to move to concentration area south of the DORTMUND-EMS Canal opposite IBBUREN (9010) with the intention of relieving 155 Inf Bde in their bridgehead. Harbour parties under DAAQMG left in the morning and the Bde Comd left at midday to contact 52 (L) Inf Div at HEEK (6595). However, there was a change of plan. 15 Div was to come under comd 8 Corps with the general intention of following 11 Armd Div and clearing up behind them. Bde Gp was to concentrate in the area GREVEN (9188) but meanwhile the Bde Comd and harbour parties established themselves at HEEK for the night, and the Bde Gp moved there the following morning.	
HEEK	4	-	The Bde Gp harbour parties left HEEK at 0400 hrs for the GREVEN (9188) area, but a further change of plan involved concentrating in the EMSDETTEN (8597) area and to the South of the town. The Bde Gp left at approx 0900 hrs and arrived in the EMSDETTEN area at 1700 hrs. The plan for the following day was the clearing of the woods between LENGERICH (0898) and OSNABRUCK on a two Bn front, 10 HLI right and 2 Gordons left.	
EMSDETTEN	5	-	Bns moved off on TCVs at 0700 hrs. 2 A & S H were left with the residue of the two clearing Bns to be picked up when TCVs became available. Only a few enemy stragglers were encountered and at the end of the day the Bde Gp concentrated in the area of NAHRENDORF (0613) when Bde HQ at 086105. - 2 Gordons found a French Sjt who showed them where a few Germans were intending to hold out with arms and ammunition hidden in a house and where the local Gauleiter lived. Both parties were rounded up successfully.	

NAHRENDORF	6	-	Bde Comd attended an 'O' Gp at Div HQ at 1030 hrs and received orders for the Bde Gp to concentrate in the area BOHNHORST 7326 and WAKMSEN 7529. All Bde Gp vehicles and supporting arms moved at 1800 hrs, but marching personnel had to wait the arrival of TCVs from 46 Bde the following morning. Bde HQ was est that night in BOHNHORST at 760290.	
BOHNHORST	7-9	-	The Bde Gp remained in the Bohnhorst area for the next three days and during this period cleared all the woods in the area taking many prisoners.	
BOHNHORST	10	-	The Bde Gp left Bohnhorst to concentrate in the area WUNSDORF (1527) prior to continuing the advance to the ELBE. Bde HQ arrived at 1800 hrs but the arrival of the Bns was delayed due to bad roads.	
WUNSDORF	11	-	Bde Gp left at 0700 hrs to advance to CELLE (5951). Opposition was very patchy, but 20 Fd Coy RE had one bulldozer knocked out by bazooka fire when filling in a crater. By last light leading troops of 10 HLI were less than two miles from CELLE, but it was decided to wait until the following morning before going into the town. The column spent the night on the road.	
	12	-	By first light 10 HLI entered the town and although all bridges in the town were blown, 10 HLI managed to get two coys over the railway bridge which was passable to foot traffic. - 2 Gordons then rushed a coy to the southern outskirts of the town to seize a light wooden bridge which had been reported intact. This was accomplished and, although the bridge eventually collapsed, most of the Bn had reached the far bank of the river. 2 A & S H also got across the river successfully and pushed out two or three miles from Celle before nightfall. The REs worked hard on building a class 40 bridge in the centre of the town and completed it by 2000 hrs. Bde HQ crossed at 2005 hrs and was est on the East bank.	
CELLE	13 and	14	SEE SPECIAL ACCOUNT ATTACHED	
HOLDENSTEDT	15		At 0300 hrs the Bde attack on UELZEN began. 10 HLI, left, were to take the suburbs of VEERSSEN (8888) and the wood to the south of it at 8887. 2 Gordons, right, moving on the main HOLDESNSTEDT - UELZEN road were to clear as much of the town as possible and seize the bridge over the river ILMENAU, while two coys of 2 A & S H crossed the river in the area 899869 and secure the high ground on the East bank overlooking the town. The opposition was strong and fanatical troops, some of which had recently come from DENMARK, supported by SP guns, and almost all armed with bazookas, put up very stubborn resistance.	

			<p>10 HLI soon reached their objectives, but there were still many pockets of enemy to be mopped up and at least two SP guns in the area.</p> <p>The leading tank with 2 Gordons was hit by a bazooka on the edge of the town, where there was a strong point near the main road, and while the tank was burning, it was impossible to move forward without being silhouetted.</p> <p>2 A &amp; S H had great difficulty in getting their boats through the woods West of the river and the crossing was considerably delayed. By first light, however, the coys were dug in at 904875 and 904873.</p> <p>At first light the Bde Comd visited OC 2 Gordons and spoke to OC 10 HLI. At 0730 hrs the GOC came to see the Bde Comd and it was decided that the Bde should consolidate and not attempt to go further.</p>	
HOLDENSTEDT	16		<p>The Bns remained in position and sent recce parties to prepare billets for the Bns coming out during the night. The Bde was relieved that night by 46 Bde and the relief took place without incident. The Bns then concentrated as follows: 10 HLI and 2 A &amp; S H in HOLDENSTEDT and 2 Gordons at BORNE 8883.</p> <p>During the afternoon Capt. N. McLean, who was Bde Signal Officer until being captured at BARON in Normandy in July, visited Bde HQ for tea after his camp near BRUNSWICK had been overrun by the Americans.</p>	
HOLDENSTEDT	17		<p>44 Bde after capturing several villages to the East of Uelzen reached the town East of the river. During the evening and night 46 Bde cleared the town from which the enemy had withdrawn as 11 Armd Div and 6 AB Div had almost linked up on the main road to the North of it.</p>	
HOLDENSTEDT	18		<p>At first light the Bde Gp, with 2 A &amp; S H leading, advanced through Uelzen, and moving via BIENENBUTTEL (8408), had by mid-day reached the area of VASTORF (8815). As 2 A &amp; S H leading vehicles were moving out of Uelzen they were strafed by enemy aircraft, but had no casualties. The Gp prepared to harbour in VASTORF, but GSO 1 brought orders for the concentration of the Gp in the area SCHARNEBECK (8525) from which all bridges over the NEETZE Canal were to be guarded. By 1600 hrs the Bde Gp was in this area and had contacted units of 29 Armd Bde. 2 A &amp; S H pushed on to HITTBERGEN (9031) and 2 Gordons to LUDERSBERG (9828).</p>	
SCHARNEBECK	19	-	<p>The Bde Comd met the Div Comd at HQ 1 Cdo Bde at 0930 hrs. 2 Gordons moved to BARUM (7831), 10 HLI to LUDERSHAUSEN (8131) and</p>	

			<p>Bde HQ to BRIETLINGEN (8029). It was not possible to move fighting vehicles forward of Barum and Ludershausen as the bridges over the many small streams and "Sees" were blown. Sappers worked hard under intermittent fire from 88 mms to build the bridge at 823323. However, coys of 2 Gordons pushed on to BUTLINGEN (7834) and a coy of 10 HLI to farm buildings 8233, where they made contact with an enemy patrol from ARTLENBURG (8334), where the enemy was still defending a bridgehead. An attack by 10 HLI, supported by artillery, started at midnight and by first light the following morning Artlenburg and AVONDORF (8135) had been cleared and approximately 150 prisoners taken. 2 A &amp; S H patrolled into HOHNSTORF (8733).</p>	
BRIETLINGEN	20	-	<p>Bns established OPs and manned them until April 28, during which time a picture of the enemy defences was obtained which was later of value to 44 and 1 Cdo Bdes. In addition several line crossers provided an enemy order of battle.</p> <p>The entire Bde area was very flat and exposed, particularly as it was overlooked by high ground along the North bank of the Elbe. For three days there was intermittent shelling in the forward villages, but this had stopped almost completely by the 25th.</p>	
BRIETLINGEN	27	-	<p>The Bde Comd attended final co-ordinating conference at Div for operation ENTERPRISE (crossing of the Elbe)</p>	
BRIETLINGEN	28	-	<p>Bde Comd held his final conference at Bde HQ at 1000 hrs and at 1100 hrs briefed all officers of the Bde.</p> <p>Bde Tac HQ left at 2200 hrs for AVONDORF (8135), and was established close to the river without incident.</p>	
AVONDORF	29	-	<p>At 0200 hrs Operation Enterprise started, and 44 Bde very quickly established a bridgehead at 8335. Opposition was fairly light and shelling was moderate due to the fact that the enemy began to withdraw his guns into reserve positions immediately the operation began. 44 Bde soon made contact with 1 Cdo Bde who crossed West of LAUENBURG (8734), and at 0930 hrs 10 HLI started to cross and were followed by 2 Gordons.</p> <p>The operation went exactly as planned (see Appx 'D', Folio 4) and approximately 900 prisoners were taken.</p> <p>Immediately the enemy had readjusted his gun positions, the bottle neck at 840350 was constantly shelled and there were several casualties. 2 A &amp; S H, while under comd 44 Bde but not committed, were particularly unlucky, receiving several direct hits while concentrated in the quarry at 831354.</p> <p>Very stiff opposition was met by 2 Gordons in TESPERSHUDE (8037), but by last light all Bns had consolidated on their objectives ---</p>	

AVONDORF			<p>- 10 HLI holding HASENTHAL (7940) and the high ground to the West, 2 Gordons in Tesperhude and the railway buildings at 7837 and leading troops of 2 A &amp; S H holding the line of the track running South from GRUNJAGER (7839).</p> <p>LO 2, who was control duty near the crossing site, was almost buried when a bomb exploded ten yards away from his trench wrecking his jeep. There was constant air activity over the bridgehead.</p> <p>- 2 Gordons captured two swimmers ("Frogmen") who were making a recce of the bridge sites.</p>	
AVONDORF	30	-	<p>Bde Tac HQ moved across the river via the Class 9 bridge at LAUENBURG (8734) and by 1100 hrs were established in GRUNHOF (803382). Main Bde HQ moved across the Class 40 bridge at ARTLENBURG (8334) and joined Tac HQ at 1900 hrs.</p> <p>The Bde Comd crossed the river at 0800 hrs and visited Bns</p> <p>In the afternoon 2 Gordons were ordered to move to HAMWARDE (7843). 10 HLI patrolled into this village from WIERSHOP (8041) and had reported opposition, but a sudden display of white flags was investigated and the village was occupied by 2 Gordons without a fight. 2 A &amp; S H then readjusted their positions to fill in the gap created by the move of 2 Gordons. 10 HLI had to maintain a guard on a large camp for Russian workers at 794400.</p> <p>Shelling of the bridgehead still continued to be heavy and 2 Gordons were unlucky in losing all their cooking utensils when the cooks trucks were hit during the afternoon. However, the DAAQMG quickly mustered a complete set of cooking stores from units in the Bde Gp and 2 Gordons were able to have a cooked meal that night.</p>	

The Advance of 227 (H) Inf Bde Gp from Celle to Uelzen  
13/14 Apr 45

By midnight of April 12th 1945 227 (H) Inf Bde Group were firmly in occupation of Celle on the R ALLER, and a Class 40 bridge had been completed in the centre of the town.

The Brigadier at an 'O' Group earlier in the evening had issued orders for the advance to be continued with all speed to Uelzen, the leading battalion to leave Celle at 0800 hrs on Friday 13th April. Refuelling and replenishment of supplies went on during the night and at 0800 hrs 10 HLI left the town with their coys riding on the Churchills of 3 Scots Guards. Following them came the Brigadier's Tac HQ with the COs of 2 GORDONS, 2 A & S H, 3 SG, 131 Fd Regt RA and 20 Fd Coy RE, and the remainder of the Brigade Group extending along 7 miles of road.

The advance continued without incident until 10 HLI were within a few miles of ESCHEDE, 10 miles NORTH EAST of Celle, where a blown bridge caused a halt while recce parties were sent out to find an alternative route. Within half an hour the column was on the move again by a route which made a detour to the South East returning into ESCHEDE from the South. During the whole of this time small parties of prisoners, mainly youths from disorganised GAF units, were brought in and sent marching down the column to the rear.

Friday the 13th seemed to be living up to form however and a few miles further on 10 HLI were brought to a halt by a 20 foot wide crater across the road in a swampy area where a detour was impossible. To add to the difficulty two SP guns and some small arms were covering the crater, causing some delay until they were dealt with. The SP guns retired down the road, and it was thought that they were covering a mobile demolition group operating from one to two miles ahead of our leading troops.

When the opposition had been silenced, the Scots Guards laid a tank bridge over the crater and the advance was resumed, but only for a mile or so. When the leading tanks of 10 HLI were a mile short of the village of Weyhausen they reported yet another crater, the largest yet, which would in the opinion of the OC 20 Fd Coy require a 40 foot Bailey bridge. This crater was too under small arms and bazooka fire, and one RA halftrack was hit by a bazooka, but only slightly damaged. After some time a time-bomb exploded in the road near the crater, destroying one RE Vehicle and causing eleven casualties to the RE recce party which had come forward up the column. Further investigation showed eight more of these time-bombs, so the area was taped off and a deviation to the North was reced.

It was now 1800 hrs and the rate of advance had averaged two miles an hour, when the column set off again through a thick forest to the North of the main road to try to re-enter the main road at Weyhausen. Just as it was beginning to grow dark and the HLI were approaching the village from the North the inevitable happened - another huge crater was reported. In addition, during the previous two hours, ominous explosions had been heard further along the main road, indicating that more craters lay ahead.

The Brigadier went forward to see the CO of 10 HLI and at 2100 hrs ordered as much of the column as possible to move up and park in a ride in the forest which fortunately could accommodate three lines of vehicles and was nearly a mile long, and with the vehicles nose to tail in this ride, petrol and food was brought up.

Orders were given out that at 0100 hrs the column would resume the advance along a track running North East through the forest almost parallel with the main road two miles away.

The night was black, but searchlights had been brought up to the edge of the forest, and gave invaluable light on an enterprise which without them would have been extremely difficult. As it was, the column set off at 0100 hrs, and having left Friday the 13th behind, very quickly proceeded to leave the forest behind too. The leading vehicles kept up a cracking speed and the rest of the column kept pace, along a track which in daylight would have been considered third class. The vehicles rumbled through the forest with branches whipping the faces of the vehicles commanders as they peered forward through the thick cloud of dust to try to catch a glimpse of the vehicles in front.

By now the light of the searchlights was left behind and with no vehicle showing any lights the fact that the column kept up and lost very few vehicles points to a very high standard of driving in all the drivers taking part.

The HLI "had their whips out" now, and tore straight through the villages of Hesserungen, Suderburg and Holxen, shooting up one enemy staff car and various other vehicles en route. The majority of the enemy in these villages however were still in their beds as the tanks rumbled through, and were too confused and bewildered to do anything but surrender when the dawn came.

At 0530 hrs on the 14th 10 HLI had reached the southern outskirts of Uelzen and had bumped into stiff opposition, and the tanks in Brigade Tac HQ were having a short encounter with a small party of enemy in Holdenstedt, two miles to the South. Further to the south in the villages along the route dazed prisoners were being collected by the unit which happened to be on the spot. In one instance a party of three from the Field Regt collected instead of the eggs they went out for, several dozen prisoners. The total bag for the whole night was approximately eight hundred.

The opposition in the south and south western outskirts of Uelzen was strong and 2 GORDONS and 2 A & S H were brought forward to attack. Some ground was gained and the 2 A & S H made some progress to the North East, crossing a stream and establishing two coy positions on our right flank. As all three battalions by now were very tired, having been on the move in all for four days, with only two short night rests, the positions gained were consolidated, and eventually the Brigade Group was relieved by 46 (H) Inf Bde for a well earned rest.

Month and Year MAY, 1945

Commanding Officer Brig EC Colville, DSO

Place	Date	Hour	Summary of Events and Information	References to Appendices
GRUNHOF			<p>On May Day the projected 8 Corps bridgehead had been secured, had in many places been expanded, and from it the 11th Armoured Division had broken out towards the Baltic.</p> <p>The Bde occupied the following positions:-</p> <p style="padding-left: 40px;">10 HLI               - WORTH (7744)  2 Gordons           - HAMWARDE (7843)  2 A &amp; S H           - Area 7839  Bde HQ               - GRUNHOF (7938)</p> <p>When Bde HQ arrived in GRUNHOF on 30 April, the telephone system was still operating and the Dutch interpreter answered calls from both GEESTHACHT (7540) and HAMBURG.</p> <p>At mid-day General Barker, GOC 8 Corps, came to see the Bde Comd and discuss the further enlargement of the bridgehead and before he left suggested that negotiations be opened on the 'phone with the Burgomaster of GEESTHACHT, whose number was soon acquired from the local authorities.</p> <p>At 1500 hrs the interpreter passed the following message:-</p> <p style="padding-left: 40px;">"It is not the wish of the Allied Military Commander of this District to destroy GEESTHACHT, but this will be inevitable unless the town is surrendered by 2000 hrs to-night. A similar warning was given to the German Commander of LAUENBURG. It was unheeded and the town is now utterly destroyed and many soldiers and civilians have been killed or wounded. You must contact your local military commander at once and I shall ring up in one hour for your answer."</p> <p>When the interpreter rang up one hour later, he was informed by the Chief of Police that the Burgomaster was still at the Military</p>	

		<p>Commander's HQ, and asked if we would ring back in three quarters of an hour.</p> <p>The Burgomaster had still not returned three quarters of an hour later, so the Chief of Police was informed that if a decision had not been reached in 15 minutes time, negotiations would be broken off.</p> <p>At the end of the 15 minutes, the interpreter rang again, and this time the Burgomaster had returned. He said he was sorry that although the civilians and soldiers were agreeable, the Military Commander would not agree to the surrender of the town. The Burgomaster, however, pleaded that we should spare the town as it was full of hospitals and evacuees, and asked if he could come and talk the matter over.</p> <p>This ended the negotiations and the telephone system was then put out of order.</p> <p>Meanwhile, during the afternoon a civilian in GRUNHOF had given the information that there was 170,000 tons of V2 explosive stored in GEESTHACHT.</p>	
GRUNHOF	1	<p>At 0300 hrs a Major, Lieut and the manager of the explosive factory at GEESTHACHT came through 2 A &amp; S H lines carrying a white flag and were brought to Bde HQ</p> <p>On arrival at Bde HQ they said they had come to make arrangements for the surrender of their town. The Bde Comd informed them of his terms which included the withdrawal of all German troops from the town by 1200 hrs and the provision of police to guide our troops into the area.</p> <p>The Germans were then conducted back to their own lines, and a further meeting was arranged to take place at the x roads at 778390 at 1000 hrs to confirm the terms.</p> <p>At 1000 hrs the German officers together with the Burgomaster returned, and it was agreed that the police of GEESTHACHT would guide our troops into the area at 1400 hrs.</p>	
GRUNHOF			

		<p>2 A &amp; S H and 1/5 Welch, of 159 Bde, who were under comd the Bde, entered the area without incident, and occupied the high ground to the North of the town.</p> <p>In the evening the town was bombed by enemy planes but no damage or casualties were caused.</p> <p>An outline "O" Gp held at 1930 hrs is as follows:-</p> <p>15 (S) Inf Div was to protect the left flank of the 11th Armoured Division.</p> <p>227 Bde, supported by one sqn Coldm Gds and two tps 15 Recce Regt, would advance at 0800 hrs tomorrow on two axis. 10 HLI, 2 Gordons and Bde HQ right, 2 A &amp; S H left.</p> <p>On the right, the leading Bn, 10 HLI, would clear HOHENHORN (7445), KROPPELSHAGEN (7147) and occupy the area NEU BORSEN (6946). On the left 2 A &amp; S H would clear the buildings in square 7344, ESCHBURG (7144) and occupy BORNSEN (6945).</p>	
GRUNHOF	2	<p>10 HLI met stiff opposition in HOHENHORN (7445), which was defended by Marine troops supported by 20 mm SPs. Approx 150 PW were taken and the Bn pushed through the wood west of the village on a narrow front and cleared FAHRENDORF (7146) and KROPPELSHAGEN of Wehrmacht troops.</p> <p>2 Gordons then swept through the wood on a wide front.</p> <p>Meanwhile 2 A &amp; S H were making good progress along their axis when at 1100 hrs a German Major, who had conducted the surrender of GEESTHACHT, and a Lieut came through their lines, and the Bde Comd went to 2 A &amp; S H Bn HQ to meet them.</p> <p>They said they had come to make arrangements for their Commander to meet our Commander.</p> <p>A meeting place was arranged, and they returned early in the afternoon with a Colonel who told the Bde Comd that he had come to make arrangements for Field Marshal Busch, C-in-C North Germany, to meet our Commander. The Colonel also asked if "Cease Fire" could not be put into force on this sector, but the Bde Comd told him that our advance would continue.</p>	

		<p>The Divisional Commander then came forward and took the Colonel back to Corps HQ, where arrangements were made to receive Field Marshal Busch through the lines of 2 A &amp; S H at 0700 hrs the following morning.</p> <p>Throughout OC 2 A &amp; S H was in the unenviable position of trying to fight a battle.</p> <p>Meanwhile the Bde Gp had made good progress and by 1800 hrs Bde HQ was at 715467, 10 HLI west of KROPPELSRAGEN and 2 Gordons in FAHRENDORF, with 2 A &amp; S H at BORNSSEN (6945).</p> <p>Two carriers of 2 A &amp; S H were hit by bazookas on their final objective.</p> <p>At 2030 hrs the Burgomaster and Chief of Police of BERGEDORF (6447) came through the 2 A &amp; S H lines and were sent to Bde HQ, where they told the Bde Comd that they wished to surrender the area of BERGEDORF. The Bde Comd, however, insisted that the ground to be surrendered should include all the country to the North of BERGEDORF up to and including the Autobahn. They said they could not do this as the area North of BERGEDORF was not under their control, but they agreed to go back and return with a military representative to arrange for the surrender of this area.</p>	
FAHRENDORF	3	<p>They returned through 2 A &amp; S H lines at 0330 hrs but without a military representative. They explained to the Bde Comd that they had not been able to contact the military governor due to communications having broken down. They guaranteed that there would be no opposition in their area, and thought that it was unlikely there would be any fighting in the area to the North of the town.</p> <p>The Bde Comd then said he would order his troops not to fire on BERGEDORF, and that a local "No Firing" order was in force until 0700 hrs due to the expected arrival of Field Marshal Busch.</p> <p>The Burgomaster and Chief of Police remained at Bde HQ</p> <p>The expected arrival Field Marshal Busch through the lines of 2 A &amp; S H at 0700 hrs did not materialise. Instead a German Major presented himself and said that Admiral Doenitz's representatives had gone direct to 21 Army Gp HQ.</p>	

			During the afternoon, 10 HLI moved to WITZHAVE (7255), 2 Gordons and Bde HQ to KASSEBURG (7856) and 2 A & S H to ROTHENBEK (7655). This was carried out without incident.

Bde HQ was est at 667663, with 10 HLI and 2 A &amp; S H in AHRENSBURG and 2 Gordons at Gr HANSDORF (6866).</p> <p>At 2200 hrs the news was received that the German Army facing 21 Army Gp had surrendered unconditionally and that all fighting in North West Germany and Holland would cease at 0800 hrs 5 May.</p>

Baths, cinema & concert were popular with those privileged to attend but at 2000 hrs a sudden change of plan necessitated the Bn preparing to move back to the LA VACQUERIE area as soon as possible and by 2130 hrs the Bn was again on the move.	A Walker Capt IO
LA VACQUERIE	29th		During the night 28/29th the Bn once more took over the def posn around LA VACQUERIE, but enemy activity was again negligible during the day due to the US troops on our right flank now being slightly fwd of the bn posn.	<u>Casualties 29th July</u> 1 OR killed AW A Walker Capt IO
	30th		No change in bn location. Inter coy patrols continue as before but there was nothing of importance to report. During the day the remaining Bdes of the Div put in an attack south from CAUMONT and it appeared that in face of this threat the enemy were withdrawing on our front, even mortar & arty activity having considerably decreased.	
	31st		Following the success of the ops south of CAUMONT the bn move during the early hours of the morning through CAUMONT and then south. Some hours were spent in a conc area at 693558 during which time the CO & IO attended a Bde Comds conference on possible sp roles for the Bde. Instrs were finally given for an attack with tk sp on a high feature in area 709532 to fill a gap between 227 Bde on the left on pt 226 (711536) and 46 Bde in area pt 309 (694512). After Coy Comds recce and liaison with the tk bn cooperating (4 GREN GDS) the attack was finally tied up and commenced at 1845 hrs. The bn advanced on its objective from the west with two Coys up, A on right & B Coy on left. D Coy followed in rear of A Coy and C Coy	A Walker Capt IO  A Walker Capt IO

		<p>followed B Coy. Limited sp was given by the tks who had failed to tie up with the left Coy on the S.L. However, no enemy opposition was encountered as the enemy apparently had withdrawn when his flanks had been threatened. Coys were thus able to establish themselves on their objectives and reorganise as follows: B Coy area X tracks 711532, A Coy area 709528, C Coy 707534, D Coy 705530. Bn HQ was est area 705535.</p> <p>Some enemy activity was apparent to the East of the fwd coy posns and there was occasional mortaring and shelling of the bn posn. 1/50000 Sh 9F/1	28th	0300	<p>After the assault Bn (6RSF) has crossed with some MG opposition from the enemy the Bn which had been called fwd from the FAA began the crossing. Some difficulty was encountered at the most southerly crossing at pt 289918 due to enemy interference from further up river. D Coy however eventually managed to cross without mishap at this crossing while C, B, HQ and A Coys crossed at pt 291921. Crossings were made by assault boats in each case. Enemy resistance became negligible due to 6RSF having est their limited bridgehead on the east bank and the crossing was uneventful except for occasional indirect enemy MG fire, and completed by first light. After a short pause in the RSF bridgehead while mopping up of some snipers took place at 0730 hrs the Bn moved out of the Bridgehead along the east bank of the river and adopted a defensive posn on rt of 6RSF in area 285912, disposed as follows: Bn HQ 285912, A Coy 286913, B Coy 286912, C Coy 284911 and D Coy 284912. Our fwd tps reached the limit of their adv at X rds 350966 with very little opposition, a few prisoners being taken. The bn then adopted a def posn in area LE LONDE with Coys disposed as follows: A Coy south of rd in area 346965, B Coy N of rd in area 346966, C Coy area 331960, D Coy area 331965. Contact patrols were carried out with units on rt and left and during night 29/30 two patrols were sent to AMFREVILLE 3498 and returned with the infm that the enemy appeared to have withdrawn from the village.</p>	<p>1/50000 Sheet 9F/1</p> <p>A Walker Capt</p>
LE LONDE	30th		<p>Enemy activity throughout the area was confined to a few rds shellfire which caused no damage and on account of the very bad weather and the tactical situation permitting, a relaxation of the state of alertness was ordered and Coys were able to make use of the available cover in the vicinity of each Coy area. As a precaution a pl of B Coy was moved out to occupy a posn at pt 159 337973 but shortly after the posn had been occupied permission was given by higher authority to withdraw it as the situation to the North had</p>	<p>A Walker Capt</p>

LE LONDE	31st	1030  1430	<p>Bn remains in present area carrying out maint and reorganisation. A Bde O Gp took place at Bde HQ to discuss plan for dealing with pockets of enemy believed hiding in woods immediately South of the FLEURY SUR ANDELLE 3704 - PONT ST PIERRE 3101 rd.</p> <p>The Bn were given the task of adv North from BACQUEVILLE 380989 (Sheet 9F/1) and clearing woods in a gen line through the BOIS DE BONNEMARE 3501 NW to main rd. The wood clearing presented many difficulties with regard to control and eventually after a very slow advance and trying to keep contact with 6KOSB on right in the FORET DE BACQUEVILLE 3701 the leading Coys finally gained the road on the North end of the wood without encountering any enemy. By this time darkness was beginning to fall and the second stage of the op, that of sweeping through the BOIS de DOUVILLE 3200, was cancelled and the Bn returned to LE LONDE at 2230 hrs. 12 Rfts join Bn from 32 RHU.</p>	<p>Sheet 9E/5 1/50000</p> <p>Walker Capt</p> <p>A Walker Capt</p>

GHEEL		1630  1830	<p>Bn leaves GHEEL and proceeds North on the TURNHOUT - GHEEL road to area 078909 where Bn HQ is est with coys disposed astride the main road slightly further NORTH.</p> <p>CO and IO with 2i/c and OC 177 Fd Bty and later with OC Coys carry out recce of canal for assault crossing during night 13/14th Sept. Despite the short time available and lack of time for proper recce by lower comds the Bn was ordered to cross the canal at first light on 14th Sept and at 2400 hrs 13 Sept CO issued orders for assault crossing of the canal at first light.</p>	A Walker Capt

Coys also moved up into the area preparatory to the crossing.</p> <p>Leading Coys begin crossing. B Coy on right at point 069926 and A Coy on left at pt 065925. Considerable enemy MG and rifle fire was encountered but despite this the initial crossing was successfully accomplished by these Coys and B Coy after reorganising on far bank advanced to North of AART village to point 074934 with a view to engaging enemy posns in the village from the rear. Again despite enemy opposition the Coy gained its objective.</p> <p>D Coy crossed the canal immediately in rear of B Coy at the same pt and after slight pause for reorganising attacked eastwards toward the village, while Tac Bn HQ crossed at pt 065925 in rear of A Coy and with A Coy advanced behind D Coy to the village.</p> <p>C Coy in the meantime were left in posn on south bank of canal in woods at 075927 to assist the operation with covering fire.</p> <p>D Coy gained their objectives in the west end of the village and 'A' Coy were passed through to attack the eastern half of the village and exploit beyond gen line of lock at 079928. Opposition however was now very strong and A Coy were unable to extend the bridgehead as ordered. 'C' Coy were therefore ordered to cross the river and assist A Coy and the two coys were finally able to push back the enemy and also clear area of lock 079928 where it was proposed building a bridge, the bridges all having been previously blown by the Germans. However this was not accomplished without severe casualties and during the day coys had to withstand fierce and repeated enemy counter-attacks.</p> <p>Enemy shelling and mortaring of the bridgehead area was particularly heavy and on account of this and also the area of the lock coming under S.A. fire from enemy MGs the RE were unable to construct a bridge and all communication with the south bank of the canal was by assault boat under very hazardous conditions, making the supply of food and ammunition a very serious problem.</p>	<p>A Walker Capt</p> <p>A Walker Capt</p> <p>A Walker Capt</p> <p>A Walker Capt</p>

GHEEL BRIDGEHEAD			Despite all the enemy efforts however by last light except for slight loss of ground on the eastern outskirts of the village the bridgehead remained intact. Since the assault crossing this morning approx 70 PWs were taken. The Bn was now disposed as follows: Tac Bn HQ:- 075930, A and C Coys gen area rd junc 076931 to lock 079928, B Coy 073933, D Coy - 073928.	A Walker Capt
GHEEL BRIDGEHEAD	15th	0200	During the early hours of the evening after dark, enemy infiltration and counter-attacks were resumed and some penetration of the bridgehead was achieved, A and C Coys being engaged in fierce fighting during which time A and C Coys were overrun and also two secs of carriers on that flank. This caused the almost complete collapse of the eastern flank of the bridgehead and positions had to be readjusted as follows: B Coy were withdrawn from their present position and took up posn in area 076930 while remaining personnel of A & C Coys amounting each to approx one platoon strong took up posns at 074929 and 078928 respectively. GHEEL BRIDGEHEAD		0600	Further enemy attempts to reach the crossing site at 075927 were held and the bridgehead remained firm though considerably depleted in numbers. Enemy shelling of the area again became very heavy with the defeat of his counter-attacks and he was making considerable use of roving S.P. guns and also AA 20mm guns. Further enemy counter-attacks developed during the morning but with excellent arty support all attacks were repulsed.	A Walker Capt

During the night no enemy attacks developed and the posns were unchanged by first light on the 16th.	A Walker Capt
GHEEL BRIDGEHEAD	16th  17th		During the day enemy activity continues though on a slightly reduced scale, but later increased again and the Bn was engaged in repelling these attacks. Our own arty was very active engaging enemy mors & SP guns shelling the Bridgehead area. During the afternoon orders were received for the Bn to be taken out of the Bridgehead and reorganise during the night 16/17th but due to enemy attempts at infiltration again on request by the COs of the other two Bns in the bridgehead the Bn did not start to come out of the bridgehead until 0700 hrs 17 Sept. This operation had again to be carried out by assault boat as it had been found impossible to construct a bridge due to enemy shelling but by 0900 hrs the evacuation of the Bn from the	A Walker Capt

			In conjunction with the other two bns in the Bde the bn was given the task of clearing OSTER WALD in gen area 6522 and 6523 and instrs were issued to Coys for this op on 8th Apr.	(1/100000 Sh N3)
ESSERN	8th		During the major portion of the day Coys were engaged in this wood clearing op which however proved fruitless though A Coy gave chase to a few Germans who managed to escape into the undergrowth. The operation was completed by 1530 hrs and Coys returned to ESSERN by march route.	A Walker Capt IO
	9th	1730	During the morning Coys carried out general administration. Warning order for move on following day received, followed during the night by new orders for move to LAHDE 8520.	
	10th	0800 1930	Harbour party leaves. CO & IO attend Bde 'O' Gp and on their return further details of move issued to Coy Comds. This move was as many of those recently carried out by the bn, being purely a non-tactical move from one location to another trying to catch up with the leading formations now 'swanning' out ahead against very little opposition. During the day the bn moved to LAHDE 8520, Bn HQ being est at 865197.	A Walker Capt IO
	11th	0530 0930 1600	Harbour party once again off. CO attends Bde 'O' Gp. Bn leaves LAHDE and proceed to ELZE 3544. Bn HQ est at 359452 with Coys conc in nearby farms. 	12th	1000 0515	Situation unchanged. Harbour party standing by and Coy Comds visit command post to get general situation. Harbour party leave for CELLE 5850 but due to lack of accommodation rejoined the battalion later in the evening.	A Walker Capt IO
ELZE	13th	0530 2100 2230	Harbour party leaves for Celle to be followed by the battalion in TCVs at 1200 hrs, arriving in CELLE at approx 1500 hrs. CO and IO attend 'O' Gp at HQ 44 Bde and orders received for taking up of def posn to NE of UELZEN (1/100000 M5 8989) after its capture. Orders issued to Coy Comds at Bn 'O' Gp.	
CELLE	14th	0730 0930 1030	Bn ready to move but now orders changed to ½ hrs notice wef 0900 hrs. Major Douglass 2i/c visits Bde HQ to get latest information on operations. CO & IO to Bde for move with Bde 'O' Gp while Bn moved with main body of Bde Gp along main rd to UELZEN 8988.	A Walker Capt IO

			<p>Opposition to the advance by another Bde of the division had stiffened considerably in front of UELZEN and the main road leading up to the town from the south being blocked and impassable and having been bypassed to the NW, the bn was ordered by the Bde Comd to clear the main road from WEYHAUSEN 7869 - BREITENHEES 8574 to HOLDENSTEDT 8784.</p> <p>This op commenced at 1215 hrs and the rd being impassable for vehicles or carriers the initial clearing was carried out by a process of leap frogging the Rifle Coys through each other.</p> <p>Opposition to the adv was negligible though quite a number of PsW were collected in by Coys, who cleared up what opposition or road blocks were encountered on the way.</p> <p>The Carrier pl had meanwhile succeeded in finding a way through the woods to circumvent the demolitions on the road and moving out ahead contacted a detachment of 2A&amp;SH of 227 Bde at HOLDENSTEDT (8784). By 1900 hrs that evening the remainder of the Bn had arrived in HOLDENSTEDT and taken up an all-round def posn with the exception of 'B' Coy who remained the night at BREITENHEES 8574. Bn HQ was est at 877839.</p>	<p>A Walker Capt IO</p> <p>A Walker Capt IO</p>
HOLDENSTEDT	15th		<p>Ops in front of UELZEN having come to a stand-still it was intended that the Bde should bypass UELZEN on the east and as a preliminary during the morning the bn moved to area BORNE 8883 and the Carrier pl carried out offensive patrolling occupying WRESTEDT 9082.</p> <p>Contact was made with the enemy in WRESTEDT and to the east towards the railway. This however was cleared up by the Carrier pl who were later reinforced in the village by A Coy. Later in the day with German resistance in the immediate vicinity crumbling the bn moved fwd and took over from 6RSF in NIENDORF II. Coys took up a perimeter defence of the village with C Coy fwd at area X tracks 917864.</p>	<p>A Walker Capt IO</p>
NIENDORF II	16th	1900	<p>During the night patrolling was carried out, enemy being encountered in area rd junc 927857 and casualties inflicted on them. The patrol was led by Lt J Stobo MC. During the early morning C Coy moved up and occupied this area and were later joined by B Coy.</p> <p>Bn HQ was est at 906852.</p> <p>The enemy were still strongly defending UELZEN and to further its outflanking to the east the Bn was ordered to attack and capture GR LIEDERN 9388.</p>	<p>A Walker Capt IO</p>
NIENDORF II			<p>The attack was planned to be carried out with artificial moonlight and tk sp at 0200 hrs 17th Apr, and during the 16th detailed recces were carried out by Comds. In the late evening the Bn moved up to the FAA in area 930869 where the assaulting Coys, D Coy on the left</p>	<p>See Appx E3</p> <p>A Walker Capt IO</p>

			and A Coy on the right, "married up" with the tks. Tac Bn HQ moved up in rear of start line to 930869.	
	17th	0200	Following our arty programme, D and A Coys cross SL and move fwd due Northwards to objective with axis of adv on other side of track leading into village from the south. B and C Coys remained dug in in rear of SL. Both assault Coys made good progress against minor opposition which was quickly overcome and got firmly est on their objectives, D Coy in area 928885 and A Coy area 932883. C Coy meanwhile were ordered to follow up quickly and est themselves in North end of village in area 932885 to be followed by B Coy taking up a posn centrally in south end of village. By first light the Bn was firmly est in the village with Tac Bn HQ at 929884, and the process of final mopping up and house searching being carried out. During the day patrolling revealed the presence of the enemy in OLDENSTADT 9190 some demolitions being set off on rd from GR LIEDERN to OLDENSTADT when our carrier patrols were observed. Ground opposition however was negligible and the problem was to circumvent the natural and artificial obstacles in the way.	A Walker Capt IO  A Walker Capt IO  See Appx E4
OLDENSTADT	18th	1700	Despite the rd craters, the Carrier Pl were able to find a route across country into OLDENSTADT and rounding up the Germans then pushed northwards through RIPDORF in direction of MOLZEN and MASENDORF. Resistance was negligible and A & D Coys were ordered to move fwd and occupy the two villages respectively, Bn HQ and remaining two Coys being est in OLDENSTADT, B & C Coys on NE and NW outskirts respectively and Bn HQ at 920900. Comd 44 Bde visited Bn HQ during the evening with orders for Bn to conc on 19th Apr, all German resistance in the neighbourhood having been overcome through link-up with formations on rt and left.	A Walker Capt IO  A Walker Capt IO
HEITBRACK	19th	0700 0800 1215	Carrier Pl move off to HEITBRACK 9296 to ensure that village is clear preparatory to move in of bn. A & D Coys leave present location for HEITBRACK, followed later in the morning by B and C Coys. Bn HQ leave OLDENSTADT and move to HEITBRACK, being est at 920967. During the morning Comd 44 Bde visited Bn HQ and offered his congratulations to the Commanding Officer on the announcement of his being awarded the D.S.O.	See Appx E5  A Walker Capt IO
	20th	0930	Harbour party leave for VASTORF 880150. Bn move by march route during the day from HEITBRACK to VASTORF - VOLKSTORF area. Bn HQ est at 879152. Night 20/21 spent in this harbour area.	See Appx E6
LUNEBURG	21st	0930 1400	Harbour party leave for LUNEBURG 7820. Coys move by march route from VASTORF to LUNEBURG.	

			Bn concentrated in CAVALRY BARRACKS LUNEBURG.	A Walker Capt IO
LUNEBURG	22nd		A period of rest, reorganisation and administration begins. Commanding Officer attends Bde conference.	
	23rd		Situation unchanged - nothing to report.	
	24th		The Commanding Officer and Second-in-Command proceed to Div HQ for address by Comd 8 Corps. The Div having been given the task of the assault crossing of the Elbe, this had been delegated to 44(L) Inf Bde and planning for that operation now began.	A Walker Capt IO
LUNEBURG	25th		During the day the Commanding Officer had the opportunity of going up in an air O.P. and studying that part of the River ELBE across which the Bn was to operate, viz area ARTLENBURG 8334 - SCHNAKENBEK 8434 (1/100000 Sh L5). Planning for the operation continued. The Adj held a Bn drill parade in the morning while an inter-Bn football match against 6KOSB took place in the afternoon, the result being two goals each.	
LUNEBURG	26th	0930 1430	Commanding Officer attends conference at HQ 44 Bde and discusses further details of the op. CO holds Bn 'O' Gp since orders had been received that it was possible that the crossing would take place on night 26/27th Apr. These orders had however been misinterpreted at a higher formation and were cancelled later in the afternoon, the crossing being scheduled for night 28/29th Apr.	A Walker Capt IO
LUNEBURG	27th	0400	CO, Coy Comds, IO and pl comds carry out a dawn recce of RIVER ELBE at ARTLENBURG, studying the crossing places and objectives on the far bank. This close-up recce proved invaluable when the time for the actual crossing took place. Planning had now been practically completed and preparations for move to assembly area on 28th were being made. During the evening a dinner was held in the Officers Mess at Bn HQ attended by senior officers of the battalion, guests including the Comd 15(S) Div, Comd 44(L) Bde and Comds 6RSF and 6KOSB, together with certain members of the staffs of Div and Bde HQ. LUNEBURG	28th	1000 1700	COs conference and final 'O' Gp for the operation which was called operation ENTERPRISE. Coys complete preparations for move to Marshalling area. A & B Coys move up in unit tpt to marshalling area in woods at 825285 followed by C,D Coys and Bn HQ (Tac) at 1900 hrs. Fortunately the weather was very good and no discomforture was suffered sitting in the woods till the time for moving off to join the Buffaloes. Certain priority vehs were preloaded immediately on arrival in marshalling area.	See Appx E1,H1 and D6  See Appx D3.  See Appx D3 (Gp1)
ON THE ELBE				

		2315	Coys move to join Buffaloes in Buffalo Marshalling area and "embus" on arrival.	A Walker Capt IO See Appx D4
ON THE ELBE	29th	0015	Coys leave Marshalling area in LVTs and proceed down taped LVT track towards river, approx 3 miles away. Tac Bn HQ followed the leading coys, B & A who were making the initial assault.	A Walker Capt IO
		0200	Assault Coys, B Coy on left & A Coy on right, enter river in LVTs at pt 835347 and make for opposite bank. Tac Bn was est behind ho on river bank at pt where LVTs entered river. The assault Coys gained the opposite bank successfully despite some S.A. fire and some mortar and arty D.F. fire. The opposition in the immediate neighbourhood was quickly overcome and these coys began moving off the river bank to their objectives at 837353 and 838352 respectively.	
		0215	In the meantime the follow up Coys, C on left & D on right, crossed the river with Tac Bn HQ and started pushing out towards their objectives (areas 835353 and 836354 respectively) after a slight pause on the river bank for reorganisation. Tac Bn HQ was est near river bank at 838351. Opposition was mostly confined to arty and mortar DF which was falling fairly consistently near the crossing places. A considerable number of PsW however were being taken by Coys as the bridgehead gradually expanded and our coys all being est on their objectives, Phase II, the enlargement of the bridgehead was started.	
ON THE ELBE			Coys were now moved by stages to new posns as follows: B Coy area 839360, C Coy area 830356 - 832358, D Coy area X rds 834363, and A Coy 835359. Bn HQ was est at 837354. Coys being firm in these positions Carrier pl was given the task of patrolling forward. At this stage enemy arty fire was extremely heavy, especially on the one route leading out of the off loading point on the river bank. Ground opposition being negligible orders were received to push forward and at 1415 hrs the Commanding Officer held an 'O' Gp at "FORTH" (MR 835363) and issued orders for a further adv. C and A Coys were ordered to occupy area "EARN" (BULTEN MR 8338), while meantime the Carrier pl which had reported the posn clear pushed on and occupied KRUKOW, carrying out offensive patrolling throughout that area.	A Walker Capt IO
KRUKOW 8239			Permission was obtained from Bde for the Bn to occupy KRUKOW 8239 and on arrival of B and D Coys at BULTEN they were ordered fwd into the village, being followed shortly afterwards by A & C Coys. By 1830 hrs the Bn was disposed as follows: Bn HQ 827394, A Coy area 830397, B Coy 836394, C Coy 836397 and D Coy 835393.	See Appx D2 A Walker Capt IO  A Walker Capt IO

			The Bn remained in this area during the night, with the state of alertness considerably relaxed due to the non-existence of any enemy resistance.	
	30th	0800	<p>B and D Coys move fwd and take over PIEPENDORF 818409, but orders were received for a further advance and the bn proceeded by march route along road to KOLLOW 8144 with a view to eventually occupying SCHWARZENBECK 8248.</p> <p>There were numerous reports from the Tp Recce Regt in sp, of enemy opposition etc on the way but after numerous delays the adv finally speeded up and the town of SCHWARZENBECK reached without incident, in the late afternoon.</p> <p>Bn HQ was est 823488 with Coys located A Coy 819486, B Coy 819495, C Coy 818487, D Coy 816493.</p>	<p>A Walker Capt IO</p> <p>A Walker Capt IO</p>

There was some intermittent enemy shelling of the area, which however did not cause any damage. CO & IO attend 'O' Gp at HQ 44(L) Inf Bde for clearing of woods in area SACHSEN WALD, to the north-west of the town. Commanding Officer holds 'O' Gp at Bn HQ and issues order for clearing of sector of the wood allocated to the Bn.	A Walker Capt IO

Some short but sharp enemy shelling of X rds 780538 took place, causing some casualties. The Carrier pl meanwhile reported GRANDE and KUDDEWORDE 7657 clear and in the late afternoon the bn moved fwd and concentrated in KUDDEWORDE 7657 with Bn HQ at 764572, Coys being disposed for perimeter defence of the village. BARGTEHEIDE				
	5th	0800	An informal Bn parade took place in front of the Command Post to commemorate the end of hostilities. The pipers played the Fall in and after the Cease Fire had been sounded by the bugler, the Commanding Officer addressed all ranks informing them officially of the end of hostilities and congratulating them on the completion of a long and arduous task, since the initial landing in Normandy. He also spoke of the tremendous amount of work which was still to be done in winning the peace, now that we had won the war in Europe. The biggest problem was now the rounding up and dispatch to the PW cage of the hundreds of Germans, on foot, in carts, and in tpt who were now streaming down the roads. Another problem was the feeding etc of the innumerable DPs in the various camps. The Bn was responsible for a Russian PWX camp at JERSBEK 6474 having approx 1700 PWX and the task was given to D Coy, the complete company moving from BARGTEHEIDE to JERSBEK to facilitate the task. Coys were now busily engaged in making a census of all DPs PWXs etc in Coy areas. A coy area of responsibility covered many square miles when it is considered that to travel round the bn area entailed a journey of almost 50 miles. There were numerous DP camps, munition dumps etc throughout the area needing administered or guarding while the rounding up of enemy stragglers and mounting of check points had to be continued. A considerable increase in the sporting activities of coys took place with numerous inter-coy football matches.	A Walker Capt IO  See Appx G3  A Walker Capt IO

St Mauvieu	26		Op "Epsom". Attack by 15(S)Div in which 44(L)Inf Bde took part. Bde took the two left objectives with rt 8RS, left 6RSF. 6RSF objective village of ST MAUVIEU. H Hour 0730. Attack was carried out with heavy arty barrage, depth 500yds. A and B Coys were assaulting coys, C behind A, D behind B in reserve. Cas were incurred in the left coy by shorts in the barrage. On arrival on objective it was found to be strongly held by men of a unit of SS Hitler Youth Div, who carried out sniping during the clearing of the objectives with devastating results. The operation of clearing the village was well carried out by the Bn, but proved a slow and costly procedure, and it was not until 1700 hrs that the northern end of the objective was finally cleared by which time the Bn was very thin on the ground as the result of cas. Counter attack was launched about 1800 hrs on the left flank but was beaten off and no penetration was made except to an orchard at the northern end of the village. Later a further counter attack on the rt flank was seen to be developing and the CO, in order to avoid the posn being infiltrated, had to call on Bde for the assistance of two Coys 6KOSB. Bde Comd however decided in view of the cas incurred by the Bn in the operation to date to send up 6KOSB complete less one rifle coy to take over from 6 RSF. This relief was completed with difficulty as counter attacks were in progress during a portion of the time, and it was not until 2300 hrs that the final elements of the Bn were withdrawn from the posn to reserve. Total casualties incurred in this operation were as follows: Killed : 21	See Map Appx 'B'  CR Buchanan Lieut-Colonel, Commanding 6th Bn. Royal Scots Fusiliers

			<p>Wounded : 113 Missing : 9</p> <p>This was the first time the Bn had been in action since Jun 1940 and for the majority of the personnel of the Bn it was their first battle inoculation. The Bde Comd expressed to the Comd Offr his appreciation of the conduct of the Bn in a difficult operation.</p>	<p>CR Buchanan Lieut-Colonel, Commanding 6th Bn. Royal Scots Fusiliers</p>
Le Mesnil Patry	27		The Bn spent the day in reserve area in the vicinity of LE MESNIL PATRY where it cleaned up and reorganised.	
	28		Day spent in the same vicinity.	
	29	0430	<p>The Bn moved out and took up a posn in the vicinity of woods at 898664 where it was ordered to be prepared to support 8RS in their clearance of the area between RAURAY and LE HAUT DU BOSQ. By 1400 hrs it was clear that 8RS were meeting fairly stiff opposition and would not only have difficulty in reaching their final objective but would have difficulty in holding such a long front. 6 RSF were ordered to assist them and take over and hold a portion of their objective when captured. C and D Coys were ordered to take over the right half of the objective from 8RS.</p> <p>During this period of take over the Germans counter-attacked and the posns were never really firmly taken over. As a result our line was pushed back to the line of the reserve coys of 8RS. But the Germans did not press their counter-attack. The Bn spent the night in a defensive posn in the area of LE HAUT DU BOSQ 898655.</p>	
Le Haut du Bosq	30	0600  1400	<p>In the early morning at about 0600 hrs the Bn moved back to an orchard in the village of LE HAUT DU BOSQ where it remained till the afternoon.</p> <p>At about 1400 hrs the Bde took up an anti-Panzer hedgehog in the vicinity of 905660 with 6 RSF in reserve area. Intermittent mortaring took place during the night.</p>	<p>CR Buchanan Lieut-Colonel, Commanding 6th Bn. Royal Scots Fusiliers</p>

Commanding Officer Lt Col CR BUCHANAN

Month and Year August 1944

Place	Date	Hour	Summary of Events and Information	References to Appendices
LE BENY BOCAGE	1 Aug	0800	The Bn rejoined 44(L)Bde and concentrated with the rest of the Bde in the area of the Orchard 694565 with a view to moving forward to the high ground to the East of LE BENY BOCAGE to exploit the advance of the 11 Armd Div. But this operation was postponed as although considerable success had been achieved on the front the left flank was still open to a certain extent. The Bn was therefore ordered to take up a position in the vicinity of the farm at 692538 facing South in reserve to the remainder of the Bde which was dispersed to protect the left flank of the Div. During the day it became obvious that the enemy was pulling out on this front although leaving strong rearguards.	Appendix "A"
	2 Aug		The Bn spent a quiet night with no shelling and did not move although it was at four hours notice to do so all day.	
ST PIERRE TARENTAIN	3 Aug	1130	At about 1130 hrs the Bn moved carried on tanks of 4 Gren Guards to an FAA in the vicinity of ST PIERRE TARENTAIN 7045 where it arrived at about 1230 hrs. Orders were received at 1400 hrs to attack and capture the hamlet of LA COUR 723438 supported by one sqn of 4 Gren Gds. This attack was supposed to be put in with zero at 2030 hrs but owing to the fact that the Bn could not complete the necessary previous reces etc in time it was changed to 2100 hrs. The attack was successful and the objective captured. Consolidation had to be carried out in the dark. Casualties were light, Lieut Street, 2/Lt Hollidge, 2/Lt Patrick, 2/Lt Campbell were wounded and the casualties in ORs were killed 8 wounded 17.	Appendix "B" Appendix "C"
MONTCHARIVEL	4 Aug	1900	The Bn spent a quiet night and was not counter-attacked. At 1900 hrs the Bn moved out to occupy the village of MONTCHARIVEL 7442. The adv gd on arrival found the village held by approx a coy and some armd cars. An attack was put in round the left flank by two tps of Churchills (4 Gren Gds) and two	

			pls "C" Coy in support working round the left of the village. This attack cleared the village but not till approx 2200 hrs. The Bn then entered the village and was disposed to hold it. All Recces for defences had to be carried out in the dark, but fortunately there was a bright moon. Cas killed 8, wounded 5, missing 14.	
	5 Aug		The Bn remained in MONTCHARIVEL and 227(H) Bde passed through to continue the adv. The rest of the Bde were disposed with 8 RS in LES FIEFFES 7241 and 6 KOSB in LA MOTTE 7541.	
	6 Aug	0700	Bn at 2 hrs notice to move wef 0700 hrs and move to an FAA on the main rd to VASSY just South of Condraies with 8 RS on the other side of the rd and 6 KOSB close behind. The Churchills accompanied the Bn and harboured close by.	Appendix "D"
	7 Aug		Bn moves partly carried on tanks and partly by march route to a position on the high ground in 7438. 8 RS to area LES CLOS and 6 KOSB 7440. Some shelling and mortaring but few casualties.	Appendix "E" Appendix "F"
	8 Aug		After an evening and night of "O" Gps and preparation Bn moved to an FAA at 740387 for an attack on ESTRY.	
ESTRY	9 Aug		44(L) Bde attacked ESTRY with Bn Coldstream Churchills under comd 6 RSF left with one sqn, 6 KOSB right with another, 8 RS in reserve. The object of the attack was to clear ESTRY and then retire to positions near Xrds at 756379. The leading coys "A" and "C" were to cross the start line at 1200 hrs and clear the village while "D" right and "B" left were to dig in on the main rd. The start line was the stream at 7438. The Bn was very weary but the leading coys set off and reached the Northern edge of the village which they found to be strongly held. The Churchills had difficulty in crossing the stream and were late in arriving on the objective and the A.V.R.E. was hit in the early stages. The leading coys struggled on during the afternoon but did not manage to get into ESTRY itself or reduce the strongpoint of the Church. Meanwhile "D" Coy had dug in behind the main rd without much trouble but "B" had been heavily shelled and mortared on the start line and while digging and were reduced to 38 in number but managed to establish themselves before dark. The CO was slightly wounded in the arm about 1300 hrs but when the 2 IC went up he insisted on finishing the battle and was only evacuated later in the evening when the 2 IC took over. By this time "A" and "C" Coys had retired on to "D's" firm base and the Bn was disposed "C" Coy at the Xrds with one pl forward of the lateral rd, "A" Coy at the rd & tr junc 749380 with one	

		section fwd of the lateral rd and "B" Coy at 751382, the Carrier Pl lining the track leading to "A" Coy at 749380 and "D" Coy dug in just South of the stream. Lt Col CR Buchanan was wounded and evacuated in this action.	
ESTRY	10 Aug	Lt Col I Mackenzie assumed command of the Bn. After a night of very heavy shelling and mortaring "B" Coy were withdrawn into reserve near Bn HQ at 745385 and it was arranged that the Churchills stayed on the left flank with "A" Coy. The KOSB occupied similar positions on the right of the MONTCHAMPS-ESTRY rd.	
	11 Aug	Bn remained in defensive positions all day and were relieved by 8 RS at night. Higher Comd were insistent that the enemy were withdrawing but this was found not to be the case and an advance to contact plan to move to the high ground overlooking VASSY had to be abandoned.	Appendix "G" Appendix "H"
MONTCHAMPS	12 Aug	Bn at MONTCHAMPS and washed, bathed and changed clothes for first time for three weeks. Move to ST PIERRE TARENTEINE 7045 in the evening.	Appendix "J"
ST PIERRE TARENTEINE	13 Aug	Bn remained all day at ST PIERRE TARENTEINE and continued to clean up, check deficiencies and carry out maintenance tasks. The mosquitoes and wasps were extremely troublesome.	
LES IFS	14 Aug	The Bn moved by TCV to LES IFS. After a march of four miles from the debussing point the Bn were dispersed in some orchards and fields clear of the village. The area had not been completely cleared of mines. This was done by RE with the assistance of the Pioneer Pl. Apart from the mosquitoes and wasps which infested the area it was clean and afforded plenty of shade.	
	15 Aug	The Bn remained all day at LES IFS and bathed in a stretch of river, this entailed a march of some 3 miles each way. All coys held a drill parade and the Bn was addressed by the Div Comd.	
	16 Aug	A CofS Church Parade was held during the morning. The remainder of the day was allotted to coy drill parades, cleaning of weapons and rest.	
CESNY-BOIS- HALBOUT	17 Aug	The Bn moved by TCV to CESNY-BOIS-HALBOUT 9945. This move was done in order to conform with the concentration of 15(S)Div. The area was constricted owing to the presence of "B" Echelon of 7 Armd Div who had already occupied the best billets.	
	18 Aug	No move was anticipated, or took place on this day. Coys spent the day cleaning up, holding drill parades and washing clothes.	

	19 Aug		All coys carried out route marches of approx 12 miles to harden the men's feet, which had become very soft at ESTRY. The Bn was warned to stand by at 3 hrs notice to move from 0900 hrs on 20 August.	
	20 Aug		15 Div were allotted the task of securing crossings over the rivers LA VIC and LA TOUGES to the East of LES SAP 5859. The role of 44(L)Bde was to secure the high ground pt 258, 4159 - pt 261, 4160 - pt 259, 3334. The CO held his "O" Gp at 1030 hrs and ordered that the Bn was at 3 hrs notice till 1500 hrs and thereafter at 15 mins notice. Through the afternoon messages were received from Bde to the effect that the move was increasingly unlikely owing to the congestion of the rds leading fwd. At 1900 hrs the Brigadier arrived at Bn HQ and informed the CO that the move was cancelled and that no move was expected for a further 48 hrs till the situation fwd had been clarified.	Appendix "K"
	21 Aug		All Coys had prepared training programmes which included a 12 miles march, however owing to the heavy rain throughout the day these programmes were cancelled and the Bn moved into buildings which had by now been evacuated by "B" Echelon of 7 Armd Div.	
	22 Aug		The weather cleared up and showed signs of becoming fair, by 1000 hrs the sun had come out and the Bn were able to dry their clothes. All coys carried out route marches, during which they were able to hold several tactical exercises and to bathe. Dinners were eaten out of billets. The Bn harbour party was ordered to stand by at 15 mins notice to move from 1700 hrs. The Bn was informed that no move other than harbour parties was expected on 22 August. No destination was given in the warning order.	
	23 Aug		During the night 22/23 Aug it poured with rain, however as the Bn were all under cover of buildings no ill effects were felt. The Bn moved, embussed in TCVs, at 1545 hrs to the area of DAMBLAINVILLE 2038 via USSY 0841 and FALAISE, 15(S)Div having been ordered to concentrate EAST of FALAISE with a view to advancing to the river SEINE and starting on 24 or 25 August.	
DAMBLAINVILLE	24 Aug		The Bn area at DAMBLAINVILLE was in some low lying fields off the main rd. Heavy rain fell during the night but the Bn had rigged up good bivouac shelters and emerged damp rather than wet. Owing to the congested state of the rds fwd no move took place before 1600 when the Bde moved to an area SW of ORBEC 6572, the Bn being allotted the area of the village VIEL 5768. We arrived late in the evening just as it was getting dark and	

			found a congestion of Canadians clearing out of the area. Bn HQ and most of the coys found accommodation in houses, however the night was fine. The CO was warned to attend Bde "O" Gp at 0700 hrs on 25 August and the Bn was warned to expect to move at 0900 hrs.	
	25 Aug		<p>A very trying day involving a move of approx 35 miles, embussed in TCVs which took from 0900 hrs till 2400 hrs 25/26 August. The Bde moved via BERNAY 8078 and BEAUMONT-LE-ROGER 9376 to the general area of LE NEUBOURG 0263. The rds were crammed with traffic and very dusty.</p> <p>The bridges over the river LA ISLE at BEAUMONT-LE-ROGER had not been repaired by the time we got there and such as remained would not carry TCVs, in consequence the Bn debussed and marched the last 10 miles to a reverse slope position immediately SW of IVILLE 0486. Very little information was available about the enemy, however a general air of optimism prevailed and COs were warned to be prepared to recce fwd for crossings over the river SEINE. This project was abandoned later. The Bn was widely dispersed and could do little more than cover the rds and obvious approaches, however it was generally understood though not confirmed, that an American Armd Div was deployed NE of our positions.</p>	
IVILLE	26 Aug		The Bn was informed that a move was most unlikely and that 227 Bde would pass through during the day and occupy LOUVIERS 2288. The situation fwd remained obscure and such reports as were received indicated that the battle was fluid.	
ST LUBIN	27 Aug	1000	<p>The Bn moved to ST LUBIN 1989 at 1000 hrs and harboured in some thick woods. 227 Bde were ordered to secure a crossing over the SEINE at ANDE 2890 at 1800 on 27 Aug. Various alternative plans were in store for us but at 1815 an LO arrived and gave orders that we were to be at immediate notice to move and secure a further crossing over the river. No further details were available at the moment. At 2000 hrs the Bn moved by march route, under the RSM, to a FAA in the area of some farm buildings 277935 NE of PORTEJOIE 2892. Meanwhile the CO gave out his orders and conducted officers on a brief recce before dark. Briefly the plan was as follows:-</p> <p>The Bn were to cross the SEINE at PORTEJOIE and establish a bridgehead at HERQUEVILLE. The crossing was to be made in assault boats with two coys ("C" and "D") up; transport was divided into priority routes, the first group being 15 vehs which were to include the rear link and 4 6 pr guns while other</p>	<p>Appendix "L"</p> <p>Appendix "M"</p>

			gps were organised by the MTO on the priority by which they were required within the bridgehead.	
	28 Aug	0800	Zero hr was ordered at 0030 hrs. The crossing was made almost without opposition, "A" Coy were unfortunate and had two boats shot up by an isolated automatic weapon and lost 1 officer and 8 ORs, fwd coys did not consolidate their final objectives till after dawn on 28 Aug as the thick scrub and high cliffs proved almost impenetrable in the dark.	
		1500	However, by 0800 hrs on 28 Aug the Bn had firmly established the bridgehead and had started to ferry tpt across. During the morning the remainder of the marching tps of the Bde were ferried across.	
		0830	At 1500 hrs the KOSB took over the Bn positions and the Bn was ordered to stand by for a night advance and attack on SENNEVILLE 3197 - the reason why the RSF were again to be used for this action was that no other Bn in the Bde had yet got its "F" and "A" Echelon tpt across the river.	
			At 0830 the Bn moved to a FAA at 306945 slightly South of the fwd tps of 227 Bde who had by now cleared the wood 3194. The CO took Coy Comds on a recce during the move of the Bn but did not manage to see much of the ground.	
SENNEVILLE	29 Aug	0030	At 0030 hrs 29 Aug the Bn advanced in the following order:- "B" "D" "C" "HQ" "A" Coys with the object of establishing itself on the high ground EAST of the wood 3196 and SE of SENNEVILLE prior to an assault at first light. The advance was completely successful and by 0200 hrs the high ground was occupied without major incident, a few small enemy posts had been met but no casualties were sustained by our tps.	
		0200	Just before reaching the final positions on the high ground "D" Coy, who had been passed into the lead, found themselves some 500 yds too far WEST and at the same time bumped into a small enemy post. They brought heavy LMG fire to bear on the enemy and then swung EAST to correct their positions.	
			The effect of this manoeuvre was to puzzle the enemy as to our line of adv and flares were sent up from several directions by enemy who presumably thought they were being outflanked.	
SENNEVILLE		0700	These enemy posts subsequently withdrew before dawn.	
		0800	At 0700 hrs the fwd coys moved in to clear and occupy the village of SENNEVILLE and at 0800 hrs "A" Coy started to clear the large wood 3196 immediately SOUTH of the village.	
		0900	By 0900 hrs the village had been occupied and by 1200 hrs the	
		1200	wood was reported clear by "A" Coy.	

		Remainder of the day was spent digging in and improving our positions, two small recce patrols were sent fwd to the villages of AMFREVILLE-SOUS-LES-MTS 3098, ORGEVILLE 3298 and AMFREVILLE-LES-CHAMPS 3498, these patrols reported the villages to be very lightly held. Throughout the day it poured with rain but the bulk of the Bn were under cover in barns and houses so did not suffer unduly.	
	30 Aug	A day spent at one-third alertness and the remainder resting. Tpt was ordered to keep off the rds as 53 Div was passing through 15 Div. Throughout the day heavy showers fell. The Bde Comd visited the Bn and told the CO that we could anticipate remaining at SENNEVILLE for a further 3 or 4 days.	
	31 Aug	A fine sunny day.	I Mackenzie Lieut-Colonel, Commanding 6th Bn. Royal Scots Fusiliers

Killed 7 other ranks, wounded 3 officers 43 other ranks.	Appx "J" Appx "K"
GOOREINDE	16 Sep		Enemy counter-attacks and infiltrations beginning at 0730 hrs prevented the expansion of the bridgehead and they continued throughout the day accompanied by very heavy artillery and mortar fire. Movement in road around the bridgehead was extremely hazardous. Air support by Typhoons somewhat eased the shelling from 1430 hrs until 2005 hrs when a very strong counter-attack developed. Through a captured document it was found that the objective for this attack was the factory at 075928. This attack was broken up by mass artillery concentrations and many casualties were inflicted on the enemy. Shelling continued throughout the night but was very slightly lighter. Killed 2 officers 6 other ranks, wounded 36 other ranks.	Appx "L" Appx "M" Appx "N"

Shelling of the area was lighter until 1230 hrs and practically ceased from then until 1430 hrs in face of airborne ops being carried out. Later shelling became intense and at 1730 hrs was very heavy indeed including some heavy enemy guns. Several enemy counter-attacks developed and were pressed with great determination. Some slight penetrations were made but were always thrown out. 2 officers and 18 other ranks of the Herman Goering Trg Regt surrendered to the Bn today after attack by PIATs. Wounded 10 other ranks.	Appx "O"

GHEEL	18 Sep		Bn relieved in the bridgehead by 2 A & SH and returned to GHEEL conc there by 1130 hrs. Owing to the failure of class 9 raft all Bn transport across the canal had to be left for 2 A & SH use. RIETHOVEN	21 Sep		Bn conc in area SLUIS during morning in preparation for move. Due past SP at 1450 hrs. After considerable delay due to other traffic on route SP was eventually passed at 1600 hrs. Journey was very slow due to heavy traffic and by nightfall Bn had only reached area WESTERHOVEN 3706 and was ordered to harbour in REITHOVEN 3608 for the night.	Appx "T"

VLEUT	26 Sep		An adv up the track running NE from VLEUT was ordered. All enemy were to be cleared as far NORTH as 373298. The country was extremely close and only allowed the advance to be made with one company at a time. "B" Coy cleared the enemy from posn 378292. "A" Coy, "D" Coy and "C" Coy were then passed through. "A" Coy reached final objective by 1430 hrs against strong enemy MG fire. A considerable number of enemy snipers were active and the whole area was alive with Bosche which were very difficult to find owing to the nature of the country. At 1700 hrs a withdrawal was ordered and the Bn was ordered to concentrate in area EAST of DONDERDONK 3930 with a view to adv North on right flank of 227 Bde following day. Conc complete by 2000 hrs.	3929
DONDERDONK	27 Sep		The Bn was to attack and capture FRATERSHOEF 3832 during the day but owing to reports of strong enemy opposition from 6 KOSB this attack was put off until night and the objective reduced to the two groups of houses at 395323 and 393320. The attack went in at 2100 hrs with "D" Coy right and "C" Coy left preceded by a heavy artillery conc on the objective. "	2		Normal routine in the line was carried out. The weather was dull and cold. OPs were manned along the front by day and listening posts right on the river bank by night.	
"	3		Normal activity throughout the day. At night assistance was given to two agents who were put across the river in a rubber boat. It was an ideal night for the job which was successfully accomplished.	
"	4		The Mortar Pl was concentrated in the area of B Coy and registered all its old targets once again for a battery shoot. Observation of the front was kept up throughout the day and very little enemy movement was reported.	
"	5		During the day S Coy moved to Hoeve Rosa and took up its HQ there. The Bn was visited by Phillip Stalker, war correspondent of the Scotsman. In the morning he visited B Coy and the Mortars with the CO, and after lunching at Bn HQ he was taken by the 2 IC and the IO to see C and A Coys. Finally he was taken to the Int OP where he witnessed a shoot on a farm some 600 yds inside the enemy lines. He was delighted with all he saw and duly "wrote up" the Bn on his return to Scotland. The GIII Camouflage from Corps visited the Bn and professed himself to be very satisfied with camouflage in the Bn area, particularly screens which had been constructed by B Coy.	
"	6		Normal routine throughout the day. The Div Comd visited the Bn and had a look at the front from various places.	

"	7		The weather was very poor, but despite that, the Bn began to make preparations for its relief the next day by the 6 KOSB, advance parties of which arrived in the area in the afternoon. O Gp met at 1800 hrs.	
"	8		The Bn was relieved in the line by 6 KOSB and the relief was completed by 2000 hrs. Bn HQ moved to ROOTH with coys at SEVENUM, ROOTH, MAASBREE, WIELDER and OPDENHOUT. HQ Coy and A and B Ech did not move. The 6th Indep Dutch Coy came u/c the Bn.	
ROOTH	9		The day was spent resting and re-organising. A large programme of entertainments had been organised for the troops and many availed themselves of the opportunity.	
	10		Still resting. Major Boyle GSOII 8 Corps visited the Bn.	
	11		The Bn was still resting, but preparations were begun for the move back up the line to BLERICK.	
BLERICK	12		Advance parties moved off to BLERICK in the morning and the remainder of the Bn followed in the evening and relieved the 8 RS there by 2000 hrs. 6 Ind Dutch Coy reverted to comd of 8 RS and B Sqn 15 Recce Regt came u/c of the Bn. It was a very quiet take over and no difficulties were experienced.	
"	13		A very busy day spent settling in. Two photographers from 2nd Army came round and took photos of the whole front, particularly the bridge area. Intermittent shelling throughout the day. Bn snipers were active throughout the day.	
"	14		Normal line routine was carried out. The 2 IC went off on a recce of rest areas in BELGIUM. Offensive shoots were carried out against the Bosche, but drew very little fire back from him. Bn snipers were very active.	
"	15		C Sqn 15 Recce Regt relieved B Sqn already under comd. The Bn was visited by the Brigadier, and later by OC 2 Gordons whose Bn was going to relieve on this front.	
"	16		Harbour parties left to join 2 IC in GRAMMONT. The GII 15 (S) Div visited the Bn in the afternoon. Normal routine continued. Enemy shelling was intermittent.	
"	17		Advance recce parties from 2 Gordons visited the Bn area. They were accompanied by RAF officers who had taken part in the bombing of VENLO bridge. The latter were shown their handywork by the I Sjt from a forward OP. The GI 15 (S) Div, Commander 44 Bde and the GOC 8 Corps paid an unexpected visit in the afternoon and toured the forward positions looking out at VENLO from a fwd OP. The GOC expressed satisfaction with everything he saw.	
"	18		A very quiet day and normal routine was carried out.	

"	19		Advance parties of 2 Gordons arrived during the day and were shown round the area. The Bn prepared for its relief on the morrow and O Gp met at 1730 hrs. A formal farewell was taken of the Bosche at 2200 hrs, the Bn firing everything it had, including captured 75 mm guns. Unfortunately shortage of amm prevented the gunners from joining in. The enemy suffered in silence.	
"	20		The day was spent in handing over, and the Bn finally moved out to an area South of BOKEND. The handover to 2 Gordons was completed about 2000 hrs.	
"	21		The Bn moved in TCVs commencing at 0700 hrs to the area of GRAMMONT, BELGIUM which was reached at 1800 hrs. Bn HQ and HQ Coy were located at IDIGEM with coys in all the neighbouring villages. The track vehicles did not accompany the Bn and remained in ASTON under comd of Capt Brodie. A tremendous ovation was given to the Bn on its arrival in this area. All ranks were housed in private billets.	
IDIGEM	22		The day was spent settling in and reorganising. Orders were received at 2000 hrs for advance parties to move to HERENTALS at first light next day. Parties were collected with difficulty and spent a very uncomfortable night in Bn HQ.	
"	23		Resting continued. Adv parties moved off at 0700 hrs.	
"	24		Resting continued.	
"	25		The CO held an O Gp at 1400 hrs and gave out orders for the next day's move, the timings of which were still on an H hour basis. The tracked vehs u/c Capt Brodie moved to TILBURG to join the adv party under the 2 IC.	
TILBURG	26		The Bn moved off at 1600 hrs to TILBURG and arrived there after a very cold journey at 0100 hrs. All ranks were once again billeted out in private billets.	
"	27		Tuesday was spent settling in to new location.	
"	28		Reorganisation continued and trg was commenced.	
"	29		Gen trg	
"	30		Gen trg. The CO went to a conference convened by Corps Comd and learned the outline plan for op VERITABLE.	
"	31		Gen trg for rifle coys. Serious planning for the new op VERITABLE was commenced.	I Mackenzie Lieut-Colonel, Commanding 6th Bn. Royal Scots Fusiliers

TILBURG	1		Planning for operation VERITABLE was carried on with IO very busy making up aerial photos. Coys continued normal trg on assault lines ie trg with flails, AVREs, crocodiles.	
"	2		Coys continued their specialised assault trg. The CO briefed Coy Comds to the effect that the Bn would take part in a major operation in the near future. The Sjts held a very successful dance which was attended by all offr. s.	Appx 'J' No4
"	3		Further trg as above. The CO briefed all offr. s to the effect that the Bn would take part in a future operation.	
"	4		In the morning the Comd 30 Corps put all offr. s of the Div in the big picture, followed in afternoon by Brigadier giving his outline plan on cloth model - down to and incl Coy Comds. Recce party to Nijmegen.	
"	5		Lt Col Mackenzie DSO went on UK leave. Maj Harrison assumed comd with Maj HM Gow MC as 2 IC. Bn outline plan given out down to pl sjts and all supporting arms.	Appx E No1 Appx G No1
NIJMEGEN	6		Occupied in packing up for move. Bn moved by MT to Nijmegen at 1600 hrs and arrived shambolically at 0200 hrs.	Appx J No1
NIJMEGEN	7		Final check up of plans. 2 IC received orders for move of the Bn on the commencement of op VERITABLE. CO and IO attended final tying up of Bde plan at 1700 hrs, followed by final Bn conference.	Appx J No7
"	8		Op VERITABLE commenced at 1030 hrs. CO, IO and Capt Sullivan went fwd with Bde "R" Gp to follow the battle and watched 46 Bde attack up to FRASSELT. Remainder of Bn stood by all day, ready to move, and finally did so at 2100 hrs. Good weather conditions which had prevailed by day deteriorated at night and the Bn spent a miserable night in kangaroos.	
NUTTERDEN	9		Roads by this time were almost impassable and many vehicles were bogged. The Brigadier decided to push the 6 KOSB ahead on to our	

			objective as it was impossible to pass the Bn through them. Two coys were finally moved up on kangaroos, and two pls, Bn HQ on foot and occupied WOLFSBERG without opposition. Some PWs were taken incl one offr. Later on the same day "C" Coy took over HINKSBERG after the KOSB had moved towards MATERBORN. This was the Bn's first view of the Siegfried Line. Considerable enemy harassing fire and some air activity were encountered.	
CLEEVERBERG	10		At about 1300 hrs the CO got orders to clear wooded area NW of CLEEVE. At 1645 hrs Maj ADN Hunter MC with u/c one FOO, the Carrier Pl and one det of A Tk guns and the Bn Wasps were despatched to take the CLEEVERBERG feature as a firm base for the rest of the operation. The Bn moved off at 1900 hrs in the order D, C, Tac HQ, B, A Coys followed by elements of S Coy. On arrival at the CLEEVERBERG feature the CO found that it had been successfully cleared against considerable opposition, flame throwers having proved invaluable. D and C Coys were not to be found, but they finally arrived on their objective against only minor opposition. A and B Coys then walked on to their objective without any opposition. Bn HQ was established in the cellar of a beerhouse at KLEEVERBERG. The Bn unfortunately received a number of casualties in the operation, Maj ADN Hunter MC receiving wounds whilst leading the assault on CLEEVERBERG, from which he subsequently died. D Coy suffered some casualties from a clash with an enemy outpost. Approx 7 PW were taken.	
CLEEVERBERG	11		At first light the CLEEVERBERG feature held by the Carrier Pl was counterattacked in about coy strength. The enemy was halted by the use of the A Tk Pl dismounted, as a reserve, and finally put up the flag on the arrival of 2 tps of tanks (No 1 Sqn 4 Gren Gds). 1 officer and 35 other ranks were taken prisoner. In the course of the night and first light coys had exploited to the edge of the wood overlooking CLEEVE, D Coy meeting stiff opposition from their left flank. A Coy suffered some casualties from our own arty. Lieut Tatnell and six ORs being wounded. 227 Bde clearing the woods to the West of our posns flushed some Germans across our left flank and afforded D Coy an excellent shoot. 8 RS and 6 KOSB moved through into CLEEVE with two of our coys under command (B & C) which the CO visited when in posn that night.	
CLEEVE	12		CLEEVE was now reported clear and the rest of the Bn having been relieved by the Regina Rifles moved up into billets to the West side of the town, and proceeded to rest.	

"	13		The Bn was under short notice to move under 53 Div to the Reichswald Forest area but this move did not materialise.	
"	14		Still resting in CLEEVE. Warned that a move towards GOCH under 43 Div might come off. Considerable enemy aerial activity was experienced but no casualties were sustained.	
"	15		Future plans still uncertain and Bn still resting, retaining our excellent billets against strong opposition.	
"	16		Reverted to comd 15 (S) Div and warned for possible operation against GOCH.	
"	17		In the afternoon orders were received for the assault on GOCH by 44 Bde. CO outlined plans to Coy Comds.	Appx E No2
SE of CLEEVE	18		O Group met at 1000 hrs and Bn moved off to FAA at 1100 hrs. CO and O Group went forward to Tac Bde HQ. It was thought that there might be no enemy in GOCH and accordingly one Coy of 8 RS was sent down Carter route as a recce in force. When this met with considerable opposition the Brigadier decided to put in original attack with a modified fire plan to fit in with 51 Div attack on the right. For this operation 6 RSF were in reserve and moved off at 1730 hrs. As the opposition encountered by 8 RS was stiffer than anticipated, it was impossible to pass 6 RSF through, and they were finally halted in line of march in the order C, B, Tac HQ, A and D Coys with the leading Coy on the start line. The night of 18/19 was spent in this way.	
GOCH	19		At 0700 hrs the Bn moved along the southern route into GOCH with orders to secure the river line in the middle of GOCH. Soon after moving off the Bn came under intense shell and mortar fire from the area south of the R. Liers. Maj Harrison, acting CO, was among numerous casualties (nasty wound in the arm). The IO established Bn HQ about five hundred yards from the centre tank ditch covering GOCH, and Maj HM Gow MC came up from Rear Bn HQ to take over command. Meanwhile C and B Coys were reported by the FOO to be nearing their objective (Bn wireless communication had broken down at this period) and No 1 Sqn 4 Gren Gds did good work in keeping the left flank quiet. The CO and the IO then went up with D Coy and found the other three coys consolidating on their objectives, having met only moderate opposition from small arms, though still under heavy shell and mortar fire. Bn HQ was moved up to the area two hundred yards East of rly line in GOCH and the remainder of the day was spent in mopping up in the immediate area of Coy objectives. A night patrol of Phantoms under Sjt Rees reported enemy pockets still in the area between ourselves and 6 KOSB. The Bn continued to sustain fairly heavy casualties which	

			included Maj HL Mackinnon wounded and Lieut Coote wounded but remaining at duty (in command of C Coy). It is interesting to note that physical contact was established with 51 (Highland) Div on a partially blown bridge across the river.	
GOCH	20		Coys were allotted areas for mopping up, and B Coy in whose area Sjt Rees had reported enemy the previous night, had u/c one troop of 1 Sqn 4 Gren Gds. No one of the coys found any enemy though B Coy found signs of recent occupation where the patrol had indicated. Though all enemy were cleared on our side of the river, he appeared still to have observation from the SE end of GOCH which 51 Div had not yet cleared, and there was still sporadic SA fire from this area and the shelling and mortaring was still at times heavy. A few more casualties were sustained incl Lieut Readwin our LO from Bde who was wounded while bringing a marked map to the Bn. Lt Col Mackenzie DSO returned late in the evening and reassumed command.	
"	21		Bn HQ was moved to a more spacious cellar in the early a.m. Orders were received by the CO while on the way to meet the Corps Comd that the Bn would be relieved immediately by 2 Mons and would come u/c 227 Bde for an operation that night. The CO reported to HQ 227 Bde for orders and then proceeded on a recce with Brig Colville, sending the IO back to arrange "O" Group and the moving of the Bn. "O" Group met at 1530 hrs and the Bn moved by Coys to an FAA by 1630 hrs. The Bn objective was a bridge 800 yards south of the Schloss KOLBECK and the task of the Bn was to rush the bridge and form a bridgehead on the south side as a start line for future operations by 46 Bde. H hour was 2000 hrs. A Coy, first in the order of march, successfully rushed the bridge without encountering much opposition, but attempts by the other three Coys to extend the bridgehead met with fierce opposition both from SA and mortars. It was eventually decided that coys should dig in where they were and extend the bridgehead at first light with the assistance of tanks. Enemy shelling became intense during the night: some of this seemed to be at short range from SP guns - this was confirmed by the fact that one WASP was knocked out by an SP gun (another WASP was lost on a mine). Casualties were considerable, both from shelling and SA.	
Woods South of SCHLOSS CALBECK	22		At approx 0600 hrs the CO held an O Gp of Rifle Coy Comds plus comd of a Sqn of 4 Coldstream Gds and tp comd of SP Anti Tank guns. It was decided to enlarge the bridgehead first to the right with B Coy supported by one tp of tanks. An enemy counter attack came in on B Coy while the Coy Comd was giving out his orders and	

		<p>"O" Group suffered casualties of two pl comds wounded (one being Lieut VE BOX) and CSM Barlow killed. The tp of tanks unaware that orders had not reached the men, for 15 mins engaged some houses on the right flank and on finding that they had covering infantry withdrew. Just after news of the situation had been received by the CO, Brigadier Colville came up to Tac HQ and gave orders that the bridge was to be held at all costs and that he did not expect the Bn to extend it further. He also promised that 46 Bde would come through later in the day on a revised plan. Coys then dug in where they were with the tanks within the perimeter of the bridgehead in support. 46 Bde passed through at 1400 hrs and captured and consolidated our Bn objective against fairly heavy opposition. The Bn were relieved at 1800 hrs by the reserve Bn of 46 Bde reverting to comd 44 Bde at present in reserve. Shelling and mortaring during the day was as heavy as any encountered since GHEEL and casualties were considerable and included Lieut TAK Savage wounded.</p> <p>Maj ADLER, Maj BOCKENHAM, Lieut BINGE joined the Bn as rfts and remained at "A" Ech.</p>	
"	23	<p>44 Bde attacked through 46 Bde and the Bn was in reserve for this operation but under notice that it might have to find up to three coys (B Coy being too weak to be available) to take over ground taken by 8 RS and 6 KOSB. In the course of the day A Coy went u/c 8 RS at 1100 hrs, followed by D Coy at 1400 hrs, their moves being coordinated by the 2 IC.</p> <p>C Coy went u/c of 6 KOSB at 1800 hrs. Shelling and mortaring was still heavy in the forward areas and all the above Coys had a very unpleasant approach march and a few more casualties were suffered.</p>	Appx E No3
"	24	<p>A, C and D Coys still u/c 8 RS and 6 KOSB. Bde received a warning order that it was coming out for a rest and harbour parties left under 2 IC at 1800 hrs for TILBURG.</p>	
"	25	<p>A C and D Coys spent another uncomfortable day as above and the whole Bde was relieved by 9 Bde of 3 (Brit) Div by midnight. Coys on relief moved to conc area in the neighbourhood of Bn HQ.</p>	
VUGHT	26	<p>Bn moved off at 1800 hrs in TCVs bound for TILBURG. It was stopped just South of S'HERTOGENBOSCH by the advance party with the news that their billets which were to have been in VUGHT had received two direct hits from V1's. Accommodation for the night was found in the Monastery at STARRENDAL and harbour parties went on to TURNHOUT.</p>	Appx E No4 and 6

TURNHOUT	27	Bn moved off again at 1000 hrs for TURNHOUT and were met there by the advance party at 1230 hrs. Practically the whole Bn was housed in civvy billets.	
"	28	This day was spent in settling in and administration. The CO held a conference of all officers and WOs and gave new Bn order of battle.	I Mackenzie Lieut-Colonel, Commanding 6th Bn. Royal Scots Fusiliers

TURNHOUT	1		Bn trg in the morning including a drill parade. Recreation in the afternoon.	
	2		Same programme as previous day. The Bn is sending large number on 48 hrs leave to BRUSSELS.	
	3		RSM's parade, which was a rehearsal for the GOC's visit to the Bn. Still large numbers in BRUSSELS.	
	4		Church Parade Bde HQ in the morning. In the afternoon the CO, 2 IC, MO and a representative party under comd of Lieut Binge attended a Div Memorial Service in TILBURG. Massed Pipe Bands of the Div beat Retreat after the Service.	
	5		GOC inspected the Bn. He thanked all ranks for their excellent performance in recent fighting. Harbour parties under 2 IC left for HERCK LA VILLE (South of DIEST). An officers' dance was held at Bde HQ.	
HERCK LA VILLE	6		Bn moved in TCVs to HERCK LA VILLE.	
	7		Coys at Coy Comds disposal for settling in and adm. CO went on 48 hrs leave to BRUSSELS. 2 IC attended a conference at Bde and received outline plans for rehearsals for a large river crossing operation, also an indication of the Order of Battle for the RHINE crossing.	
	8		2 IC saw RE Fd Coy Comd regarding mock-ups (Class 9 Rafts) for practising drivers. Bn employed in testing and zeroing weapons.	
	9		A Buffalo arrived in Bn area. Coys still mainly occupied in zeroing. CO returned from BRUSSELS.	
	10		Coys allotted periods for practising getting on and off Buffalos. MT and Sp Coy practised driving on and off the Buffalo. The Bn held a trial football match in order to pick a team to play the 6 KOSB. CO outlined coming events to Coy Comds.	
	11		I Sec busy with maps for coming exercises. Church Service held in Convent, where B and C Coys were billeted.	

	12		MT loading trials were held by 2 IC with a view to crossing a large river with limited MT. C Coy held a dance in a neighbouring village.	
	13		The day was mainly spent in briefing on all levels for coming exercise to cross the MEUSE from West to East just South of MALSYCH.	
	14		Bn left in TCVs for assembly area at 0700 hrs. Order of Battle for crossing was 44 (L) Inf Bde Right, 227 Bde Left. Within the Bde, 6 RSF Right, 8 RS Left, 6 KOSB in reserve. The two assaulting Bns crossed in Buffalos. The reserve Bn in storm boats. The exercise went well and many useful lessons were learnt. Unfortunately the CO's Buffalo broke down and he never got across the river. The Bn was back in billets by 1930 hrs.	
	15		The Bn left in TCVs at 1500 hrs to repeat the above exercise by night. Again the CO's Buffalo broke down, but a duplicate 22 Set reached the far bank and made communications possible. The Bn was back in billets by 1000 hrs.	
	16		The Bn was mainly occupied in resting and cleaning up. Maps and photographs for the RHINE crossing started coming in.	
	17		I Sec preparing maps etc for exercise TORCHLIGHT.	
	18		CO briefed Coy Comds on model and air photographs. Advance parties under OC S Coy left for assembly area on the RHINE.	
	19		The model was allotted to each Coy in turn for briefing of Pl Comds. Activity in the I Sec had now reached feverish proportions.	
	20		CO gave outline of coming operation to all NCOs. The Adjutant and RSM of the 2nd RSF came over to lunch, having arrived in BELGIUM from ITALY a few days before.	
	21		Viscount Lord Trenchard, Colonel of the Regiment, visited the Bn. In addressing the Bn he said that wherever he went he heard praise for the great deeds the Bn had performed. In the afternoon the CO and Rifle Coy Comds left for the assembly area.	
	22		The CO and Coy Comds spent the day on recces and tying-up the operation for crossing the RHINE. Meanwhile, the Bn left in TCVs under the 2IC at 1800 hrs.	
SEELLENHOFF	23		The Bn arrived at first light in the assembly area. Troops rested in the morning and were briefed and did recces in the afternoon. H hour was fixed for 0200 hrs on the 24th. At midnight the Bn moved off in Buffalos.	
THE RHINE And	24		At 0200 hrs the Bn hit the river opposite Xanten. The Bn crossed three Coys up, "D" Right, "C" Centre, "B" Left.	

BISLICH		<p>The second wave, consisting of the CO, A Coy, Supporting Arms Comds and various pre-loaded vehs followed.</p> <p>By 0220 hrs the three leading Coys were on their preliminary objectives, which were all on the bund some 250 yards on from the actual bank of the river. The Carrier Pl dismounted had a stiffish fight to capture a house which had been booked for the RAP. They sustained several casualties from AP mines as well as small arms fire. However, the house, after some hand to hand fighting, yielded 40 prisoners.</p> <p>In another 15 mins the three leading Coys were on their first objectives. (B Coy halfway up the village of BISLICH, C Coy at Xrds just to the East of the town and D Coy a row of houses along the bund to the East of C Coy). Bn HQ was set up in D Coy's area. By 0330 hrs first objectives were cleared and consolidated and the CO gave orders for Coys to continue to their second objectives, which entailed C Coy expanding North, D Coy East and A Coy further East into the area of a large factory. "D" Coy unfortunately received two of our own shells in the middle of them while preparing to continue their advance. They sustained about twenty casualties, including all Pl Comds, Lieuts Murphy and Binge among them. Prisoners were now coming in fast. By 0415 hrs Coys were on their second objective, and vehs were coming over the river. Shelling and mortaring had been light throughout and casualties surprisingly small. At 1000 hrs the airborne operations commenced. This was an awe inspiring sight, and any scattered resistance on our immediate front collapsed, when they saw our airborne troops coming down in hundreds to their rear. The whole Bn then expanded further to the East against negligible opposition, and spent a remarkably peaceful night for the first across the RHINE. A large number of prisoners were taken during the day.</p>	
HORSTER	25	<p>At 1000 hrs 44 Bde set out in an advance to contact formation in the order: 6 KOSB, 6 RSF, 8 RS to make contact with our airborne troops in the woods to the North of BISLICH. This was achieved without serious opposition, and the Bns received the warmest of welcomes from our airborne troops. The Bn took up a defensive position in the area of HORSTER. Coys sustained some fairly heavy and accurate shelling. Lieut Tait (A Coy) was slightly wounded and spent the night in the RAP, but returned to duty the next day. A small enemy convoy apparently unaware of our presence ran right into B Coy's area, who captured one veh and several prisoners.</p>	

			Copy of letter received from the Prime Minister is attached at Appendix J.	
Bridge West of DINGDEN	26		<p>During the night the KOSB had been advancing with a bridge across the river ISSEL as their objective. The KOSB encountered considerable opposition and by daylight were still held up short of the bridge and had not discovered whether the bridge was blown or not. The Brigadier decided to put 6 RSF through to capture the bridge or the site of it. The Bn was allotted kangaroos and a Sqn of the 4th Armd Bde in support. At 1400 hrs D Coy moved off to capture a small wooded feature on this side of the river as a preliminary to the main operation. "D" achieved this successfully against only slight opposition, and took about 60 prisoners. "D" Coy established the fact that the bridge had been blown. The plan for the remainder of the Bn was that "C" on the right of the bridge and "A" on the left should leave their kangaroos on the near bank and covered by fire from tanks get over the obstacle each to a small wood some 200 yds over the river. This "A" and "C" Coys successfully achieved but not without considerable opposition. One kangaroo being blown up by a Bazooka. "B" Coy then crossed and held the immediate area of the bridge site. Shelling and mortaring by this time had become intense and attempt to put a scissors bridge over the river failed, when the bridge was hit by a shell. Coys received considerable casualties and the CO asked the Brigadier for more infantry to hold the bridgehead until a Class 40 bridge could be erected by the REs. At about 1800 hrs a Coy of the 8 RS arrived to come under comd. This Coy relieved C Coy on the right. C Coy Comd Maj Adler, who had been wounded some hours earlier, only allowed himself to be evacuated after this move was completed. After dark a thunderstorm and heavy rain made it impossible to get any transport except Weasels even as far as Bn HQ, which was near D Coy three-quarters of a mile on the near side of the river.</p>	
	27		<p>In the early hours of the morning the Coys somehow collected a meal from weasels, and at 0300 hrs the Engineers commenced to build a Class 40 bridge under a noise cover plan from arty MGs and mortars. To their great credit the Engineers completed the bridge by 0600 hrs, although most parts of the Bn area were heavily shelled all night. As soon as the bridge was completed the Bn's 6-pdrs and two troops of SP guns crossed the river and were in position before it was fully light. Shelling continued heavy all day. At about 1500 hrs the 8 RS Coy on the right were counter-attacked in some strength. This interfered with 160 Bde</p>	

		(53 Div) who were due to launch an attack through us at 1600 hrs. However, 6 RSF were able to borrow two tps of tanks from the Bn of the Welch Regt who should have gone through. The posn on the right was finally stabilised at about 1800 hrs. Meanwhile the 6 RSF had been given two Coys of 6 KOSB under comd, and these were used to extend slightly and strengthen the bridgehead as a really firm base for 160 Bde. The Bn of the Welch Regt finally passed through at midnight. The MO, Capt Pooley and Capt Mann were among the casualties from shelling.	
	28	The night had produced a remarkable change and the shelling had almost ceased. During the day more and more of 53 Div went through and 6 RSF were able to stand down and get some well earned rest. Bn HQ moved across the river early in the morning, and the Coys of the KOSB and RS returned to their own comd.	
	29	By this date, the Bn ceased to have any operational role and spent the day making itself comfortable and in getting better billets.	
	30	The troops spent the day cleaning up themselves and their new billets. The CO and Coy Comds on promotions and re-organising. General Barber, his CRA and GII, came to tea.	
	31	A salvage drive for enemy equipment and jerricans was put into action. The BM came to tea. The Brigadier and Lt Col Richardson 6 KOSB came to dinner.	I Mackenzie Lieut-Colonel, Commanding 6th Bn. Royal Scots Fusiliers

Place	Date	Hour	Summary of Events and Information	References to Appendices
West of Dingen	1		Easter Sunday was observed by all denominations at three separate services. The CO went to visit the 4/5th Bn but found they had moved.	
"	2		Coys spent the morning firing and zeroing all weapons. Six officers and 22 other ranks joined the Bn. Lt BCT COOTE (rejoined from wounds). Lt RW OWENS, Lt L SOBEY, Lt RB DODMAN, Lt J WROTH and Lt DW MURPHY.	
"	3	2300	Received warning order that the Bn would be moving to an area NORTH of BOCHOLT. At 2300 hrs harbour parties were given orders to proceed next morning to CLEWEN (North of MUNSTER). CO dined with 6 KOSB.	
"	4	1000	Harbour parties left at 1000 hrs for GREVEN but were sent on to BORGHORST. Bn's move was postponed for a day.	Appx E No5
BORGHORST	5	0715 1200	Bn left at 0715 hrs on TCVs and arrived at BORGHORST at 1200 hrs. The CO saw the Brigadier and was informed that 15 Div was now under command of 8 Corps, which now consisted of 11 Armd Div, 6(Br)Para Div, 6 Gds Armd Bde, 15(S) Div and a Cdo Bde Gp. 15(S) Div would probably take up the running from 6 Para Div and head for HANOVER.	
"	6	1130	Field Marshal MONTGOMERY stopped his car at BHQ and chatted for ten minutes with the CO and 2 IC. Harbour parties left for LAVELSLOH.	
LINTELER	7	0730	The Bn left in TCVs at 0730 hrs and met harbour parties in LINTELER. Support Coy rounded up 5 prisoners in their area.	
"	8		Coys conducted a house to house search over a fairly wide area. Five prisoners in uniform and a small amount of arms and eqpt were collected. Also a few dubious characters were put away through POW channels.	
"	9	1900	The day was devoted to Coy training. A warning order to be ready to move early next day arrived at 1900 hrs. At midnight details of move across the WESER were received.	

DOHREN	10	0915	Bn left in TCVs at about 0915 hrs and arrived at DOHREN at 1300 hrs. Harbour parties warned to RV next day at 1815 hrs. A message of congratulations on the Battalion's part in the crossing of the RHINE received from the Colonel of the Regiment, Viscount Trenchard.

CELLE	13	0830	Harbour parties left at 0830 hrs, the Bn at 1000 hrs. The latter arrived in TCVs at CELLE about 1230 hrs. 44 Bde is still in reserve.	
HOLDENSTADT	14		The Bn left in TCVs in a semi-tactical formation up the main Div axis to UELZEN. The Bn was directed to a conc area at SUDERBURG. At 1900 hrs the CO was informed that the Bn had been put under comd 227 Bde to assist in the clearing of UELZEN. The CO left at once for 227 Bde HQ and the 2 IC took the Bn to another conc area in HOLDENSTADT. The CO held an O Gp and outlined a plan for assisting in the occupation of UELZEN. The operation would not start before midnight.	Appx E No5
	15	1000 1045	227 Bde met stiff opposition in the outskirts of UELZEN and were held up. 6 RSF spent an uncomfortable night at short notice to move. At 1000 hrs the CO was informed that the Bn had reverted to command of 44 Bde. He went immediately to 44 Bde HQ and received orders. He returned and ordered O Group at 1045. 44 Bde have been ordered to open up an Axis round the EAST of UELZEN to enable the 6th Airborne Div to by-pass the town. The 8 RS were to form a firm base in the area BORNE (8883). Then 6 RSF were to secure the bridges in NIENDORF and if possible patrol forward to HALLINGDORF. The 6 KOSB would go through to HAMBROOK. The CO's plan was as follows: "A" Coy, the Carrier Platoon and a section of A tk guns to form a firm base in the southern edge of the woods to the NW of NIENDORF. "B" and "C" Coys were then to seize the bridges from the North using the KG line as an axis. "D" Coy to be used either for clearing the village or exploitation to HALLINGDORF. No 2 Sqn 4 Coldstream Gds were under comd with the task of shooting "B" and "C" Coys in from the area of the firm base. Before this plan had started to be put into operation a report came through gunner channels that NIENDORF was clear of enemy.	

			The CO accordingly told the Carrier Pl to proceed by their most direct route to NIENDORF and ordered "A" Coy and their supporting ranks to follow. The report that NIENDORF was clear was, however, ill-founded, as the leading carrier was narrowly missed by 2 rounds from a bazooka just outside the village. The carrier platoon dealt with this opposition and inflicted several casualties on the enemy and took a few prisoners. The CO on hearing that NIENDORF was not free of the enemy ordered the carriers to fight their way into the village, and otherwise reverted to the original plan. "C" and "B" Coys plus the Carrier Platoon successfully took the bridges and cleared the village without much further interference apart from some spasmodic shelling. "D" Coy then went through to HALLINGDORF followed by "A" Coy and later "B" Coy. CSM CADDEN ("B" Coy) was wounded and evacuated. A few more prisoners were taken but the main opposition was from some rather accurate shelling. The KOSB later went through towards HAMBROCK.	
NIENDORF	16		The day was spent in the same dispositions with A, D and B Coys in HALLINGDORF and the rest of the Bn in NIENDORF. The CO was warned by the Brigadier that as soon as 6 Para Div had taken LEHNEKE the 6 RSF would be required to take MEHRE as a prelude to night attack by 8 RS. During the evening a force consisting of the Carrier Pl, some A Tk guns B and C Coys under OC "B" Coy advanced and seized MEHRE without opposition. MEHRE was secured by midnight and soon afterwards "C" Coy moved to a brickworks about one mile to the North. Prisoners were taken during the advance and in MEHRE.	
HAMBROCK	17		"A" and "D" Coys seized HAMBROCK and Bn HQ moved there. The general attack on UELZEN was now beginning and the Bn's task was clearing the eastern suburbs. "B" Coy relieved "A" Coy at HAMBROCK and the latter Coy successfully attacked at 2130 hours. Lieut RJ TREWREN was wounded and evacuated. Later "D" and "C" Coys moved through clearing the streets of the Bn objective, and "B" Coy followed the following morning.	
UELZEN	18		The whole Bn was now in UELZEN having successfully cleared and seized a large area of the east part of the town.	Appx E No2
MASENDORF	19		The Bn left UELZEN and moved by march route to MASENDORF. The 2 IC went to England for a course and Major DEEKS took over duties of 2 IC.	Appx E No2 and No3
WULFSTORF	20		The Bn left MASENDORF and moved by march route to WULFSTORF.	Appx E No5

LUNEBURG AERODROME	21		The Bn left WULFSTORF and moved by march route to an aerodrome just east of LUNEBURG. It was an excellent area once it was cleared of the mess left by civilians. The Bn soon settled in.	Appx E No5
"	22		The Bn's programme was a general clean up of all admin pts. There were good facilities for this and the area soon looked like a peace time barracks in England. All vehicles were stripped for washing and cleaning. Signs were being renewed, and everyone was cleaning up. Medical inspections for Coys were started. A Canteen committee consisting of the 2 IC, Padre, RSM, PRI and Interpreter Sjt had an excellent canteen running.	
"	23		As for 22nd. Dental inspections were also started. Coy drill parades were held on the aerodrome tarmac.	
"	24		Inspections, drills and admin were in full swing when the disappointing news came through that the Bn was to move in to LUNEBURG itself the following day. Harbour parties left in the evening.	
"	25		The Bn moved into its area during the day. Pleasant, well furnished houses provided the billets and the Bn area was taped and barricaded off from the civilians. Canteen opened.	
"	26		Coy Comds briefed for Op "ENTERPRISE" (the assault over the ELBE), and pl comds in the evening. Coy drill parades and range shooting during the day.	
"	27		Early morning recce for operation. Coys training as for 26th during daytime. Co-ordinating conference at 1800 hrs for op.	
Woods East of BRIETLINGEN	28		Harbour parties moved to marshalling area. Marching personnel followed at 1400 hrs and pre-loaded vehicles and LVT vehs later. Marshalling area in woods to the EAST of BRIETLINGEN 8029. Final conference was held at 2000 and troops mounted their Buffalos at 2300 hrs.	
The ELBE	29		At 0200 hrs the Bn assaulted across the ELBE at ARTLENBURG with their immediate objective a limited bridgehead directly opposite. The RS were assaulting on our left and the Cdo Bde on the right - immediate objective: LAUENBURG. The KOSB were to pass through 6 RSF and 8 RS and later 227 and 46 to pass through the Bde. The CO's plan was:- (SEE FILE "OP ENTERPRISE", which incl:-) 1. 44 Inf Bde Op Order 2. RA 8 Corps Fire Plan Map 3. RA 8 Corps Fire Plan Map 4. 6 Aerial Photos showing Coy objectives:- Preliminary in yellow     ) 1st phase Intermediate in black     ) Bde plan	Appendix E No 6

The ELBE	29	<p>The Bn assaulted on two crossings.</p> <p>Right - "C" Coy leading followed by "D" ) Timed for "C"  Left - "B" Coy ) and "B" to land  together.</p> <p>"D" Coy were close on "C" Coy and were in fact an assault coy.  "A" followed on right as reserve Coy, preceded by Bn HQ. All  assault coys pushed on with great speed and quickly seized their  preliminary objectives taking many prisoners and having very few  casualties, and the intermediate and final objectives were  reached with the same result. About 0430 Tac Bn HQ unfortunately  sustained some heavy and accurate shelling, and there were many  casualties among the CO's personal staff. The KOSB had passed  through during the night and 227 and 46 Bdes were also pressing  on, so the CO altered slightly the Bn layout which was then as  per appx 7 in file "Op ENTERPRISE". Rear Bn HQ joined the Bn at  1430 hrs. In the evening the whole Bn, less RAP and minimum Motor  Pool, which had managed to cross with rations through the  exertions of the MRO moved up to JULIUSBURG, where a hot meal was  consumed.</p>	
JULIUSBURG	30	<p>There was little activity in this town, although Coys had dug in  on arrival the previous night. Balance Motor Pool arrived 1000  hrs. About mid-day the Bn moved to SCHWARZENBEK without incident,  except rumours of an SP gun on the left flank and an actual one  on the right. The Bn occupied the right half of the town and the  RS the left. Many prisoners were taken and no casualties  sustained. Once more the Coys dug in for the night.</p>	<p>I Mackenzie  Lieut-Colonel,  Commanding 6th Bn. Royal  Scots Fusiliers</p>

GRAINVILLE 9064	Sat 1	I	A patrol led by Lt KG BUY went out at night to ascertain if wood at 900643 contained enemy and returned reporting it clear. In the morning, at approx 0700 hrs, the enemy attacked with tks. The attack came in on C Coy's front and on the unit of the fmn on the right. A grim battle ensued in the course of which several enemy tks were knocked out. Eventually, however, through superiority in numbers and armament, all a/tk guns in the sector were knocked out and C Coy forced back. A gallant stand was made however on the Coy HQ line by Capt NC ROLLO and the remaining elements of C Coy. Acts of outstanding bravery were also performed by Capt J ELLIOT and Cpl WALLACE, both of whom continued to man and operate a/tk guns when the crews were killed until the guns were knocked out by direct hits. A few enemy tks succeeded in infiltrating round the right flank where the fmn on the right had fallen back, but the stand of C Coy prevented this taking place long enough for a strong armd counterattack to be put in in the evening which succeeded in restoring the situation. Two coys of 6RSF came under comd and by nightfall the line was again firmly est, if anything more strongly than before. The casualties for the day included Lt KG BUY, Lt HDP MINCHIN and 14 ORs killed, Maj RN GILBERTSON, Capt J ELLIOT and 53 ORs wounded and 41 missing (presumably wounded).

2nd Bn. THE GLASGOW HIGHLANDERS (H.L.I.)

FRANCE ----- JUNE JULY 1944.

1. CONCENTRATION.

The following is a brief account of the happenings to this battalion during its first odd ten days in France, 1944.

The rifle companies sailed from England and arrived off the French coast on the 17th June, disembarking at LA RIVIERE. They concentrated in the area south of VIENNE-en-Bessin and awaited the arrival of the rest of the Bn. These companies were under the command of the second-in command, Major J.C. Davies, M.C.

Bn HQ. with HQ and S. Companies sailed from London on S.S. Empire Brutus and arrived off the French coast about 2100 hrs Saty 17th June. Bad weather held up unloading until Friday 23rd June. It was not until 2200 hrs on the following night that the complete Bn was concentrated. This was half an hour before it moved to an F.A.A. for its first attack.

2. PREPARATION FOR ATTACK

The move to the F.A.A., area of SECQUEVILLE-en-BESSIN, was completed in darkness. The Bn. remained there all 25th June in an over-crowded area as well camouflaged as possible. Church services were held by Padre James Taylor and vehicles loaded for battle. As much de-waterproofing as possible was carried out in the short time available.

3. GROUND AND ENEMY

The objective of the Bn was Cheux, and the route lay through, and just east of LE MESNIL PATRY. It was held by the 12th Panzer Div. The country apart from farm buildings was studded with many orchards and the fields were thick with corn 3ft high. The maps of the area were bad and air photos were used. LE MESNIL PATRY was held by a Canadian Infantry Unit. They had been in the line for some days, but the nature of the country made it difficult to learn much of the enemy positions. O.Ps were extremely difficult to obtain. CHEUX, our objective was about 3000 yards from LE MESNIL PATRY, and there was a valley of dead ground in between, whilst Cheux itself was not visible because of trees and orchards.

There was no knowledge of any enemy mine-fields and little of his strength on the Bn front. Cheux passed under so many different pronunciations that it was decided to call it "CHEWKS", and it has been known as that in the Unit ever since.

4. PLAN.

(A) The Glasgow Highlanders were to attack between the 9th Cameronians (to its right) and 8th Royal Scots (of 44 Inf Bde, to its left). The boundaries are marked on the trace.

The start line was north of LE MESNIL PATRY and behind the Canadian lines. This meant that it was some 1200 yds behind the opening line of the barrage and gave leading companies one thousand yards advance through the orchards before the barrage lifted: a total of 400 to the objective.

The advance was planned at 100 yds every three minutes, the barrage lifting accordingly. A barrage was used as the enemy positions were not exactly known.

For this operation the division had the support of H.M. ships, between 250 and 400 medium bombers, and 16 squadrons of fighter bombers. The first two were to look after CARPIQUET, to the east, where it was

known that parts of the 21st Panzer Div were with their tanks. The fighter bombers were to look after road approaches from the south and south east.

The barrage and artillery concentrations on the Div front were to be fired by a total of 625 guns.

Each Bn had a squadron of Churchill tanks in support. 46(H) Inf Bde, in addition, had "Crocodiles" and A.Vs.R.E. in support, and ready for calls from Bns. The Glasgow Highlanders had a troop of "FLAILS" under command, for gapping minefields.

(B) The start line is marked on the attached sketch, also the opening line of the barrage. The barrage opened at 0730 on 26th June, remaining on its opening line for 10 minutes and then rising 100 yards in each three minutes until after crossing the main road where it paused for fifteen minutes before carrying on.

(C) The Bn plan was an advance with two companies forward, right "C" left "D", with "A" and "B" following. The latter were to do the mopping up. This task (in second priority to maintenance of momentum) was also given to the reserve plns of forward companies. (LESSON. This does not function in long corn as forward companies must not stop to mop up on the advance and the attack is apt to get pinned to the ground.) Later the G.O.C. decided it would be a better task for a reserve Bn or a reserve Bde.

A carrier- mortar group, under Capt. Johnstone's command, was detailed to watch our right flank and maintain contact with the Cameronians.

The 3" mortars were to remain mobile as the country offered no O.Ps and as there was such a heavy artillery barrage. (In the result this was agreed as right, but mobile fire controllers should still have moved with forward companies in order to get O.P.s quickly on the objective.)

Pioneer assault sections moved with each forward company to deal with enemy mines. They were not actually used as the attacking troops did not stop for any mine-fields.

Bn. six pounder anti-tanks guns were to move up to the objective as quickly as possible behind leading echelons of tanks.

Each forward company had two tps of Churchills in support. One to be up forward whilst the second covered it from the rear. Recces between tp and Pln commanders were carried out closely with this in view despite the difficulty of getting observation over the ground over which the attack was to pass.

The tank squadron commander was in wireless communication with the "Flail" tp. Each Churchill tp had a No. 38 Set netted to the leading Infy. Plns. Rear Companies 38 set nets co-incided with that of forward companies so that in the event of the C.O. having to pass through the rear companies on the intermediate objective (see sketch) infy-tank communications would not suffer. In the event no 38 set to a tank worked. There was no checking of nets in the F.U.P.

(D) Bn Command Post, consisting of the C.O. in his carrier, L.O. in Scout car from Tank Sqdn, and the Artillery Bty Commander in his Scout car, was to move on the left flank from O.P. to O.P. It was quite impossible to decide beforehand exactly where these would be. The Adjnt in a Scout car with the Bde rear link set was to bound behind. A report centre was named in CHEUX, just north of the first cross roads (marked R.V. on sketch).

## 5. EXECUTION

"H." hr was at 0730 at which time the artillery barrage came down on the opening line, staying there for 10 minutes.

"C" and "D" Coys moved along axis as shown on sketch and were well up behind the barrage by the time it first lifted. They pushed on and met their first heavy opposition well north of the two ("right and left") orchards. The enemy had put a mine-field across the front. Churchills and some of the unit carriers were blown up. Casualties also occurred from anti-personnel mines and MGs. But the troops pushed on and through.

"C" coy on the right became pinned by MG. fire from the many lines of trees on their front and reported this over the No. 18 set link. The C.O. could not produce artillery fire owing to "D" Coys progress. The tanks were being held up to an extent by the mine-field. "C" Coy was told to get on with its own weapons and it got forward to the next hedgerow where it suffered much heavier casualties again being pinned. "A" Coy was ordered forward to make contact with "C". This it did and assisted in clearing hedgerows.

Meantime "D" coy had pushed ahead of "C", and "B" Coy was level with "C". This allowed "C" to get on. "D" Coy suffered their heaviest casualties in the "left orchard", where they came under heavy enemy mortar fire in the area of the bridge. On the further side of this orchard Major Gray had to pause to speedily reorganise his coy into 2 plns. One pln had been left behind mopping up and this was brought forward at this stage to make up the other two before the coy assaulted the wood on the intermediate objective. This wood was captured, but another pause, this time of 20-30 mins, to allow for further reorganisation before "D" coy's advance could continue into CHEUX. The Coy was by now very short of N.C.Os and could only muster 2 plns. The C.O. had arranged an R.V. on the first objective but owing to the mine-field he was not able to meet "D" Coy before it had continued the advance. "D" Coy was ordered to carry on with this over the No. 18 set.

The barrage only paused for 15 minutes on this intermediate objective. This was not long enough in a 4000 yds advance. It would have been better (in order not to expend more artillery ammunition than necessary as it was always a bit short) had some smoke and H.E. been put down here for half to three quarters of an hour. Both forward companies now lost the barrage and had to move in the open.

"C" Coy, with "A" close behind crossed the intermediate objective on the right shortly after "B" Coy had done so on the left. "B" itself was behind "D". The C.O. met the tank Sqdn commander and O.C. "B" Coy just south of the original RV. ---- some high ground over-looking the northern buildings of Cheux, and waited here until the village was occupied. "D" Coy had pushed on and occupied the village. Patrols were sent out to contact the Royal Scots on the left and "C" Coy on the right, but both were fired on by the enemy. Thus "D" Coy was solely in occupation, without support. Success was reported to the Brigadier by wireless. The runner with Verrey pistols had been killed and lost on the way up. "B" Coy was then ordered into the village to move via the "jutting out" portion at 913673 and to occupy the right hand half. This, originally, was "C" Coys objective.

"C" Coy was ordered to take up a reorganisation position in rear of 913673 out of the buildings.

By the time "B" Coy had occupied the village, "D" Coy had cleared the opposition away and had now moved forward of it and started to dig-in. "A" Coy arrived sadly depleted. All officers except one were casualties and the same had happened in the case of "C" Coy. "A" Coy was ordered to join up in front of CHEUX, on the right and later put under command of O.C. "B" Coy.

Bn. HQ opened in a GERMAN dug-out beside the road at the entrance to CHEUX. The supporting tanks came forward and through the

village to take up anti-tank defence until the Bn six pounder guns were in position. Consolidation took some time owing to enemy snipers and the fairly heavy casualties suffered in the advance. The R.A.P. opened in a large barn near Bn HQ and soon found itself dealing with casualties from other units as well. The 7th Seaforths moved through on to high ground south of CHEUX but had to fight for it and were not successful until the following day. The tanks remained close up to the Bn until late that night.

#### 6. CASUALTIES DURING THE ATTACK.

"A" Coy.	(Major Carson in Command.)	Killed. Lt Keeble Wounded Lt Kehoe, Major Carson.
"B" Coy.	Capt Miller in command as Major White was L.O.B.	No officer casualties.
"C" Coy.	Major Lambie in Command.	Killed. Lt Waldie. Wounded. Lt. Blackadder, Lt. Wark.
"D" Coy.	Major Gray in Command.	Wounded. Lt Hollway.
"S" Coy.	Anti-tank Pln. Carrier Pln.	Killed Capt Wood. Wounded Capt Johnstone.
Other Ranks		KILLED. 19. Wounded and Missing. 178.

-----

#### 7. INCIDENTS DURING ATTACK.

Lt Wark of "C" Coy displayed outstanding bravery in mopping up enemy M.G. posts. So also did Cpl Shaw of "D" Coy, who although wounded, destroyed four of an enemy post by himself with hand grenades, and captured four more enemy. C.S.M Tait showed great coolness when so many of A Coy officers became casualties in reorganising the Coy under fire and directing the men on to their objective.

#### 8. CHEUX.

The Bn held the village until relieved the following morning. Constant enemy mortar fire was experienced in and in front of the buildings. Work in the R.A.P. had to continue under intermittent fire. Forward troops were sniped at whenever they moved. It was difficult to take action against these snipers who were hidden in a wood about 200 yds in front, as artillery fire was coming down on it every now and then from our own guns and the Seaforths were forming up there for their attack on the high ground to the South.

9.

When the Bn was relieved by 1st Worcestershires in Cheux it moved back to the orchard at 9168 for a brief reorganising. At 1400 hrs it was ordered to move to Colleville (926648) to relieve the 2nd Gordons of 227 Infy Bde. The route lays through thick orchard land and cornfields and snipers tried to delay our advance. But the Bn pushed on and occupied the village. During the night we again experienced enemy mortar fire including "nebelwerfer" which the "Jocks" named "Moaning Minnie" because of the wailing of the shells as they rushed through the air. The Bn received orders to move the next day -- June 28th -- to Mondrainville, and was just preparing to do so when a counter attack of unknown strength

developed. The Bn formed itself into a defensive position to throw back the attack which was supported by enemy tanks. We gained the support of some tanks of the 7th Armd Div which were in the Colleville area and together the attack was repelled. Our own mortars were given a fire task by the C.O. and our patrols later discovered that they had knocked out two enemy mortar positions.

One enemy wounded was found and was identified as 2nd Bn of Der Fuhrer Regt of the 2nd S.S. Panzer Div.

During the short, sharp fighting, Lt Loudon who had been L.O.B. and who joined the Bn in Colleville was killed, by it is thought a sniper in a cornfield.

The attack was thrown back, and the Bn dug in in its position until it was relieved the following day by the 10th H.L.I. The Bn had been ordered to Mondrainville and on the move "D" Coy came under enemy m.g. fire which was eventually overcome. The Bn dug-in at Mondrainville on June 29th and during the mortar fire which came down on our positions the Padre, the Rev James S. Taylor was killed when a mortar shell scored a direct hit on the R.A.P. truck. The Medical Officer Capt. T.S. Maw was wounded. Late in the afternoon an enemy counter attack supported by tanks over-ran part of the 7th Seaforths' position at LE Valtru and approached our Bn area. The C.O. was successful in securing the support of a sqdn of Churchill tanks and after fierce fighting the counter attack was beaten off. The night was comparatively quiet except for intermittent mortar fire and air burst shelling the following morning. On 30th June our O.Ps observed enemy movement in the area about 1500 yds south of Mondrainville. Heavy artillery barrages were put down on this and patrols later ascertained that many of the enemy had been killed in the woods where movement had been seen. On the night of the 30th we were told that the Bn was to be relieved by a Bn of the Monmouthshires. This relief took place in the darkness between midnight and 0400 hrs on July 1st. While it was taking place an intense artillery barrage was going down on enemy positions. This barrage, we learned later broke up what appeared to be an enemy counter attack as many machine guns were counted knocked and men German dead were counted.

#### The Bn

On July 1st the Bn moved back to the area Bronay, for rest and re-organisation. On July 2nd a church service was held and a tribute paid to the Rev J.S. Taylor. The Brigadier addressed the Bn and speaking of the weeks fighting said that it had more than maintained the fine traditions of the Regt. "I am proud to have such a Bn as yours serving in my Brigade." he said.

On the morning of the 3rd July the Divisional Commander congratulated the Bn and read the following message from General Sir Bernard Montgomery, C.inC. 21st Army Group.

"I would like to congratulate the 15th Division as a whole on the very fine performance put up during the past weeks fighting. The Division went into battle for the first time in this war; but it fought with great gallantry and displayed a grand offensive spirit. Scotland can well feel proud of the 15th Scottish Division, and the whole Division can be proud of itself. Please congratulate the Division from me and tell all officers and man that I am delighted at what they have done.

Good luck to you all"

Field	1st		Bn still in KESSEL. The enemy began the New Year by a wild firing of verey lights and tracers along the whole front at midnight. Between 0200 and 0400 hrs an enemy patrol apparently about 20 strong engaged the fwd sec position at 817998 and by attacking them from two sides by MG fire and grenades, succeeded in taking four of the section prisoners. The enemy was also engaged as it withdrew by the adjoining fwd post of the carrier Pl, but managed to evacuate under cover of mortar fire any cas incurred. The subsequent search of the area failed to reveal the method of crossing, but it is thought the enemy made use of the hrs of darkness before the moon rose. Activity during remainder of the day was slight. But good visibility enabled some further enemy posns to be determined. Warning orders issued for Bn to be prepared to hand over to 2 A&SH on following day. During the stay of the Bn in this sector, a large portion of the front was wired in spite of the frozen ground and the bright moonlight.	Cas: 4 W PW's: Nil RFT's: Nil

	24th		0030 hrs - Loading of LVTs completed. 0040 hrs Bn began moving down to river in LVTs. 0200 hrs. "A" and "C" Coys crossed river without cas but were landed several hundred yards to the right of the right hand objective. As a result "A" Coy had to take on the strong point of WOLFFSKATH 119461 (C Coy objective) in order to get on to their own axis. The river bank at this point was strongly held by 3 Coys of 1/21 Para Regt and the second wave together with Bn HQ were held up while the clearing of the bank was going on. On the landing of	

the 2nd wave an erroneous report was received that the leading Coys had cleared the bank. "B" and "D" Coys accordingly attempted to move fwd and Bn HQ moved inland from the bank although not landed in the correct place to get clear of stray fire falling near the river. When the posn became a little clearer it was seen that "A" and "C" Coys had succeeded in clearing most of the strong point around WOLFFSKATH but had suffered a large number of cas incl both Coy Comdrs wounded. "A" Coy lost their remaining Offr Lt Picken who was killed silencing a 20 mm gun which was fired directly at WOLFFSKATH. The Coy was rallied by the CSM and brought under comd of "C" Coy. "B" and "D" Coys had not been able to carry on to their objectives. Bn HQ having landed well to the right was for the time being in "No Mans Land" and was once attacked by small arms and grenades and subsequently fired on from both the right flank and from a posn on the river bank behind it which had been occupied since the landing. At 0500 hrs it was possible to extricate Bn HQ. The posn was then that "C" Coy had managed to advance some 500 yds north from WOLFFSKATH while "A" Coy had encountered large quantities of small arms fire in attempting to clear westward along the river bund. "B" Coy had been ordered to continue clearing the enemy posns westward along the bund as it was appreciated that advance inland was impossible until this was done nor could vehs safely be ferried over. "C" Coy were instructed to press on to their original objective in OVERKAMP 1247 with "D" Coy following up. Bn HQ was temporarily est at WOLFFSKATH 119461. 1000 hrs Airborne troops flew in across Bn area to their landing places. 1100 hrs. Coy of 7 SEAFORTHS supported by 2 troops of DD tanks reached Bn from 44 Bde bridgehead without having encountered any enemy opposition. "C" Coy had by now reached the southern edge of OVERKAMP where they were temporarily held up by determined opposition but were subsequently able to get fwd and allow "D" Coy to move through and capture the north end of OVERKAMP. On the left 2 A&SH had experienced similar difficulties in the initial stages of the attack and were still engaged in clearing the bund towards "B" Coy. At about 1200 hrs the two linked up and the bund was clear. To assist the Bde on to their further objectives a Coy from 7th SEAFORTHS with tank support was ordered to take LOHR 1047 while the remainder of the Bn passed through OVERKAMP to clear up REE 1147 MEHRBRUCH and MEHR 1248. 1600 hrs Bn HQ moved fwd into OVERKAMP at 123470 while "B" Coy joined the other Coys in concentrating nearby 123472. During the evening 9 CAMERONIANS passed through to attack HAFFEN 1149. During this day's action as

Diversion made and advance cont. 1320 hrs-Held up by further crater at 747670 covered by SP gun, Pl of "D" Coy deployed to stalk this gun which made off under cover of smoke. RE work being impossible a detour was made by tracks through the wood to by-pass the crater and cut off the enemy def it. 1900 hrs-Coln reached lateral rd at 780707 and leading Coys with tks cleared village of WEYHAUSEN on main axis. 2100 hrs-Bn withdrew into "Laager" area at 780707. Bde Comdr decided that the coln should</p>	<p>Cas: Nil PW: 40 Reinf: Nil</p> <p>Appx J.3.</p>

		cont its advance at midnight by cross-country route to UELZEN to avoid the many delays which would probably be caused by demolitions on the main axis. The Bn was given 3 hrs for rest and food.	Cas: Nil
	14th	<p>0015 hrs- CO gave out orders for continuing the adv. Fmn of coln to be as before. "C" Coy followed by "B" Coy to ride on tks followed by HQ and "A" Coys in TCVs. "D" Coy to remain in posn on far side of crater on main axis. Route:- By most direct side rds through HOSSERINGEN - SUDERBURG - HOLDENSTEDT - UELZEN. 0130 hrs- Coln moved off and made good progress with no opposition. A few enemy were overrun in the villages but the speed of our adv was unexpected. About 0430 hrs the coln passed through HOLDENSTEDT and began the final adv on UELZEN. On reaching the area 8886 the leading tks ran into an enemy coln coming towards them. Numerous flak sites on the open grd nearby sent up Verey lights and a General alarm was soon given. An enemy amn truck which had been set on fire trapped one of our leading tks in its flames and blocked the rd for a further adv. The enemy who had now been thoroughly roused began to come into action on either flank. In view of this and the fact that it was almost daylight the CO ordered Coys to hold objectives around the rd-rly crossing at 888868. "C" Coy attempting to adv to a posn on the road junc 892876 met an enemy counter attack coming in from their right front and pulled back to a firm posn at 890870. Meanwhile a number of enemy supported by SP 4 Barrelled 20mm AA guns, infiltrated from the woods to the east and cut the main rd where "S" Coy and part of Rear Bn HQ were halted putting out of action a number of vehs and taking 16 prisoners from "S" Coy. This party then manned further 20mm AA guns on the west of the rd and set on fire some of the TCVs in the Bn coln. Prompt action was taken by the Tp of 319 Fd Bty RA which had deployed beside the rd and fire was directed against the enemy over open sights, causing the enemy finally to withdraw. At 0715 hrs, "A" Coy supported by arty fire attacked enemy in a small wooded feature at 882872, which had been giving trouble. Over 70 PW were taken bringing the total to over 200 for the night's operation. The PW were found to belong to a new unit which had just arrived from DENMARK and was in process in occupying posns for a strong def of UELZEN. Between 0800 and 0930 hrs considerable parties of enemy cont to infiltrate into our posns particularly from the woods immediately to the east. During this time the Bn was cut off from the rest of the coln and engaged groups of enemy from all sides. One SP 20 mm which remained in action cont to give serious trouble by fire at very close quarters. At 0930 hrs the Bde Comdr sent fwd</p>	<p>Cas: 7 ORs Killed  1 Off &amp; 57 ORs wounded  PW: 214  Reinf: Nil</p>

		<p>an additional Sqn of tks to reopen the main axis to the Bn while at the same time the 2 A&amp;SH began to move fwd along our right flank to clear the enemy from the woods 8985 and 8986. By 1030 hrs the situation had eased except that "A" Coy in a rather isolated posn were being subjected to rather heavy mortar and MG fire. "D" Coy who had rejoined the Bn at this time were sent to assist them by taking up a supporting posn on their left flank. Since it was now appreciated that the enemy was holding UELZEN in strength the Bn consolidated and re-organised in its existing area while a Bde attack on UELZEN was prepared, to take place overnight. There was intermittent shelling of our posns during the remainder of the day. 2030 hrs- CO gave orders to the Coy Comdrs for the night attack. The Bn to capture the village of VEERSEN while 2 GORDONS passed through to enter UELZEN. Bn attack was to be made at 0030 hrs with "B" and "D" Coys fwd on tks and "A" and "C" Coys following to mop up. Arty fire plan to be put down before the advance.</p>	
	15th	<p>0030 hrs- Leading Coys moved off with tks. Strong opposition was met in the village but "D" and "C" Coys on the left succeeded in reaching their objectives at 8898883 and 887881 respectively. "B" and "A" Coys on the right had more trouble in dealing with enemy in houses and the tks were unable to penetrate more than 100 yds into the village owing to the narrow streets and presence of numerous "Panzerfaust" squads. At 0500 hrs all Coys were engaged in heavy fighting inside the village. "D" Coy had been counter attacked by an enemy force incl SP guns which fired into their posns at close range and made them untenable. "C" Coy in its firm posn at 887881 now became fwd Coy on the left. "A" and "B" Coys in their areas now began house clearing against heavy opposition which was now found to consist of 6 SP guns closely supported by infantry escorts of 6 to 10 men with Panzerfaust and automatics while snipers and MGs were sighted in houses covering every approach. Close quarter fighting cont all morning and in the course of it the CO was wounded. By mid-day it was decided that "A" and "B" Coys would continue their house clearing until the Bn was est on the line of the east-west rd running through the centre of the village. When this was finally achieved in the afternoon, there was still unlocated snipers in the area and the fwd posns were dominated by SP guns at ranges even of less than 50 yds. Numerous attempts which were made to stalk these resulted in one being put out of action, but the infantry escorts surrounding them made approach very difficult. As a result of the resistance on our objective and equally strong opposition on the main rd, 2 GORDONS on our right</p>	<p>Cas: 1 Offr &amp; 17 ORs wounded PW: 23 Reinf: Nil</p>

		had been unable to advance any further than we had. It was decided therefore that 46 Bde should attack the town, while 44 Bde cleared that part of the town east of the river in 9089. 46 Bde would take over existing posns of 227 Bde during the night. During the hours of darkness 9 Cams relieved the Bn.

In view of 11 Armd Divs breakthrough to LUNEBURG advance of 227 Bde now to be extended to area WENTHAUSEN 8921 : HOLZEN 9020 : REINSTORF 9819. Time of move dependent on time taken by 46 Bde to clear UELZEN. Advance later to be cont by whole Div to the ELBE and an immediate crossing made if opposition was light. 2000 hrs- Bn "O" Group. 	20th	<p>0005 hrs- Bn reached LUEDERSHAUSEN where br was still being built, infm received from Coy of 1st CHESHIREs in this location that ARTLENBURG was occupied by at least 1 Pl of enemy. 0100 hrs- Bn "O" Group. As Bde Comdr did not wish night attack to be made on ARTLENBURG, Bn would occupy posns at LUEDERSHAUSEN with "C" Coy fwd at MARIENTHAL 8233 as firm base for patrols. Each Coy to send Offr Recce Patrol to a selected area of the river bank to make a report on suitability of bank for storm boats or LVTs. 0230 hrs- "C" Coy est in posn and patrols began. 0600 hrs- All patrols returned and reported that they were unable to carry out full recce on account of enemy posns. Enemy were reported at southern, eastern and western approaches to ARTLENBURG. Also at AVENDORF 8135 and at points on river bank between these places. 0930 hrs- Enemy carried out recce of "C" Coy posns which was beaten off with cas. During the day REs attempted to build bridge over crater 823326 but were prevented from doing so by enemy SP guns dominating the ground from the far bank of the river. 1700 hrs- Bn "O" Group. Bn to capture ARTLENBURG by night exploiting to AVENDORF. 2 A&amp;SH on right and 2 GORDONS on left would be closing on river at same time. Commanding Officer Lt.-Col E.C. Colville

Place	Date	Hour	Summary of Events and Information	References to Appendices
MUNTHAM COURT	5		The Bn carried out a night exercise in the battle area behind FINDON. A lovely night with a full moon and excellent visibility gave the Bn an excellent picture of an Airborne Force and an idea that Invasion had started. Some three hundred planes, Dakotas mainly, against a midnight moon, appeared at 2000 ft for two hours tugging gliders South East. They reappeared almost immediately moving North West sans gliders.	RG Hogg Capt I.O.
	6		The Bn returned to camp 0600 hrs. The news of the Invasion was broadcast at 0800 hrs.	RG Hogg Capt I.O.
	7		Traffic Control party consisting of Lieut Dingwall, Sjt Atherton and two O.Rs left the Bn at 1630 hrs for FRANCE.	RG Hogg Capt I.O.
	9		The finishing touches are put to waterproofing, loading trials, packing kit etc.	RG Hogg Capt I.O.
	11		Capt Wishart, Lieut Fairlie, CSM Kernohan and D.R. Stocker, left at 2045 hrs as Advance Party to the Bn's move to FRANCE.	RG Hogg Capt I.O.
NEWHAVEN	18		Main body of Bn embarked at NEWHAVEN for France. The journey was made in very rough weather in a large troop carrying ship. The other portion of the Bn which was mainly the transport under the 2 i/c embarked at TILBURY on the ship EMPIRE FALSTAFF, 10,000 tons.	RG Hogg Capt I.O.
	19		This date still saw the Bn off the coast of France. The weather was extremely bad and landing was considered out of the question.	RG Hogg Capt I.O.
	20		Bn disembarked at ARROMANCHES and marched in parties to concentration area at VAUX-SUR-SEULLES 831785 (Sheet 7F/1 CAEN).	RG Hogg Capt I.O.
	21-25		During this period the rest of the battalion landed in FRANCE in small lots. The transport party under the 2 i/c, disembarked at COURSEULLES and moved to the concentration area between the 23 - 25 Jun 44. During the day 25, plans were completed for the first action of 15 (Scottish) Div. The plan was for 44 and 46 Bdes to adv through the Canadian line about Le Mesnil Patry and to capture a line through CHEUX. 227 Bde was then to pass through with 10 H.L.I. on right to take Granville-sur-Odon; 2 GORDONS on left to take	

FRANCE		<p>COLEVILLE and TOURVILLE, 2 A. &amp; S.H. were then to pass through 2 GORDONS and make a bridgehead over the River ODON at TOURMAINVILLE. 2 GORDONS would then take over the bridgehead and the 2 A. &amp; S.H. would hold the next crossing over the ODON to the West. The way would then be clear for the armour to go through and a complete break through was expected.</p>	RG Hogg Capt I.O.
	26	<p>During night 25 - 26 Jun, Bn moved from old conc area to a forward conc area and all day moved slowly up to our forming up place for the attack, just N. of CHEUX. The attack by 44 and 46 Bdes though successful, was slow and we were not able to form up with the supporting tanks until the evening. The Bn attack started at about 1830 with "A" and "B" Coys leading "C" and "D" Coys in the rear. A very heavy storm broke just as the Coys started and it was obvious that there would be no opportunity for the promised air support. The attack met with strong opposition from the enemy who had well placed M.Gs and several dug in tanks and A. Tk guns well positioned. Several of our tanks had been knocked out. "B" Coy were believed to have got through to COLEVILLE but "A", "C" &amp; "D" Coys had been held up short of the village. All coys had heavy casualties particularly "A" Coy. The C.O. then decided on re-organising what could be collected of the Bn and a small defensive position was made beside the CHEUX - COLLVILLE road about 1 mile S. of CHEUX. Majors Soutar, Aitchison, and Capt Wishart, and Lts Niven and Kiddie were killed in this action. During this very bloody action the work of our Medical Officer Capt MacPhail and his stretcher bearers was magnificent.</p>	RG Hogg Capt I.O.
	27	<p>When dawn broke our position was still secure. During the morning our tanks moved up on our left and the A. &amp; S.H. passed through the Bn during the morning, making for the bridge at TOURMANVILLE and we received orders to move on to COLLVILLE. Soon after first light, "B" Coy's remnants joined us from the enemy lines where they had been cut off. The Bn took up a position in COLLVILLE in an orchard. "Sniper fever" was bad among the troops and it was several days before this could be stopped by practice of controlled fire. That afternoon we moved to TOURVILLE after having been relieved by the 9th SEAFORTHS (46 Bde). Our advance was held up by a German tank which had got into posn and was knocking out some of our tanks. The road was also being mortared. This was soon overcome and Bn moved into position south of the village in an orchard area.</p>	RG Hogg Capt I.O.
	28	<p>Spent the day in TOURVILLE where we were slightly mortared and had some trouble from a tank on the main rd behind us. During this time</p>	

		the armour was passing through our area and over the river. It was unable to make much progress and later had to withdraw.	RG Hogg Capt I.O.
	29	In the afternoon, the Bn received orders to move back to COLLVILLE and be prepared to carry out a counter attack on the Cameronian posn at GRANVILLE-sur-ODON at dawn the next morning, should the enemy take it. Bn moved and several casualties were sustained during the move by enemy shelling of the road.	RG Hogg Capt I.O.
	30  30 - 1 Jul	The proposed counter attack by the Bn was not required and the Bn was then ordered to MONCEAUX. The leading coys got to the road running to the river at TOURMANVILLE but came under heavy mortar fire from German posns south of the river. There were many casualties. The B.M. Major J. Lochore was among the killed. The Bn, as a result was ordered to withdraw to its old location in TOURVILLE. 2315 - 0530 hrs 1st Jul, Bn was subjected to a very severe mortar and shell barrage. Casualties were not heavy as troops were well dug in. During the mortaring one of the casualties was R.S.M. Black killed.	RG Hogg Capt I.O.

The order was then given to dig in in these positions. In the early morning of the 16th, 12 German planes circled Bn area three times and on the third occasion opened fire but caused no casualties among the unit. One plane was shot down by light A.A. fire. During the morning of the 16th, the enemy attacked at several points in the Bn front but was driven off by our weapons and the excellent shooting of our battery of the 131 Fd Regt under Major G. Campbell R.A. At about 1210 hrs enemy tried another counter attack on "A" &amp; "B" Coys posns from the left flank. This time tanks and inf were used. Good shooting by the A. Tk pl under Capt A.W. Parish broke up the enemy attack and with two guns firing from the area of Bn HQ, knocked out 5 PZKW Mk IV tanks. Ps of W. taken up to 1300hrs 16 Jul 44 were 35. Commanding Officer Lt.-Col J.R. Sinclair

Place	Date	Hour	Summary of Events and Information	References to Appendices
FRANCE	1		Bn well settled in new location; some local patrolling done in our area on left flank. This was the most weak flank. There was little to record except that two enemy tanks broke through A. & S.H. left flank and some of their A.P. shells fell in our area. There were no casualties. Warning was received late in evening for early morning move to new area. "O" Group was held at 2400 hrs.	RG Hogg Capt I.O.
	2		Bn moved to pt 244 695478 (TORIGNI-SUR-VIRE SHEET 6F/4). Adv to contact, "A" Coy leading. Bn got settled in new posn at about 2350 hrs - 10 H.L.I. on the Bn right at Pt 238 and 2 A. & S.H. were in reserve, at La Mancellive. No enemy encountered in area. Main road to Pt 244 was subjected to spasmodic shelling by long range gun.	RG Hogg Capt I.O.
	3		Bn still in defence posn on 244. Shelled by long range gun but most of the shells fell short. No casualties.	RG Hogg Capt I.O.
FRANCE	4.		Still in posn on 244. Large store of German "Q" eqpt found and several documents and identifications got from it. Two bombs were dropped during the afternoon in "D" Coy area by allied aircraft. One did not explode and was dealt with by the R.Es later in the day. Enemy aircraft over during the night. Warning order to move received at 0015 hrs 5 Aug.	RG Hogg Capt I.O.
	5		Moved off 0830 hrs in Adv to Contact in T.C.Vs to MONCHARIVEL 7442. "B" Coy was adv guard coy. Bn debussed at MONCHARIVEL and commenced advance on 769405 with "B" Coy leading with 2 troops of tanks in support. Captured objective without opposition from the enemy. Bn dug in in area of the X-rds; were subjected to heavy shelling and mortar fire during evening and again after dark. Quiet night after 2400 hrs.	RG Hogg Capt I.O.
	6		Bn was ordered to move forward to capture ESTRY (VIRE 6F/6). Moved off at 0845 hrs in advance to contact with "C" Coy leading with 2 troops tanks and S.P. guns in support. "B" Coy	

FRANCE		<p>followed up with "A" &amp; "D" and the remaining tank troops. "C" Coy soon contacted the enemy and succeeded in attacking and taking the X-rds. Further movement beyond these X-rds (746377 - 200 yds N. of ESTRY) was stopped by heavy M.G. fire and by dug in enemy troops. "B" Coy with 2 troops of tanks in support then was ordered in to help "C" Coy by going down track 756385 on the left flank and try to work round on that flank. Heavy casualties were sustained from M.G. fire and from the five of the dug in tanks. This attack failed. The enemy strength at this period was estimated to consist of strong M.G. posns, enemy in strength, and tanks in well sited and dug in posns. Another effort was made and "A" Coy was ordered forward but failed to help the situation. The tank support was badly cut up by accurate fire from German concealed tank guns and 11 of the supporting tanks of the squadron were out of action. The other tanks withdrew. C.O. tried once more to get control of left flank and put "D" Coy in to assist two S.P. guns forward in an effort to deal with the enemy tanks. This did not succeed. While this was being done, the road on which we were moving was being constantly shelled and mortared and many casualties were accounted for. After this effort, the C.O. got in touch with the C.O. 10 H.L.I. and arranged for them to move through and try to take the objective as our numbers were badly depleted. This was done and 2 GORDONS followed up the H.L.I. attack. This attack however failed and the two Bns dug in in a "tight" box N.N.E. of X-rds 746377. During this operation one enemy tank was destroyed by one of the S.P. guns under command.</p>	RG Hogg Capt I.O.
	7	<p>Bn held posns all day and was subjected to the most severe shelling and mortaring experienced in any action the Bn has been in. Cas were very high in both 10 H.L.I. and 2 GORDONS Bns. R.A.P. got a direct hit and lost most of its S.Bs but it carried on as best as it could. Wonderful work was done by the medical branch during all this action. Orders for withdrawal received by C.O. at 1800 hrs but action could not be taken till next day.</p>	RG Hogg Capt I.O.
	8	<p>Bn withdrew with 10 H.L.I. at 1000 hrs and moved to area L'OBTINIÈRE 7440 (Sheet 34/14 S.E.). 2 Bns of 44 Bde attacked ESTRY but failed to make strong points. Huns still hold the village.</p>	RG Hogg Capt I.O.
FRANCE	9	<p>Bn located in area of L'OBTINIÈRE. The day spent re-organising and getting reinforcements and new eqpt.</p>	RG Hogg Capt I.O.

	10		Bn still in area of L'OBTINIÈRE. C.O. decided to form three coys "A", "C" and "D" - "B" Coy incorporated in the other three till re-inforcements arrive. Great shortage of offrs and N.C.Os made this action necessary.	RG Hogg Capt I.O.
	11		Still in area L'OBTINIÈRE. Busy day with organisation.	RG Hogg Capt I.O.
	12		Morning spent working with P.W. - Poles deserted from ESTRY area. Interrogation at Bde HQ gleaned a lot of excellent information. Recce party went out from L'OBTINIÈRE and reced new area in St PIERRE TARENTAINE 7045 (Sheet 6F/4). The Bn arrived later in the evening and settled in quickly in its new location.	RG Hogg Capt I.O.
	13		Spent quiet day in ST PIERRE TARENTAINE and day passed without incident.	RG Hogg Capt I.O.
	14		Casualty report on action from 5 Aug to 8 Aug 44. Offrs 1 Killed; 7 wounded; Nil Missing. O.Rs 21 killed; 146 wounded and 22 Missing (16 known to be wounded, not yet traced). Recce party left for new area at 0600 hrs today. 15 (S) Div rejoining 12 Corps in CAEN area. Bn moved by road from area of 7045 embussed. Moved through CAUMONT, HOTOT, and CARPIQUET to conc area north of MALTOT (Sheet 7F/1 CAEN). Reached new area in and around the grounds of LE CHATEAU 995626 at 1800 hrs. Found this a filthy place where a very savage battle must have raged. Lots of enemy eqpt littered around and several enemy dead still unburied in the area. Bn settled in to new location. 227 Bde HQ is quite near.	RG Hogg Capt I.O.
	15		Restful day. Settling in new area quite well. General Barber (new G.O.C. 15 (S) Div) visited Bn at 1030 hrs. ENSA show held for troops in afternoon and evening. FRANCE	17		Spent another day of waiting to move to new area. Little fresh to report. Weather still very good, warm with little breeze. News of fall of ORLEANS and CHARTRES announced. Recce party under 2 i/c left to recce new area. Bn due to leave for new location not before 1200 hrs 18 Aug.	RG Hogg Capt I.O.
	18		Bn left area of LE CHATEAU at 1315 hrs. Arrived in new conc location about 1500 hrs. Bn located in area FONTAINE-HALBOUT (Sheet 7/F3 AUNAY-SUR-ODON). Settled in by evening. Trg

RG Hogg Capt I.O.
	20.	Bn 'O' Gp held at 1000 hrs. Bn at six hours notice to move. This was cancelled at 1830 hrs - no move in the next 48 hrs. Church service held in field near Bn HQ.	RG Hogg Capt I.O.
FRANCE	20-21	During night, several enemy planes flew over our area and dropped several A.P. bombs. There were no casualties in our area. Several casualties were experienced by the A. & S.H. Just after the raid, a French civilian was picked up in a house near our Sp Coy HQ. He was seen to be showing a light. The Frenchman was taken to Bde and interrogated and held for the F.S.P.	RG Hogg Capt I.O.
	21	Weather was extremely poor today. Rain fell all day till late evening. A cinema show was given to the Bn in a barn near HQ in the afternoon and evening.	RG Hogg Capt I.O.
	22	Weather back to normal again. This has been a warm sunny day. Trg was carried out by coys and specialist pls. E.N.S.A. show held in A & S.H. camp - some of the Bn attended in afternoon and evening. Lt.-Col Sinclair promoted to Brigadier to command 153 Bde (51 (H) Div). Maj Henderson took over command of Bn till arrival of new C.O. Bn received warning order to move to area of NERS to 3421 to conc prior to divisional move.	RG Hogg Capt I.O.
FRANCE	23	Bn moved to NERS - 3241 at 0600 hrs. Arrived NERS 0920 hrs. Coys well settled into new areas. Weather unsettled with showers of rain.	RG Hogg Capt I.O.
	24	Bn left NERS and moved by road to area of BOURDON 4056 7F/6. No enemy encountered and lots of damaged eqpt seen on road. The general intention was for the Bn to move to BERNAY but the roads were so congested with Canadian and French tpt that Bde had to conc for night in BOURDON area. Bn settled in by 2200 hrs. Bde 'O' Gp for further move at 2200 hrs.	RG Hogg Capt I.O.
	25	Bn left by tpt - adv to contact to area of EMANVILLE 0373 (8F/4 BERNAY). First elements left at 0600 hrs and unit moved without incident into new def posn. Unit was established by 1845 and guns were in posn by 1900 hrs. U.S. tps also in this	

		area but moved to other location on our arrival. Bde 'O' Gp at 2345 hrs.	RG Hogg Capt I.O.
FRANCE	26	Left EMANVILLE at 0430 hrs and moved to occupy the town of LOUVIERS 2289 (9F/1 LOUVIERS). This town was occupied without opposition from the enemy. H.L.I. took over E half of the town and 2 GORDONS the W half. This town had been bombed on night 25 - 26 Aug. Some damage done to Tech School and rds to the town, otherwise the town was untouched. Bn took up defensive posn watching all rds and bridges. No enemy seen in area.	RG Hogg Capt I.O.
FRANCE	27	Bn moved at 0900 hrs from town and went on to high ground in area of WOOD 263886 (Sheet 9F/1 LOUVIERS) overlooking river, prior to a crossing being made in evening. At 1830 hrs a beginning was made and the bn less all tpt, began to form up for the attack across the River SEINE. The assault boats were brought down and put in posn near the intended crossing place 272885 just south of the railway bridge and the crossing began. Opposition was encountered from the opposite bank and after four boat loads had been destroyed by direct M.G. fire, and it was found impossible at the moment to cross at that point, the Bn was pulled back and moved down stream to area of ST PIERRE DU VAUVRAY. A fresh crossing was made at 266905 behind the H.L.I. This crossing was successful and the Bn continued to move on to clear the village of LE MESNIL ANDE 2789 and then on the MUIDS. This was cleared and occupied during the night of 27 - 28. Several prisoners were taken, most of which were S.S. tps left behind in small bands with small arms only, to hold up our advance. It was very noticeable how much confusion now prevails in the enemy's little remaining organisation on this front.	RG Hogg Capt I.O.
	28	During the day the advance up the N. bank from MUIDS began and by night the Bn had reached area of Pt 144 3692. This point produced some opposition but was speedily cleared up. The Bn was then ordered to send one coy "C" Coy, to clear FRETTEVILLE 3492 but the opposition here was found to be more than could be dealt with by a coy. On orders from Bde, the coy returned to the Bn which was concentrating in the area of Pt 144. During the night the Bn was subjected to slight mortar fire and cas were sustained. This was the first heavy weapon used by the enemy in this operation.	RG Hogg Capt I.O.
	29	At 0930 hrs the tracks and vehs of the Bn joined the marching tps and concentrated behind the defensive posns on Pt 144. The Bn remained here all day and held a defensive locality. The	

FRANCE		enemy gave no trouble in and it seemed as if they were withdrawing all along our divisional front. The weather was extremely bad as it rained heavily all day, turning the whole area into a sea of mud and made the usual tracks impassable.	RG Hogg Capt I.O.
	30	At noon, an order to move to better posns in the villages of LA ROQUETTE and LE THUIT 3692 came through from Bde and the Bn moved there to reorganise and clean up.	RG Hogg Capt I.O.
	31	Bn located at LA ROQUETTE and LE THUIT. Weather has improved. The new "B" Coy complete has arrived and is settling in. They have come complete from the 2/5/LANCS FUS. and are commanded by Major H.D. FOLLETT. Lt.-Col R.W.M. De WINTON assumed command of the Bn w.e.f. today.	RG Hogg Capt I.O.

Month and Year:- February, 1945

Unit:- 2nd Bn The Gordon Highlanders.  
Commanding Officer:- Lieut.-Colonel R.W.M. de Winton, D.S.O.

Place	Date	Hour	Summary of Events and Information	References to Appendices
	1		Bn still in area 9714 (Sheet 3, ANTWERP 1/100000)	
	2		Trg (Breaching minefield, assault on pillboxes and A/Tk defences) continues.	
	3		Trg - Pipes and Drums play Retreat.	
	4		All officers attend an address by the Corps and Div Comds at TILBURG.	
	5	1430	Bn column left at 1430 hrs for NIJMEGEN (Bde Movement Order att) led by 2 IC. Route was 'Maple Route Up' but many diversions owing to state of the road - Road surface very bad in parts. Order of March - Bn HQ, "A", "B", "C", "D" & Sp Coys.	
	6.	0230	Bn arrives at its billets in a large school in NIJMEGEN. Remainder of the day spent in preparation for coming action.	
	7		Final preparations and 'O' Group for Op 'VERITABLE'. Six shells land in A.2 Ech area but no military damage done.	
	8	0700	Bn moves off at 0700 hrs for assembly area (movement order att) with rifle coys on foot. Routes SKYE and GLEN proved to be little better than mud tracks running through the gun areas. The guns (25 prs, medium and heavies) were putting down a terrific barrage which had started at 0500 hrs while Bofors, M.M.Gs., etc., were 'pepperpotting'. In spite of the depth of mud on the roads the Bn column reached its assembly area (7557) a wooded area North of GROESBEEK, complete at 1000 hrs. There the Bn remained all day with the barrage continuing unceasingly and with no apparent reply on the part of the enemy.	
	9.	0200	At 0200 hrs the Bn moved forward, the marching personnel, "A", "B", "C", "D" Coys and Carrier Pl, going by the more direct route onto the NIJMEGEN - KRANNENBURG road while vehicles were routed via GROESBEEK and the lateral road running N.E. to join the main road short of WYLER. The marching personnel had an uneventful approach to KRANNENBURG reaching the R.V. (Rd Junc 805563 on the Western entrance to KRANNENBURG) at 0330 hrs where the 2 IC, who had gone on in advance had set up a	

		<p>control post. Meanwhile the vehicle column had met with several delays on the lateral GROESBEEK - WYLER road. These took the form of (1) Two abandoned three ton trucks across the road (one with its engine still running) (2) Two sets of trenches dug right across the roads into the first of which the I.O's Jeep, which was leading, fell and had to be pulled out by the Bty Comd's half track (3) Mines and finally (4) felled trees across the road. These obstructions delayed the column which finally met up with the rifle coys at the R.V. at 0430 hrs.</p> <p>It was during this approach that the Bn crossed the frontier into Germany at the road Junction on the NIJMEGEN - KRANNENBURG road just south of WYLER.</p> <p>As soon as the vehicle column arrived at the R.V. Phase III (see Op Order att) commenced. Tac Bn HQ moving up to the East side of KRANNENBURG. Within half an hour "A" Coy had reported that the main road bridge over the A/Tk ditch was intact and the opposition very slight. Phases IV, V and VI were put into execution in quick succession and by 1000 hrs the Bn was through the Siegfried Line and had taken NUTTERDEN with Tac HQ at farm 837557. Mopping up continued during the morning bringing the total P.O.W. for the day to 135 which included 30 taken by "D" Coy from one of the Siegfried 'Bunkers'. There was a little spasmodic shelling of the NUTTERDEN area by one enemy gun during the evening and at about 2000 hrs the Comd Post received a direct hit, killing 11 including Major A.W. Parish (Sp Coy) and Lieut T.N. Salter (S.O.) (Died of Wounds) and wounding 5 including Captain J.H. Thompson (I.O.)</p>	
	10	<p>Bn ready to move off at 0930 hrs but the plan was changed and at 1330 hrs coys moved down the NUTTERDEN - DONSBRUGGEN road and took up positions astride the road "A" Coy in advance and "B" &amp; "C" Coys in the wooded area to the South East of the road. Tac HQ at 848561.</p>	
	11	<p>At 0930 hrs the Bn moved off with CLEVE as its objective with special reference to the canal bridge in the centre of the town. By 1100 hrs "A" Coy was beyond DONSBRUGGEN and "B" Coy had passed through while "D" Coy with the help of the Carrier Pl (dismounted) cleared the high wooded area running immediately South of the road, a troop of Left Flank Sqd, 3 Scots Guards going through the woods in support of them. By 1430 hrs Tac HQ was in a large shoe factory on the outskirts of CLEVE (M.R. 889566) with "C" and "A" Coys well into the</p>	

			town making for the canal. At 1530 hrs "C" Coy reported one of the bridges damaged beyond immediate repair but the other was made serviceable with the help of the trackways carried by the R.E. party attached to the Bn. By nightfall "A" & "C" Coys were finally established in their areas astride the canal with "B" Coy in the area of Tac HQ and "D" Coy on the high wooded ground to the rear. Some shelling from a heavy gun was experienced during the afternoon but ground opposition had proved slight with 46 P.O.W. taken. Our own casualties since the start of Op 'VERITABLE' being K.I.A. one officer and four O.Rs. D.O.W. one officer and three O.Rs. W.I.A. one officer and ten O.Rs. Lieut J.A. Rankin joined the Bn as Mortar Officer.	
	12		During the morning a Bn from the 6 Cdn Bde took over from "A" & "C" Coys and the Bn concentrated with "A" Coy in the shoe factory, Tac HQ having moved to a row of houses at 892567, "B" Coy in its original position around the rd junc 893564 and "C" & "D" Coys back along the DONSBRUGGEN road at 883569.	
	13		Bn still in same position with floods in the Tac HQ area gradually rising.

RHINE CROSSING	24	0210	Lieut A.A. Cameron and 16 Platoon 'D' Coy who had been lent to the HLI for the operation landed on the far bank of the RHINE. They were the first to land in this sector. Lieut Cameron was slightly wounded during the crossing. The rest of the Bn, which was reserve Bn for the Op, had expected to cross at about 0400 hrs, but owing to various mishaps, 'A' Coy did not cross until 0615 hrs, and instead of taking over from 'C' Coy HLI as planned they were ordered to assist the Argylls, which involved landing about 1200 yards downstream of the point of embarkation. The Coy came under direct small arms fire from the bund on the far bank which had not yet been cleared. Lieut R.A. Patrick and three ORs were killed and ten ORs wounded. Several of the storm boats failed to reach the far bank and drifted downstream. 'B' Coy were also ordered to cross to assist the Argylls but were mortared while attempting to embark and owing to shortage of storm boats did not cross till late.	
		1000	At 1000 hrs in bright sunshine, the airborne forces passed over the Bn. Telfer 'B' Coy was wounded.</p> <p>'D' Coy, which had supported the attack contacted 5/7 Gordons at 095501 during the afternoon.</p> <p>Bn HQ est 096493.</p> <p>Two Secs A/Tk Pl moved up to 'B' and 'C' Coy areas during the night.</p>	
		25	<p>'D' Coy relieved the two fwd coys of the Argylls. This necessitated the ejection of a small enemy post at HOPERHOF 1050; at 1715 hrs therefore 'D' Coy attacked this farm with the support of wasps. The attack was successful and four prisoners taken.</p>	
	26	1000	<p>Information received from Dutch farmer that enemy had withdrawn from the farms North of 'D' Coy. Patrols confirmed this and at 1230 hrs 'A' Coy moved fwd to occupy the farms 106514 and at 1240. 5/7 Gordons are again contacted in this area.</p> <p>Weather had now deteriorated.</p>

	26/27		<p>Night quiet and uneventful.</p>	
HAFFEN	27	1015	<p>Bde Comd warned CO that the Bn will be required to attack the wood 1352 at 0200 hrs 28 Mar, but at 1545 hrs the attack is postponed.</p>	
		2100	<p>Bde 'O' Gp followed at 2200 hrs by Bn 'O' Gp preparatory to attack on wood 1352.</p>	
	28	1000 1430	<p>Bn left HAFFEN area and assembled area 1450.</p> <p>'C' Coy (left) and 'D' Coy (right) crossed S.L. 142514. HLI went into the attack simultaneously on the right and two Sqns Recce Regt supported the attack by fire on the left - each of the leading Coys also had one crocodile and one gun tank in support. It was soon discovered however, that the wood had been vacated by the enemy and no opposition was encountered, though progress through the wood was greatly hampered by mines and booby traps, which had been laid both in the roads and in</p>	

		<p>the wood. No casualties were sustained until the clearing of the wood had almost been completed, when Capt J.W. Buchanan, Lieut W. Tasker and four men of 'D' Coy were blown up on a string of 'S' Mines; Lieut Tasker died of wounds. Bn HQ 134517. Thirty Rfts arrived.</p>

FUHRBERG  CELLE	11	0700	Bn left BLUMENAU. It was known that the 15 Recce Regt had already reached FUHRBERG 4342 but this village was not reached by the bn until 1100 hrs owing to a br at 263424 collapsing and the difficulty of finding a diversion. At 1145 hrs "D" Coy bumped an enemy post with bazookas covering a br demolition at 4846. It was impossible to find a diversion for tks. By 1500 hrs the enemy post had been wiped out and a scissor br erected. "C" Coy now went into the lead. "D" Coy lost 2 men wounded. It was not until 1810 that a proper br had been erected and the remainder of the bn were able to move on. At 1950 hrs "C" Coy was held up by another enemy post covering a crater at 532478. Again no diversion possible owing to woods and marsh. By 2100 hrs the post had been overcome and "B" Coy with one tp of tks were across. At 2330 hrs the advance is resumed with "D" and "B" Coys in the lead. 15 prisoners were taken during the day.	
	12	0100 0300	Found that the br over the canal at 553482 had not been blown effectively. "D" Coy therefore made a brhd and sent patrol into CELLE. Br at 570496 reported intact. "A" Coy with a tp of tks were therefore sent off to make a brhd here and adv as far as the rly at 577497. Behind them one pl "C" Coy and a tp of Honeys were ordered to go through the town to capture intact, if	

			<p>possible, the br at 622484 while "B" Coy with the remainder of the Sqn in sp were given the job of making a brhd over the River ALLER at the main rd crossing 589506. By 0600 hrs all these objectives had been achieved. 15 pl "C" Coy comd by Lt JEFFERY with the tp of Honeys had two skirmishes en route, one in the middle of the town with the staff of Celle Gas School, and one just outside at 604483. At 0600 hrs they captured the br 622484 intact. The bn suffered 4 cas during this operation. 28 P.Ws were taken.</p> <p>0830 15 pl joined by the remainder of "C" Coy in the brhd. 1000 The whole bn conc in the brhd. Bn HQ 617481. Owing to further demolitions along a stream just North of the brhd, it was decided to continue the adv along the main axis, i.e. over the main br at Celle. The bn therefore obliged to move between 2200 hrs and 2400 hrs to NE part of the town 589514 and abandon its brhd which was taken over by an American Bn.</p>	
CELLE	13	1000 1600	<p>Bn (now third bn in the line of march of 227 Bde) left CELLE on the road to UELZEN.</p> <p>Carrier Pl given the job of finding a diversion and were in action against an enemy posn with bazookas at DALLE 7468. They were soon recalled as it was believed this diversion would no longer be required. One P.O.W. was taken.</p>	
UELZEN	14	0200-0600  1200 2000 2200	<p>Bn took part in the dramatic advance on UELZEN led by the 10 H.L.I. At 0700 hrs Bn HQ was attacked by a small party of enemy who had been by-passed during the night advance, at the same time a party of 26 gave themselves up. At 0800 hrs the C.O. who was travelling with Tac Bde HQ called up his O Gp. and gave out provisional orders for the attack on UELZEN. It was later decided, however, that the attack should be carried out during darkness.</p> <p>Bn HQ est 874840.</p> <p>Bn O Gp. Orders for the attack on UELZEN. "D" Coy to lead, followed by "B", "A", and "C". Left Flank Sqn 3 Scots Gds in sp.</p> <p>Bn moved fwd to F.U.P. area 884866.</p>	
	15	0030	<p>H hr, "D" Coy crossed rly line. They advanced to the outskirts of the town but were there fired on both from the front and their left flank, the enemy on their left having evidently let the leading tps go by with the purpose of setting an ambush. The leading tank was destroyed by bazooka fire. Maj Grose (O.C. "D" Coy) then attempted a flanking movement to the left but again came under hy fire from strongly fortified houses</p>	

			<p>and also from an SP and a half track. Owing to the threat of encirclement from behind and the difficulty of control under the circumstances Maj Grose decided to withdraw onto "B" Coy about 300 yds behind and here the two coys remained until the following night when they were relieved by the 9 Cameronians. "D" Coy lost two killed and 8 wounded during this op. 17 prisoners were taken. It was generally agreed that street fighting against a well established enemy during darkness and with tanks in sp was definitely 'not on'. It was found also that the artificial moonlight was no assistance in such circumstances.</p> <p>At 0400 hrs "C" Coy was moved to the area of the level crossing. The H.L.I. was also held up on the left under similar conditions.</p> <p>Intermittent shelling from SPs, 20 mm and mortars.</p>

Place	Date	Hour	Summary of Events and Information	References to Appendices
FIELD  BRETTEVILLE	1 JUL		First day of reorganisation after Operation "EPSOM". The Comd Offr has written his own account of this battle for Regt Records. Much kit has been lost, some of it unnecessarily. But the chief deficiency was in automatic weapons and instruments. In the very dusty country such as NORMANDY automatic weapons soon become unserviceable unless MOST carefully covered and cleaned when not in use. Everybody felt extreme exhaustion now that the stress of contact with the enemy was past. The Bn was conc in area of a farm la HAUT de BRETTEVILLE - BRETTEVILLE L'ORGUEILLEUSE (CALVADOS) MR CAEN 923728. The first job was to get the Unit re-equipped and since the Div had been given a high priority eqpt began to come in from QRD in great speed. RG eqpt and instruments took the longest to arrive. Much thought given to the subject of salvaging some of the unit tpt and eqpt left on battlefd at GAVRUS. But Bde Comd forbade this hitherto as enemy strength and activities in this area had not been sufficiently examined. Rfts continued to come in at a steady rate. Mostly from O&B.L.I and The King's Regt, as well as our own rfts. <del>Bn strength for w/e 5 JUL is shown on att Appx "A".</del>	
	2		Visit to Unit by Div Comd, Maj-General G.H.A. MacMillan. He gave a short talk to the troops thanking them for their efforts & explaining the tactical setting to our battles and how 15 (S) Div had drawn, as per plan, most of the enemy armour. The Bde Comd did likewise.	
	3		The Comd Offr addressed the Bn after Church Parade, thanked the troops for their work, but also pointed out some of the most important lessons of the battle. (care of arms & eqpt: sleep when possible: importance of every man looking after himself)	
BRETTEVILLE	6		I.O. rendered a full written report to Bde HQ signed by witnesses, who allege to have seen enemy in BRITISH type steel helmets around our late posn at GAVRUS. Odd shells and rocket	

			bombs arrive in our bn area. One 88 mm shell hit roof of C Coy HQ building to-day. All tps sleep in slit trenches.	
BRETTEVILLE L'ORGUEILLEUSE	7	2000  2200	Reorg continuing and all <u>essentials</u> now completed. One EA [Me 109F] flew over Bn area at about 2000 but was in great difficulties through our lt AA fire. Every day since 18 JUN has been heavily overcast if not raining and ideal for low flying recce & gd attacks by EA. Large scale air attack by RAF Bomber Comd Lancasters on area CAEN-CARPIQUET-VERSON. Plainly visible to all bn. 350-450 British a/c took part. A great tonic as it is the first time we have seen any friendly a/c in strength.	
	8	2030	Still reorganising. No incidents save 4 rds solid shot from 88 mm guns which landed in bn area. Spent rounds.	
	9	1200	Col H. Clarke (GS01 Liaison) 15 (S) Inf Div came to HQ and gave two most valuable talks to assembled tps on the wide-view of the campaign. The greatest worry to date has been lack of infm from the situation on other sectors right down to ignorance about posns of other bns of the Div. The appetite of the tps for news is insatiable, but hitherto infm has been greatly neglected.	
BRETTEVILLE	10	1240 2030  1800	Preparations on foot for another battle. The Bn Order of Battle is as on right →. Major J. Kenneth is att to 10 HLI as 2IC (ex OC A Coy). Bn out on training in area NORREY-en-BESSIN. The Bde Comd arranged this as more practice in fighting in this close country is needed. The junior leaders fight the battles here and the newly promoted NCO's do need practice. One EA flew along line of rly at zero feet and fired on our tps. No casualties. CO and IO to Bde 'O' Gp to discuss Bde move to area VERSON. Forthcoming operations in area BARON - ESQUAY - EVRECY have now reached planning stage. 15 (S) Inf Div now under comd of <del>30</del> 12 Corps for ops. Bn moved out from buildings at le HAUT de BRETTEVILLE into open fields to make room for HQ 30 Corps.	<u>Coy Comds &amp; Specialists</u> CO Lt-Col J.W. Tweedie 2IC Major DR Morgan ADJ. Capt AM FYFE I.O. Capt JDC Graham Sigs Capt DHE Lyon A Coy Major HC Robertson B Coy Lieut P Salmond C Coy Major RM McKenzie D Coy Major FGS Graham T.O. Capt TH Spenceley QM Capt J Kenny M.O. Lieut JT Anderson RAMC Sp Coy Capt LLE Moreton OC 3 Pl Capt W Sloan OC 4 Pl Capt WR Bruce OC 5 Pl Capt W Muirhead OC 6 Pl Lieut RHC Dunning RSM H Thompson
BRETTEVILLE	11	1445	Seven EA [Me 109F] flew over Bde area at about 1,500'. Two definitely destroyed.	

	12	0700  1710	CO and IO off to area BARON - pt 112 for Bde Recce for prepared night attack. Very bitter fighting all around the area and the recce party had no easy task. Very little could be seen of the future objectives. Many dead and burnt out tanks testify to the enemy resistance here. CO 5 Bn The Wiltshire Regt guided party around OPs but little infm was gained.  Two salvoes of 6 shells each in area BRETTEVILLE. 88 mm at extreme range. Shellreps are always submitted without delay and do help our CB org with good results. A similar system is being arranged for counter mortar fire.	
BRETTEVILLE	13	0800  1430	CO & IO to Bde Comds Conference for forthcoming op. This will be known as Operation "GREENLINE". Conference attended by all sp arms - 3 Bns Tks, AVRE, "Crocodiles", SP Bty and all gunner and inf comds. Major Hugh Spens M.C. [A&SH] took up duties as BM 227 (H) Inf Bde vice Major J.A. Lochore [K/A 20 JUN].  2IC, IO, Coy Comds, OC 5 & 6 Pls and Sqn Comds from 147 R.T.R. to BARON to recce for attack. 147 R.T.R. (Lt-Col C. BROWNE) is in sp 2 A&SH. Unable to see ground to objective owing to enemy vigilance, but routes to FUP reced. Map distribution is good now. The 1/50,000 proves quite inaccurate except for main rds. 1/25,000 is up to date and most reliable. All planning is done by air phs which are issued fairly generously in conjunction with 1/25,000 maps.	
BRETTEVILLE	12/13		During the nights 11/12 - 12/13 JUL recce patrols of one offr and two men have been going out from 2 Gordons & 2 A&SH to recce line of R. GUIGNE which lies between our FUP and final objective, to feature Ferme de Mondeville. But on neither occasion did the patrols succeed owing to enemy vigilance [21 & 22 S.S. PGR hold this ground]; our own arty DF fire holding them up, and enemy mortar fire on HQ 5 Welch Regt with whom patrols have been staying during daylight. Lt W.J.D. SWORD (C Coy) led 2 A&SH patrol on both occasions. This river appears no more than a ditch on air phs, but the banks may well be tk obstacles, and almost certainly will hold up towing Carriers of inf bns.	
BRETTEVILLE	14	0800	CO and IO to Bde Conference. Change of plan. 2 GLAS H will capture ESQUAY with one bn Churchills. 2 Gordons will then adv in conjunction with 44(L) Inf Bde to half way to final objective. 10 HLI with B Sqn 147 RTR will capture & hold EVRECY. 2 A&SH with A & C Sqn 147 RTR will then finally cross R. GUIGNE, attack & hold the feature Ferme de Mondeville. The R. GUIGNE still has not been reced.	

Bretteville		1415	Eight Me 109 F over BRETTEVILLE. Hy flak put up and two seen to crash.
		1500	CO, IO and Coy Comds to HQ 147 R.T.R. (Cully 911766) for Coy/Sqn Conference.
		1700	Party returned to HQ 2 Gordons for briefing by Bde Comd. Div Comd gave preliminary address.
		1850	More EA over bn area assisted by thick & low cloud.
		2230	Marching part of bn left rest area where we have been since 2 Jul for FAA at BAS de MOUEN (946653). A <sup>1</sup> & A <sup>2</sup> ech of tpt left after M. Pers. Unit shelled fairly heavily all night after reaching conc area. One shell landed less than 5x from RSM THOMPSON H, who was lying in the open. He sustained only a scratched face.
Bas de Mouen	15	0930	Final "O" Gp for Op "Greenline". Major Charles WILSON R.A. now Comd 495 Fd Bty in sp 2 A&SH vice Major Vyvyan CORNWALL wounded at GAVRUS. Final feeding, recces of tpt FAA and men rested.
BARON		2000	Whole Unit moved fwd on foot with tpt following to FAA in area BARON. Tps & tpt (F Ech) harboured in small area.
		2120	Hy enemy shelling of whole bn area commenced and continued until dawn growing heavier and more intense as the light faded. BARON proved later to be a former German Corps HQ and consequently No1 DF task. The arty & mortar fire was the heaviest yet experienced but caused few cas so long as tps remained dug in.
		2300	B & C Coys (Major H.C. Robertson and Major R.M. McKenzie) started to move fwd through BARON to Start Line behind 2 GORDONS. Objective of their attack was to be the main rd half way to the Ferme de Mondeville feature.
BARON	16	0130	Hy cas incurred through shelling and mortaring especially in B Coy. Lt P.S. SALMOND badly wounded and died soon after (B Coy). Capt W MUIRHEAD (5 Pl) and Capt Tony Marshall (FOO 495 Fd Bty RA) also badly wounded. Remainder of Bn moved fwd to Start Line. Meanwhile 2 GLAS H. sp by 107 R.T.R. had cleared and held ESQUAY and 2 Gordons had reached their first objective, but were held up on fwd slope by well sighted M.Gs on fixed lines. Not imagining this would be a long delay 2 A&SH moved onto the top of the high ground 400x S.W. of BARON church and waited. Artificial moonlight was laid on by S/Ls of 12 Corps to help tps in direction finding but in fact we were silhouetted.
		0500	10 HLI and B Sqn 147 R.T.R. moved into posn just ahead of 2 A&SH (lying down in the open) & just short of the Gordons (unable to adv owing to MG fire). The situation at dawn was therefore 227(H) Inf Bde and three Sqns of 147 R.T.R. bunched in an area about 800x x 300x in the open and with no cover.

BARON		0545	Dawn. Enemy shelling, mortaring and projector firing recommenced. Hy smoke put down by own guns to hide the appalling target we presented. The Churchill tank bn commenced to withdraw, but negotiation of a badly worked British minefd caused trouble. Brig. R. MacIntosh-Walker M.C. (Seaforths) Comd 227(H) Inf Bde was killed during the battle while at Tac HQ at BARON Calvary.	
		0530	Lt. Col. E.C. COLVILLE (2 Gordons) assumed comd 227(H) Inf Bde in his place.	
		1000	CO & IO to Bde HQ for 'O' Gp leaving Major J. Kenneth (A Coy) in comd of the Bn. Plan for next phase: 2 Glas H to hold ESQUAY - 2 Gordons pt 113 - 2 A&SH area Les VILAINS - TOURMAUVILLE Br originally captured by C Coy in June in Op "EPSOM". Bn withdrew under own 2" mortar smoke and was fully harboured in new area by 1700 hrs.	
		2300	Total casualties during the operation in which 2 A&SH had no contact with the enemy K/A 4, wounded 3 offr and 48, missing 16. Spasmodic shelling and mortaring all night. 2/Lieut N.A.C. DUNNING, brother of OC 6 Pl, killed in his slit trench by direct hit from arty shell.	
TOURMAUVILLE	17	2100	Spasmodic shelling all day. 2 A&SH relieved by 5 Welch and marched back to rest area (Le Haut du Bosq, SW Cheux). March without incident. In posn by 1200 hrs. Month and Year Aug 44.

Commanding Officer Lt Col D.R. Morgan

Place	Date	Hour	Summary of Events and Information	References to Appendices
LES LOGES	1		All quiet. Contact patrols to units on our left.	
	2		As for yesterday. Warning order to move to LA MARCELLIERE.	
LA MARCELLIERE	3		Bn take up defensive posn near the village as reserve bn to the Bde. The high ground in front of the village is held by the HLI on the left and the GORDONS on the right. A counter attack role on to either of the two fwd bns area is planned. Everything quiet & bn given opportunity for minor reorganisation, issue of NAAFI goods.	
LA MARCELLIERE	4		As for yesterday.	
MONTCHARIVEL	5		227(H) Bde left LA MARCELLIERE to attack in company with the SCOTS GUARDS several points to the SOUTH. 2 A&SH and part of 2 GORDONS were to travel on the tanks of the SCOTS GUARDS to a dispersal point at MONTCHARIVEL (745428). The objectives of 2 A&SH were to clear two villages - LA FORTE (37/14 SW 1/25000) MR. 758428 and LE HAUT 768428. In support 1 Sqn SCOTS GUARDS. No enemy were encountered and consolidation was effected at LE HAUT. Later in the afternoon word was received that 2 A&SH was req'd to deny the use of br 754407 on the MONTCHAMP - LA CAVERIE RD. to the enemy, MONTCHAMP being held by one enemy company. The bn pushed on to high ground vicinity L'Eponniere (754409) and as darkness fell took up positions on the fwd slope, commanding the br and road. The whole 24 hrs operation was done without encountering any enemy whatsoever, except for one boshe who gave himself up to Capt W.R. Bruce (sup coy comd) while he was asleep in the Comd post area.	
MONTCHARIVEL			Carrier containing several men and Lieut D.R. MURDOCH was blown up by a mine at x-rds in MONTCHARIVEL, after several vehs of ours and of the R.S.F. who had taken the town the night before had been over it. The driver was killed and Lt	

			MURDOCH, carrier pl comd, was wounded. His life was saved only by sandbags which were on the floor of the veh.	
L'EPONNIERE	6		227(H) Bde with S.L. of LA CAVERIE x-rds (768405) moved to attack along with the SCOTS GUARDS the following objectives:- 10 H.L.I. - THIEL (7635); 2 GORDONS - ESTRAY (7437) 2 A&SH CANTELOUP (7835). The Bn F.U.P. was LA CAVERIE x-rds, where considerable armour was established in vicinity for marry-up purposes. This was attacked at long range by two MK IV TIGER TANKS and there was considerable confusion as the 3 bns passed the x-rds - one recce car being demolished in clear view of the troops. A&SH proceeded to S.L. and attack began with VASSY Rd as axis (2 coys left, 2 right). Considerable MG fire was encountered and at one point extremely heavy mortaring which diminished as the troops pressed close to the enemy. Armour was considerably held up by a dug-in TIGER and an S.P. gun. The TIGER was successfully stalked by B Coy and drew off - the S.P however knocked out one CHURCHILL before drawing off. Tanks encountered mines on road and the attack was halted short of PT 208 where the Bn dug in about 350x from German posns.	
VASSY RD.	7	1300	On high ground astride LA CAVERIE - VASSY RD north of Point 208 the Bn tried to advance posns approx 100-150 yds. The attack was made with gunner, MMG and mortar sup. The objective was not attained and over a score of casualties were suffered including Maj AM Fyfe OC B Coy killed by MG fire who lay wounded for several hours under fire (died at the R.A.P.) With the object of evacuating the wounded who could not be reached by S.Bs because the area was under MG and mortar fire, Maj L.L.E. Moreton (Law Moreton) advanced alone towards the German lines carrying a red cross flag above his head. He was fired upon once as he approached the place where the wounded lay. A German captain then appeared & shouted at his men to hold their fire. Maj L.L.E. Moreton and the boshe officer shook hands and a truce of half-an-hour was agreed upon to remove all dead and wounded, a demarcation line being drawn and the boshe removing all casualties on their side. Thus several Argylls fell into German hands - the first known to be taken prisoner in the Bn. Firing was renewed after the truce, with the Bn holding its original positions. At 0700 hrs 3 arty privates of the 9th S.S. drove into our lines, apparently in error, in a light recce car, containing hot coffee evidently for an OP position.	
VASSY RD.				
VASSY RD.				

VASSY RD.	8		Held positions as yesterday without incident. Occasional mortaring (MR. T772392 Flers 7F/5 1/50,000) Three deserters of Polish and Jugo Slav nationality were admitted to lines. They were recent reinforcements to the 21 Pz. They said there were many others wishing to come in. This subsequently proved correct. During night Aug 8/9 bn withdraws to posns vacated by Royal SCOTS on LA CAVERIE - ESTRAY RD MR T 765395.	
LA CAVERIE x-rds	9		Positions maintained as before. Patrols sent out to contact neighbouring units. 10 H.L.I. on right and 7 SEAFORTHS on left who were close to LA CAVERIE x-rds. Occasional casualties from mortaring. Much Boshe small arms fire at night mainly on fixed line. Two deserters admitted to lines.	
LA CAVERIE x-rds	10		One deserter. Contact patrolling. Heavy 25 pndr gunner support.	
	11		Twelve deserters - patrolling. Arty as before.	
	12		Patrolling. No deserters. Evidence of Bosche withdrawal: as a lack of SA fire at night. 1 casualty from mortar bomb.	
LA CAVERIE x-rds	13		Quiet day. No mortaring at all. During night 13/14 Bn withdrew on foot to area of LA MARTELLIERE (Ondefontaine 1/50,000 37/14 SW T 505465). This withdrawal was without incident as some 11th Armd Div troops were now occupying frm ahead of Bn front. Bn was relieved by 1st Herefordshire Regt. of 11 Armd Div.	
LA MARTELLIERE  LA MARTELLIERE	14		In new position, bn occupied itself in resting and washing until 1400 hrs when it embussed for a return to the CAEN sector, which it had left some weeks ago. During the morning the Bn received news of the loss of its CO - Lt Col J.W. Tweedie who left to assume command of the 91st Bn (anti-tank). The Bn moved without a hitch under the temporary C.O. Maj J. Kenneth and arrived in its new area near MALTOT. These posns were well back from the fwd areas and the Bn rightly looked forward to a well deserved rest.	
MALTOT AREA	15		Bn rested, visited M.B.U. and watched an E.N.S.A. Show.	
nr. Maltot	16	1800	Bn rested today. Maj S.C.D. Fergusson arrived & was posted as O.C. Sup Coy. Pipes and drums played retreat & wore the kilt for the first time since we came to France. The pipes are a great morale booster and the Bn was pleased to see the kilt again.	

nr. Maltot	17	1800 1800	Bn rested again all day and there was swimming and bathing in the Orne River. Everybody now felt fit and ready once again. Pipes and drums played retreat with Pipe Major Angus Graham playing his new compositions for the first time, "Crossing the River Odon" and "Fifteenth Scottish Division". Lieut W.J.D. Sword became I.O. vice Lieut A.H. Pierce who went to B Coy as Pl Comd. Warning for move tomorrow not before 1100 hrs to 029475 in Barbery Area (40/14 S.W)	
Barbery	18	1650	Bn arrived in new location after a move of no incident.	
Barbery	19	1830 1900	Bn rested and trained. Coys did route marches and P.T. Warning order for a move in T.C.Vs for contact battle. Bn at 6 hrs notice to move from 0600 hrs tomorrow. Cinema show in Bn area.	
Barbery	20	2355	Move cancelled. No move for 48 hours. Bn area dive bombed by about 6 enemy bombers for 20 mins. The centre of the attack was the mortar pl area and the R.A.P. Seven men of the mortar pl were killed outright. Three offrs were wounded & seven men. The offrs wounded were Major J. Kenneth, the Commanding Officer; Capt Wm Sloan, mortar officer and Rev G.T. Jameson - Chaplain. The bombs dropped were A.P. except for the bomb which dropped in the mortar area. This was of heavier calibre. All the casualties were out of their slit trenches at the time of the bombing.	
Barbery	21		It rained all day and the Bn rested and kept as dry as possible in farm buildings. Maj S.C.D. Fergusson assumed command of the Battalion vice Maj Kenneth.	
Barbery	22	2100	Bn rested and dried out after yesterday's rain. Warning order for early move tomorrow.	
Barbery  Barbery	23	0640 2000 2000	Bn moved this morning to a concentration area at FRESNE LA MERE 196359 (7F/6) Reinforcements arrived 1 Offr (2/Lieut A.S. Mull) and 17 ORs. Warning order for move towards the SEINE tomorrow morning. We heard that Capt Wm Sloan had died of his wounds. Lieut J.C. McColl took over command of C Coy vice Maj B. Pearson who again became 2i/c.	
Fresne La Mere	24		"H" hour for the move was postponed continually until by the afternoon it was considered that there would be no move that day at all. This was caused by confusion on the roads. Bridge had been blown and there was much battered German transport across the route.	

Fresne La Mere		1530	Order to move at 1740 hrs as far at least that night as TRUN 3129 / 3A&8 1/250,000). Order of march of the Bde 10 H.L.I., 2 Gordons, 2 A&SH.	
		2000	Bn concentrated in area BOURDON 4156 (7F/6) after a successful move without incident. The route was littered as we had been told with German transport. Although we had been warned of mines and booby traps none were encountered	
BOURDON	25	0900	Bn moved with the object of taking up a defensive position in the EMANVILLE area 0374 (map sheet 7 250,000).	
BOURDON		1700	Bn took up position at PETITE LONDE 0072 (8F/4) No enemy were encountered on route and the Bn was feted all the way by the French. The route took the Bn through a road 7 mls long where the most appalling destruction had been caused on enemy transport by the R.A.F. Dead Germans, dead horses and mangled transport were heaped up on the verges of the road. Again no mines or booby traps were encountered.	
PETITE LONDE	26	0005	Orders received for a move at 0430 hrs to a concentration area at LOUVIER 2289 (1/100,000 9F) preparatory to a crossing of the SEINE the following night.	
PETITE LONDE		0430	Bn moved out as arranged to forming up area but was stopped there.	
		0830	Order for a move to a concentration area at LE NEUBOURG (R 0283 [1/250,000 sheet 7]) were issued.	
		0930	Bn concentrated in new location.	
		1700	Bn moved to LOUVIERS. On arrival orders were given for capture of high ground area R 2589.	
		2200	This piece of high ground occupied by the Bn without incident. Members of the maquis guided the Bn to its objective. It was learned that General Von Kluge the night before had used a room in the farm in which our H.Q. was established.	
LOUVIER	27		The Bn rested in the area and made up for lost sleep as much as possible. Liaison was made with maquis about enemy in area. Bn moved at about 1800 hrs to an F.U.P. at R 2787 [1/250,000 sheet 7] for the crossing of the SEINE. The Bn was in reserve and 60 men were used for carrying boats for the initial crossing by 2 GORDONS and 10 H.L.I. The original plan was that 2 A&SH should cross after 2 GORDONS on the right but after the GORDONS had had trouble the Bn was switched to the left to follow on after H.L.I. The move took place about 2200 hrs. The	

Across the SEINE			crossing for us was without incident and went almost like an exercise. One man was killed outright and CAPT TUNIS (Can-loan) was wounded. The enemy were withdrawing from the house area across open ground and several casualties were inflicted on them. 17 Bosche were killed mostly by the only mortar which had by that time crossed the river and by the sniper corporal. 3 Bosche were taken prisoner. The Bn mopped up the area and a further 3 prisoners were taken. The whole advance was done without close support as even the A/TK guns had not yet got over the river. Although there had been no time for even Coy Comds to see the ground, and the speed and change of plan made adequate orders impossible, a defensive position was taken up without interference on the other side.	
Across the SEINE	28		This morning at about 0900 hrs a warning order was received for an advance through thick woods to the high ground at Chateau Buspins. No opposition was met in the woods, though signs of hurried enemy withdrawal were evident. No opposition was met on the objective either. Only when the Bn began to exploit over the crest did we meet the bosche. D Coy exploiting through the House were fired on by a Spandau.	
CHATEAU BUSPIN	29		This morning about 0200 hrs the remainder of the Bn transport arrived. During the day the Bn rested and reorganised.	
	30		The day was spent in resting, refitting and in reorganisation.	
CHATEAU BUSPIN	31		A & D Coys today cleared a wooded area over the SEINE between LERY 2696 and PORTE PINCHE 2993 (Sheet No 155 N.E). This area was reported to us by the maquis as being held in small numbers by the bosche. The maquis chief at LERY gave us the exact layout of the area and his men assisted in the sweep. No enemy were found but later 12 bosche gave themselves up to a carrier standing patrol which acted as a stop and which was left at PORTE PINCHE after the Coys withdrew again for the night.

The chimney remained standing. Warning order for BDE crossing of canal early tomorrow morning. Crossing to take place at 1594. Gordons to make crossing and remain as firm base. HLI to pass through with objective DESSCHEL 1696 and ourselves to face EAST between DESSCHEL and the canal. Discussion whether we should take	

			place in crossing or not or whether Bde crossing even should take place not to be decided upon until 0200. This was about the 6th plan that had come down to us that day. KOSB & RSF in bridgehead found to be completely intermingled. No differentiation of areas. Recce take over made very difficult by this. Coy and Pl comds had to recce different areas with reps both of RSF and KOSB. Heavy shelling taking place all the time. Enemy counter attack estimated one coy strength comes in while take over is going on. Difficulty in getting back over the canal because the three boats were on the other side, only means of attracting boat mans attention was by shouting. Lack of proper comm between bank and bank. Bn crosses and takes over from RSF. Take over was successfully completed without one casualty although shelling was taking place.	
	18	1630	Typhoons came over and bombed and machine gunned our forward tps. D Coy area was bombed and machine gunned. They appeared to have taken the road running in front of D Coy as the bomb line. Yellow smoke eventually stopped the bombardment. Luckily no one in these coys suffered casualties. One pioneer was killed by machine gunning.	

		1845	Bosche counter-attack put in of Bn strength. Main thrust against C Coy from the north. Enemy as near as 50x from coy posn. Enemy of one Sec strength also penetrated into D Coy posn where they were pushed off by Lt McCall's pl using 2" mor HE. The enemy S.P. that was one of main troubles in the Bridgehead was used considerably apparently along the main axis road between C & D Coys.	
		2045	Counter attack successfully repulsed. Bn ably supported by gunners and 4.2 mortars and MGs wrote off many of the enemy. During the attack the following offrers were wounded. Maj HM Fyfe of C Coy, Lt A Pierce (Canadian) B Coy and 2nd Lt Yockney (D Coy).

do	15		Bn carried on with training. A discussion was held on House and Street fighting. No patrolling in the evening.	(E)
do	16		Normal trg. Two patrols from 'C' coy each of one and ten went on a fighting patrol to HLI. One under Lt V.L. MacDonald and one under Sjt Andres. Nothing was reported. I.O. gave lecture on "Int within the Inf Bn". Lt Colonel H.A. Campbell visited bn & stayed the night.	
do	17		Moderator of the Church of Scotland took service in HELDEN Hall and afterwards visited the Bn. Definite increase of enemy aerial activity during the day. In the evening entertainment - piano	

			recital in HELMOND by Pousinoff. Snipers section reconstituted under Sjt Mitchell.	
do	18		Int demonstration held in 'A' coy area at 0930 hrs despite enemy air activity. Two patrols sent to Gordons one under Lt Hutton and the other under Sjt Drummond. Nothing reported. Capt Rosdel, Div I.O. gave lecture on history of German Army since D day.	
do	19		Int. demonstration put off owing to fog. CO and IO visited the HLI area to get latest information. 'O' gp at 1230 hrs. Coy comds visited HLI to get picture for take-over.	
BAARLO (8505) 1/250,000, Sheet 4 602	20		Change-over day with the HLI. Rather foggy, which enabled the move to take place mainly in daylight. One pl of HLI remained with 'C' coy. No patrols during night.	
do	21		Quiet day. One patrol of HLI went to D coy fwd pl as striking force should anything happen. There was only a false alarm. Pte Bradley of 'C' coy was killed by a sentry when he failed to answer a challenge.	
do	22		At approx 0615 hrs just before dawn the enemy must have got across to the Ferry house and set a time fuse to blow the house up. At 0900 hrs the CO attended a conference at Bde on the policy of defending the river Maas. Div Comd and Lt Col Mackenzie visited Comd Post. Landing reported on either side of the Bn front but little was heard on our front. Two ambushes were set by HLI pl, but nothing was netted.	
Do  BAARLO	23		During the night 22/23 arty engaged several targets and sirens were sounded by enemy in the village of BELFIELD opposite. Sjt Johnstone of Car pl was accidentally killed while cleaning a Sten gun. Pte Stevens, Sigs pl, was wounded in the hand while playing with a .38 pistol. Weather - thick fog with a slight frost. Bde Comd visited Comd Post.	
do	24	0740	Sjt Paynter, of HLI patrol reported in and recorded movement of vehs, and tracks, spandau fire and sound of explosion. 3in mortars engaged targets in area 875045 and fired 60 rounds. 6pdr fired 15 rounds at water tower 876054. No hits recorded. Gun area reported SOS signal seen in Bn area and after several hectic minutes in which the telephone wires grew hot, the signal proved to be flares dropped from a/c. 'D' coy reported singing behind BELFIELD church. An arty stonk put a stop to it. Arty also engaged a train moving towards TEGELEN.	
do	25		Early morning patrols reported no activity. Expected enemy activity did not materialise and the Bn spent a quiet day. Every man received a parcel from the Commanding Officer.	

BAARLO	26		Another quiet day for the Bn. In the evening we laid on the usual arty fire on enemy posns. Weather fine.	
do	27		Except for spasmodic spandau fire, there was no enemy activity and the standing patrol and ambush patrol had nothing to report.	
do	28		Recce party from the relieving bn (Gordons) visited comd post, and their respective coy areas. In the evening, sounds of enemy activity on the opposite bank received attention from our arty and mortars. Weather still fine.	(F)
do	29		Little activity during the night. Two B/Gp patrols rendered nil report. At 1300 hrs the Bns began change over, a thick mist making this much easier, and there were no incidents. We moved to reserve area at EGCHELHOEK with H.Q. at 771038, B/Gp 775038, 'C' coy at HELDEN 790049, 'A' coy 773035, 'D' coy HUB 763057. After today B/Gp ceases to exist and 'B' coy is being reformed under Major W.L. McElwee, M.C. with Capt J.D.C. Graham 2ic, and CSM Dean.	
EGCHELHOEK	30		Baths and change of clothing for all troops. Day was spent in cleaning up. Entertainment in the evening - film at HELDEN.	(G)
do	31		Bn spent the day in the traditional manner, although festivities were curtailed owing to our role of counter-attack force. Just after midnight the enemy heralded the New Year with M.G. fire and many Verey lights, but he put nothing down on the Bde front.

Place	Date	Hour	Summary of Events and Information	References to Appendices
HELDEN	1		The Bn was recovering from the effects of Hogmanay, when the offrs heard the New Year in as guests of the Sjets' Mess. The CO visited the coys where the men were feeding. The tinned turkey was good - what there was of it. The CO and IO went on a recce in the afternoon in the KESSEL area where we were going to take over on the following day. Many German fighters and fighter-bombers were over the Bn area and 5 were shot down by Div Ack Ack.	
do KESSEL	2		The 2ic left to comd the 9th Cameronians. The Bn relieved the HLI in the KESSEL area and the takeover was completed without incident. The night was quiet except for spandau fire. Major Goodwyn took over as 2ic and Capt Kempston took over comd of 'C' coy.	
do KESSEL	3		The day was fairly quiet and coys spent a certain amount of time getting used to new posns. During the night one carrier section reported 20 enemy moving towards Bn HQ and all Bn HQ stood to during the night. No further sign was seen of the Germans nor did they contact any of our other posts. It later turned out the 'Germans' were probably some bushes on the skyline.	
do	4		After the scare of the previous night it was decided to thicken up our front and 'D' coy moved from their reserve posn to the river bank two pls filling in the gap between 'B' coy and the carrier pl, the other pl from 'D' coy being used to thicken up 'A' coy. Two pls from reserve bn were used to protect rear areas. 'D' coy moved to new posns after dark and there were no incidents. The scout car caught fire and burned merrily for a couple of hours. The arty half-track towed it away from the house and later the LAD arrived and with their help the fire was put out. The scout car was a total loss.	
do	5		With the Bn in new dispositions no enemy attempt was made to patrol. Our mortars, MMG and 4.2 mortars engaged several targets during the day. 'B' coy had a 'hate' on a house on the opposite bank, PIATs and 2" mortars firing low angle being used. Direct hits	

KESSEL			were scored. Boats and canoes on the opposite bank were engaged by our LMGs and all were damaged and made unserviceable. Capt D.H. Lyon left for a Coy Comds course at Barnard Castle and Capt Marling took over as Adjnt.	
do	6		Enemy patrols were reported to be active but no contact was made with our troops. The day was quiet up to about 1500 hrs when an 88mm shelled 'B' Coy. Several shells landed near 12 pl but there were no casualties. Enemy sniper put a shot through the window of the Int sec O.P. but neither of the observers was hurt. 15 reinforcements arrived and in order to get them used to the new conditions they took up posns around Bn HQ doing 15 hr stretches in slit trenches.	
do KESSEL	7		After a fairly quiet night the enemy was quite active during the day. Fwd OPs were sniped and KESSEL received attention from his mortars. There were no cas among our own troops, but one civilian was wounded. The Int. O.P. moved to the roof of the school and had quite a good field of view. Visibility was poor owing to mist most of the day.	
do	8		The enemy was very quiet during the night and only a few bursts of spandau fire broke the silence of the night. The little enemy movement that was seen during the day received attention from our arty, mortars and MMGs. One man of 'A' coy was badly wounded by one of our 3in mortar bombs which fell short.	
do	9		There was little activity on either side during the night and a very quiet day followed. Snow fell and by evening was about 3in deep. The Int. OP reported no movement at all in the fwd enemy areas.	
do	10		The CO spent the whole day at 'A' mess with the Div Comd. Conditions remained very quiet, enemy activity being nil. Weather very cold and the snow made the place very light at night. The batch of reinforcements stood the conditions very well.	
KESSEL	11		A mock crossing was made in 'B' coy area. One sec launched an assault boat from the slipway at Kessel. At the same time a motorcycle engine was started up and the enemy reacted by standing to. He occupied trenches on the river bank and our mortars inflicted cas. The enemy stood down at about 0430 hrs. At daylight many tracks were observed in the snow, showing that the enemy had been quite worried about the whole thing. Apart from this activity the remainder of the day was very quiet.	
HELDEN	12		The bn was relieved by 2 Gordons and the change-over was completed by 2230 hrs without any hitches. We took up the usual reserve posn at Helden and 'C' coy was left in the forward area to thicken up	

			the Gordon and HLI fronts, 2 pls going to the Gordons and 1 pl to HLI. While in reserve the bn supplied one coy each night to the forward bns.	
do	13		The bn spent most of the day on admin. Kit was checked as was the ammunition. Baths were available and entertainment in the evening. Weather still cold and more snow fell.	
do	14		Church services were held for all denominations. Many offr and men travelled to Eindhoven to a celebrity concert in which Dennis Noble was the star artist. Ensa shows were also given at WEERT.	
do	15		The bn spent the day on admin and training.	
do	16		The bn should have relieved the HLI but owing to change of plan were told not to move.	A
do	17		Still no word of a move and the day was spent in training.	
do	18		There was still no word of future plans. The IO visited the HLI at BAARLO to find out the local picture. The weather was very bad, with a strong wind and heavy rain, which made the roads dangerous.	
Do HELDEN	19		Recce parties visited new area and the 2ic and IO visited the new location. The slight thaw threatened to turn the roads very slushy, but a front later hardened them again.	
BLERWICK	20		The Bn moved to new location north of BLERWICK. Icy roads made the going very bad for the vehicles. The change over with the 6 KOSB took place without any incident and the bn was disposed as follows: Bn HQ at ANNA HOEVE (869134) 'D' coy in area 890142, 'C' coy in wood 893135, 'B' coy 889122 with 'A' coy in reserve in area of Bn HQ. The night was very cold and our listening posts reported no movement from the enemy side. Fwd coys were all living underground, but every effort was made to make the dugouts comfortable.	
BLERWICK	21		Weather still very cold and there was no activity day or night.	
do	22		Little change in conditions. Still no activity.	B
do	23		We heard that 6 A/B div were taking over our posn in a few days time. No activity on either side of the river.	C
do	24		Reps from 6 A/B div visited bn area. Just after midday Spitfires presumably with Boche pilots, shot up Bn HQ and transport, killing Pte F. Duke, Sp coy driver and wounding two A/B arty reps. One jeep was destroyed by fire. Our A.A. did not open fire and a great deal of transport was damaged in the area. The C.O. left for U.K. leave. Major Goodwyn, 2ic took over comd.	D
SEVENUM	25		Change over with 6 A/B took place at about 1300 hrs and continued until after dark. The bn conc for the night at SEVENUM (822145).	E

GOIRLE	26		Bn moved to new area at 0930 hrs. Roads were very bad and all m/cs were carried on 3 tonners. We arrived in GOIRLE (1527) at 1700 hrs. Coys were put in two schools, Bn HQ and Sp coy in houses.	F
GOIRLE	27		Day was spent in admin. Baths were available for the troops and in the evening there was a film show in a local cafe.	
do	28		Day spent as yesterday.	
do	29		Coys were on training, and a range was made available for their use. In the evening the Bn held a dance, with the Div Dance Band in attendance. The Dutch were very impressed by the display of Highland dancing, given by members of our Pipes and Drums.	
do	30		Coys on training, and in the evening there was a show given by the "Tam o' Shanthers", the Div concert party.	
do	31		Day spent in training, and in the evening there was a Bde dance with the Div Dance Band who also gave a cabaret show.

Place	Date	Hour	Summary of Events and Information	References to Appendices
GOIRLE 148278	1		The acting CO went on a recce for op VERITABLE, In the meantime the bn continued trg with "funnies".	
do	2		All coys except C coy had their photographs taken. The Bde comd addressed all coy comds in the model room at Div HQ and gave the bde outline plan for op "VERITABLE". In the evening the officers held a dance at 120 Wilhelmina Park, Tilburg. The party was upset by getting tied up with a large tank convoy which retarded the collection of the ladies and the officers. Capt T.H. Spenceley, in a moment of highland enthusiasm, ended up on the floor with his kilt about his ears when trying to foxtrot too fast for his "tender years".	
do	3		More planning and trg with funnies. A demonstration was given by the A.V.R.E. to coys.	
do	4		All officers were addressed in the Tilburg cinema by 30 Corps comd, Gen. Horrocks, and given the main outline plan for op VERITABLE. The lecture was given excellently and everyone felt in quite high spirits at the end and one felt that everything possible had been done to ensure the success of the op. Owing to the continuous rain most of the day the bn did little outdoor trg. Capt J.D.C. Graham returned from U.K. leave and took over comd of "D" coy with the rank of Major. "C" coy had their photograph taken.	
do	5		The bn prepared to move to the conc area for op VERITABLE. The bn was put at 3 hours notice to move from 1200 hours. The bn moved to NIJMEGEN 7162, at about 1600 hours. Roads were very full of traffic and the going was very slow. The bn arrived at its billets at about 0200 hours on the Tuesday morning.	
NIJMEGEN	6		Reveille 1100 hours, breakfast 1200 hours. The day was spent in preparation for the coming battle. Everyone was full of expectation and one felt as though it was "D" day all over again. The 2ic and coy comds went on a recce to the forward edge of the woods at 7457 and even further forward to 753568 where all had a good view of the	

		coming battlefield. The Reichswald Forest seemed as though it was very much overlooking the advance of the div but the reason for these impressions was no doubt because we had all been in Holland and had not seen hilly country for so long.	
do	7	Frantic last minute rush to sort out the final details. Admin "O" gp at 1030 hours. The C.O. returned from U.K. leave but remained at Div HQ as the Div comd thought that as the 2ic Major Goodwyn had planned phase 1 he should remain in comd of the bn for this phase of the battle. Final "O" gp at 1800 hours. The security of the op was admirable, except that until the briefing of officers on 4th Feb, the only officers who were allowed to be briefed were the CO and the 2ic. For future ops of this kind it is essential that the IO should be in on it at a very early date in order that the specialist work such as study of photographs etc can be done before the frantic rush and issue of maps and photos is made. The issue of maps for the op was on a very good scale. PERSONAL MESSAGE FROM C IN C.	See APPENDIX J
do	8	Reveille was at 0300 hours and the bn moved off in tanks to FAA at 0500 hours where the troops had breakfast. Remounting their tanks the bn was filmed by Gaumont-British as they moved down to the FUP. The barrage was terrific and the thunder of the guns unbroken. Bofors and MMGs fired "pepperpot" tasks. Leading coys detanked and deployed and negotiated the first obstacle - our own minefield which lay on our side of the start-line. The tanks had some bad luck. The Scots Guards tanks got through alright but the Flails, Crocodiles and AVREs on which so many hopes had been built, were delayed first crossing a stream and then a series of boggy patches, and they were never able to catch up with the battle. What was worse, all the carriers stuck in the narrow gap in the minefield, already churned up by the Churchills, so that when the tanks and infantry moved forward at 0930 hours they went without any of the Sapper or Pioneer stores necessary for gapping the minefield or expected wire obstacles. Until the barrage halted for half-an-hour on the German frontier, all went more or less according to plan. On the right "B" coy was held up for a time by a thickly-sown A.P. minefield and for a short time fell behind the barrage. It was here that Sjt Page lost a foot in a gallant attempt to lead his platoon through and the coy lost in all one killed and six wounded before a gap was found. On the left "A" coy successfully passed the minefield but ran into some heavy enemy DF which killed Lt Hutton and wounded the coy comd, Major Bruce and several others. CSM Green very coolly and gallantly rallied the coy however and brought them	

KRAMENBURG		<p>through to the first objective, for which he was awarded an immediate DCM, the ribbon of which Field Marshal Montgomery pinned on to him a fortnight later. Moving on to German soil, "B" coy took the lead and captured some eighty PsW in what was intended to be the strong point of ELSENHOF, suffering only one casualty - a chance splinter from our own barrage. "C" coy mopping up behind then took as many PsW but had a rougher time from the enemy's DF. On the left the HLI went forward to attack and capture KRAMENBURG. The tanks were in a bad way due to the mud and only the Squadron Leader's tank went with the HLI through Kramenburg. On the last leg through Kramenburg station and along the railway to the final objectives, enemy resistance stiffened and all coys had to fight their way in, though without heavy casualties. "B" coy were again lucky in being able to slip in close behind the barrage while "D" and "C" coys cleared a number of MG posts on the right. The HLI worked forward through Kramenburg behind them. By about 1700 hours the Cameronians on our right had cleared the high ground and life became more peaceful around Kramenburg. There was no sign of a counter-attack. Instead a steady trickle of Germans with white flags came in to our forward platoons. Towards last light four game tanks got up to "D" coys forward position. The CO who had followed the bn throughout the attack on foot had already come up to the station and taken over comd from Major Goodwyn, and by darkness the bn was securely dug-in for its first night on German soil.</p> <p style="text-align: center;"><u>Addendum</u></p> <p>On its way down to the FAA the Bn nearly lost its breakfast as the 3 atk guns towed by Lloyds stuck in the mud and it was only when the bty Comd's half-track (Warspite) saved the situation by towing them out. It seemed fantastic that the operation should have been jeopardised by the lack of foresight in making up the tracks to the FAA.</p>	
KRAMENBURG 8056	9	<p>The bn remained at its positions at KRAMENBURG 8056. Bn HQ at factory 806557, "A" coy local defence Bn HQ, "B" 813554, "C" 810548, "D" 813550. 44 Bde passed through the bn and breached the Siegfried Line with few cas. Quite a large number of PsW came out from the building in front of our forward coys. For the two days, 8th and 9th the bn took about 250 PsW. The bn was in high spirits as everyone seemed proud that their job had been well and truly done. The Padre went out [and] buried the dead. All known dead were accounted for. Pte of coy was reported missing on the previous day. Today he was found by the REs in a slight hollow in</p>	

			the minefield with a foot off. He was still alive and the doctors said that there was every chance that he would recover which was amazing seeing that the night in question was exceptionally cold.	
MATTERBORN 867548	10		The bn was ordered to take over from 44 Bde on the MATTERBORN feature. This they did in daylight, after a somewhat halty start as 43 Div were on the main axis to CLEEVE. The bn halted temporarily at NUTTERDEN prior to moving through the wood to the Matterborn feature. It was an interesting feature in that there was an enemy gun park in front of our coy posns. The regular pattern of our own arty shells was remarkable and the guns had been left intact with the exception in some places where the breach blocks had been removed. Some of the bn lived in dugouts which were very comfortable. Each had bunks and electric light, a stove and wooden flooring. Our own arty seemed to have forgotten that there is such a thing as crest clearance after being in Holland for so long, as they landed many shells unpleasantly close on the ridge in front of "C" coy.	
DONSBRUGGEN 869573	11		The bn moved to DONSBRUGGEN after having cleared the western edge of the wood STAATSFORST TIERGARTEN, that is the wood West of track junc 872562 to track junc 878572. The op was uneventful. The bn was then billeted in DONSBRUGGEN in what was left of the houses. A2 echelon, which had remained by the station in Kranenberg woke up in the morning to find the river had flooded them out. The vehs were moved on to the platforms, and it took about three days to tow them all out. This was done with the aid of a German tracked veh of a new pattern.	
do	12		The day was spent in cleaning up. The bn remained in the same location.	
do	13		The bn was at 2 hours notice to move to CALCAR 0050. Stand down came at 1700 hours.	
do	14		The bn was at 30 minutes notice to move to capture CALCAR. After standing to most of the day the op was cancelled as the opposition was too great and the flanking troops had not made enough progress. In addition the sector was being taken over by the 2nd Canadian Corps.	
do	15		No move. Coys did P.T.	
do	16		No move. Planning and preparations for attack on the West corner of GOCH 9042.	
DONSBRUGGEN	17		Bn prepared to attack and capture N.W. end of GOCH 9043. The bn was told to stand down as 43 div had made unexpected progress and were on what was to have been our start-line.	

do	18		Church parades were held. Bn was at two hours notice to move from 1300 hours. The op was put off as 44 Bde were making good progress in GOCH. Instead we were due to pass through 5 DCLI (43 Div) in Kangaroos and take BUCHOLT 9543.	
Near CLEVE 929495	19		Reveille 0530 hours. Owing to a last minute change in plan the op was postponed until the following day. The bn moved instead to a conc area 929495. The CO and IO went on a recce to the SCHULE 945453 and on the way back shells were falling about 100 - 200 yards away. A final conference was held at Bde to tie up the Bde plan. The bn did not operate with the Scots Guards as they were still with the Canadians. Instead we had the 5 Coldstream Guards.	
BUCHOLT 9533	20		The bn moved off to pass the start-line at 1030 hours the objective being BUCHOLT 9533 which was captured in the early afternoon and our total bag of PsW was 194. In this attack the bn was mounted on Kangaroos, and proved to be very effective.  There were two interesting features of this battle. The first being direction. In spite of the fact that coy comds were given the opportunity to see the ground it was found very difficult to keep direction in the mist and smoke and some cas were caused through the Kangaroos firing wildly as a result. The second point being that it appears that the funnies seemed to be frightened of taking risks of war. They did not appear to realise that they were there to help the infantry and to get them fwd. This seems to be the universal moan of these specialists. They do not realise that there is no such thing as a battle to suit their own book tactics and whatever they do the infantry still have to go on with or without them, cas or no cas.	
do	21		Enemy activity was confined to shelling and mortaring which was exceptionally heavy on the fwd coy areas, particularly A and B coys. There was a marked increase in air activity by German jet propelled planes as they flew right across the battle front on several occasions. During the night while some [of] our bombers were returning from a raid on the Rhine, a bomber dropped a stick of bombs right across the fwd coys, again too close to the unfortunate A coy, luckily causing no cas.	
do	22		Shelling and mortaring by the enemy was again very heavy. A Nb.W was active on our front. A P.W. stated that it was fired mounted on a veh and after firing a few salvos moved back. A great deal of trouble was taken to evacuate civilians from the area of Bn HQ and the fwd coy areas. C coy lost its ammunition carrier when it received a direct hit.	

do	23		There was still heavy shelling and mortaring which was due to the activity of the rest of our div which was attacking through the forest to our right. News came through that we were to be relieved that night by the Coldstream Guards (the inf of the Guards Armoured Div). Harbour parties were sent to recce a conc for the night at 9244. The relief was due to be carried out about 2230 hours but they arrived very late and it was not completed before the early hours of the morning. "D" coy went under comd of 2nd Gordons to act as counter-attack coy.	
	24		Div would not release the bn for a rest until the evening as the div could not be relieved until it had reached its final objective which was approx 975410 to wood in bend of river at 943395. Two harbour parties were sent off (1) to Louvaine, which was later cancelled and (2) to Tilburg. The bn was not required to help 44 Bde but was doubled-up with the Lincolns (3 British Div) which was relieving the rest of the div.	
TILBURG	25		The bn moved in TCVs to new area in TILBURG. They arrived at approx 1400 hours and were concentrated in the area 177325. Most of the troops were billeted in civilian billets and the people were delighted to meet their liberators once again.	
do	26		Reveille 1100 hours and first meal at 1200 hours. The rest of the day was spent in cleaning up. Entertainments were laid on for the evening.	
	27		Troops received pay, exchange of clothing. Day spent in general admin.	
	28		A rehearsal was held for the General's inspection. Turnout was good. The officers held a dance in the evening. A surplus of ladies made it rather embarrassing for the IO, which was aggravated in no small measure when Capt Brown arrived with half-a-dozen Canadian nurses who had come from TURNHOUT.

do	12		Coys still trg. Weather fine.	

do	13		Coy comds went on a recce for the exercise to be held tomorrow.	
do	14		Div exercise. (see appendix) As far as the bn was concerned the exercise went as planned. The only Buffalo which did not make the far side easily was the Comd's. It took from 1300 - 1600 hours to reach the other side. Bn conference was held at 2030 hours when all points were thrashed out.	
do	15		During the morning the bn prepared for a night exercise - a repeat of the previous day's. The troops left for the conc area at 1600 hours and waited there for H hour which was 0400 hours on the 16th.	
do	16		The exercise went off moderately well as a whole. "C" coy unfortunately took about 1¼ hours to reach their objective. The CO's carrier crossed in twenty minutes this time, but later when it reached the FAA for vehicles it refused to start and had to be towed back. The bn arrived back in RECKHEIM at about 1000 hours.	
do	17		The CO briefed all coy comds at Bn HQ at 1000 hours and later they went to Corps HQ to see the model for the forthcoming op.	
do	18		Quiet day. Church parades for Pres and C of E.	
	19		Pl comds were briefed for forthcoming op and spent a considerable amount of time in the planning room looking at photographs and maps. A model from 21st Army Group of the crossing place was available for the morning and the CO briefed key personnel on it. Coys continued training in good weather. Capt Kempston went to Bde to take part in a deception plan for the forthcoming op.	
	20		Harbour party left for conc area. CO, 2ic, coy comds Sigs Offr and IO went on a recce to conc area and studied the crossing place with the sqdn comd of the Buffaloes. Bn received 4 Weasels for use on ops.	
	21		The 21st Army Gp model was again available and pl sjts were briefed. CO received a Dingo scout car to replace his carrier but was later allowed to retain both.	
056447	22		Bn packed and moved to conc area at 056447. Tracks left early in the morning to travel by a more devious route. Wheels moved at 1630 hrs and arrived at conc area early next day. The move was organised and although there was a huge volume of traffic on the road there was a minimum of delay.	
	23		Bn arrived at conc area at about 0200 hours and was situated in N.E. corner of the HOCHWOLD FOREST 056447. Everyone bedded down and reveille was 1030 hrs. CO held his final O gp. Coys spent day making final arrangements for the RHINE crossing. The plan was so big that one felt that it couldn't go wrong.	

	24	<p>The bn moved to the LVT pre-loading area just after midnight. As usual the Buffalo No 31 which was supposed to carry the CO's carrier refused to work and several anxious minutes were spent while a replacement vehicle was found. The move down to the river was uneventful as far as enemy reaction was concerned. The route was lit and the concentration and pepperpot barrage was terrific. A, B, and D coys were due to cross and land together as far as possible, A coy loading at 092472, B coy at 093470 and D coy going up the creek to 093475. The R.M. Commandos had patrolled the previous night to the mouth of the creek in order to find out what the landing places were like. They reported that there was an obstacle across the entrance. When the time came it was found that the only place for getting ashore was on the west of the creek at 092472 and that there was no obstruction across the creek entrance. One platoon of D coy did in fact land on the east point of the creek at 093473. The third platoon landed with the rest of the bn. On our previous recce from the west side of the river the banks looked perfect but it was found that they were very muddy and very sticky and not at all good for the heavy landing craft. It was only after great effort and towing by individual Buffaloes that vehs were got ashore. The second flights which consisted of the reserve coy, Bn HQ and the essential sp arms vehs was due to enter the river about 20 minutes after the leading coys flights. In the meantime, A and B coys were pushing inland and reached their initial objective without trouble. (A coy 089484 B coy 093483 to 097483). D coy initially were less successful. They had the bad luck to lose, wounded, Major J.D.C. Graham just before landing and one of their pls was put ashore in the wrong place and as a result went astray. Capt Toppin with the remaining two pls quickly found the houses and woods at HUBSCH 0947 were strongly held (approx 50 men) and were too big an objective for his small force. The reserve coy (C coy under Major F.G. Graham) duly landed and like everyone else trekked around the creek and sent its fighting patrol of Lt Davidson's pl up the bund running parallel to the river. The pl went as far as its objectives which was just past the sluice gates at 104466. It met with no opposition but failed to contact the HLI as arranged. On the return journey they received some trouble and suffered cas from the spandau posts which had come to life after the barrage. It rejoined C coy which was concentrated behind the bund at HUBSCH in the area 094475. During the remaining period of darkness both C and D coys reorganised and were joined by their sp arms and by the D coy missing pl. There was some very close and</p>	Appendix "E"

	25	<p>bitter fighting during which there were several cas among which we lost Lt Stewart killed. By first light D coy completed the clearing of HUBSCH. Bn HQ after the initial wait while it collected the rest of its bits and pieces from other craft moved up the west side of the creek and temporarily est itself at 092478 since the original selected comd post was in the centre of the confused fighting at HUBSCH. It now seemed unlikely to the CO that the right hand coy would be able to take their first objectives before first light and he attempted to stop A and B coys from leaving their first objectives so as to keep the bn conc until the situation had cleared up on the right. Before the W/T message got through however A and B coys had already moved towards their final objectives and a 2500 yards gap had opened between the two halves of the bn. To bridge this and to avoid losing W/T contact comd post was moved to the buildings at 093484. First light, however, found the Bn with its HQ somewhat isolated with A and B coys in possession of their final objectives except for HOVERHOF 107503 and with C and D coys consolidated at HUBSCH. D coy on trying to push on to their second objective came under heavy fire both from the farm houses on their objective and from the bund which Lt Davidson's patrol had cleared earlier. Presumably the enemy had returned into the cellars of the houses during the bombardment and had come out and reoccupied their slits before it got light. At about this time C coy of the 2 Gordons arrived; they had suffered hy cas coming down the river in storm boats from the reoccupied German posns in the bund. Major F.G. Graham went up to see the CO at about 0630 hrs and was told that he must clear the LOHR area at all costs as this was a vital prelim to the starting of the ferrying and rafting. He was given, under comd, besides his own coy D coy A&amp;SH, C coy 2 Gordons, one pl MMG and two dets of 3" mortars. A fire plan was arranged for the sp arms. During this attack it was not possible to sp it with arty or smoke because of the A/Borne landing which was due to take place at 1000 hrs. H hr was 0815 hrs. The plan was to send 2nd Lt Drummond's pl to clean the bund if possible as far as the sluice gates 104467. It was from there it was to cover the main attack of D coy into the nearest houses. This pl did the most gallant work and cleared as far as ordered but suffered fairly hy cas and then ran out of amn. Lt Drummond therefore decided to pull back to a posn on the bund from which he could keep the part of the bund cleared, under fire and so prevent the enemy from reoccupying their posns. The rest of D coy under Capt Toppin succeeded in occupying HAGENSHOF farm 103475, but were pinned down by hy fire from the farm immediately</p>

in front of it, SISWICKHOF 104472. This was cleared by a pl of C coy of the 2 Gordons. Major F.G. Graham sent a further patrol from his own coy along the bund and it was at last reported finally clear at about 1200 hrs. The final objective was cleared at 1300 hrs by which time we had been joined by some DD tanks who, however, arrived too late for the battle. To return to our other coys. When A and B coys first landed they met some SA fire and B coy passed through a Schu minefield. One man lost a foot in it. The opposition was soon dealt with in the beach area and about 10 PsW were taken. The objectives of the first phase of the attack were as follows:  
B coy:- AUF DEM GRINDT 0948 - Houses 093483.  
A coy:- The bund and a small shack at 093483 - a large grass covered mound at approx 090487. What this mound consisted of was not known but at the worst it was thought to be possibly a big concrete emplacement. Limitations of the speed of the adv were imposed by the arty fire plan, no move being allowed from the startline - the line running due east and west across the northern end of the creek at 090477 - until the arty had lifted. During the attack, opposition was met with in the mound on the left of A coy where the enemy was well dug in, in slit trenches.

#### SECOND PHASE

Objectives:- B Coy. Houses at 104495, 105495, 104498.

A Coy:- (a) LOCKERHOF 106499, (b) farm at 104500, (c) the group of houses at HOPERHOF 106503.

B coys objective and A coys (a) objective could be attacked at H + 60 (H hr being at 0200 hrs), but it was found that no move forward of these preliminary objectives of A coy was possible until H +90. The plan for A coy was to pass 8 pl through 9 pl and attack LOCKERHOF from the West at the same time as B coy was putting in its attack from the South. 7 pl at H + 90 was to capture the farm at 104500 and on its success 9 pl with 7 pl as reserve was to attack the group of houses at LOVERHOF, coy HQ taking over the occupation and protection of the farm at 104500. Unfortunately it did not plan out quite so easily. 8 pl failed to make its objective and lost touch through the wireless not working. As a result 7 pl was directed on to its final objective and 9 pl was directed on to the objective of 8 pl. At 0500 hrs the missing 8 pl arrived and was ordered to its final objective at HOVERHOF 107503. By this time it was approaching dawn and as they approached, 3 German MG posts upset the plan. One section had been sent round to the right to give covering fire and was caught in the open less than 10 yards

		<p>from the enemy MG post, and instead of rushing it, went to ground with the result that two men were killed and three taken prisoner. The rest of the pl was ordered to withdraw to the farm at 104500 where 7 pl and coy HQ were already established, in order that a new recce could be made. It was then seen when it became light that HOVERHOF was a strongpoint which would require a coy attack together with a full fire plan. It was also decided that the coy would carry out its task of left flank protection equally well from its present posns. It was therefore decided to hold those posns for the rest of the day. A coy comd in searching the buildings near his HQ put 7 men in the bag himself. The day of the 24th was spent in the above mentioned posns. Any movement by own men brought mortar and SA fire. One man was killed by a direct hit of a mortar bomb. Later in the day the Coy comd decided that the layout was too cramped and as soon as it was dark the coy was altered slightly. 8 pl and coy HQ was moved back to WOYERHOF. B coy in the meantime had collected nearly 100 PsW since taking up their final posns, as just before dawn on D day they reported a counter-attack forming up. The area was well and truly stonked by arty and they all came running in, inc 3 offrs. At midday on the 25th of March 12 pl of B coy was relieved by a pl of the 2 Gordons and in the evening, the 2 Gordons put in an attack on HOVERHOF. This attack gained the first farm, but no further progress was made. The coy of the 2 Gordons withdrew at dark and took over the posns occupied by A coy 2 A &amp; SH. This relief was completed by 2230 hrs 25 Mar. It was a wonderful sight to see the two A/B divs going over at approx 1000 hrs on D day the 24th Mar. From the comd post it was possible to see two Dakotas and one Halifax come down in flames. Two wounded pilots from one 'plane were rescued and sent back by the MO. On Sunday 25th, the Bn less A coy moved under comd of 46 Bde. The IO went and reced the route to BERGEN 157470 in the morning. The Bn had their first hot meal at HUBSCH as they came by. They were then lifted by 3 tonners to the RV at rd junc 157470. Capt Toppin collapsed while the Bn was waiting to form up and was evacuated through medical channels. The Bn's task was to pass through the 3 Bde and clear the wood East of the lake LANGE REUNE, with the Glasgow Hrs. The right flank of the Bn was to be screened by smoke. When the Bn reached the rd junc 153478 the word was passed round that the enemy were counter-attacking which stopped the Bn from getting on to its startline. As a result we never really caught up with the barrage. Our task was to clear the right hand part of the wood and clear South to North. The wood was very tough going and we eventually reached the track</p>	
--	--	--	--

139494		<p>junc 139494 as it was almost dark. D coy had fallen back, C coy and Bn HQ went to the wood at 143497 and B coy went to farms at 139497. D coy arrived eventually and went to the area of 139493. The RA vehs, CO's carrier and MO jeeps eventually came up. There was some very confused and wild firing on both sides while the Bn dug in. B coy had two counter-attacks during the night. One as they moved in. It was stopped at point-blank range. The second one took place just before dawn and the house around which they were est was burnt down. C coy had a small counter-attack as soon as they got into the wood and were digging in, but it did not materialise. The rest of 46 Bde attacked either side of us and came to the North towards HALDERN WOOD to clear the East of the main road to the East of us. It was there that the Bn had a real taste of what it is to be shelled by our own guns. We had about 15 minutes solid. It appeared that our wood had been included in the fire plan and it took some time to stop but not before it had had time to lift and come back again on us. By the grace of God no one was hurt. The Bn then conc in the wood. A coy moved up in the morning as it had been released during the previous night by the 2 Gordons.</p>	
do	26	The Bn remained in the same location as the previous day.	
do	27	<p>There was no enemy activity in front of us as 46 Bde were well est. We returned to the comd of 227 Bde in the morning and were told that we would attack and clear the wood at 1352 having taken over from 9 Cams who were on our left. This was later cancelled as we were told that we were under comd of 46 Bde and would help to clear the woods at 1452. The CO and IO attended an "O" gp at 46 Bde HQ at 1900 hrs. It was very late before they returned to the Bn, and there was no move for the Bn before 0700 hrs the following morning.</p>	
154503	28	<p>The Bn moved at 0745 hrs to a FAA at 154503 preparatory to clearing the woods in the area of 1552. The op was in 3 phases.  <u>Phase 1.</u> 7 Seaforths to clear the enemy from wood at 162514 to wood 160515, - DICKHOF 155516 and as far West as CLASENHO 146516, the attack going in from East to West. <u>Phase 2.</u> A two Bn attack Northwards, right 6 HLI (52 Div) and left 2 A. &amp; S. Hrs.  <u>Startline</u> for us in area of buildings 152515.  <u>Objectives:</u> 1st objective, line of track 158528 - cross tracks at 158527 - West edge of wood 143525. 2nd objective, N.E. corner of wood at 156531 - ring contour 149532 thence line of road as far as road junc 140532. <u>Bdys.</u> dividing line, incl 2 A &amp; S. Hrs - tracks 155514 - cross tracks 152519 - crosstracks 150527 - incl 6 HLI ring contour 149532. <u>Left</u> 2 A. &amp; S. Hrs bdy track junc 149515 - 143525 - 139532.</p>	

		<p><u>Phase 1</u> took place and went according to plan. Our Y hr was 1100 hrs.</p> <p><u>Phase 2</u> started after a very shaky beginning as the startline was hard to find. No enemy were encountered so after the Bn's first objective had been reached the message came from 46 Bde that the fire plan had been cancelled. The Bn moved up nearly to its final objective and Bn HQ moved up the centre track and had just passed the cross tracks at 148526 when we received a nasty stonk, again from our own arty this time killing one man and wounding 5 ORs, including 1 Royal Corps of Sigs operator and Cpl Monk of our signals pl. The CO did all that was possible to get it stopped. It was most unpleasant and lasted for about 20 minutes. It appeared that from the beginning the arty plan had been made up before the inf plan. In the first place it was decided against having a barrage and there were to be a series of concs up the wood. A major catastrophe was averted by Major Cornwall, our gunner officer, who was given the arty fire plan about an hour before the battle was due to begin. He found that the arty were due to stonk the startline at the time the Bn was there forming up. He reported to the CO that he could not be responsible for the safety of the inf. It was later discovered that when the fire plan was cancelled the 4.2in mortars had not been informed and they were due to stonk the final objectives at the time the fwd coys were arriving there. This was avoided by mere chance. It is probable that the many channels through which the infm had to pass caused a time lag and the inf moved before the Gunners realised it. An inquiry was immediately ordered by the CRA but so far no explanation has been given except that it was the 25 pdrs from the div which did the damage. The Bn's final posns were as follows:- A coy - 144532, B coy - 140533, C coy - 143538, D coy - 144533 Bn HQ - 145528. By this time the battle had moved ahead and we were left in peace.</p>	
145528 140543	29	No move during the morning and it was not until late afternoon that we were given permission to move to a built-up area. The move took place about 1600 hrs and the Bn was disposed as follows:- A coy - 141549, B coy - 142546, C coy - 143544, D coy - 143545, Sp coy - 141543. Bn HQ - 140543.	
do	30	Day was spent cleaning up kit and on maintenance of vehs.	
do	31	No move. Day spent as yesterday. Weather good.

Month and Year April 45.

Commanding Officer Lt Col D.R. Morgan, M.C.

Place	Date	Hour	Summary of Events and Information	References to Appendices
ALTENBURG 104543	1		Easter Sunday. Padre held service for C. of E and Pres, while the R.C. had their service in H.Q. coy barn. Remainder of day spent in usual routine.	
do	2		Coys training and resting. Weather very good. No word of move. We are now miles behind the line.	
do	3		No change.	
AUSTUM 886964	4		Move to new conc area at 886964. The move was carried out without any major difficulty. The CO was ill and was taken to hospital by the MO. His face was very swollen the reason for which was not known at the time. In spite of the very busy roads it was not until we were within a few miles of Austum that there was any difficulty owing to traffic jams and double banking that took place. Locations were as follows :- Bn HQ farm 886964, A coy 890965 B coy 883963, C coy 888963, D coy 886962. We expected to move to another conc area West of OSNABRUCK next day. The 2ic and IO went to Bde to a conference. The other two bns of the Bde were to clear the woods due West of OSNABRUCK. We were to lend them our carriers in order to help them complete their task.	
Do  GASTE 1507	5		The bn was prepared to move at 1030 hrs but owing to the TCVs being very late we did not move until 1430 hrs. The weather was very bad and it rained most of the way. We eventually arrived at GASTE 1507. Dispositions as follows:- Bn HQ, A and B coys in factory at 153077, Sp coy in farm at 153070, D and C coys in houses at 150069. No move was expected on the following day.	
	6		Bde O gp at 1130 hrs. Sp coy and bn HQ move in the afternoon to a new conc area at BOHNHORST 7228. The rest of the bn was due as soon as the TCVs could pick them up the following day. The Pnr pl was "at home" in the factory as there was vast quantities of wood.	
do	7		Personnel of HQ and Sp coys were organised into search parties to clear the farms North and South of the village. No enemy were encountered, although a few suspected civilians were evacuated	

			through the P.W. cage. A,B,C and D coys arrived about 1600 hours and were billeted in the village.	
do	8		Church parades for all denominations. A quiet day and the Bn had baths and film shows. Some of the men went into the nearby forest to hunt roe deer. The snipers bagged one.	
do	9		The RSM gave a lecture to NCOs of the Bn on non-fraternization. 4 PsW were taken by the carrier pl from MINDEN FOREST. One PW was also taken on the information of a Russian worker who saw the PW throw his uniform away. Information also came through of a move the following day. The Pipes and Drums played in the evening for the first time on German soil in this war.	
do	10		The move was due at 1500 hrs to WUNSDORF near STEINHUDAR MEER 145295, NW of HANOVER. The 2ic and IO went ahead of the bn in order to meet the Bde comd at x-rds 117258 for an O gp. It was here that we crossed the river WESER and passed through the bridgehead made by the 6 A/B div. The intention was that we should pass through them and make for CELLE, 227 Bde leading with 46 Bde on our right, slightly to the rear.	
GARSSEN 6254	11		The bn moved at 0930 hrs to adv to contact towards CELLE. The recce were stopped short of CELLE by some very stubborn resistance and cratering of the road. One br East of NEUSTADT 1736 collapsed and a detour had to be made for the bde. The vehs were sandwiched together and it was only with great difficulty that we harboured the bn in the wood at 4846. We were given the task of clearing the woods either side of the road from 451451 to 481462. We were the rear bn of the bde during this time. It was found that the main br crossing the river ALLER at 589506 had been blown but the 10 HLI had got some men across and had formed an inf bridgehead. The bn further South at 621483 was found to be intact by the Gordons and they formed a small bridgehead. We, with a sqn of tks, were to pass through them and make our own way to GARSSEN 6254. Unfortunately the second br at 621483 collapsed and we had to wait until a class 40 was put across it in order that the tks could get across. The other brs further on were found to be so weak as to make it impossible to get tks across. By the evening the bn was conc in the village of GARSSEN. The 2ic and IO went to bde in the evening for an O gp, Bde HQ having crossed in the town by a class 40 br.	
do	12		The bn passed the bde SP at 0915 hrs en route for UELZEN. The enemy were very clever in the way they had cratered the road and most of the day was spent trying to find a way round. The tks of the HLI found a roundabout route from which eventually they made their way to HOLDENSTADT 8387 during the night 12/13 via HOLXEN 8583. The	

			dawn of 12/13 Apr found the HLI on the outskirts of UELZEN confronted by a LAA unit firing 20mm guns at short range. The CO rejoined us at midday very much refreshed and rested.	
877847	13		The bn took up the following posns: Bn HQ 877847, A coy 893868, B coy 884857, C coy 877844, D coy 888862. The bn role was to guard the right flank of the bde adv until the div could be deployed to either outflank or attack the town frontally.	
HOLDENSTADT 8784	14		At 0030 hrs night 14/15 A and C coys moved across the GERDAU river at 898865. It was held up for a considerable time as the REs failed to recce the route down to the river through the woods and it was only through the efforts of our pnr officer, Lt H. Dunning that the boating was got to the right place; the coys did not get the best sp from the arty as they were very late in crossing and getting on to their final objectives just short of HALLIGDORF 9186. The going was very bad as the ground was marshy. Cpl Miller, of A coy, was killed during this attack. Communication was very bad during the night. The object of the attack was to protect the right flank of the adv into UELZEN and to make 44 bde's adv to the right easier. The bn moved into res in the evening when it was superseded by the adv of 44 Bde on the right.	
do	15		Open-air church parade. The bn was very tired and in need of a good rest under cover.	
do	16		Bn resting. Film shows and baths laid on for troops. There was an increase of enemy air activity and one or two bombs dropped unpleasantly near.	
do	17		Orders for the move through UELZEN and the move North were issued by Bde. The bn was to leave at 0900 hrs on the 18th.	
do	18		The move was postponed until 1200 hrs because UELZEN had not been cleared as 46 Bde had not reached the North end of the town. The next order was to be ready to move at 1530 hrs and later 1800 hrs. Finally no move for the day was ordered.	
HITTBERGEN 9031	19		Reveille 0330 hrs. We crossed the SL (rly br 888871) at 0600 hrs. The start was livened up by the strafing of the col by enemy a/c but there were no cas to men or vehs. Our objective was VOLKSTORF 8816 and we reached it at 0900 hrs. We had just settled in when we [were] ordered to move nearer the river ELBE where the 11th Armoured div were fighting for a br. After a slight change of plan half-way we eventually reached HITTBERGEN 9031 at 1700 hrs. The village was heavily stonked and just before we relieved the KSLI the br was blown completely. The bn was situated as follows: Comd Post nr church 904314, A coy astride br 895315, B coy 2 pls astride rd at 890318 with 1 pl around comd post; C coy 885325, D coy	

			888327, Sp coy 902315. The CO and IO visited C coy in the evening and were heavily stonked as they were going down the main road from B coy to C coy. The enemy were very active with their AA weapons firing in a ground role. D coy had 4 cas as a result.	
do	20		The bn remained very much the same all day. A patrol was sent in the early hours to clear the bund at SOSSENDORF 8932. All civilians were cleared out of the area to South of the NEETZE canal and many days after we were still collecting civilians out of houses and woods in the bn area. Several civilians came across the river either by boat or swimming. In the evening A coy moved to HOHNSTORF 8733 which was found to be nearly deserted.	SEE APPENDIX E1
do	21		There was a recce in the bn area for the suitability of rds and tracks for the usage of various vehs. Throughout the following nights we had many visitors in the form of assault REs, naval commandos etc. Two Dutch Fire-women were passed back through PW channels. They had been found living in the woods near Echen 8630 for several days. Planning started for the forthcoming Elbe crossing.	SEE APPENDIX E2
	22		An Int OP was est at Sassendorf 897327. More civilians were cleared from the Bn area.	
	23		CO and IO visited Bde for an O gp. Maps and photos were issued for the forthcoming op. After dark the Bde comd visited the fwd coys with the CO.	SEE APPENDIX E3 & 4
	24		A quiet day with nothing to report.	SEE APPENDIX E5
Bardowick 7726	25		Very quiet day. B coy changed round with A coy at night. There was a flap while the CO and IO were at an O gp at 44 Bde HQ. The Corps comd had asked if it was possible in view of the Russian adv to cross the Elbe that night which immediately set things in a spin. It was later found that the operation had been adv two days. The adv parties of the 9th Cameronians arrived in the afternoon. The bn moved to a conc area in BARDOWICK 7726, Bn HQ, Sp coy and A coy moving in the afternoon and evening and the rest of the bn shortly after midnight.	SEE APPENDIX E6
do	26		There were frantic last minute preparations for the operation Enterprise.	SEE APPENDIX E7
do	27		Massed Pipes and Drums took place in the Cavalry Barracks at LUNEBERG at 1800 hrs.	SEE APPENDIX E8
BRETlingen 8029	28		All pl and coy comds went on a recce to ARTLENBERG 8334 at 0200 hrs in order to have a look at the other bank. They went up into the village in darkness by vehs and walked back in daylight. The bn moved to a forward assembly area in Bretlingen 8029. Shortly after dark the bn moved forward on foot to Artlenberg until such time as	

			we were required to load into our Buffalos. The barrage was terrific and started just before midnight.	
Factory at 790397	29		<p>The rough plan was that 44 Bde should make the initial br hd, with 8 RS on the left and 6 RSF on the right. 2 A &amp; S H would take over the posns as soon as we could be got across on the returning Buffalos. The 6 KOSB were to take Schnakenbek by passing through the 6 RSF and going via rd junc 853349. The change over was to take place coy by coy with the 6 RSF. The coys were at 839351, 841352, 841351 and 842349. Bn HQ in the factory at 839350. At about 0300 hrs the bn started to cross. The first hitch was that the COs carrier got ditched in the dark and it took a good three-quarters of an hour to get it out. The CO in the meantime went over with bn HQ and used the RA net as the comd net to Bde. Just as bn HQ was getting into the quarry the enemy put down a very accurate DF task which caught a lot of people in the open. <del>Nine</del> Eight men were killed including Lt Davidson and three serjeants. 50-60 men wounded. It was most unfortunate that it should have happened at that moment as everyone had just arrived and had not time to dig in. The relief took place uneventfully, B and C coys moved up the main rd with B coy astride it at 842357 and C coy farther East at 845346. A coy then took over the protection of the left flank of the br hd from the 8 RS at approx 837353. Bn HQ in the meantime remained under the protection of the cliff at 839351. Throughout the morning the enemy shelled the bridge from a very long range and very accurately which was very distressing for the men crossing in storm-boats. The shelling impeded the rafting and br building for a considerable time. The 2 Gordons and 10 HLI had crossed, the Gordons making for Tesperhude 7937 and the HLI going for the high ground in the area 813391. We then followed up behind the HLI and conc in the area 827375 until about 1700 hrs when we were moved to a forward assembly area at 815384, preparatory to the attack on Grunhof and exploiting to Grunjager at 783399. We passed the start line which was the fwd edge of the wood at 2200 hrs in pouring rain, the RA putting down a hy stonk. Grunhof was found to be practically deserted. The area NW of Grunhof was found to be a built-up factory area with a metal fence all round. Bn HQ and B coy could not get through the gate at 795389 so had to go back and follow C coy who were going up the main rd to the right. C coy had suffered one fatal cas from the wood on the right which was found to be quite thick. Bn HQ then moved into the factory area at 790397 and collected Sp and B coys round it for defence. A coy reached</p>	

			Grunjager at 783399, C coy remained for the night at the west end of the wood at 791398, D coy in the area 782397.	
783394	30		At dawn B coy sent a pl to relieve a coy of the Gordons in the area of Krumme 778387. This was later stepped up to be the complete coy. C coy then moved round Bn HQ. Bn HQ and C coy later moved into the factory at approx 783394 in which posns we remained all day. The adv parties of a bn of 53 Div arrived in the evening. The night was spent more or less resting. The relief by the Welch bn did not in fact take place owing to the surrender negotiations which were in the process of taking place in the town.

Geesthacht 7540	1		Negotiations were made for the surrender of Geesthacht by Bde H.Q. using as a medium the civilian telephone which was still working. A truce was arranged between 1400 hrs and 1700 hrs. Following behind a Bn of the Welch Div, 2nd Bn A.&S.H. moved into positions in the area 767415 without incident. It was reported that the town contained large quantities explosives for V weapons also large poison gas stores. Every man in the Bn. carried his respirator in view of this fact. The town was full of civilians evacuated from the Hamburg area. Bde 'O' gp was at 2000 hrs and so Bn 'O' Gp was held at a very late hour. In the early hours of the morning a party of Germans came through our lines carrying white flags and were sent back to Bde.	
Bornsen 6945	2		The Bn moved along the main axis from Geesthacht to Hamburg. We moved off at 0900 hrs with Bornsen as our objective. The clearing of this area was very difficult as the road ran along the foot of a cliff and there were many deep gullies. The arty were short of amn and so could not give us the support we had become accustomed to. The main enemy opposition came from 20mm Flak guns firing in a ground role. Throughout the day white flag parties passed through our lines and eventually arrangements were made for Fd Marshall Busch to come through our lines next morning at 0900 hrs. The purpose of this meeting was to arrange the surrender of all the forces under the command of Fd Marshall Busch i.e. all the German forces operating in N.W. Germany. After a few clashes the Bn eventually arrived at Bornsen. During this action Sjt Elliot of D Coy was killed and three carriers were brewed up by bazookas, fortunately there were no more serious casualties.	
Rothensbek 7556	3		The C.O. and the I.O. went onto the main rd to meet the Fd Marshall in order to escort him back to the Div Comd. However a staff officer came to say that the matter had been taken a good deal higher as Admiral Doenitz was on his way to see Fd Marshall Montgomery. Meantime the E-Lancs from 53 Div who should have	

Ahrensburg 6567			relieved us moved towards Bergedorf 6546 for the surrender of which negotiations were being carried on. The Bn moved on all available tpt i.e. guns, S.Ps, tanks etc to Rothensbek. The Bn moved by route march to Ahrensburg and eventually arrived after some elements had travelled by a somewhat devious route. It was here that the news came through that the whole of the forces under the command of Fd Marshall Busch had surrendered unconditionally to Fd Marshall Montgomery. The Bn celebrated 21 Army Group's victory in a way that was fitting to the occasion.	
"	5		After a somewhat late start the Bn started to clean up. Pipes and Drums of the Bn beat retreat outside Comd Post.	
"	6		Bde church parade at 1100 hrs. The whole Bde Gp assembled at Bde H.Q 670662 where the service was conducted by the Padre from the 10 H.L.I. Afterwards the Bde Comd gave a short address congratulating the Bde Group on the very fine performance it had put up during the 11 months it had been in action.	
"	7		Normal day, nothing to report.	
"	8		V.E. Day. The C.O. spoke to the Bn, congratulating them on the fine performance they had put up during the last 11 months of action. He warned the Bn of things to come and the standard of turnout expected of it. The parade was also a rehearsal for the Div Comds inspection and	APPENDIX "J"
"	9		The Div Comd inspected the Bn at 1100 hrs. In his address he gave a short history of the activities of the Div since its arrival on the beaches in Normandy. He also warned the Bn that he expected a very high standard of turnout in the Div. He also pointed out that our C.O. and another one were the only C.O.s to survive the full campaign. Afterwards the Bn marched past with the Pipes and Drums playing. 12 Corps made a free issue of beer to the assault tps who made the original crossing of the Rhine and so the Bn received its share.	
	10		IO visited the 3rd Tk Bn of the Scots Guards. Some coys went swimming and H.Q. had an organised run.	
	11		Normal day. There was a film show in the town at night. IO went to Bde to collect details of move. C.O. and O.C. Sp Coy went to dinner at the 2nd Gordons.	
"	12		Harbour parties departed for both the final and intermediate locations. The harbour party for the final location was turned back shortly after it had started out, as it was found that it was a little previous. The 2I.C remained in Travemunde forming a holding party to ensure that all the best accommodation was not taken over by R.A.F. or Navy. A Coy moved to Bad Oldesloe to take over some	APPENDIX C

			guard duties in the town. The B.M. and one L.O. were accommodated at Bn HQ as Bde HQ had moved the day before.	
Schulenburg 781785	13		The Bn moved at 1045 hrs to the intermediate location, Bn H.Q. 781785, A Bad Oldesloe 7482, B Rethwischdorf 7879, C Politz 7478, D Mettewarde 7883, Sp Westerau 8179. C.O. and I.O. went to Bde 'O' Gp and the Bn was given the task of clearing all members of the German Armed forces out of a certain area. They were also to try and assess the number of Russians in the area so that arrangements could be made to transport them back to Russia. The C.O. addressed all offrs at Bn H.Q. at 2100 hrs. He told them of various mess rules and the standard he expected to be maintained in the Bn. Afterwards he gave orders to the Coy Comds for the clearing up of the area as ordered by Bde.	
	14		Normal day, weather was very hot and shirt sleeves were the order. We were told that the move to final area would be on the 16th.	
	15		'O' Gp at 0930 for the move on the 16th. Just before 'O' Gp started news came through that the move was postponed until the 17th or 18th, this was later altered to the 20th. The C.O. left at 1400 hrs for his course in England at the S.M.E. Ripon.	
	16		Nothing to report.	
	17		Bn will move to final location tomorrow. Most of the day was spent packing up as we were to make an early start next day.	
Travemunde 0601	18		Bn moved off at 0730 hrs and arrived at Travemunde at about 0900 hrs. H.Q. Coy could not take over their new billets as the Cheshires (5 Div) who we were taking over from had not moved out, and it was not until 1400 hrs that H.Q. could take over. The rest of the day was spent getting everything unpacked and organised. This is the first time we have been able to settle down properly since landing in Normandy. Final dispositions as follows: Bn H.Q. 068023, 'A' Coy 917874, 'B' Coy 022924, 'C' Coy 067020, 'D' Coy 083003, 'H.Q.' Coy 068024, 'SP' Coy 007938.	
"	19		Today was spent getting organised and quite a few changes were made.	
	20		Church Parades for Pres, C of E and R.C.	
Travemunde	21		We have 100 German P.Ws. attached to us as a working party. 60 work in H.Q. D & C areas, 30 in Sp Coy and 10 in B Coy areas. The canteen "Stirling Castle" was officially opened this afternoon. We were entertained in the canteen by the famous dance band singer Dorothy Carless and another guest singer. They gave an excellent concert for 75 minutes. Later Miss Carless and her party were entertained to tea in the offrs mess. Today history was made when retreat was delayed in order to enable Miss Carless and her party	

			to hear it played. So far as is known this is the only occasion during the history of the Regt that retreat has been delayed.	
"	22		Nothing of importance to report. The Bn is providing a large number of guards for bridges, dumps, factories etc. Some coys are doing night on and night off.	
"	23		Bn started sending parties to Lubeck for recreation.	
Travemunde	24		Another uneventful day.	
"	25		A very busy day of preparation for the Brigs inspection which takes place tomorrow.	
"	26		The Brigs inspection started later than was expected as there was a conference at Bde which held things up. The inspection started with Bn H.Q. at 1445 hrs, then the remainder of the Bn less 'A' Coy. The Bde Comd was very pleased with the turnout of the Bn. The Transport worked very hard to transform a piece of waste ground into a veh park that would have made Blackpool envious.	
"	27		Normal church parades for Pres, C of E and R.C.	
"	28		Normal working day. A party of offr and sjts from the Scots Guards were entertained at the offr and sjts messes.	
"	29		There was nothing of importance to report today.	
"	30		The Bn is well settled down now and things are running smoothly. Guards are still very numerous.	
	31		Nothing to report. We are having glorious weather.

PLACE	DATE	HOUR	SUMMARY	REMARKS
	1-5		Regt returns to TILBURG for rest and re-equipping.	
	6		Lt Col Bethell DSO R.A. posted to staff of SEAC. Regt moves from TILBURG to area of HASSELT.	
	7-19		Training in river assault crossing and ferrying of guns across a river obstacle. Planning for Operation Torchlight. On 11 Mar Lt Col T.P. Keene R.A. assumed command of the regt.	
	20-21		Regt moves to fwd harbour area S.E. of GOCH.	
	21		Preparing for ops.	
	22		Regt moves to gun area near VYNEN arriving in the dark. Guns not put in action.	
	23		Day spent preparing for Rhine crossing. Weather excellent. Occasional enemy shells coming over.	
	24		Regt commenced firing at 0025 hrs in sp of 44 Bde. Crossing made with little opposition. All three battalions established firmly by morning. Airborne tps began arriving at 1000 hrs. By afternoon RS and KOSB have linked up with 6 Airborne Div and 17 US Airborne Div.	
	25		By early morning the 44 Bde and the two Airborne Divs formed one solid bridgehead of considerable depth. The advance was to continue but fire support had to be provided by other units while the regt was crossing the Rhine. Damage to the bridge and trouble with the rafts made this a lengthy process. Recce parties were over in the morning but it was late afternoon before the complete regt was in action. During the interim period our OPs remained with their respective bns and support was given by a SP regt, which had crossed earlier in the day, and Medium guns still West of the Rhine.	
	26		The guns had been put in action well fwd in the bridgehead and were well able to cover the further advance towards the River Issel. Amn supply was difficult and most necessary as there was still only one field regiment across the Rhine.	
	27		A bridgehead was established across the River Issel, a deep salient was thrust into the rear areas of 7 Para Div and throughout the day repeated counter attacks were broken up by concentrations of fire. Very	

		large numbers of Germans were killed while trying to fight their way back from the West.	
	28	Stragglers continued to be roped in but by evening another formation had taken over the advance.	
	29 30	Guns brought out of action. OPs withdrawn and regt concentrates in present gun area. All ranks addressed by the C.R.A. who thanked them for the good work done in the past.	
	31	Remained in concentration area. Large numbers of German Army horses provided the main occupation.

	1-4		Rest in gun area close to Rhine continued. The regiment was addressed by the GOC on 2 Apr and congratulated on its good work and smart appearance.

	6		Major KEENE (2 i/c) went on reconnaissance of new gun area for possible future operations South of WIERT and 7051.	
	7		Regt indulge in recreational training, which included lecture by Dutch Liaison Officer on The Lot of an occupied country including warnings as to precautions to be taken on entering Germany. Guns and vehicles painted - a few officers and ORs on 48 hrs leave to BRUSSELS.	
	8		Rest period cut short by reconnaissance of gun area from which to support 3 Divs attack on OVERLOON. Area found at OPLOO 7236.	
	9		Regt move to OPLOO position and 300 rpg dumped on position. Div Arty now working under 8 Corps.	R Streatfield
	10		Regtl Signal Class ends. Regt in action waiting for D Day. Very wet and roads made impassable by Tanks of 6 Gds Armoured Bde.	
	11		Artillery from 3 Div, 11 Armd Div, and 8 AGRA in addition to our own now in area. Very little C.B. by enemy which is fortunate as the landscape is pretty badly congested.	
	12.		3 Div commences Operation CONSTELLATION. Regt assist by firing barrage with the object of getting infantry as far as OVERLOON.	

		Enemy has one of two fwd OPs in VENRAY CHURCH and a Forest fire observation tower. Enemy artillery fairly active chiefly in forward areas.	
	13	Continued to support the operation. Country very open and possible gun areas further fwd obviously in view. They were reced but not occupied.	
	14	Further barrage fired to get 3 Div as far as VENRAY. Enemy resistance strong and going extremely bad. The advance was slow but sure.	
	15	11 Armd Div broke out Eastward from OVERLOON and Regt again in support and later in day move fwd to OVERLOON area. Devastation more like NORMANDY and scale of effort similar - very little C.B. - very wet.	
	16	3 Br Div continue attack on VENRAY with 15 Div Arty still in support.	
	17	15 Scottish Div come under command 12 Corps. Regt comes out of action and withdraw to old harbour area at BAKEL prior to move Westward to support the drive to TILBURG.	
	18-19	Regt in harbour area resting. Recce in area of ZANDRANT (4443) East of S'HERTOGENBOSCH.	
	20	4 Coldstream Gds take over harbour area and Regt moves off into action in previously reced area. OPs of 529 Bty with 9 Cameronians at BEST. Remainder of 46 Bde still at HELMOND resting.	R Streatfield
	21	Capt. Spafford as rep to 53 Div Arty. Fire plan for Op PHEASANT arrives. Large dumping programme.	
	22	Fired timed programme of concentrations for 53 Div and 7 Armd Div advance on S'HERTOGENBOSCH. The tanks made so much noise getting to their F.A.As that a certain amount of hostile arty fire was experienced in the gun areas. One OR was wounded. A few mines encountered.	
	23	Regt fired in support of second stage of attack by 51 (H) Div, a night advance on SCHINDEL and BOXTEL. The night attack, good weather, and tank support appeared to give offensive a good start.	
	24	Regt moved round to the BEST area and harboured the night in the Brick Factory East of BEST (on the canal) from which they had operated a month previously.	
	25	46 Bde with 2 Scots Gds and 190 Field Regt in support carried out the drill book advance to contact battle. 2 GH formed advance Gd Battalion mounted on the Churchill Tanks of the Scots Guards. 530 Bty were placed close up in the order of march behind the vanguard company with the remainder of the Regt in rear of the main guard.	

		<p>Two OPs in Churchill Tanks. All OPs with Tanks and with Infantry were from the Regt and on the same frequency. This worked well and should now be the normal drill. The remaining Bns of the Bde were mounted in KANGAROOS. This pretty considerable force with its supporting arms was pieced together along the canal bank East of BEST and in BEST itself. It was well organised and all units passed the S.P. (0900 hrs) on time with very little delay or fuss. Maj Stephenson ordered his van guard Bty into action on first contact with the enemy half way between OIRSCHOT and MORGESTEL. This was the first rapid action done during the campaign and was carried out with creditable speed. The 2 i/c (Maj KEENE) travelling with the adv gd Bn R Group was quickly on the scene and on the orders of the C.O. (Lt. Col. R.J. STREATFIELD) travelling in the Bde R Gp deployed the remainder of the Regt. The whole Regt being ready to fire within ½ hour of the first deployment order. The road was now clear for the remainder of 2 G.H. who proceeded on their Churchills through the Gun position and decanted close up to the point of contact. The first enemy positions were soon overcome but a blown bridge slowed up the advance. The Scots Guards quickly put down 2 Scissors bridges which just spanned the gap and the leading infantry with carriers and tanks were soon in MOERGESTEL. The KANGAROOS with 7 Seaforths on board dashed through and proceeded on Northwest towards OLSTERWIJK through thick country and under fairly heavy enemy arty fire. They were followed speedily by 9 Cameronians who headed for the N.E. outskirts of TILBURG with a view to capturing the main Rd Bridge across the canal. During this period the Regt has been filtering forward by Tps giving continuous support finally settling for the night 24/25 just east of MOERGESTEL. It was a most satisfactory days work and seemed to go with a swing from start to finish. The Inf/Tank Co-op was particularly good and made the whole difference.</p>	R Streatfield
	26	<p>2 G.H. and 7 Seaforths attacked OISTERWIJK (2434) fairly strongly held and covered by strong enemy mortar and arty fire. Regt supported these attacks and by midday most of the village captured. 9 Cameronians had pushed on to Bridge area subjected to considerable enemy arty fire from the North.</p>	
	27	<p>44 Bde attack TILBURG from South and by afternoon town appeared to be free of Germans. 2 GH and 9 Cams ferried across in boats and Cl. V rafts. Occupation of town commenced. Regt moved fwd into MOERGESTEL area.</p>	
	28	<p>Regt marched into TILBURG and occupied position in Western outskirts to support the continued advance of 7 Armd Div north of the Canal on</p>	

		our right in LOON OP ZAND area. Division had popular reception but all too short stay.	R Streatfield
	29	Early move EAST via EINDHOVEN to ASTEN. Whole Division quickly moved across during day to fill a gap between 11 Armd Div and 7 American Armd Div following enemy advance North from MEIJEL to LIESEL & LOON.	
	30	Regt support 46 Bde drive South from LOON. Some AP Bombs dropped in wagon line area with casualties to the Regtl LAD (WO1 GINGER WO i/c LAD killed).	
	31	46 Bde continue drive to SLOT with 4 Coldstream Gds in support. Boggy country and foggy but attack went well and objectives gained. Tanks definitely very great morale effect to own Infantry and the close support of their guns most efficient and effective.	R Streatfield

Commanding Officer Lt. Col. RJ STREATFIELD R.A.

Place	Date	Hour	Summary of Events and Information	References to Appendices
HOLLAND	1		The Regiment was still in action in area of ASTEN and supporting 46 Bde with 6 K.O.S.B. under command in operation to clear area between main road LIESEL to HEITRAK eastwards to Helena Canal. The operation was a success. Very late in afternoon CO2 and recce parties rushed off and in half light reced a new gun area at Rinkveld 6414 which the Regt occupied in dark, the first night occupation since we crossed the Seine.	
	2		46 Bde continued to advance South of Heittrak 6910 encountering heavy mortaring and shelling. Again very late in the afternoon CO2 and recce parties were ordered forward to a new area 6712 which was reported heavily mined. The area was found to be poor and mined as reported and Lt. G.A. Smith was blown up in his Jeep and killed approaching the area from the West. His CPOA was evacuated with severe head injuries. These were the Regts first mine casualties. The new area was pronounced impossible by CO2 and after considerable talk with HQRA it was abandoned.	
	3		The most important event today was the conflagration in 530 Bty Command Post which was in a building shared with the cookhouse of 8 R.S. The CO2 also visited 6411 and neighbouring area in search of a possible new area to support further operation on MEIJEL.	
	4.		In the morning CO2 and recce parties moved to area 6411 and the Regt moved at midday. The gun area was well away from the road and the long tracks were already badly rutted when we occupied. We supplied a shellrep OP of two officers to take flash bearings and pass reports on the shellrep frequency to C.B.O.	
HOLLAND	5		Smoke was the order today. The first screen was fired as part of a normal fire plan in support of 44 Bde and 4 Tank Coldstream Guards who were attacking south of Heittrak. Owing to the extremely boggy country the tanks got stuck very early on and we continued to fire smoke all day whilst recovery went on. We expended some 4000 rounds of smoke altogether.	R Streatfield

	6		We again fired smoke in support of the 7 Seaforths who gained their objectives at NEERKANT 7009 without much opposition. Mines were the chief delay. Dinner time in the evening at RHQ was considerably interrupted by a brief aerial attack with a few bombs which removed half of the roof and subsequently drenched the Assistant Adjutant.	
	7		Things were fairly static and batteries carried out troop shoots on enemy positions with considerable success. We are told that one Bty at a time would be allowed to withdraw to ASTEN area for two days rest. Capt. DYAS of 529 Bty takes over Adjutant whilst Capt BRETT was away at BRUSSELS.	
	8		531 Bty went out of action to rest at ASTEN. Very little happened and a large number of entertainments were given to batteries. The C.O. arranged an Admin Inspection of Batteries during their rest period.	
	9		More entertainments and Baths were allotted to the Regiment and the Divisional Education officer talked to a selected audience on "The Far East".	
	10		529 went out to rest and 531 returned. The area South of ASTEN became restricted and numbers of civilians were passed to POW cage. The RSM took over the responsibility of the roads in the Regimental area and reced a new way-out to a hard road.	
	11		Road maintenance, entertainments, and baths continued and 200 rds per gun were dumped in preparation for further ops.	R Streatfield
HOLLAND	12		530 went out to rest and 529 returned. Troop shoots were continued otherwise things were very quiet.	
	13		Continued rain and entertainment transport rendered the roads in the gun area almost impassable and traffic was cut to a minimum. A bulldozer gave invaluable assistance but things were still very bad. For the first time in the history of the Regiment a battery refused some vacancies for entertainment.	
	14		Today we fired a deception Fire Plan together with a fair amount of infantry small arms and mortar fire as a prelude to the 12 Corps attack on our right. The Boche seemed to swallow the bait though his reactions were not as vigorous as expected. At 1600 hrs we heard in the distance the terrific barrage which announced the 12 Corps attack to BERINGE.	
	15		530 Bty returned from rest and the rest programme was completed. Patrols from 227 Bde pushed down to MEIJEL and beyond finding no opposition but many mines and booby traps. Lieut. C.R. ASHWORTH arrived from 31 R.H.U. and took over duties as Assistant Adjutant.	
	16		Infantry patrols pushed further South. CO2 and recce parties prepared a new area at 6910 Heikant - a good area though 530 Bty's	

			area was a known German DF Task. First proper frost during the night. V2 rockets launched due East were observed from RHQ in the evening as on several other nights.	
	17		A few hostile mortar targets were fired and a rum ration issued. 529/530 had a most successful afternoon dance at HELMOND.	
HOLLAND	18		In the morning the C.R.A. walked around the Gun Positions. We were warned of move to new area probably on 19th. An OP was attached to B Sqn Recce who would be acting as right flank OP. CO2 went to orders at 46 Bde and had an order group on return. Infantry plans formed and cancelled with remarkable rapidity.	R Streatfield
	19		9 Cams crossed double canal at HOOGEBRUG Bridge and patrolled towards Helenaveen. Regt moved in the morning to the area already prepared at Heittrak.	
	20		Cams push on to Helenaveen meeting most difficulties in the shape of mines (Schu and AP) and boggy country. The C.O. gave orders to the effect that the 2 G.H. were to go through to SEVENUM. A suggested new gun area was 7312.	
	21		CO2 visited the suggested area but found it impracticable. He then proceeded to a more Southern area and had to fix 7708 as final area. Recce parties hurried forward but only 530 Bty moved that afternoon. It was obvious that we would have great trouble with the roads in the area which were very bad before we moved in.	
	22		Rest of the regt moved to new area. The infantry pushed on well in very bad conditions and deliberate fire plans were formed and cancelled as their need disappeared.	
	23		H.Q.R.A. wanted us to move forward as we were rapidly getting out of range. C.O.2 set out to recce the route out but found an impassable part. The proposed new gun area 8014 was reced by proxy by Major Ginn OC 531 Bty and pronounced good. Move was however cancelled as alternative routes were found equally impracticable.	
	24		The Regiment was completely mud bound and fired nothing all day being out of range. CO2 and recce parties struggled through and reced new area 8219 near HORST. This area was extensively mined, but nevertheless good gun area.	R Streatfield
HOLLAND	25		The Regt left its mud bound position and took six hours to get to its new area 8219 leaving a few breakdowns on the way.	
	26		Today the Regt shot its first round at Germany. The C.R.A. in person directed an U Tgt and our first rounds landed on German soil at 1200 hrs. Very little opposition was being met by infantry and recce and CO2 reced a new area at 8519 Melderslo in anticipation of a new move. Later in the day full preparation of the new position was	

		carried out. We received a fire plan in support of 9 Cams and 3 Tank Scots Guards against Lottum 9019.	
	27	9 Cams operation carried out with little opposition and the Fire Plan was cancelled. We were warned of move over to present 49 Div area and later this was confirmed. We were to take over complete from 143 Field Regt in area 8408 near Maasbree.	
	28	C.O.2 and recce parties left in morning for new area. We took over Gun Pit for Gun Pit from 143 Field Regt. The area was quite good though RHQ appeared to be quite a likely H.F. Task. The Regt moved in the afternoon and was ready in time for tea. Our infantry also started to move down, 46 Bde taking over from 56 and 146 Bdes of 49 Div.	
	29	A fairly quiet day. In the afternoon an HF fire plan was fired on selected enemy posts in and around Blerick the suburb of Venlo on the West of the Maas. The RAF raided 531 battery with propaganda leaflets but the Gunners unfortunately couldn't read German.	
HOLLAND	30	<p>The Gun position was shelled in the morning and 531 Bty had slight vehicle casualties. More HF was fired in the afternoon and the evening was marked by the arrival of the Regimental Christmas Card (Copy attached as Appx). 8 Corps Comdr Lt.Gen Sir Richard O'Connor came to say Goodbye to all Senior Officers on having to take up his duties in India. Information received that Capt. AC HOBSON Tp Comdr D Tp 530 Bty and Capt. JFB O'SHEA Tp Comdr A Tp 529 Bty have been awarded the M.C. for conspicuous gallantry during the operations on the Dutch/Belgian frontier. This now makes 4 MCs in the Regt.</p> <p>It is food for thought whether we do not move too many <u>Regts</u> of Artillery fwd when the enemy is weak and the ground bad for deployment and full of mines. The fire power of one Regiment instead of three would often have met the case and caused less harm to bad tracks, eased the supply problem and rested the guns and gunners. I feel it is a point that should be noted.</p>	<p>R Streatfield</p> <p>R Streatfield</p>

Place	Date	Hour	Summary of Events and Information	References to Appendices
HOLLAND	1		Regiment were in action at MAASBREE 8408. There was very little activity on the front where the 2 G.H. patrolled to probe the German defences of BLERICK. Registration was carried out by OP's and a few selected Mike Tgts on prominent points on both sides of the MAAS kept the Huns' interest alive.	
	2.		Preparations for Op "GUILDFORD", the capture of BLERICK which is the suburb of VENLO on the West of the MAAS, started in earnest. The large trace and overprint of the Fire Plan were received. In the afternoon harassing fire was put down on likely points for enemy movement. The enemy retaliated in kind and a few casualties were incurred on the gun positions though no one was killed.	
	3.		Operation "GUILDFORD" was carried out by 44 (L) Inf Bde with 7 SEA under command and supported by 31 Armd Bde, flails and crocodiles and the Artillery of 15 Div, 53 Div, 8 Agra, 3 AGRA and 59 AGRA. The attack was preceded by an intense Counter Battery programme which silenced several troublesome German batteries for a time, though the programme had to have a repeat later in the morning as enemy fire became more intense. The initial bombardment was thickened and considerably enhanced by the Canadian Rocket Projector or Mattress a super Moaning Minnie. The operation was a model one and a great success. At H hr a barrage supported the first attack by 31 Armd Bde with flails in front to clear lanes through the thick minefields. The wide anti tank ditch was soon bridged and the first two battalions 8 RS & 6 RSF riding in Kangaroos entered BLERICK with little opposition. The 6 KOSB & 7 Sea followed up, also in kangaroos and the clearing of the suburb continued all day, and at nightfall BLERICK was entirely in our hands. The co-operation of Infantry and armour was highly successful throughout the day, and the intense Artillery fire did much to prevent casualties among the infantry from enemy DF fire. Over 250 prisoners were taken. 5500 tons of amn were fired by the supporting Artillery. The success of the day was saddened by the	

HOLLAND			death of Maj. S.M. GINN, BC 531 Bty who was killed by a shell splinter whilst sitting in the Seaforth's HQ after the attack was finished.	R Streatfield
	4.		We fired little today. The CO2 went to recce a rest area in and around ASTEN in prospect of the regiment's moving out along with 46 Bde. Later in the day we received definite orders to move out to rest on the 5th. The period of rest was to be approximately 7 days. During the evening RHQ was rudely shelled and suffered a few minor casualties.	
	5.		The regiment moved out to rest and established itself with two Batteries on the Northern and Eastern outskirts of ASTEN respectively and RHQ and one battery at HEUSDEN, one mile south of ASTEN. It appeared that each Bde Group would come out to rest for a week at a time and the Divisional front on the MAAS would be held by 2 Bdes each with two Bns in the line.	
	6.		Btys started the rest period with intensive cleaning up and maintenance, the intention being to complete all the outstanding work in the first few days. In the morning the CO2 attended a conference at HQRA about future plans. RA regiments were to rest one at a time with their brigade and CO2 was to recce a new gun area about 8107 SW of MAASBREE.	
	7.		CO2 & Sur Offr recced the proposed new area and found the tracks deeply rutted and thick with mud whilst the fields were covered in water. They contacted CO2 of 181 Field Regt and looked at other areas. On return the CO2 presented his adverse report to HQRA and was given a free hand to choose his own area. In the evening the CO returned from BRUSSELS bringing Major GMD WINGATE to join regt in place of Maj GINN.	
	8.		CO2 and Sur Offr did a further recce and finally decided on the area 8372 with two btys up and one back, and an harassing fire position in our old gun area at ROOTH. Meanwhile the regiment continued its maintenance and received several allotments for baths and shows.	
	9.		CPO's carried out the detailed recce of the new positions and survey was done.	
HOLLAND	10&11		A large bathing programme was completed and large numbers of men were sent to shows and cinemas at ASTEN, HELMOND, and DEURNE where they were constantly and repeatedly entertained by The Lady in the Dark, and Fanny by Gaslight.	R Streatfield
	12.		531 Battery moved from their mud bound rest area to the area of the Factory in ASTEN where they had more and better accommodation for the men. Entertainments continued as before.	

	13.		<p>Recce parties from 181 arrived to study the regiments layout in the rest area. The present plan was that they would come out to rest on the 16th when 46 Bde relieved 44 Bde in the line. To-day Field Marshall Sir B.L. MONTGOMERY presented decorations to officers and men of 15 (S) Div. The CO &amp; a small party attended. MC's were presented to Capt JFB O'SHEA Tp Comdr of "A" Tp &amp; Capt AC HOBSON Tp Comdr "D" Tp.</p>	
	14.		<p>Today Capt. J.H. BRADLEY late of "C" tp took over the duties of Adjt from Capt The Hon LGB BRETT who retired to the calm of "B" tp. Entertainments contd and included a mobile cinema.</p>	
	15.		<p>An uneventful day until after dinner when an LO from 46 Bde brought the news to the CO of the change of plans. 46 Bde is to take over from 158 Bde of 53 (W) Div in the area HANSSUM and BUGGENUM on the MAAS.</p> <p>The CO went on a recce with Brigadier VILLIERS of 46 Bde to the new area and CO2 went to a CRA's Order Gp in the expectation of orders for a recce of a new gun area. No orders were received about this from the CRA. On the CO's return we learned that we were to occupy an area about 7598 next to the area of 83 Field Regt of 53(W) Div. We would use the present 83 Field area as a harassing fire position. Probable move on 17 Dec. CO2, CPO's &amp; Sur Offr carried out the detailed recce of the gun position 7598 and liaised with 83 Field who were still in action. A most important event today was the ballot for leave in the U.K. which is to start on 1st Jan. A sad feature of the day was the despatch of 29 OR's from the regiment to Infantry. All were A1 and under 25. The CO said good bye to them before they left for England and new training.</p>	
HOLLAND	16			
	17.		<p>The regiment left its rest area at ASTEN and occupied its new positions just outside ROGGEEL. 529 occupied the harassing fire position. Each battery would do this in turn, the remaining two being at rest apart from urgent calls. On occupation RHQ suffered unduly, first being shelled as they entered the new position and then being bombed by 3 Stukas as they were moving to a new RHQ area. Two casualties, one fatal, resulted from the bombing.</p>	R Streatfield
	18.		<p>530 Bty was rudely awakened by a bomb dropped by a British plane at 0530 in the morning. No damage was caused by this accident. In the morning CO2 and Sur Offr reced a possible alternative area in 7398 in case we got shelled excessively in our present position.</p>	
	19.		<p>530 relieved 529 in the harassing fire position. Very little shooting was carried out owing to poor visibility. Firing was chiefly at hostile mortars. The Regiment received a draft of 32 men</p>	

			from 124 Field Regt one of 50 Div's regiments which were returning home as skeleton training units.	
	20.		Little activity on the front. Seventeen men from disbanded regiments in 59 AGRA joined the regiment and also Capt G. THOMPSON late of 185 Field Regt who took over C troop of 530 Battery.	
	21.		During the day 531 bty relieved 530 bty in the harassing fire position. The chief activity continued to be fire against hostile mortars which were fairly active all day.	
	22.		Brigadier BOLTON the CRA today presented Certificates of good service from Field Marshall Sir B.L. MONTGOMERY to members of the regiment. The recipients were :- <u>For Gallantry</u> - Sgt WOOD AI Sigs 530 Bty. Sgt DUNSBURY AI Sigs 531 Bty. <u>For Continued Good Service</u> - Capt. V. BORRELLI. RAMC. Unit MO. RMQS. MOORE.	
HOLLAND	23.		529 Bty returned to the harassing fire position. Today an exercise "SHAMPOO" was carried out in conjunction with the infantry, the chief object being to test the communications by which the infantry could call for fire quickly and control it, if need be, in an emergency. We had our first really hard & white frost.	R Streatfield
	24.		529 bty celebrated their Christmas today. Poor visibility hampered observed shooting, but several hostile mortars were engaged.	
	25.		Christmas day was cold, clear and quiet. A mutual desire to be left alone seemed to exist in the troops on both sides of the MAAS.	
	26.		Frost continued and visibility was very poor, hampering most observed shooting. CO2 & CPO's carried out the detailed recce of a gun area in 7102 which would be used as a rear position if the enemy made an attack in strength over the MAAS.	
	27.		Today was the second anniversary of the formation of the regiment. Circumstances unfortunately prevented any general celebration. Visibility still bad.	
	28.		531 Bty went to the harassing fire position. It was still freezing hard and road surfaces were very dangerous. Transport consequently was kept to a minimum. Shooting was still chiefly against hostile mortars.	
	29.		Another quiet day with very poor visibility. Subsidiary OP's were established in the infantry areas as additional eyes and to be manned by senior NCO's. In the evening as many officers as possible attended a regimental dinner party in celebration of the second anniversary.	

	30.		Another quiet day with little shooting apart from hostile mortar tasks.	
	31.		A wonderful day for visibility, and remarkable for two shoots; firstly a Victor Tgt on some Russian guns and secondly an Uncle Tgt by the CRA. In the latter the regiment distinguished itself by producing the best result on the ground. Today was also distinguished by the fact that we dispatched our first party on home leave.	R Streatfield

HOLLAND	1.		The regiment was still in action near ROGCEL 7598. The New Year was ushered in by harassing fire from the Regt as the clock struck twelve. The more alert outposts on the MAAS stated the noise of Boche carousing ceased abruptly on receipt of this unwelcomed gift. During the day the CCRA, Brig. A.G. Matthews of 8 Corps visited the Div Arty. The CCRA came to the Regt in the afternoon and toured the bty areas, inspecting gun posns and meeting offr & men, in particular those who had recently come from 50 Div & 59 AGRA. Afterwards he was entertained to tea at RHQ.	
	2.		530 occupied the new Harassing Fire position at 744969. Shooting was still restricted to hostile mortar and battery tasks, with a very few observed tgts. Today the CO visited 31 RHU at Bourg Leopold in search of possible additions to the regt and returned with a new BSM and Maj EDC Campbell late BMRA of 55 Div. It was the CO's policy now that UK leave had started to have a few offr & NCO's surplus to WE who could fill up the places of personnel on leave.	
	3.		Overnight and during the day a thaw set in which cleared the roads of their icy cover. In the morning the CO had a conference with Sjts who had occupied forward OPs on the MAAS, discussing the advantages and disadvantages of each position and putting right anything that had gone wrong so far. As a rule forward OPs in forward infantry localities should never be occupied unless the observer is accompanied by the relieving infantry section.	
	4.		A quiet day with little shooting. A small party of Offrs & NCO's visited the Mines Museum at Bourg Leopold where there are good facilities for all sorts of mine training.	
	5.		The great work of today was the organising of the "42 CLUB" a regtl rest centre to be established in Heijthuisen 7196 near the CO's Tac HQ where Lt. Herbert the IO could keep watchful eye on it. The interpreter found a suitable place and a small staff was selected. The capacity of the club was 12 and the period of rest 24 hrs to be	

			extended probably to 48 hrs as things settled down. In the evening the CO went to HQRA for a discussion on Fire Plans.	R Streatfield
HOLLAND	6.		The cold returned and snow threatened. The 42 Club was opened in the evening when the first batch from 529 & 531 btys visited it. Its varied amenities include table tennis, darts, a wireless set, a gramophone and a piano.	
	7.		A very quiet day with scarcely any firing. The CRA paid a brief visit prior to his going on leave, to devolve certain responsibilities on the CO during his absence.	
	8.		To-day it snowed heavily. In the morning 529 bty relieved 530 bty in the harassing fire position. Major JHM Stephenson of 530 bty departed on a "Half-track" course to RHYL. Owing to the small number of offrs now left in 530 (2 being on courses, 2 in hospital and one on leave) Maj Campbell took over BC temporarily. In the afternoon the Div I.O. Capt Rosdol gave a talk on the current situation.	
	9.		A very quiet day with only a little hostile mortar shooting. In the evening there was an offrs conference at RHQ. The subjects under discussion were the line communication layout, the local defence scheme and the infantry dispositions and patrols. The first was found to be uncommonly complex and a more simple layout was evolved. Flaws in our own local defence were brought to light and a more comprehensive and foolproof plan was made.	
	10.		During the day RHQ moved from the Brunhold area to Ophoven 754980 where accommodation was better both for vehs and men. Another "Shampoo" exercise practising infantry control of artillery fire was carried out. A further simplification of line layout was made afterwards to avoid repetitions of certain errors which occurred in the passage of orders from infantry to gunners OPs. It was decided that in a fairly static position it is always better to employ an exchange at the main OP of a battery rather than have three or four "tees in".	
	11.		A very quiet day with only a little hostile mortar fire.	
HOLLAND	12.		Another quiet day marked by a short period of thaw in the middle of the day. Capt JFB O'Shea MC, Tp Comdr "A" Tp departed for England on a Photographic Interpretation course. Lt. Herbert started a fortnight's Regt signalling course for beginners and potential signallers.	R Streatfield
	13.		Chief events of the day were the practise of working out and firing Quick Barrage and Oboe smoke screen carried out by the CO. Visibility was poor. The results undoubtedly mystified the Hun.	
	14.		An uneventful day.	

	15.		531 bty occupied the harassing fire position and 529 returned to their old position at Brunhold. In the evening there was an officers' conference at which the regtl procedure in Quick barrage and Mike tgts was reviewed and discussed.	
	16.		In the early hours it was intended that the 9 CAMS would send their first fighting patrol over the MAAS. Everything was carefully practised and a fire plan was laid on in case of accidents. 61 Med Regt were to participate in this as well as ourselves. Unfortunately the assault boat was damaged and the patrol was called off. During the day the CO, CO2 and other offrs attended 2 lectures at Division on the organisation and tactical handling of 79 Armoured Division which is equipped with specialised weapons such as Crocodiles, Kangaroos, Flails and Buffaloes.	
	17.		During the day the CO went to a demonstration of the T97 V.T.fuze at Lommel ranges. This fuze is new to Field Gunnery, having originally been produced for A/A work. It is a "Proximity Fuze" exploding on coming within approximately 30 feet of a solid object. Their action produces a most effective air burst under most conditions though this fuze is liable to explode too soon in bad weather.	
	18.		In the early morning it was hoped to send the patrol from the 9 Cams over the MAAS. A repeat performance of the previous show was arranged, but the attempt was finally given up when the flares of an allied air raid illuminated the scene too much. The day that followed was quiet.	
HOLLAND	19.		An original item in the day's limited shooting was the firing of some propaganda shells over the MAAS. Our OP's were unfortunately unable to observe any reactions. A feature of the day was the show produced by Capt PMC Whitten of 531 Bty in a hall at Roggel. He scoured the regt for talent and two performances of a first rate variety show were given. The latent talent brought to light on this occasion was quite surprisingly good and it is hoped that there will be many more similar efforts.	R Streatfield
	20.		This was a very quiet day. The CO Lt.Col. R.J. Streatfield departed on UK Leave and Major T.P. Keene second-in-command assumed command of the Regt.	
	21.		A recce party consisting of one rep per bty and RHQ with Major Wingate of 531 bty in charge set out to recce a supposed rest area in the vicinity of LIERRE in Belgium. In the evening Maj Wingate returned to the regt to report on the excellence of the area to the CO.	
	22.		Plans for rest area were changed and Major Wingate departed to get new orders at Herenthals and to warn recce party of the change. At	

			the regt there was little happening though visibility was better than normal.	
	23.		Recce party moved from Lierre to Tilburg to receive a new area in the town itself. It was not a good area but it was considered the regt could squeeze in. On the MAAS the infantry of the Division was relieved by the 6th Airborne Div and it was expected that our regiment would be relieved by the 4th RHA. Lt. JJ McNinch of 531 Bty left the regiment to go on an Air OP Course in England.	
	24.		The Division less 190 Field regiment moved to the Tilburg area. The regt sent harbour parties to help the recce party in the new area. It was not expected that the 4th RHA would relieve them until the 27th January.	
	25.		At midday the regiment was suddenly ordered to move and the 13 RHA of 11 Armd Div appeared to take over from it. With great speed everyone packed up and by tea time the whole regiment was on the road. A hazardous journey on very slippery roads was accomplished with only one small accident and the regt was comfortably installed in Tilburg soon after nine o'clock at night.	
HOLLAND	26.		The day was spent chiefly in sorting out the new areas and generally settling down and cleaning up after the move. The troops were delighted to be in civilian billets after so many months in barns and dugouts. It was hoped that everyone would get a substantial rest and clean up.	R Streatfield
	27.&	28.	Two quiet days with nothing outstanding to report. By now everyone was well and comfortably settled in. The people of Tilburg certainly showed their delight at entertaining their liberators.	
	29.		We had our first regimental church parade in a church since we started the campaign.	
	30.		The only feature of the day was an Officers' Dance held in Tilburg. Officers of the regiment competed hard to produce the finest specimens of Dutch beauty.	
	31.		The month ended very quietly. A most remarkable fact is that throughout the month the regt received no casualties from enemy action.  <u>CO's opinions</u> Counter Mortar is still in its teething stages. This month gave ample opportunity for testing it. At present it has too many masters and lacks good communications. The Results are slow and uncontrolled. My suggestions are that this most important weapon should be handled on a Div level. The Div CMO should have under his command (call it a Bty) 2 Radar dets, 2 Four Pen Recorders Dets and	

		<p>3 ACMO Detachments with a small line party. There should be two wireless nets, i.e., a Fwd Link and a Rear Link. The object being to speed up Retaliation on active enemy positions, especially the Mobile Nebelwerfer. Good communications are the essence of this problem coupled with unified control of these main means of detection.</p> <p>The past month is still noteworthy for the exceedingly slow procedure of getting personnel back to the Regt who have been wounded, sick, on courses or compassionate leave. The lack of a sense of urgency on the part of RHU staffs is quite deplorable, there is no doubt this laxity hampers the efficiency of the war effort and causes grave discontent.</p>	R Streatfield

Commanding Officer Lt.Col.R.J.STREATFIELD. R.A.

Place	Date	Hour	Summary of Events and Information	References to Appendices
	1		The regiment was still in its rest area in Tilburg. It was felt that something big was imminent but no one knew what it was or where it was going to take place apart from Major T.P. KEENE acting CO who had already attended conferences at HQRA. To-day the CO - Lt.Col. R.J. Streatfield returned to the Regt from UK leave.	15 Div Int Sum on OP Veritable received Folio 4.
	2.		Major Campbell acting BC of 530 Bty visited the prospective gun area for the forthcoming operation to arrange details for ammunition dumping.	
	3.		The CO attended a conference at Div HQ and the CO2 and CPOs visited the gun area in square 7357, 7457 a little way SE of NIJMEGEN. The greatest care had to be exercised to conceal the division to which they belonged so that the maximum surprise could be effected at the start of operations.	46 Bde O.O. No 18 received Folio 5
	4.		All Officers of the Division attended a briefing conference at the ENSA cinema Tilburg where they were addressed by 30 Corps Commander Lt.Gen Horrocks and the Div Comdr Maj Gen. Barber. The object of Operation Veritable was to clear the area to the west of the Rhine. 1st Canadian Army substantially reinforced by troops from British 2nd Army would draw the bulk of the enemy forces and then the American 9th Army would be unleashed over the ROER River to sweep up and catch the enemy in the rear. 15th Division was one of the divisions taking part in the initial assault. After the conference the CO gave detailed orders in the RHQ Officers Mess. In the afternoon Recce parties departed to prepare the Gun area.	46 Bde O.O. No 19 received Folio 6.
	5.		During the day preparations were completed for the regiment's move. All Div signs were covered up. At nine o'clock at night they left Tilburg and proceeded via s'Hertogenbosch and Grave to the gun area.	15 Div Op Instr No5 received Folio 7
	6.		Early in the morning the regiment arrived near the gun area but did not occupy immediately, they lay up in the woods behind the gun area. After four o'clock in the afternoon digging was started. The	

			gun area was very wet and muddy subsequent to the unexpected thaw and the outlook for future operations was very sticky.	
	7.		Digging continued and in the afternoon the guns moved into position. The CO's tactical headquarters joined 46 Bde who were to make the initial attack on the following day. A rear echelon was established at Goirle near Tilburg to despatch and receive members of the Regt going & returning from UK Leave.	
	8.		Operation Veritable began with an immense Counter battery programme which started 0515 in the morning. The actual attack which was on a five divisional front started at 10 o'clock with a monumental barrage. The leading troops of the division were supported by tanks of the 6 Gds Tank Bde and flail tanks of 79 Armd Div which cleared paths through the minefield. The divisional attack was made North of the Reichswald Forest in the direction of Cleeve. Going was extremely bad in waterlogged country and the tanks and flails had the greatest difficulty in making progress. However the infantry kept well up to the barrage and by the end of the afternoon 46 Bde had occupied Frasselt. In the course of the day, a day which probably contained more firing than any other since we landed, the shooting was remarkably accurate and the CO congratulated all ranks on their efforts. In the afternoon the CO's half-track was unfortunately blown up on a mine whilst Brigade HQ was moving fwd; happily no one was injured though certain members of the party were somewhat upset. Also in the afternoon recce parties set out to prepare a new gun area 7655 to the East of Groesbeek. In the evening 44 Bde passed through 46 Bde in continuation of the advance.	
	9.		Early in the morning fresh orders were received for recce parties who had spent the night in the new area. Then followed a quick succession of changes to plan until finally the CO, was given a fairly free hand. Eventually an area was reced east of the village of Cranenburg in square 8155. The regt moved into the new area early in the afternoon. During the day 46 Bde pushed well on and secured the Materborn feature S.W. of Cleve.	
	10.		Heavy rain was now considerably hampering operations and the gun area was slowly becoming inundated. Several troops were forced to move or to amend their layouts and the RHQ office was completely drowned. During the day 43 Div passed through to capture the northern half of Cleve. Enemy resistance was now becoming considerably stiffer as he recovered from his initial surprise and brought up fresh reserves. Meanwhile arrangements were being made to despatch "Jock" columns from 46 Bde to Emmerich and Calcar. Each	

		column would contain one battalion of infantry, a battery of artillery and a squadron of Churchill tanks.	
	11.	The Jock column due to go to Emmerich was cancelled owing to the increase of opposition. Units of 44 Bde & 227 Bde were occupied in clearing the rest of "Cleve". Meanwhile the regiment was slowly disappearing in the rising floods at Cranenburg.	
	12.	During the morning a new area was recced at Donsbruggen 8656 and the regiment moved to it in the afternoon. It was a joy after the floods, the ground was reasonably high and digging was good. The Calcar column set out; it consisted of the Seaforths and a squadron of the 4th Tank Coldstream Guards. Unluckily Capt. P.MacD. Spafford MC, Troop Comdr of "E" Tp was killed when a shell hit his tank. Progress of the column was not as good as had been hoped.	
	13.	The remainder of 46 Bde were committed in the battle towards Calcar and they advanced as far as Hasselt. The rest of the division was being held as reserve and counter attack forces. In the afternoon a new gun area was recced in the western part of Cleve 8855.	
	14.	Early in the morning the regiment moved to its new area and was greeted by a sharp attack by jet propelled planes who dropped a number of bombs in the Cleve area; no casualties were caused. During the day the 9 Cams and the 2 G.H. had some very stiff fighting in the woods west of Moyland. Several fire plans were fired in support of these operations as well as many incidental mike, uncle and victor targets. Again in the afternoon recce parties went to a new area south of Cleve at Bedburg 9254.	
	15.	Another early move was made to the new area. There was a great deal of firing throughout the day to support some of the heaviest fighting since the operation began. Late at night a large Fire plan was fired in support of the 10 HLI who attacked south of the woods west of Moyland.	
	16.	Heavy fighting continued in the woods west of Moyland. Several counter attacks of about company strength were made, but they made no progress, being broken up by heavy artillery fire. One of the chief factors holding up our troops was the marked increase in enemy gun and mortar fire.	"On Call" Tgt list in support 7 Cdn Inf Bde received. Folio 8.
	17.	Most of the firing today was in support of the Canadians in their attempt to capture the "shoe" wood S.W. of Moyland. Opposition was very heavy and little progress was made. In the afternoon recce parties prepared a new position just north of the State Forest of Cleve 9250. The object of the proposed move was to support a 44 Bde attack on the North of Goch.	46 Bde O.O. No 22 received Folio 9. Fire plan in support 4 Cdn Inf Bde received Folio 10

	18.		The regt moved by btys to the new area, RHQ remaining in its old location. The 44 Bde operation was successful and the Northern part of Goch was occupied. During the evening the Canadians began to relieve 46 Bde west of Moyland.	Fire Plan in support 44 Bde Folio 11
	19.		In the early hours the regiment fired a Fire plan in support of 51 (H) Div who were operating from the west towards Goch. The relief of 46 Bde was completed in the morning and they retired to rest at Cleve. At midday recce parties were ordered forward to the area 9247 near the village of Pfalzdorf. The regiment moved in later in the day.	Fire Plan in support 4 Cdn Inf Bde Folio 12
	20.		Today 227 Bde with 2 GH under command planned to clear the woods east of Goch and North of the railway from Goch to Uden. The operation was highly successful and many prisoners were taken. A fire plan of large size supported the operation, and later in the day we fired a further programme in support of 51(H) Div.	Fire plan in support 227 Folio 13
	21.		Throughout the day we fired a great deal on enemy batteries which were harassing the infantry. Two very probable OPs in the direction of Oden received much attention both from ourselves, 17 pounder A/Tk guns and later aircraft. In the evening the CO gave orders for the biblical 46 Bde operation due on the next day, and during this the gun area was shaken by a few erratic bombs dropped possibly by one of our own planes. In the night we supported a 227 Bde attempt to establish a base south of the railway.	46 Bde O.O. 23 Folio 14
	22.		The large fire plan for the 46 Bde attack was cancelled at the last minute owing to the failure of 227 Bde to establish their base. A complete new plan was evolved and a few more limited operations were arranged and carried out in the afternoon.	Fire plan for 46 Bde Folio 15
	23.		Today we supported 44 Bde who passed through 46 Bde to carry out an operation very similar to that originally planned for 46 Bde the day before. In the evening we received the monumental fire plan prepared for the 53(W) Divs attack down the Weeze on the following day.	Fire Plan for 44 Bde Folio 16
	24.		In the early hours the prebombardment for 53 Div started and this was followed by a counter battery programme and a deception plan. The actual attack did not go very well and throughout the day fire plans of varying size were fired in an attempt to maintain the momentum of the attack. In the evening we received orders to dispatch parties to recce a rest area in the Tilburg district. It was not known when the regiment would move out to rest.	
	25.		Most of our firing was still in support of 53 Div who were pushing on the Weeze. The recce party under the CO2 at Tilburg found that the area allotted to the regiment was the same as that occupied in our previous rest period before Operation Veritable.	

	26.		3(Br) Div completed the take over from 15 Div and the Divisional Artillery was left in a purely AGRA role. In the morning a fire plan was fired in support of the Canadian attack towards Calcar and Udem. A considerable amount of fire was directed against hostile batteries and mortars.	
	27.		The never ceasing inrush of fireplans gave the regiment no chance to think of pulling out and it was not until the evening that we heard we would move on the next day, we were by now out of range and consequently scarcely a useful element in the winning of battles.	
	28.		A quiet day from the regiment's stand point. Eventually they pulled out of their position at 2000 hrs and the end of the month found them approximately at s'Hertogenbosch on their way to a very well deserved rest at Tilburg. Probably the most outstanding feature of the operations we participated in during the month was the gigantic scale of fire support provided for the infantry. Even the Normandy concentrations were out shadowed and our regt fired approximately 7500 rounds per gun in the month. One failing however was the short notice at which many programmes were received from other formations, it did not give Command Posts staffs sufficient time to complete cross checks by H hour - all have certainly earned their rest.

Month and Year Mar 45.

Commanding Officer R.J.STREATFIELD. Lt.Col. R.A.

Place	Date	Hour	Summary of Events and Information	References to Appendices
	1.		Very early in the morning the regt arrived at Tilburg where the rest of the division had already been for some days to rest and re-equip after the strenuous battle West of the Rhine. The area occupied was the same as the one we had during our previous rest period in early Feb. Everyone settled in very quickly and comfortably, and the first day was spent chiefly in washing German mud off the guns and vehs.	
	2.		General maintenance continued all day and the drudgery was relieved by the rumour that a large allotment of Brussels leave was impending. We also heard that the Regt had been chosen to produce a guard of honour for the visit of Field Marshall Sir BL Montgomery to the Division on Sunday 4 Mar. The guard would consist of 4 Offrs and 50 men. Maj Wingate of 531 Bty was in charge of the guard and the RSM arranged to drill them. The visit was to coincide with a Divisional Church Parade in Tilburg.	
	3.		Our first large allotment of Brussels leave began. In the following fortnight we had been given sufficient vacancies to send the whole regt. We heard that the Divisional Commander intended to visit the regt on Tuesday 6 Mar. The CO gave notice of a regtl MT inspection during the next week.	
	4.		Preparations for the CO's inspection proceeded apace. The Divisional Church parade took place in a drizzle and we sent a small contingent. The visit of the Field Marshall however was cancelled and all the hard work put in by our chosen guard of honour was wasted. Meanwhile the CO, at Brussels learned that his 2 i/c Maj TP Keene had just been made Lt.Col. The new 2 i/c Maj SG Cole RA late of the War Office was in Brussels and met the CO there. It was hoped that Col Keene would receive the command of 181 Fd Regt one of our brother regts in 15 Division. Lt. W.I. MacDonald RA joined the regt.	
	5.		The CO with Maj Cole rejoined the regt in Tilburg and learned that we had to move to a new area near Bourg-Leopold. The object of the	

		move was to bring the Division into 12 Corps with whom we were to work in the forthcoming operation.	
	6.	The regt moved to the area Corspel - Pael a few miles south west of Bourg Leopold in Belgium. Recce parties were not far ahead of the main body and were a little pressed to get areas sorted out in time. As it was a Battery was rather far flung and the subsequent line communications resembled rather a transatlantic telephone system. The move was carried out with considerable difficulty owing to the large number of people in Brussels, but it was nevertheless accomplished successfully.	
	7.	In the new area Btys settled down quickly to prepare for the CO's inspection of MT which was to take place early in the next week. Today was a perfect spring day and the first of the many we were to get for our next operation. 2/Lt. E.A. Boylan RA joined the Regt.	
	8.	Today the CO learned for the first time about operation Plunder, the crossing of the Rhine, at a conference with the Brig 46 Bde. At the regt the work of maintenance continued and substantial parties went to Brussels.	
	9.	Today the chief work at Btys and RHQ was the construction of mock rafts, on and off which drivers could practice driving. It was expected that if a bridge over the Rhine could not be constructed quick enough we might have to be ferried over the river on rafts.	
	10.	An uneventful day. Lt. PA Whitcombe RA posted to 2 FOU. Lt. RG Forde RA posted to Airborne.	
	11.	There was a Regtl church parade at RHQ in Corspel. We collected Lt.Col. TP Keene on his return from UK leave and delivered him to his new regt 181 Fd.	
	12.	Today the CO started his MT inspection. In the morning he inspected 531 Bty and in the afternoon 530 Bty. He was very pleased with very high standard of maintenance and turnout of vehs.	
	13.	The CO continued his inspection, doing RHQ and 529 Bty. Again he was very satisfied with what he saw.	
	14.	The CO2 and RSO went forward to the gun area for the next operation 0746, just north Xanten, with them went Lt. Rae of 529 Bty who was to act as amn offr in the preliminary dumping. The gun area was very open and very close to the Rhine. On a clear day large stretches of it would be open to view from the other side, and it was very difficult to find six suitable troop posns. After completing the recce, a harbour area for dumping parties was found near the village of Wetten 9931. Also during the day a composite troop from the regt took part in Ex "Buffalo" which was a practice for the Rhine crossing, on the Maas South west of Venlo.	Ref App 1,2,3.  Ref App 4,5,6.

	15.		The CO & CO2 went to HQRA to discuss the selected gun area with the CRA. They also discussed the scheme for amn dumping. In the evening the regt was entertained by a Ensa party in the school at Corspel.	
	16.		Dumping parties departed for their harbour area, Capt Taylor of 531 Bty was in charge and each Bty sent one offr. Dumping wasn't to start until the next night. Also small holding parties were sent to establish firm our claim to what buildings there were in the gun areas.	
	17.		Today the CO2, RSO & Bty reps reced a regtl lying up area near the village of Wetten where the dumping parties were already. In the evening there was a Regtl Offr's dinner when Lt.Col. Keene the late CO2 was entertained as chief guest.	
	18.		A quiet day with very little happening at the regt.	
	19.		Advance parties from Btys & RHQ went up to the harbour area at Wetten to prepare the way for the regt. In the afternoon and evening the Div Concert Party the TOS gave shows at Corspel.	
	20.		In the morning the CO went to a cloth model exercise at 46 Bde HQ. During the day we packed up and in the afternoon we left Belgium for our next adventure - the crossing of the Rhine. Our route lay through Venlo where we saw a great deal of damage done during our earlier battle in Dec. We arrived in our harbour area in the late evening.	
	21.		In the morning the CO gave orders to all officers on the forthcoming operation. The Rhine crossing as a whole was known as operation "Plunder" and the actual 15 Div part was known as "Torchlight". The Div was to attack on a 2 Bde front 44 Bde right and 227 Bde left with 46 Bde passing through some hours afterwards. The attack was to be substantially supported by the managerie of 79 Armd Div and the swimming tanks of 4 Armd Bde. There would also be the usual immense artillery preparation and support. There was however no initial barrage.	Ref Apps 7,8,9.
	22.		During the day the survey of the gun posns was completed and lines laid. The Regt moved up during the night but did not come into action. Minimum vehs were left on the position.	
	23.		Preparations for the various fire plans were done during the day, and it was not until the afternoon that batteries were able to start digging gun pits. The guns went into action as soon as it was dark. In the evening the CO with his party joined 46 Bde for the battle. At nine o'clock in the evening we heard the roar of guns as 51 Div attacked on our left, but we ourselves did not fire in their support.	

24.		<p>At 35 mins past midnight we started firing on the prebombardment plan. At 0200 hrs 44 &amp; 227 Bdes launched their assault across the river and soon est bridgeheads on the East bank. At first the 227 bridgehead was kept restricted but 44 Bde soon expanded theirs and the first battalion of 46 Bde - 7 Seaforths soon followed over. By morning things had eased considerably, at 1000 hrs the airborne forces came in and after this resistance slackened considerably and in the afternoon 44 Bde joined up with the Airborne. Throughout the day there was a great deal of firing on prearranged tasks except during the period of the Airborne Ops when nothing was allowed to fire. Just prior to the landings we fired an Anti flak programme using the VT fuze for the 1st time to give more effective air bursts.</p>	
25.		<p>Early in the morning the Seaforths were attacked by some determined Germans who succeeded in infiltrating in one company area. Capt Whitton of 531 Bty had a very narrow escape and had to abandon his carrier. Later in the morning when the situation was restored he was fortunate enough to regain everything intact. Throughout the day 46 Bde was chiefly concerned in clearing the wooded areas around the lake in sq 1348. We had to fire many of the prearranged tgts to help them in this work, which was very slow and tedious. In the evening orders came for recce parties to go next day to the area of Overkamp 1247.</p>	
26.		<p>The recce parties departed early to recce the gun area. It was not expected that the regt would move over the river chiefly because of the amn supply on the far side and the fact that we were required to give continuous support to 46 Bde who were still engaged in wood clearing. The new gun area was quite good though all the accommodation was severely damaged by shelling. During the day the regt fired several small fire plans to support the clearing operations of 46 Bde in 1449 and 1549.</p>	
27.		<p>The regt expected to move over the river today, but as it was still in range of the area to be cleared by 46 Bde it was considered better to keep it off the roads. However in the afternoon B tp of 529 Bty moved over to fire any smoke tasks which might be required. Considerable difficulty was now being found with communications. We had no line forward and at times interference on the air prevented direct communication with OPs. Consequently an elaborate system of step up sets had to be maintained. Operations during the day were very similar to those of the previous day. Enemy resistance was patchy.</p>	

	28.		Again the Regt stayed west of the Rhine to support the final clearing ops. Several fire plans were fired and a few other tgts engaged. Enemy resistance ceased in the late afternoon and the day ended with the regt out of range. In the evening we heard that we had to send forward harbour parties over the river the next morning. The regt would move sometime during the day.	
	29.		Harbour parties left early and learned at RA that it was the intention to rest the Division for a few days before resuming the chase which was now well on the way. Our harbour area was in sqs 1747, 1748 but on arriving we found nothing except a few houses already occupied, wet woods, ploughed fields, mines and 12 Corps Rear HQ. So, given a comparative free hand by HQRA the CO2 found a far more comfortable area in 1948, 2048 just west of the village of Hamminkeln. The Regt arrived in the area at 8 o'clock in the evening.	
	30.		The day was spent in cleaning and maintenance. Everything badly needed these after the operation which had been one of the most intensive ones we have ever performed. Rarely were the guns quiet for longer than an hour even during the nights and all command post staffs and gun detachments were worn out. Today Maj Wingate of 531 Bty left the regiment to become 2 i/c of 133 Fd Regt of 53 Div. Capt Dyas Bty Capt of 529 Bty took over the Bty.	
	31.		Maintenance continued in the morning. In the afternoon the CRA visited the regt and addressed all ranks. He congratulated them on the fine work they had done during operation Torchlight. His visit was followed by shows by a Mobile Cinema in a barn at RHQ.

Month and Year Apr 45.

Place	Date	Hour	Summary of Events and Information	References to Appendices
	1.		The beginning of the month found the regt at HAMMINKELN still resting after taking part in the assault over the Rhine. We were expecting soon to resume the chase, clearing up behind the 12 Corps spearhead, 7 Armd Division.	
	2.		In the morning Maj Gen Barber GOC the Div visited the regt and addressed all ranks. He spoke some very timely and pertinent words on the subjects of looting and fraternisation. He congratulated everyone on the most successful operation just accomplished and hoped for like success in the difficult tasks still ahead of us.	
	3.		Today we came under command 46 Bde group and moved on our first stage to catch up the ever faster battle. It was a short move of about 25 miles and we harboured the night just south of GR. BURLO in a group of up to date farms 3565.	
	4.		Early in the morning we moved again, this time to an area near the village of BORGHORST 7992, a march of some 55 miles. Provisional orders for the next day were that the Division in Bde Groups would clear up the wooded area just East of the DORTMUND - EMS canal. We learned that the Division now came under Command 8 Corps and we were amused to find that Corps HQ was plumb in the middle of the area we were due to clear.	
	5.		We did not embark on our first plan, the new object for the division was to advance as far as the Weser, clearing all the small side roads on the way.	
	6.		We started off early in the morning and made fine progress until we reached the Dortmund-Ems canal where an incredible traffic jam began. After hours of patient waiting the harbour parties managed to get through and after a wild chase south of OSNABRUCK arrived at the harbour area, which was just NW of Minden in the village of FRIEDEWALDE 7618, with a few minutes of light left to do the recce. This was successfully accomplished and it but remained for the main party to arrive.	

	7.		About 0200 hrs the first elements of the regt arrived and they continued to do so until it became light. The march was quite the worst ever experienced, the 90 miles having taken 16 hours. The rest of the day things were taken rather quietly by most people.	
	8.		A quiet day with nothing unusual to report.	
	9.		Today we learned that our next task as a division would be a long advance to contact battle via CELLE and UELZEN to the Elbe. We were to start next day. In the evening we had a regtl sing song and 46 Bde held a short course in the disposal of wines and spirits.	
	10.		Today was a short move over the Weser to a concentration area prior to the start of our advance to contact battle. The regt harboured in the village of RADERHORST 9220.	
	11.		We set out on our chase with the 4 Tank Coldstream Guards in support of the Bde Gp. All went well until we were a few miles short of Celle when opposition was met at the road and rail crossings in 5638. The regt came into action round the village of Engensen 5036 and fired a little in support of the infantry and tanks.	
	12.		The regt moved up early a few miles to the village of Ramlingen 5338 to support the continuation of the clearing operations. In the morning 227 Bde entered Celle and in the afternoon opposition ceased. 46 Bde moved into the south of the town and harboured the night. Some grim sights were seen in a small concentration camp in the town, which brought home to many people what we were fighting against. An abortive recce was made by the CO2 & RSO of an area over the Aller river west of Celle.	
	13.		Early we started on the next phase, the advance to Uelzen. 46 Bde covered both flanks of the Div axis with the 9 Cams and 2 Glas H on the right and 7 Sea on the left. 531 Bty accompanied the 7 Sea in an independent role. The 2 Glasgow Highlanders were in the van on the right supported by the Coldstream Guards. The advance was hindered by weak bridges and bad tracks and the regt did two quick actions to clear up small pockets. In the evening we went into action round the village of Eidengen 7657. During the day the CO Lt.Col. Streatfield left the regt to go on a CO's Gunnery Course at Larkhill. Major GS Cole took over command of the regt during his absence.	
	14.		Advance continued and in the middle of the morning the regt deployed in sq 8262. There was little trouble however and the advance soon continued. By night the group on the right reached the village of Stadensen 9079. The group less 9 Cams harboured the night here with the guns out of action.	
	15.		At 0330 hrs the guards woke the sleeping regt to the accompaniment of a continuous volley of warlike noises. It was soon apparent that	

		<p>there was enemy very close and reports spoke of tanks at both ends of the village. For two hours things were completely disorganised and individual efforts and initiative were responsible in preventing what might have developed into a very nasty situation. Early in the battle several houses were set alight and soon a large part of the village was aflame. Heaps of German amn were soon exploding and several amn trucks of the infantry added to the din and chaos. Terrific work was done in preventing our vehs catching alight and at 0600 hrs when RHQ was forced to evacuate all its vehs were recovered intact. RHQ withdrew a little to the west of the village and dug itself deep in a field. After some time our calls for fire on both wireless nets were answered by 531 Bty on the left of the division and by 181 Fd Regt. Meanwhile 529 and 530 Btys had both got several guns into action in anti tank roles and had knocked out several enemy vehs. Major Stephenson of 530 Bty in particular showed great courage in knocking out 2 enemy half-tracks with a Piat. By 0900 hrs we had got both btys into action and 530 OPs joined the Glas H and assisted in chasing the Germans to the next village of Nettlekamp. The position was considerably relieved when the Cams arrived and by 1500 hrs the situation was completely restored. The final count revealed that the Group had destroyed 12 enemy SP guns and 15 half-tracks. It appeared that the attacking force was a battle group from the new Panzer Div Clausewitz whose aim was to disrupt 8 Corps axis. Losses in the Regt were 1 man killed 6 injured and 1-3 ton lorry destroyed. Later in the afternoon we learned that the Bde was being relieved by 6A/B Div and that the regt was to move into action at Borne 8883 south of Uelzen. Recce parties went off to prepare the area, which was already occupied by a battalion of infantry and a squadron of tanks. 531 Bty were to rejoin the regt in this area. They had had a most interesting time on the left flank supporting the Seaforths.</p>	
	16.	<p>The Regt arrived very early in the morning. It appeared that 46 Bde was to take over from 227 Bde opposite Uelzen and do a frontal assault in a few days time. There was a little firing on observed tgts in and around Uelzen.</p>	
	17.	<p>During the day we learned that Lt. K. Ohlson of 531 Bty had been awarded the MC for gallantry in the operations West of the Rhine. Gnr Bennington of 530 Bty also received the MM. The day was reasonably quiet and in the evening 46 Bde began to patrol into Uelzen. The situation in the town by night was very fluid with some nasty pockets to crack.</p>	

	18.		Progress into the town continued at first light and after a slow start the operation went well and the whole town was cleared by afternoon; many prisoners were taken. Future plans for the division involved an advance to the Elbe clearing up pockets on the way.	
	19.		In the morning harbour parties left for the village of Kleine Hesebeck about ten miles N of Uelzen. In this area the Bde group was concentrating. The Regt arrived in the area in the afternoon but did not go into action. In the evening there was a brief scare when 2 Hitler Youths were captured and found carrying arms. At first popular report had it that we were to be brewed up again, but further interrogation discovered that the only aim of the two boys was to get home to mother.	
	20.		The Bde formed up in Bevensen and set out on its road to the Elbe. The Cams led and progress was steady until a little opposition was met N of Dahlenburg 0114. A regtl area was quickly reced at Dahlem 0116 and 529 Bty did a quick action. Owing to the opposition it was decided to switch the bulk of the Bde up another route further to the west. After a short time however it was decided to send the Seaforths alone on the right with 531 Bty in support, and 530 Bty would join 529 at Dahlem. No sooner were they established there than recce parties were again rushed off to recce a further area in the village of Rosenthal 9328 a few miles south of the Elbe. This recce complete, orders were changed and once more they dashed back to the village of NEETZE 9322 where 529 & 530 eventually arrived as night drew on having leap frogged their way up. It was rather appropriate that RHQ finally ended the day by being established in a circus with bears, elephants and a monkey complete. 531 Bty spent the night in the Seaforths area further North.	
	21.		Early in the morning the Regt occupied the Rosenthal area where accommodation was good though the ground rather wet. We had OPs out with the Cameronians and the Seaforths; the Glasgow Highlanders were in reserve. The day was spent in clearing the few pockets this side of the river on our front.	
	22.		The thing of greatest interest today was the passage of trains up and down across our front on the far side of the River. The Air OP had several good shots at them. It was considered probable that we would remain in this location for several days prior to our move to the Divisional gun area to support the crossing of the Elbe by our Division.	
	23.		Another fairly quiet day. Recce parties did a provisional recce of the next gun area near the village of Bratlingen 8129. The area was not good being chiefly in view from the other bank of the Elbe.	See Appx 11

	24.		In the morning the final preparation and survey of the new gun area was carried out. Apart from that everything was very quiet and the only shooting was that aimed at deer and hares.	
	25.		A very quiet day. In the evening 531 bty fired propaganda shell at Lauenburg and Boizenburg. There was however an unfortunate number of prematures which did no damage luckily though the pamphlets were wasted.	
	26.		During the day a large drive of the area was organised to clear out any civilians who still remained within the forbidden area south of the Elbe.	
	27.		Preparations were completed for our move to the gun area for the crossing. Now the crossing was to be carried out by 44 Bde on the left and the 1st Commando Bde with 7 Seaforths under command on the right. Not much opposition was expected.	
	28.		At midnight we left Rosenthal and we soon arrived at Brietlingen and settled in for the night. B Echelons had previously moved to an area south of Luneburg. The fire plan and CB plan were received and issued out in the morning. Arty support was divided into 3 Groups and we were under command the 5th Div Gp. Calls for fire from this group were to be controlled first by the CO of the 1st Mountain Regt supporting the Commandos and finally by our CO. At 2350 hrs the CB programme "COSSACK" began.	See Appxs 12 & 13.
	29.		At 0200 hrs the attack over the Elbe was launched supported by 11 Fd, 4 Med and 1 Hy regts. All went well and quicker than plan and the first objectives were soon taken. Soon after first light recce parties left to prepare an advance position on the banks of the Elbe 8533. It was a poor area with little cover and very wet. The regt moved in later in the morning welcomed by a certain amount of straffing from enemy planes. Air activity was greater than we had seen in the whole campaign and throughout the day there were repeated attacks on the bridging sites. In the afternoon we had a warning that the regiment might move across the river that night. More definite orders came later and recce parties left to find a harbour area in the village of KRUKOW 8339. According to our maps this had not yet been cleared and the recce parties arriving there as dusk approached entered the village with all circumspection. All was well however and, recce completed, the arrival of the regt was awaited.	
	30.		After a horrible night march over the river the regt did not arrive until first light. After a few hours sleep and breakfast we moved forward into action in 8240 with RHQ in Piependorf 8140. It was a good gun area, but a poor one for accn. Meanwhile our OPs were still	

			with our infantry on the East of the bridgehead and meeting more opposition than anyone else. And so the month ended. During its 30 days we had covered about 300 miles and come very close to the end of the war in Europe.

Month and Year May 1945.

Commanding Officer Lt.Col. R.J.Streatfield. R.A.

Place	Date	Hour	Summary of Events and Information	References to Appendices
GERMANY	1.		We were in action in square 8240. The opposition which had to a certain extent hindered the initial operations had now practically ceased and there was very little firing to do. We did fire one small fire plan to help the 6 KOSB of 44 Bde into the village of BRUNSTORF 7847. In the evening Major G.S. Cole, acting CO, gave orders for future Ops. 46 Bde was being relieved that night by a Bde of 5 Division and the next day was to take part in the clearing by 15 Div of the large SACHSENWALD. To support this we were to occupy an area round the village of WORTH 7744. A recce of the area was done that evening. During the day Capt The Hon L.G.B. Brett RA left the regiment to take up a staff appointment at HQ 8 Corps.	
	2.		At 0600 the regiment moved forward to WORTH and were in action when operations started at 0800 hrs. Things progressed very favourably with little opposition apart from small isolated posts and SP guns. Before midday the acting CO2 Capt J.H. Bradley and the RSO reced a new area in the village of DASSENDORF 7547. Recce parties joined them there and during the preparation of the gun areas they were harassed by a most persistent gun. Sgt Summers of F Tp was wounded in the arm. The regiment moved up to the new area at 1700 hrs. The infantry operations continued until dusk when the whole Forest was cleared. Plans for next day were that we should move up to the general area of TRITTAU 7760 with the Bde Group. The move would be semi tactical and the guns would occupy an area 7754 to cope with any trouble en route. 529 Bty would stay behind in the old area in the beginning to support the 9 Cameronians who were staying back as initial flank protection.	
	3.		Recce parties left at 0800 hrs to prepare the new position and the two batteries and RHQ moved up via SCHWARZENBEK 8248 arriving in the area at 1000 hrs. As was anticipated there was no firing to do and about 1100 hrs recce parties went forward to the TRITTAU area. This new area was at first prepared as a gun position, but before the recce was complete we were ordered to go into harbour only. Very	

GERMANY		comfortable billets were obtained and it was hoped that our stay would be of several days duration. We later learned that we were to move again the next day with the Bde group and the regimental area was west of the village of SCHONBERG 7767. In the evening Lt.Col. R.J. Streatfield DSO RA rejoined the regiment, returning from his course at Larkhill.	
	4.	The new area was reced in the morning and the regiment moved in about 1100 hrs. 531 Bty was deployed in action on the west of the area and at about maximum range would have been able to reach Divisional Headquarters. In the evening we heard on the wireless that all German forces in North West Germany had unconditionally surrendered to 21st Army Group. The cease fire was to take effect from 0800 hrs on the 5th May. The news was received almost quietly by most men, but as the evening wore on the wonderful realisation gradually sunk in and the day ended on a note of rather riotous jubilation.	
	5.	At 0800 hrs the cease fire was given and we were ordered that no further advances would be made until further orders. The day was generally treated as a whole holiday. What our future would be no one could envisage.	
	6.	Everyone started a great maintenance drive as we expected to be in the present location for several days. In the afternoon the CO went to an "O" Group at HQRA and heard that it was likely that the regiment would move with 46 Bde to occupy the KIEL area.	
	7.	The CO held an all officers conference to explain the decisions of the "O" Group. Now that hostilities were at an end we were to pay utmost attention to immaculate turnout and endeavour in any way to impress the Germans without fraternising with them. To this end it was proposed to start an officers' marching drill class to refresh our memories.	
	8.	Today was Victory in Europe day; on the whole it was not such a boisterous day as May 4th. An O Group at 46 Bde was held in the afternoon. It was still not certain if we would proceed to KIEL with the Bde group.	
	9.	A rather more disconcerting rumour was heard today; it was suggested by HQRA that the regiment might be required to establish a large camp for SS prisoners. Anyway we would not be going to Kiel with 46 Bde.	
GERMANY	10.	A quiet day. We were still rounding up large numbers of soldiers who were attempting to get to their homes. So far there had been no instances of violence.	

	11.		The LAD started a six-monthly inspection scheme to cover all vehs in the regt. In the large wood factory opposite RHQ the carpenters of the regt started to construct the "UBIQUE" THEATRE, for regtl concerts, film shows and other entertainments.	
	12.		Batteries and RHQ had by now each organised Rest camps in the area of the lakes about 3 miles away from the Regtl area. Boats had appeared as if from nowhere and everyone was taking full advantage of the hot weather to get in as much bathing as possible. In the evening the Divisional Concert Party the TAM O'SHANTERS gave a performance in the Theatre which had been completed that afternoon.	
	13.		A regtl church parade was held in the theatre in the morning.	
	14.		In the morning Brigadier L. Bolton DSO, CRA of the Division made a working inspection of the regiment. The Batteries were engaged in all types of training and maintenance and the CRA was very satisfied with all he saw. In the afternoon the CO2 started his Marching Drill class for Officers and Senior NCO's. This course was to last a week with four hours a day.	
	15.		The regiment was given a new area of responsibility which involved the moving of some of the Batteries. Also we learned that we would have to establish a large camp for the reception of 15,000 SS troops in transit. This would be located somewhere near the Elbe between GEESTACHT and BERGERDORF. Today Major JHM Stephenson BC of 530 was awarded the MC for his gallantry at the Stadensen "affair" of April.	
	16.		530 Bty moved into the village of LUTJENSEE, two miles west of their old area. The CO, with the CRA went to recce a site for the P.O.W. camp, near the village of ALTENGAMME 6940. 531 Bty would be responsible for the establishment of the camp.	
GERMANY	17.		A further recce was done by the CO and Major Dyas of 531 Bty to fix the site and choose an area for the battery.	
	18.		Today a further development was that we were to take over the large Concentration camp and Brickworks 6640, now filled with Russian, Displaced Persons, for our prisoners. The whole regiment would be required to run the camp and the first arrivals were expected about May 26th. The marching drill class ended in the afternoon, the CO coming to the "Passout" Parade. Capt. JFB O'Shea went to HQ 8 Corps on a Staff attachment.	
	19.		CO and CO2 went in the new area to look over the camp and recce an area for RHQ. The Camp consisted of a concentration camp, an SS Barracks and a Brickworks. The Concentration camp and the Brickworks would be used for prisoners and run by 530 and 529 Btys respectively. 531 Bty would be the General Admin Battery. R.H.Qs	

		area was fixed in the village of CURSLACK 6542. It was proposed to move the regiment about 26th of May.	
	20.	Further recces were carried out in the new area.	
	21.	Today we sent a draft of thirty men on a Pickfords posting to S.E.A. Comd. Capt Thompson and Lt. H. Crossman both of C Troop also left the regiment having volunteered to serve in the same Command. 531 Bty moved from the SCHONBERG area to its new area in NEUENGAMME. The object of the move was to complete the takeover of the camps from the Battery of 67 Medium Regt RA who were previously administering them and to prepare them for the reception of the SS. The Camps already had considerable defences in the shape of watch towers, electrified fences and alarm systems, but considerable work was needed to make the system satisfactory and foolproof. The Signal Offr undertook the task of repairing the electric fence and of repairing and improving the lighting arrangements in the camps. Fortunately the electricity supply from Hamburg was reasonably good and it was not necessary to use the emergency generators in the camp.	
GERMANY	22.	In the SCHONBERG area we were responsible for making lists of all foreigners not wishing to be repatriated immediately. Sweeps of the area were carried out by the two batteries remaining and several suspicious characters and numerous German soldiers were secured. Apart from these activities all were preparing for the move to the new area which was to take place on the 25th.	
	23.	We received an intake of 33 OR's as replacements for the Pickfords personnel dispatched 2 days before. We now knew that the regiment would be used for purely occupational duties and that we would have to hand in our Gunner eqpt sometime shortly.	
	24.	Final packing up took place and the general area tidied up in preparation for the move. One troop of 529 moved off in advance and so too did the Q Echelon.	
	25.	The day was chiefly spent in moving to the new area. The move was accomplished without incident and everyone was soon comfortably established again. No time was wasted in starting work on the two camps. Work was however hampered by the fact that a large number of Russians, displaced persons were still on the camps.	
	26.	Final preparations for the intake of the first SS on the 27th were completed and in the evening there was a trial of all the lighting systems in the camps. We had attached to us to act as escorts when the SS were moved away from us, two troops of 15 (S) Recce Regt and "C" Coy of 7 Seaforths.	

	27.		Today we received five train loads of SS from the US Ninth Army area. The first train load which consisted almost entirely of Lithuanian and Latvian SS were sent away immediately under escort to a 2nd Army P.O.W. Cage. They numbered about 2800. The other four trains yielded 8150. Considerable organisation was required to march the prisoners from the station of HOLTENKLINKE 6645 to the camp, a march of 3 to 4 miles. Everyone showed remarkable zeal in policing the route and the whole operation was completed without major incident. The last train load arrived after dark but large numbers of veh headlights were used to illuminate the scene and nothing untoward happened.	
GERMANY	28.		One train arrived today with 2580 SS on board. They were treated in a similar manner as those on the day before. So far there had been no trouble in the Camp. One very unfortunate incident was that Sgt Stone of 530 Bty accidentally touched the electrified fence and was killed by the shock.	
	29.		The Seaforths and Recce escort took away 2500 today to the 2nd Army P.O.W. cage. There was no further intake. In the afternoon the 8 Corps Comd Lt.Gen. E.H. Barker CB, CBE, DSO, MC visited the camps.	
	30.		In the morning the Divisional Commander Maj.Gen. Barber visited the camps. A road party of 540 prisoners arrived in the afternoon and also an unexpected train load of 1500. The total of prisoners now in the camp was 10,460.	
	31.		On the whole a quiet day. Another unexpected party turned up in the afternoon in some 20 of their own trucks. They numbered about 450. The camps were now running well and the prisoners were being used extensively to make them cleaner, particular attention being paid to the drains which had always been badly choked.

While at TONGERLOO, on the 13th, a party under Lieut J.M. MacMillan, R.A. crossed the Albert Canal to bring back prisoners, taking 19 in all. One of these had been previously taken by members of Maj. 	4th	1500	Commitments and posn taken over by units of 51st (H) Inf Div. Div moved into "rest" area near Gemert, for maintenance and reinforcements. 54 reinforcements were received from R.H.U. on the 5th Oct.	
Gemert	7th		Recce of posns at Cuijk, on the MAAS, was carried out but the position was never occupied. Instead, the RA of the Division was ordered to the Oploo-Overloon area to sp the 3rd Inf Div attack to VENRAIJ. This move was accomplished on the 9th, arriving at the gun posn at approx 1430 hrs. The posns taken over had been evacuated the previous day by units of 11th Armd Div.	
Oploo	9th		The period 9-11th was occupied by local skirmishing and a general "tee-ing up" for Op. Constellation. The attack of 3rd British Div continued with average success over the next few days. In the last days of the ops at OPLOO-OVERLOON several recces were made. A posn was chosen to cover the possible move forward of the guns to range beyond VENRAIJ, and in addition orders were received to recce a posn near WEERT on the American left flank. These posns were never occupied.	(See Appx -original only)
Oploo	17th	1030	The regiment moved back to its previous posns at GEMERT, taking over from a unit of the "Buffs" who had been in occupation. The course of the next few days was spent in maintenance and awaiting ops role.	
Gemert	21st	0815	Location was changed to NISTELRODE (4847) to sp the attack of the 53 (W) Div and its sp armoured Bde (7th) on s'Hertogenbosch. Actual location was at De VENHOF, a small hamlet near LOESBROEK.	
NISTELRODE	22nd	1420	Commencement of move to sp 227 Bde on left flank of 51st (H) Div in the attack forward from Best towards TILBURG. Position was reached about 1730 hrs, ROUTE via:- DINTHER - VEGHEL - ST OEDENRODE	
Nijnsel	25th	0700	Location advanced towards Best. The Regiment was halted at NASTEBEEST and went into firing posns, but the same afternoon (1530 hrs) was pulled out without firing and advanced towards OIRSCHOT. Final positions were at 264275 where the enemy were engaged in the attack on TILBURG.	

OIRSCHOT	26th		Shelling on 495 "B" Ech posn at 0800 hrs resulted in 3 killed and 4 wounded (one slightly)	
	27th	1030	Regiment moved forward to 244305 and laagered at MOESTERGHOUT, with orders to be ready to move at short notice. Move finally took place at 0830 hrs the following morning, and the Regiment proceeded via TILBURG to a position at 1634. At 1500 hrs on the same day, orders were received to proceed to ASTEN area. During the advance, GAF planes bombed HELMOND in advance of the recce columns. No casualties resulted in the Regiment. The new location was finally occupied at 2130 hrs, and sp was given while tps of the 227 (H) Inf Bde, and later the other Bdes of the Division were moving up. An average of 5000 rds per day were expended during the period until the end of the month.

November 44

131 Fd Regt RA

Place	Date	Hour	Summary of Events and Information	Remarks and references to Appendices
ASTEN	1st		The infantry advance was very slow through the obstacles of carefully prepared minefields. Heavy Amn expenditure supported their attacks on strong points and positions.	See Appx "A"
	2nd		One carrier of 320 was mined with some casualties incl 1 killed.	
	3rd		Until the move to HENSDON area (6409) little of note occurred, save a huge amn expenditure. Later during the month guns were withdrawn to workshops in small quantities with suspect barrels, due largely to the wear and tear of firing large quantities of supercharge over the first half of this month. In turn, too, in the order 319, 495, 320 Fd Btys, sub units were detached for a period of 48 hrs "rest"	
	8th	1000 hrs	Regiment moved to area 6409. 319 drew back into rest area at 633169.	
HENSDON	9th		Civilians were evacuated from Divisional area to avoid espionage and casualties.	
	10th	1200 hrs	319 Fd Bty rejoined Regt from "rest" and 495th Fd Bty pulled out into OMMEL area for 48 hrs. One OP offr was killed by shellburst in the morning (Capt WIGGINS, 495 Fd Bty RA)	
	11th		For the next 8 days the Regt remained near Asten, firing considerable quantities of shells at long ranges. 320th Fd Bty were taken out of action at 1200 hrs 12th Nov, but remained in the Regimental area. 495th Fd Bty returned to action at the same time, from the rest area near OMMEL. Finally recce parties with mineclearing groups went forward to clear a new area on the 18th Nov.	
	18th Nov.		A tp was detached and moved independently to 703072, going into action from there the following morning.	
	19th		Engineers were still clearing possible Bty posns. "B" Tp moved up beside "A" Tp, and remainder of regt prepared to follow in small groups. One casualty was injured at OP of 495 Bty. 320th Bty reported that over 50 Teller and S mines were found in their Bty posn, and some were removed, all this without a single mine casualty.	

HENSDON	20th		Regt moved forward to area near Hof (7007) but 320 Bty was detached and crossed Deurne Canal. After brief harbouring this Bty went on to Beringen.	
HOF  ACHTERSTEEG	21st		"B" Ech moved up to old gun position at 7007, while Regt went on to area 7709, arriving at approx 1530 hrs. The tracks were becoming almost impassable. 320th Bty moved forward from Beringen to join remainder of Regiment. For three days weather conditions made transport difficulties worse. Several recces were made of possible new areas, but final move was made to HORST, (NW OF VENLO) for sp of attack on the Blerick bridge seating.	
	24th		Recce parties moved away at 0900 hrs, followed by remainder of Regt at 1300 hrs. Route via BERINGEN - MEYEL - LEISEL - AMERIKA - HORST. Area in 8218. RHQ moved into HORST itself on the following morning, being fully established at 0945 hrs. The village of HORST received desultory shelling from enemy guns. Occasional M targets were fired on barges on the MAAS and on sparse enemy who were being compressed into the MAAS pocket. At 0900 hrs on 25th Nov, 1944, exactly 5 months after the first shot was fired in NORMANDY, the C.O. fired a token round on to GERMAN soil.	
	28th		The CRA fired a token "U" Tgt on German soil at a range of 13000 yds. At 2200 hrs AMERIKA was bombed by a small force of enemy planes. "F" troop 119 LAA, attached 131 Fd Regt, claimed one hit.	
HORST	29th	0900	Recce parties moved forward to new posn approx 2 miles WEST of VENLO (8714). Rest of Regt followed at 1030 hrs over appalling tracks, which after a brief improvement, steadily worsened in the bad weather at the beginning of December. Posn was taken over from 49 Div, and Regt was in action by 1430. Most of the 49 Div targets were later cancelled. Activity from this side was practically nil, though an enormous array of arty was massed. Security probably forbade the revealing of gun posns. Some sporadic shelling, not always inaccurate, was experienced from enemy posns on both sides of the river. No cas were reported.	
OUDE BERKTER	30th		Activity nil. Very quiet.

Month and Year December 1944

Commanding Officer Lt. Colonel, J.M. HAILEY, R.A.

Place	Date	Hour	Summary of Events and Information	References to Appendices
OUDE BERKTER (Map Ref Sq. 8720)	1st		The Regiment remained at this position for several days to support the attack on Blerick and Venlo West. Sporadic enemy shelling of the wooded area around the Regimental Position was experienced, but no veh cas and no damage of any consequence was reported, though some civilian buildings occupied by subunits were hit. The arty concentration in this area was as great as any previously experienced. Much needed intakes were received during the period.	
	2nd 3rd		This day saw plans for Operation "GUILDFORD" worked out. This final attack to clear the western bank of the MAAS commenced as far as we were concerned with the order to fire at approx 0645 hrs. At 0745 hrs began a barrage of 800 yard lifts. As well as the actual fire plan considerable "M" and "U" targets were engaged. Prisoner reports the following day asserted that the barrage was very effective.	
	4th		On the 4th a notable weather factor was a high wind, occasionally reaching a velocity of 60 mph, and giving a met corr of 1000 yds. The day was inactive following the success of yesterdays attacks.	
	5th		Recce parties were held at short notice to move. Little activity was experienced or engaged. Desultory shelling by guns sit across the MAAS was often heard, but no damage was reported.	
MAASBREE	7th		Gun groups, and Tac RHQ moved to a new position south of MAASBREE and went into a defensive role. Line was to be held by two brigades while the third went to Rest near ASTEN. Gun position was wooded, but marshy, fairly widespread, and tracks in a very poor condition.	
	11th		Until this day there had been very little activity of any sort save administrative. Today one of C troops guns was firing over open sights at Belfield Church. In addition to the normal positions for the guns, a "Harassing fire Position" had been reced, and was occupied in turn by each	

		of the batteries. This was in addition to the normal "2 up and 1 reserve" relief system on which the Battalions relieved each other, and which system naturally effected the O.P.s. The Map Ref of this forward position was 822045. A number of German planes were seen over the area on occasion, varying from Jet propelled fighters to medium bombers. Some bombing of the neighbourhood was noted in the days immediately preceding 16th December, and an O.P. line was out of action due to enemy planes on the 16th.	
MAASBREE	21st	Visibility on these days was often limited to 100 yds due to mist and bad weather.	
	24th	Recce parties were ordered to stand by in preparation for a possible move to a posn north east of HELDEN in view of the fact that 25 Field Regt had moved back into sp of the Div Arty, and that reports were received of concentrations of mortars within range of this position. The recce was carried out, and the move was possible on Christmas Day, survey having been completed in the new area by 1600 hrs 24 Dec 44. This move, however, was not necessary, and the Regt remains in the same position as before.	
	25th	<p>Christmas Day was "Very Quiet". All sorts of disturbing rumours failed to materialise, and the Germans observed some at least of the spirit of Peace and Goodwill. The amn expenditure for Xmas day was only 2 R.P.G. from the Regiment. On the 26th two missiles landed in the Regimental Area about 1200 hrs, one being a near miss on 320 Bty Comd Post at the forward position. These were examined and found to be bombs released from a great height. No important damage was reported.</p> <p>Comparative and Standard calibration of all guns was carried out during the month in an attempt to tighten up the standard of gunnery. There had been a drop in the efficiency of "M" and more so, of "U" tgts. Much of this was due to the spread of the Regt over a large area, and the constant detachment of one subunit in the H.F. Position. A great improvement was reported as a result of the calibration and a firing exercise "EXERCISE BOLTON"</p> <p style="text-align: center;">*****</p> <p>Comd Offr:- Lieut Colonel J.M. Hailey, D.S.O., R.A. 2 i/c :- Major H.D. Stewart, T.D., R.A.</p>

~~**INTELLIGENCE SUMMARY**~~

Unit:- 131st Field Regiment, R.A.

(Erase heading not required)

Commanding Officer:- Lt-Col J.M. Hailey, DSO RA

Place	Date	Hour	Summary of Events and Information	Remarks and references to Appendices
MAASBREE 8307	Jan 1		Almost at the stroke of midnight, both our own infantry and the enemy proceeded to see the new year in with a storm of mortar bombs, very lights and fireworks. Later in the day several enemy aircraft, mostly FW 190s, flew over the regt area at zero feet. These were engaged by LAA troop in sp of this unit. A direct hit was observed on the nose of one a/c and several others were also claimed.	
	3		Front continued to be fairly quiet. Enemy mov was observed and engaged by arty. Cyclists and HD tpt were engaged and scattered.	
	6		Hy traffic was heard in the area 8705 and engaged. At 1600 hours one gun (believed LAA) shelled 320 Bty OP with 2 GORDONS; only one rd hit the OP doing no damage and the gun was engaged and stopped.	
	10		Lt-Col JM Hailey relinquished command of the regiment to take up appointment as GSO I 15 (S) Div. Lt-Col HD Stewart TD RA took over comd of the regt, with Major JA Oliver MC RA as 2IC	
	11		Heavy snowfalls and severe frosts have been prevalent. It was necessary several times to fire rounds on known enemy localities in order to warm the guns.	
	12		Satisfactory shoot carried out on hostile guns on the river bank with the aid of SR Tp.	
	13		A few propaganda shells were fired into the regt area, containing leaflets calculated to cause dissent between British and US troops. The leaflets met with derision - troops being more interested in the "pin-up" picture than in the printed blurb on the reverse.	
	15		Lt CE Montague fired on outside his OP, spent bullet passing between his arm and ribs without touching him.	
	16		Slight desultory enemy shelling, incl some airburst over area at about 1930 hours. No damage or cas. Retaliatory fire put down on BELFELD area from fwd bty.	
	23		The harassing fire bty position at 822045 was abandoned, as so many rounds had been fired from the main gun area as to render the fwd position valueless. Throughout the month, until this day, numerous HF,	

			DF, CB CM tasks, observed and unobserved, were fired, but there has been very little activity among the enemy.	
GOIRLE 1428	24		Regt left defensive location at 8307 (MAASBREE area) and went to rest area at GOIRLE, near TILBURG (map ref 148280). All troops accommodated in billets in the village. The regt remained in rest area for the remainder of the month.	
	31 J		T.E.W.T. at Bde HQ attended by CO, 2IC, and Bty Comds.  Commanding Officer:- Lt-Col H.D. Stewart, T.D., R.A. Second-in-Command:- Major J.A. Oliver, M.C., R.A.

~~**INTELLIGENCE SUMMARY**~~

Unit:- 131 Field Regiment, R.A.

*(Erase heading not required)*

Commanding Officer:- Lt-Col JND Tyler, OBE MC RA

Place	Date	Hour	Summary of Events and Information	Remarks and references to Appendices
GOIRLE Holland 1428	Feb 1		Regiment still in rest area. Flying bombs have been seen for the first time, passing overhead.	See Appx
Nr. NIJMEGEN	5. 6	2200	Regiment left GOIRLE en route for assembly area near NIJMEGEN (7458) for operation VERITABLE. Security was very strict, travelling only by night without lights, and as we were still on the road when dawn broke all Divisional signs had to be painted out, covered up, and Bonnets hidden in the vehicles. The remainder of the day was devoted to preparations for the battle and rest. Vehicles were "frozen" owing to the bad state of the roads which were deplorable, and also to help security.	
	8		The operation began for us with a large-scale counter-battery programme opening at 0515 hours. This was followed at 0915 hours by a barrage from one thousand guns, ours playing their share; this lasted until 1503. First objectives were gained early in the afternoon. The Regiment moved up in order to keep in range, over filthy roads to location near KAMP 768558. Only the consistent drive of the Second-in-Command Major J.A. Oliver, M.C., got the guns into action at all as the whole area was liquid mud, having been "no-man's land" for several months.	
Nr. KAMP 768558	9		The 2 GORDONS started off at 0400 hours, supported by our guns, for their objective - to breach the SIEGFRIED LINE, which was accomplished by about 1000 hours. The weather is abominable, very wet and the roads are little better than rivers of mud.	
	10		This was an easier day from the firing aspect, although in no way easier as regards weather which continued to be very wet. Four members of Major Campbell's crew were killed in the evening when the house in which they were sheltering received a direct hit from a heavy shell.	
NUTTERDEN 850553	11		INTO GERMANY ! We moved forward at 0230 hours through KRANENBURG to a position approximately one mile south-east of NUTTERDEN. 319 Bty's Comd Post occupied a "bunker" of the famous (?) Siegfried Line - a luxurious place of steel and concrete. There was very little firing to-day, but an endless stream of traffic passed by, all going forward into Germany.	

	12		There was little firing to-day until the afternoon when some M targets were engaged.	
	13		Fire-plan in support of 43 Div began shortly after 0900 hours. The range was high and the guns were firing supercharge. There was little activity for the rest of the day.	
CLEVE 896554	14		Moved at 0530 hours to new position in support of attack by 46 Bde which began at 1000 hours. Just before arriving at the gun area, some German Jet-propelled aircraft dropped bombs near the column but no damage was sustained by us. Guns were in action by 1000 hours and targets followed in rapid succession. More German "J-Ps" appeared in the afternoon and bombs fell near part of the Regiment - but no damage.	
	15		A quieter day again from the gunners point of view. The infantry seem to be meeting rather tougher opposition now, but they continue to press forward. An attack was made by 10 HLI at 2300 hours to capture the high ground over-looking CALCAR.	
CLEVE 896554	16	0300	Counter-attack by Germans on H.L.I. front was driven off in an hour. In a second attempt they over-ran a forward company but the position was eventually restored. The guns were busy during the time in question. Opposition seems to be growing stiffer, but prisoners are streaming back. At about 1800 hours a very heavy barrage opened up on our right - we thought this would be 43 Div doing their bit again. Our own guns were limited to HF tasks during the night.	
936492	17		The Divisional Commander came round the gun area this afternoon. There was no firing to-day, and the regiment moved forward at 1800 hours and was in action again by 2100.	
	18	0100	A smoke-screen to be fired in sp of 3 Cdn Div was cancelled, but the gunners had a busy day. The infantry (8th Royal Scots) were in the outskirts of GOCH by about 1500 hours. A German counterattack mounted at 1700 hours was driven off by infantry with some artillery support.	
	19		There was a good deal of enemy mortar activity. Fire-plans and targets were engaged frequently. GOCH was captured by the combined efforts of our own 15th Div and the 51 Div. What a collection of Jocks there must have been in the town !	
	20		Targets were engaged beyond GOCH.	
939464	21		Moved forward at 0930 hours. Shortly after our arrival in this area, shells fell just beyond the area, the nearest being some hundred yards or so from the RHQ Office truck.	
	22		Lt-Col J.N.D. Tyler, OBE, MC RA joined the Regiment as Commanding Officer.	

	23	0700	Germans staged a counter-attack and gained a little ground. Many targets have been fired and three smoke screens produced for the attack by 44 Inf Bde.	
	24	2000	The opposition is very tough now, and there has been a great deal of firing. Fire-plan fired in support of 53rd (Welsh) Division. Capt HH Goldsborough RA (attached from RHU) was wounded and evacuated, at the OP. The gun area was shelled, damaging one gun and killing a Gunner. Several others were wounded. Bearing on these shells was 135 degrees.	
	25		Another small fireplan engaged in sp of 53 (W) Div. Another fireplan was received at about 1930 hours in support of 3rd Cdn Div.	
	26	0345	CB programme preceding a fireplan in support of 3 Cdn Div whose objectives to-day were towards UDEM. The attack appeared to go well.	
	27	0300	Two barrages worked out in support of 3 (Br) Div. First was abandoned as being unsafe. Apart from this there was little firing to-day.

Place	Date	Hour	Summary of Events and Information	Remarks and references to Appendices
TILBURG HOLLAND E 1834	1 - 3		Regiment remained in TILBURG. Cleaning and maintenance occupied the mornings, but as far as possible troops were free afternoons and evenings.	
	4		A Regimental Church Parade was held. This was well attended but rain spoiled the Ceremonial march-past afterwards. Representatives from the Regiment attended a Special Memorial Service held under Divisional auspices.	
	5		Expected to move to-day, but did not.	
MOLL, BELGIUM K 1791	6		Moved at 1300 hours. Whole Regiment was accommodated together in former German barracks. Place was absolutely filthy and a great deal of cleaning had to be done.	
	7		During the period 1 - 14 March, efforts were successfully made to give every officer and man a 48-hour leave in BRUSSELS - a fact which was greatly pleasing to all concerned.	
	8-10		Cleaning and Maintenance became the order of the day. Efforts were also made to clean the barracks.	
	11		C.O. inspected Regimental Area, also guns and vehicles. A Regimental Church Parade was held at 0915 hours.	
	12-13		Continued maintenance and rest. Football matches were arranged with local teams.	
	14-15		More maintenance and rest. Detachments from the Regiment went on Exercise "BUFFALO" - practising rafting guns and vehicles across the R MAAS, in preparation for forthcoming operations.	
	16		Major HD Stewart, the 2IC, went on a recce to a secret destination. The regiment was entertained by the all-Belgian/Dutch ENSA show "Army Troupers" - an excellent show; we could use many more like it.	
	17		Guns of the Regiment were calibrated against the Theatre standard guns at LOMMEL Ranges.	
	18-19		More rest.	
WINNEKENDONK GERMANY	20 21		Moved at 1630 hours to this location, arriving at about 0300 hours 21 March. Preparations for battle went on.	See Appx

0033	22		Preparations continued all day, and at night the guns and essential Command Post and HQ staffs moved forward to the gun area near VYNEN.	
VYNEN 0747	23		Day passed quietly. Some German shelling could be seen and heard, but nothing came very close. The Germans shelled VYNEN church at regular intervals of about an hour, and with considerable accuracy.	
	24		Our artillery programme opened at 0025 hours. Ops crossed the river RHINE in "BUFFALOs" and storm boats with the assaulting infantry, OC 495 Bty being marooned in mid-stream with "navigational trouble" due to his amphibian breaking down, for an uncomfortably long time. Major J.A. OLIVER, M.C., R.A., OC 319 Fd Bty, was killed, together with three of his OP party, while walking with the infantry. The Regiment has lost a first-class Bty Commander, who was expert at his work and popular with all ranks.	
1847	25-28		For the next four days, the Regiment remained in action at VYNEN, supporting the troops on the far bank of the RHINE.	
Nr. HAMMINKELN GERMANY 1847	29		After a quiet day, the Regiment crossed the RHINE to harbour about two miles west of HAMMINKELN.	
	30		A quiet day. Maintenance and cleaning of vehicles and equipment went on in readiness for the next task.	
	31		The C.R.A., Brigadier L. Bolton, came to address the Regiment, thanking all ranks for their good work during Operation TORCHLIGHT.

Place	Date	Hour	Summary of Events and Information	Remarks and references to Appendices
Nr. HAMMINKELN 181477	1		Rest and maintenance continues.	
	2.		Maj-Gen C.M. Barber, DSO, Commander 15th (Scottish) Infantry Division, visited the Regiment and expressed his thanks and congratulations to all ranks for their part in Operation TORCHLIGHT.	
	3.		Recce parties were ordered away, but the Regiment was now switched from 12 Corps to 8 Corps and they were recalled.	
HEMBERGEN 9194	4		Moved to the area around the village of HEMBERGEN and harboured for the night.	
HORNE 1505	5		Moved on again to HORNE, about 6 Km south-west of OSNABRUCK and harboured.	
BRUNING- HORSTEDT 7825	6		On the march - sixty miles to BRUNING HORSTEDT, near LAVERSLOH. We were impressed by the damage done to OSNABRUCK which we passed through. On arrival in the harbour area, prisoners began to come and a total of fourteen were sent to the cage.	
	7		A further eight prisoners were taken. The Regiment is carrying out a check of all civilians in the area and a search is being made for arms, ammunition and weapons.	
	8-9 ) 10 )		Two days spent on rest and maintenance, in readiness to continue the advance.	
WUNSDORF 1526	11		Moved to this location via LATHDE, MUNSCHAGEN, WOLPINGHAUSEN and SACHSENHAGEN. The move took little time for no enemy were met, and we reached WUNSDORF just at dark. A few enemy jets came over and dropped one or two bombs not far away.	
CELLE 5949			Moved advance to contact with 227 (H) Inf Bde, via NEUSTADT, OTTERHAGEN, SCHARREL, METEL, ABBENSEN, NEGENBORN, BRELINGEN, MELLENDORF and FUHRBERG to CELLE. Move was very slow with long halts while infantry cleared areas on either side of the road. An exceptionally long halt occurred at FUHRBERG. The guns went into action on the southern suburbs of CELLE. RHQ carried out some house-clearing and "liberated" a small camp of Italian PW consisting of four Officers and fourteen ORs. In the early	

			evening, the Regiment moved on through CELLE crossing the River ALLER by a Cl 40 bridge erected by engineers of 15 (S) Div and 6 Airborne. We harboured for the night on the northern outskirts of the town in a barracks formerly occupied by a German CW School.	
	13		The advance to contact continued, with the Regiment advancing in support of 227 (H) Inf Bde and 3 Tk Bn Scots Guards, in the direction of UELZEN. Progress was desperately slow owing to an enemy party of engineers who kept just ahead of our recce elements and cratered and mined the road as they went. We spent the night on the roadside.	
HOLDENSTEDT	14		The German engineer party who were hindering progress yesterday having been rounded up, we moved off at 0400 hours and advanced rapidly to HOLDENSTEDT, just south-west of UELZEN. 319 Battery who were leading battery of the regiment, and in support of 10 HLI were ambushed as they occupied a quick-action position and were heavily engaged by 20-mm SP guns and MG fire from the woods. One SP was knocked out by a direct hit from 319's guns, and the other withdrew. It was believed to have been severely damaged. Casualties in the battery were heavy - 1 OR killed and fourteen wounded. Two more were taken prisoner and two are missing, believed prisoners. The Battery Commander's half-track OP vehicle was also hit and set on fire, Major Clark himself being wounded. RHQ and the remaining two batteries arrived soon after, while the village was being shelled by enemy guns. The firing ceased very soon after we arrived. A small fire plan was arranged and fired in support of the attack on UELZEN.	
	15		Fire in support of 227 Bde continued. At about 2330 hours, RHQ area received three shells from a mobile SP gun, and there was considerable enemy air activity, jet-propelled aircraft as well as the older ME 109 and FW 190s being seen.	
	16		Continued firing in support of infantry. A sub-unit engaged several red-smoke targets for the Typhoons and after their attack, some propaganda shells were fired inviting the Boche to give in now, or be treated to a further dose of rockets from the Typhoons. The results were not as good as they might have been!	
	17		This was a quieter day. Notification has been received that Captain M.E. PEPPIATT and Bdr A. STEEL have been awarded the Croix de Guerre for services in France.	
	18		Another quiet day.	
892366	19		Advanced on with 227 Inf Bde to a location between LUDERSBURG and SCHARNEBECK, about 6 Km from the R ELBE. UELZEN was badly damaged and many buildings were still burning when we passed through. The great heat could be felt inside the vehicles - quite welcome on a cold morning.	

			There was some good hostile airburst shelling of SCAHRNEBECK as we passed through, but we had no damage or casualties.	
BRIETLINGEN 8029	20		Moved forward a little distance to BRIETLINGEN. Here we uncovered the local representative of N.S.K.K., (the Nazi Transport Corps) and RHQ installed itself very comfortably in his house.	
	21		Fire plan in support of 10 HLI for their attack on ARTLENBURG which was successful.	
	22-26		Remained in this location, with very little firing. OPs were busy however, collecting information from the far bank of the ELBE. There was some slight shelling of OP areas, but we had no damage or casualties. Owing to the control of ammunition for the build-up prior to the ELBE crossing, the OPs were unable to deal with the Boche as they would have liked. Such shooting as we could do was excellent, and we knocked out several cars, including one which rolled down a bank in best Hollywood style. We also engaged a train which was seen, but the engine withdrew hastily, leaving its trucks behind. The enemy was very careless in his movements and a great deal of activity could be seen.	
LUDERSHAUSEN 808319	27		Moved forward to LUDERSHAUSEN to support 227 Bde in Operation ENTERPRISE (See Appendix). Guns area and RHQ was in full view of the far side of the ELBE and every tree and building was utilised to conceal gun positions and vehicle parks.	
	28		Final preparations made for Operation ENTERPRISE. We received details of recognition signals between our own troops and the Russians. Marshal ROKOSSOVSKY reported within 50 miles of us and still advancing.	
LUDERSHAUSEN	29		Battle opened at 0200 hours and went well. Major GTC CAMPBELL, M.C., BC of 320 Fd Bty was badly wounded at the OP and was evacuated. Orders were received in the afternoon to move forward to a position on the bank of the ELBE, but these were subsequently cancelled, as we should be crossing the river at once.	
GULZOW 829419			We crossed the ELBE this morning, after waiting all night for the orders. The Regiment has now completed its "hat-trick" of river crossings, having shared in the assault crossings of the three major rivers - SEINE, RHINE and ELBE.  <u>Commanding Officer</u> Lieutenant-Colonel J.N.D. Tyler, OBE, MC RA <u>Second-in-Command</u> Major H.D. Stewart, T.D., R.A.

HELENAVEEN 739111	1		Preparations for operation GUILDFORD to clear enemy from pocket WEST of MAAS in front of VENLO (.) Assembly area for 6 K.O.S.B. checked for mines (.) Preliminary task:- Build three small bridges at 864096 (.) Not possible by day (.) Unnecessary stores offloaded at Field Park (.) Necessary stores offloaded at site by night (.) Ground soft and some trucks bogged (.) All pulled out eventually (.)	
	2		Tying up for operation to-morrow, see Appendix 1 and 2 for orders (.) At night three 30-ft Baileys built at 864096.	App. 1 and 2.
	3		Operation GUILDFORD (.) Jobs:- 2 Platoon to advance in Kangaroos behind flails and mark right edges of gaps by means of long poles with gap marking signs on top (.) 6 gaps each numbered from right (.) 2 Platoon to remain at A/Tk Ditch and maintain bridges laid by Churchills A.V.R.E. (.) 1 Platoon to go up when 2 Platoon Kangaroos returned and mark left edge of gap (.) 3 Platoon to do any jobs required in BLERICK (.) Recce Officer with each of four Battalions (.) Operation was most successful (.) Some misgivings had been felt as to whether the Bridge Layers and Kangaroos would bog on the soft fields but the operation went almost exactly according to plan (.) 5 of the 6 bridges were eventually laid and there were never less than three routes open at any time (.) 2 Platoon, who had the job of maintaining bridge approaches, had eight casualties from shelling, one serious (.) Of the three little bridges laid the previous night only one was in use at the end of the day, the approaches to the other two having become impassable (.) When this happens there is no method known to us of quickly making them passable again. Corduroy has proved the only method.	PT Wood <del>Capt.</del> Maj. R.E. <del>For</del> O.C. 279th Field Company R.E.

	4		Plan now to open up two permanent routes into BLERICK, yesterday's objective. 3 Platoon worked on OBAN, which is exposed and was shelled at intervals through the day.	
	5		Maintenance of TAY-OBAN routes. See Trace A. A Party of P.O.W. were taken into the minefields, where they cheerfully lifted tellers with alacrity. They had laid them during the two nights preceding our attack. All T.Mi. 35 (uncommon these days) and none booby trapped. 140 from area 883096 and 80 from 882097. Lt. Haines and Sjt. Cooke began eight day course on mines and explosives for new pioneer platoons of 44 (L) Bde at HELMOND.	Trace A.
	6		O.C. to 2nd Army Mines Conference. Ordered to make Cl. 40 crossing at 889123. O.C. had done preliminary recce previous day. Enemy-observed by day. Probably 70' Double single. Plan: Lt. BOARDMAN bridge Commander. His Platoon (2) to lay out on night 6/7 and build, assisted by 2 sections 3 Platoon night 7/8. 1 Platoon to unload night 6/7. Div Bailey Platoon to be Used	
		1630	Capt. BLOCKLEY and Lt. BOARDMAN on site. No preliminary clearing necessary, old R.C. bridge had been blown clean away and both abutments demolished.	
		1700	Setting out began.	
		1830	1 Platoon arrived and began unloading. An hour late owing to a breakdown.	
		2245	Unloading finished. Near baseplates and rollers in position. Far bankseat 70% dug out.	PT Wood <del>Capt.</del> Maj. R.E. <del>For</del> O.C. 279th Field Company R.E.
KIRKEN KUILEN 765130	7		Lt. SCANLON with 2 sections 3 Platoon began dismantling our laboriously constructed Red Lion Club at TILBURG, the town having now been taken over by 1 Canadian Army. On reaching the Bridge Site in the evening, it was found that one baseplate had collapsed through the day's heavy rainfall having run down the hill and through a crack in the tarmac and so washed out the bankseat. Building was therefore held up while a transverse drain was dug to prevent this re-occurring and a grillage was put down. Bridge was opened at 0230 hrs. During the day company moved to former Dutch Reformatory at 765132. A hutted camp in good order. Water supply the only problem, no electricity for the pump.	
	9		See Appendix 3 for Div Plan. North road to BLERICK now clear, 12 R-mines lifted 892093. 1 Platoon working to link Corduroy with road as on trace A. Road 889123-893101 cleared of mines and small trees but not possible to open it owing	Appendix 3. Trace A.

		to 18 interlaced trees forming block at 893109 which cannot be moved without mechanical equipment which will provoke shelling. There is also crater at 894107 and 894105 where A/Tk ditch crosses road (.) Route not needed however (.)	
	10	ARMCO crossing at 839081 begun for R.A. 50% completed (.) More work on corduroy road 865094 (.) Many mines previously lifted were blown up.	
	11	ARMCO crossing at 839081 80% (.) Corduroy 20% (.) Lt. Wilkinson joined company.	PT Wood <del>Capt.</del> Maj. R.E. <del>For</del> O.C. 279th Field Company R.E.
	12	Crossing finished (.) Corduroy 30% (.) Horse went up on mine on track 843088 - 838087 from which 6 T.Mi. 35 steel were subsequently lifted (.) It is only through some such occurrence as this that minefields off the beaten track can be located (.) It is difficult sometimes to make commanders realise that it is impossible for the R.E. to guarantee an area clear without days or weeks of methodical searching which is not, of course, possible. Track beside railway 838146 - BLERICK made passable.	
	13	C. in C. visited Division and decorated Major Wood, M.C., D.S.O., Capt. Blockley (M.C.), L/Sjt. O'Shea (M.M.). Estimated time of completion for corduroy 18 Dec (.) Draining and hard standings in camp improved (.) It was all mud and with the recent rain was becoming bog (.)	
	14	Work continued on Corduroy and hard standings (.)	
	15	" " " " " " " (.)	
	16	Further work on corduroy and hard standings (.) All pipes in camp lagged (.) Lt. HERBERT joined company (.) Div R.E. home leave ballot (.) Company did well apart from Serjeants, who were unlucky (.)	
	17	By driving the small pump off the back wheel of a motor-bike, enough water was pumped to operate the camp showers for an hour. Corduroy will be opened to-morrow evening (.)	
	18	Corduroy - all logs laid but needs sanding on top (.) Recce done by O.C. and Lt. WATKINSON for A/Tks minefield to be laid by night, area 893082 (.)	
	19	Sanding of corduroy continued (.) Lt. WATKINSON and party from 3 Platoon laid 83 Schu mines and wired them at night 19/20 (.)	PT Wood <del>Capt.</del> Maj. R.E. <del>For</del> O.C. 279th Field Company R.E.
	20	Sanding of Corduroy completed. Hard frost at night.	
	21	R-mines and T-mines collected from MEIJEL area for laying in a practice minefield for 44 (L) Bde. Recce by O.C. and Lt. HERBERT for	

		minefield to be laid area 896129 where enemy are suspected to be crossing MAAS. Night 21/22. 2 short belts of S-mines laid, at end of wood. Another night of frost.	
	22	Maintenance of NORTH route. Sjt. Cooke killed in accident while blowing up damaged R-mines, exact cause unknown. R-mine had been run over by truck with safety nail in place and igniter pin was nearly out.	
	23	Road maintenance. Lt. du Vivier and Haines with 1 Platoon laid perimeter fence in area 8902, night 23/24. No A/Pers mines available except British Shrapnel mines. These mines are NOT considered suitable for laying by night just in front of Jerry's nose.	
	24	No work apart from mines (No. 5 British A/Pers) laid within last night's perimeter wire after dark. Platoon Commander was misled by stupid infantryman and set off 2 trip flares.	
	25	No work. A good Christmas dinner was appreciated by all ranks. Frosty day with bright sun.	
	26	No work. Carol service in morning. Company assembled in afternoon while O.C. read out Christmas message and C.S.M. explained Home Leave Scheme. Another frosty, sunny day. General feeling about Christmas - "We didn't do too badly."	
	27	Day spent cleaning up Christmas mess.	
	28	At 859135 45 T.Mi.35s and T.Mi.35 blown up. Stores check begun. Roads very slippery from 10 days frost.	PT Wood <del>Capt.</del> Maj. R.E. <del>For</del> O.C. 279th Field Company R.E.
	29	Track swept 885114 - 888114. Platoons marched to SEVENUM to inspect our defensive positions there in the event of an attack. G.O.C. inspected camp and had tea in Officers' Mess.	
	30	House at 895121 booby-trapped. Superiority of German over British equipment for this job most apparent.	
	31	Showers at SEVENUM improved with screens. Black-outs for Bde. Recreation Room completed. New Year seen in with skirl of bagpipes.	PT Wood <del>Capt.</del> Maj. R.E. <del>For</del> O.C. 279th Field Company R.E.

HAINES (A/2 i/c) to near GROESBEEK with 3 Armd D. 7 bulldozers to be slipped into tail of Armd Col in passing. During morning 46 & 227 Bde attacks went well though some of their flails bogged. Opposition sporadic, rather overwhelmed by terrific Artillery barrage.	JP Blockley Capt. R.E. For O.C. 279th Field Company R.E.
		1530	C.R.E. on M/c reced routes with O.C. Route for wheels proved as far as forward infantry. 2 Platoon set to fill small holes while held up in convoy.	
		1630	A 2 Platoon ½-track blew up on mine. Road had been cleared by preceding Fd Coy. Another 2 trucks also blew up. Without doubt mines very deep and there is no known way of locating these. A favourite German practice in Africa - not met much in N.W. Europe. Trucks at once bulldozed into ditch.	
		1800	O.C. with Lt. BLACK and 2 Platoon get out to recce F.U.P. Bulldozer and 1 ½-track bogged. Remainder went on and had a look at start line. No shooting. 2 Platoon began marking while O.C. went back to send forward bogged trucks. Recce car got squirted accidentally by flame thrower. Stuff did not ignite but not comfortable among blazing houses. Then Recce Car stuck in slit trench. O.C. walked back, sent up 2 bogged vehicles - to collect Lt. BLACK en route.	
		2000	O.C. at Bde. Tank track for Armd Col unpassable. C.R.E. arrived, having found a way round and personally cleared up to start line with bulldozer, pushing trees & R-mines off road.	
		2030	Brigadiers orders - O.C. to light approach road for Armd Col and take personal command of columns allotted for lanes 4 & 5 now to be concentrated on opening AYR route. Lanes 1, 2 & 3 as before.	
		2115	O.C. reported to Bde - route lit. Awaiting Armd Col. Called up Lt. BLACK & 2 Platoon and told them new plan. All waited at top of start line.	
	9	0200	Armd Col began to arrive. Only 2 A.V.R.E. bridges and not full complement of flails. All A.V.R.E. officers who had been recceing ahead had vanished. Columns 1, 2 & 3 sent off to starting point with 2 A.V.R.E. bridges. Zero hour now fixed for 0400. Gordons arrived and took 2 Platoon to begin clearing PEARL BLACK. Still no shooting.	JP Blockley Capt. R.E. For O.C. 279th Field Company R.E.
		0330	O.C. gave out orders to NORTH force. 2 flails to flail up to ditch along road which was in fact only a track. Sprs in Kangaroos to follow. 2 sherdozers and one Armd D. 7 to be	

819552		<p>prepared to fill in crossing over ditch. 3 flails then to cross and go on to objective followed by sprs.</p> <p>0400 Crossed start line, heralded by brief and highly dangerous fusillade of tracer from our tanks further south. Stopped this. Advance proceeded uneventfully until 6 cowed Germans bobbed up out of a hedge and surrendered.</p> <p>0515 Reached A/Tk ditch. Bulldozers began work on half demolished earth causeway.</p> <p>0545 Flails able to cross and flailed on to objective. No mines had been met at all. No opposition. Meanwhile sprs were laying a mat of logs spiked together over the bulldozed causeway and finishing the marking of the gap</p> <p>0700 Gap declared open. Bde informed over wireless. Began collecting up funnies, some of which had temporarily ditched themselves. As it grew light began moving funnies back out of sight behind houses and - after being told nothing would be coming through for a while - eventually back to start line. Spr party left near crossing until battalion had passed through at about 1130. Everyone collected up then at the top of the start line, we found a fairly undamaged house, and began sorting out. Meanwhile on lanes 1, 2 &amp; 3 further south progress had been as follows:- No. 1 gap was abandoned almost at once as everything got bogged. No. 2 gap was put through almost as planned except that the A.V.R.E. laid his bridge badly and the second A.V.R.E. bridge was called into gap 2 and laid to the left of the first. On gap 3 the approach to the ditch was poor &amp; after a bulldozer had made a crossing the first half of the route was not used. After a while the A.V.R.E. bridge became impassable and traffic came up gap 2, crossed the ditch at gap 3 and returned to gap 2. Routes opened 0720 hrs. 		0245 0545 1000	Work began. Bridge complete. A first class bit of work though not technically perfect. All trucks had left by first light. Coy congratulated by G.O.C. Brig. & C.R.E. Lt. to Bde and then to see if bridge was all right. Unable to get up to bridge as an S.P. was knocking out each truck as it passed up the road. But R.S.F. on the spot reported it was all right.	JP Blockley Maj. R.E. O.C. 279th Field Company R.E.
	28	1000  1630	Lt. Herbert and sec 1 Pl to bridge. Found that 53 (W) Div had taken over maint and were repacking far end. It seemed foolish for 53 Div to take over a bridge in our area as they were advancing, so O.C. asked CRE if we should continue to maintain it. This was approved. Lt. BOARDMAN with Sec 2 Pl to KOSB to lift R and SCHU mines. 20 R mines lifted. One casualty on SCHU mine when a spr was carrying R mines into a field to destroy them. We are still too casual in areas known to be mined.

Field	19.		Pet. P. in Coy location issued 1260 Gals. Adm Pet P. issued 180 Gals. Fwd Pet P. issued 8590 Gals. The Adm Pet P. at GOIRLE had now to issue rations in addition to P.O.L. A butcher and 2 Issuers from 283 Coy R.A.S.C. were sent down to assist in accordance with instruction in Appx. Owing to the Canadians taking over CLEVE and surrounding area it was necessary to form a New Pet P. at BEDBURG M.R. 9252. This was manned by personnel from the NUTTENDEN P.P. and was stocked by 12 x 3 ton Vehs which had been attached to the Point. These Vehs had to draw M.T. 80 from HAPS station and Oils were drawn from NIJMEGEN. The Pet P. at NUTTENDEN is being turned into a cushion and will be	A.Q.M.G. letter.         DR

Field		ultimately stocked with 25,000 Gals M.T. 80 and this will be filled by DUKWs going fwd from NIJMEGEN and also any Vehs that can be spared on the nightly 60 Veh Div R.A.S.C. Convoy. Communication with H.Q. R.A.S.C. who were with Rear Div at NUTTENDEN was found to be almost negligible due to heavy use on the Corps-Div telephone lines and the only means of getting orders from H.Q. R.A.S.C. was by the returning DUKWs to 283 Coy R.A.S.C. and motor cyclists from there to Coy location. With only 'A' and 'B' Sections of the Comp Pl it was found impossible to run 5 Pet Ps covering an area of approx 90 mls with Comp. Pl personnel only. These therefore had to be subsidised from R.D.I. personnel and together with the fact that approx 20 Vehs were being used every night to carry Amn fwd necessitating a change of drivers made the personnel question extremely serious. At this period the Company was being run by the O.C. and 2 IC, the Wksps Offr being left behind at the old location, H.Q. Sub covering fwd PP. & 2 Tpt Subs, the remainder being in Hospital (2) and on leave to U.K. (1). BEDBURG Pet P. issued 4797 Gals.	DR  DR

It was decided that relief drivers should be substituted as vehs checked in at Coy location, in view of the fact that the Dvrs were engaged on previous night without a break. However, 8 Vehs were retained by 284 Coy R.A.S.C. and used for stocking the fwd Am P. at GEMERT and all Drivers were subsequently relieved for a period of 36 hrs. An Officer was sent to the Amn P. at GEMERT where he established a Cookhouse with the object of feeding personnel of Div	DR

			R.A.S.C. Another feeding point was open at 284 Coy RASC location. The siting of the 284 Coy Cookhouse was not satisfactory as Dvrs had to travel from the A.P. to the Guns and then return to 284 Coy location before getting food. There was therefore often a break of 15 hrs between getting food at Amn Depot GEMERT and 284 Coy location. 2nd Cookhouse should be at A.P.	DR

BEDBURG Pet P. issued 10453 Gals. 5 x 3 ton Vehs were damaged by enemy action, damage being inflicted to radiators and Petrol Tanks. Repairs were effected by a section of this Units Wksps detached to 193 Fd Amb and it was unnecessary to evacuate the Vehs from the fwd area. The 2 IC proceeded to BAARLE NASSAU to recce for Coy accommodation as instrs were received that the Division was being withdrawn from the line for a rest period. A subaltern and 9 ORs were sent to BAARLE NASSAU for the purpose of opening a P.P. in the Area. This was opened all day on 26 & 27 Feb. The party was equipped with 16 x 3 ton Vehs which stocked the P.P. daily from 132 Pet Depot. The fwd P.P. was closed and the operating staff together with 10,000 Gals Pet was sent to BAARLE NASSAU in order to run the P.P. in the new area. On this day commitments were so heavy that domestic vehs were brought into 'Task' use and altogether a total of 72 Task Vehs were on the road. The strain on drivers was unusually heavy and a system of relief drivers was almost impossible to apply. In addition the work for Wksps was being built up at a terrific rate.	DR

The Field	1		'B' Platoon joined Coy arriving at 1030 hrs from ZEELAND where it has been standing by with a view to lifting 25 Pdr for Div R.A. which expected to be employed with another formation. However, it was not required. P.P. in Coy location issued 10,030 Gals M.T. 80.	DR
The Field			A comprehensive overhaul of all task vehs was very necessary after the extraordinary heavy work of the past three weeks and it was decided that 3 days should be allotted to each transport Pl, commencing with 'A' Pl for extensive vehicle maintenance and that each Pl should send its vehs into Wksps by sections during the 3 day maintenance period allotted. It was also decided that as far as possible vehs should be repainted during the Div rest period. It will be seen that during the 3 days maintenance period, one tpt Pl would have to carry out the Tpt details for the Coy and vice versa. This maintenance plan was complicated by the innovation of Short Leave to BRUSSELS for all ranks and it was felt that the full quota of vacancies allotted to this Coy could not be accepted at least until the maintenance programme was completed. Accordingly a reduced quota was accepted with the proviso that this would be increased when possible.	DR
	2.		P.P. in Coy location Issued 11704 Gals M.T. 80.	DR
The Field	3.		'A' Pl completed its 3 day maintenance period but only 3 Sections had passed through Wksps i.e. 1 Sect per day. The period 1 - 14 Mar was given for the change over and A.Q. 15(S) Div called for completion certificates as at 13 March 45. P.P. in Coy location issued 8349½ Gals M.T. 80.	DR DR

The Field	18.		25,000 Gals of P.O.L. was transferred by this Coy to the fwd Dump VEEN on 16th March. A further 25,000 Gals was moved to VEEN on this day together with 2,000 Gals F.T.F. light. An Extra Ration of Rum was made this day. 15,000 Rds 3" Mortar were collected and conveyed to Fwd Dump. P.P. in Coy location Issued 21064½ Gals M.T. 80.	DR DR
The Field	19.		The replenishment of Bottles, Burners & Spheres for Flame Throwing equipment was delayed owing to the system whereby Higher Authority is required before releases can be obtained. A wireless silence was ordered this day until further notice. Instructions were issued for 20,000 Gals P.O.L. to be collected from Pet Depot, MARHEEZE and conveyed to new Coy location this day. This was also to be repeated on the 20th but transport was inadequate to meet these commitments and 10 x 3 ton vehs were borrowed from 62 Coy R.A.S.C. P.P. in Coy location issued 2830½ Gals M.T. 80.	DR DR
	20.		Coy moved from area LOMMEL to LULLINGER M.R. 9627. 2 days SUPS were drawn by this Coy this day. The Tpt Pl operating in the fwd Area was engaged in the collection of 25 Pdr for Fwd Dump. 		1500	'A' Coy took over ADS for a spell to relieve HQ. Did very good work.	
		1530	DDMS Corps accompanied by Brigadier? Pratt, Surgeon 2nd Army. Complaints that some of our cases of 1st day were not very well treated. This is very disheartening in view of previous good comments by ADMS & DDMS 8 Corps who complained that our documentation of AFs no 3118 was poor. This is hardly believable, as I saw a good deal of the work myself. All MOs warned.	
		1600	Visit of Col Melvin ADMS 50 Div.	
		1800	Admitted 172. Evacuated 158.

		1930	As expected a few shells dropped close knocking out one MAC car & killing the driver. Some of our amb cars are looking the worse for wear but all vehicles in good running order. This coincided with the arrival of the 2 secs of 'B' Coy who have been in action. During a quick withdrawal they were nearly over-run. 44 Bde is now reorganising for defence in area S of Cheux. Enemy has been held. D + 23

Commanding Officer Lt Col JB MACFARLANE

Place	Date	Hour	Summary of Events and Information	References to Appendices
ANDE 282909	1	1800	A very quiet day. A very few casualties, sick and accidental injuries were received. MAJ N.R. BUTCHER 107222 reported for duty as 2 I/C	D + 87
	2	1800	Quiet morning. Visited by ADMS who advised that ADS could close as casualties were to be admitted direct to 22 FDS who were across the river SEINE at Muids. MAJ K.D. STEWART was attached to No 35 CCS for air evacuation duties. Movement order received from 44(L) Inf Bde for move on 3 Sept of Bde Group to the area of FEUILLE. Harbour party from B Coy was sent off.	D + 88
ANDE  FEUILLE	3	0800  1130 1145  1800  2030	The unit marshalled at 8 o'clock and moved at 0808 with A Coy leading and with the sect MAC following. On reaching VATTEVILLE B Coy joined the convoy and took the lead from there to the arrival in the Concentration Area. O.C. visited Bde HQ. There was a possibility that there might be a further move that night. Heard from Bde that there would be no move before 0600 hrs 4 Sept. The day was one of Brilliant Sunshine and the Harbour Area a pleasant orchard unspoilt by any preceding troops. The National Day of Prayer was observed by a Divine Service conducted in the open. Attendance good.	D + 89
FEUILLE  CRIQUES 672387	4	1010  1245 1300	The unit moved with the Bde Group to the area of CRIQUES arriving in a concentration area which had been reconnoitred by a harbour party, which left at 0700 hrs. The new area was reached at 1245 OC visited Bde HQ. There was no information. The unit remained on wheels and dealt with only two cases, one accidental injury and one sickness. They were evacuated to 9 FDS. The unit went for a route march in the afternoon.	D + 90

<p>CRIQUES</p> <p>CROISSETTE 1109</p>	<p>5</p>	<p>1057</p> <p>1820</p>	<p>Fd Amb moved with Bde Group to the area South of St Pol. It was a very long and boring journey for the most part in fine weather. Heavy rain fell at intervals during the afternoon and interference was experienced on the roads by meeting convoys of Polish Troops.</p> <p>The unit arrived at CROISSETTE. It was a desolate spot and showed signs of earlier heavy pounding by the RAF. The sight of German prisoners burying dead horses &amp; cattle under guard of MAQUIS was a heartening one.</p> <p>Two road accidents, both mild, occurred during the day. The cases were carried forward with the column until they could be evacuated to 22 FDS.</p>	<p>D + 91</p>
<p>CROISSETTE</p> <p>762606</p>	<p>6</p>	<p>1030</p> <p>2330</p>	<p>The unit started leaving with the Bde Column. The first part of the journey was uneventful, through attractive country in brilliant weather. Later in the day gaunt industrial areas were passed through and progress was slow. Civilian demonstration, which had hitherto been a pleasant welcome, now became an embarrassment with crowds lining the roads &amp; showering gifts on every vehicle which passed. At times outriders on m/cls had to clear a way through the crowds to enable the convoy to proceed. Unit arrived eventually at a farm at 762506 and before long rain was falling.</p> <p>Great difficulty was experienced in making contact with the CCPs (one sect per Bn) owing to the very wide Bn front and the intense darkness.</p> <p>OC attended 'O' Group conference at Bde HQ. Although Bns were in contact with the enemy and there was sporadic artillery fire, no casualties were received during the night.</p>	<p>D + 92</p>
<p>ROLERGEHM</p> <p>879495</p>	<p>7</p>	<p>0900</p> <p>2100</p>	<p>The unit moved independently of Bde, to a situation which was better placed tactically to serve the Bns. At 1015 hrs we arrived at ROLLERGEHM 879495 and the whole ADS was established in an open field.</p> <p>The weather was wet and stormy and the wind increased in violence until it was no longer safe to treat casualties under canvas. A few casualties were being received, mainly from the 6th Bn RSF. Alternative accommodation was found in a nearby school, which proved to be excellent.</p> <p>Casualties continued to come in, in small numbers throughout the day and evening.</p> <p>OC attended Bde 'O' Group Conference where details of the next days move were given out.</p> <p>During the day 2 German POW were taken over from the MAQUIS.</p>	<p>D + 93</p>

ROLLERGEHM	8	0830	OC departed with Bde 'O' Group. ADS closed and 'B' Coy took over, the intention being that 'B' Coy would cope with casualties until such time as ADS had been re-established. The number of casualties were small and were mainly Prisoners of War. While preparing to move at 2.15 in the afternoon, an unfortunate accident occurred. The Signals NCO on the Signals vehicle attached was rewiring his long aerial & it made contact with a live electric wire. The NCO was only mildly injured but Driver KING, R. Sigs attd, who was standing by the vehicle and holding the door, fell unconscious and died within a few minutes. His loss was greatly felt as he was a most popular & much valued attachment to the unit.	
HARLEBEKE 8960		1600	Unit arrived at HARLEBEKE and ADS was established in a fine modern school. During the night and evening there were several casualties admitted. The greater majority being Germans who had been wounded from 2 - 5 days and who had been attended by their own Medical Officer.	D + 94
HARLEBEKE	9	1200	The morning passed quietly, except that orders for a sudden move to place the unit in a more sound position tactically, with relation to the Bns, were received.	
WAERGEHM 968632		1400	The funeral of Driver KING was held in MADELINE Cemetery in COURTRAI.	
		1400	The unit moved to the new location just outside WAERGEHM to an excellent modern Industrial School.	
		1500	The unit arrived at 1500 hrs and opened lightly as no casualties were expected. None were received.	
		1400	ADMS arrived and saw round the layout.	
		1700	Comdr 44 Bde called and saw over the unit.	D + 95
WAERGEHM	10		The unit moved at 0800 hrs to a place near HOMBEEK between Brussels & Malines and remained on wheels in the grounds of a chateau. The journey was uneventful, and was in brilliant weather. There was considerable congestion on the roads and delay when nearing the new location.	
HOMBEEK 663723			'B' Coy remained on wheels in the same location as HQ. A Coy was split into sections, each of which was out with a Bn. The Bde was not in contact with the enemy.	D + 96
HOMBEEK 663703	11		A very quiet day was spent by all. Bde HQ, HQ Division and all R.M.O.s and the outlying sections were visited. All flags flown and other unauthorised adornments on vehicles were removed and general tightening up on the turnout of the men and vehicles & convoy discipline was put in hand. This step was taken, not	

			through any feeling that the standard in the unit was low, but the turnout of other troops & vehicles was noticed to be so far below our standard that a greater effort was made.	D + 97
HOMBEEK 663723	12		The unit moved at 1000 hrs with the Bde Group. The Division was to take over the Bridgehead over the ALBERT Canal NORTH of WESTERLOO, from 50 Div, who had had heavy fighting and sustained heavy casualties. 46(H) Inf Bde were to take over & 44(L) Inf Bde were to be in reserve. After an uneventful journey the unit arrived at 1300 hrs at HERSSELT where it remained on wheels. At 1900 hrs the unit moved independently to the football field at WESTERLOO 048844 where it remained closed. A Coy was in support 44(L) Inf Bde with sections to Bns and B Coy was closed in the farm buildings opposite the football ground.	D + 98
WESTERLOO 048844	13		The greater part of the day was spent quietly and an opportunity was taken to 'make & mend' and to bath the men. 44(L) Inf Bde passed through the 46(H) Inf Bde & took the town of GHEEL. B Coy establishing in the institution at 075877. In the evening the unit moved to join 'B' Coy at the institution at GHEEL. Accommodation was found to be very satisfactory and an ADS was established. The Buildings and surroundings bore ample evidence of their previous occupation by the enemy & the fierce fighting which had followed. 2150 The village of GHEEL was heavily shelled, several shells falling near the ADS. There was no damage or casualties.	D + 99
GHEEL 075877	14		A steady flow of casualties were received. B Coy were in sp 44(L) Inf Bde with sections to Bns. Capt MAKIN RAMC MO i/c 8 RS established his RAP on the S side of the ESCAUT Canal near to AART. During the morning the RAP and CCP were subjected to very heavy shelling. Three men (of the 8 RS) were killed and several were wounded. LT GREEN RAMC SBO i/c section was wounded & suffered from blast to the abdomen & was evacuated. PTE SCOTT RAMC showed great courage and initiative under this heavy attack. A great deal of cleaning was done during the day to get the building in order, and 'B' Coy were relieved of their ordeal by A Coy. 'B' Coy established a minor Sick and Exhaustion Centre in an adjacent building. During the day 67 Battle Casualties were admitted.	D + 100
	15		The 8th Bn Royal Scots succeeded in establishing a limited Bridgehead over the ESCAUT north of AART. No medical installation moved across but casualties were brought back in boats and	

		<p>evacuated from there to the C.C.P. in Carriers of the Royal Scots.</p> <p>During the day DDMS 12 Corps arrived and decided that 9 FDS and 2 FSUs would move in to the other end of the same Building as the ADS. They arrived in the evening.</p> <p>During the day 83 Battle Casualties were admitted. They were evacuated to the CCS at MALINES.</p>	D + 101
GHEEL 075877	16	<p>This proved to be a very busy day, casualties from the 8 Royal Scots and the 6 RSF coming in, in large batches. Many of them were in a sodden condition and suffering from varying degrees of exposure. An attempt had been made to bridge the ESCAUT at AART, but by blowing the lock gates the enemy succeeded in flooding the approaches. B Coy CCP at 078909 did exceptionally good work under difficult conditions and often exposed to fire. Casualties from the north bank of the Escaut were all evacuated by assault boats. Moving 9 FDS and its two attached FSUs in the same building proved an excellent arrangement. Very good liaison was maintained and the fullest cooperation given at all times.</p> <p>The Light Section of B Coy who carried out the evacuation of casualties from the north side of the Canal and used the Carriers of 8 R Scots to take them to the CCP was established at 076927.</p> <p>During the day 157 Battle Casualties and many Exhaustion Cases were admitted.</p>	D + 102
GHEEL 075877	17	<p>The day proved quieter. 6 RSF relieved 8 RS in the bridgehead during the night and very heavy casualties were inflicted on the enemy. The Relief of 8 RS did not result in the increase of casualties which had been expected.</p> <p>Arrangements were made for the relief of 194 Fd Amb by 153 Fd Amb and at 1700 hrs the unit moved to the institution at MOLL. Owing to a diversion in the route caused by repairs to a bridge, the unit was forced to use a sandy track. There was much congestion by other traffic, many vehicles being bogged. No vehicles of the unit were bogged but the delay caused by clearing other vehicles was considerable.</p> <p>The unit arrived at MOLL in the dark with heavy rain falling. The Building proved to have been an SS Barracks &amp; was in a most unsanitary condition. An ADS was established without delay. 31 Casualties were admitted during the day.</p>	D + 103
MOLL 172909	18	<p>A quiet day spent mainly in cleaning the Building &amp; making it habitable for patients and men.</p> <p>One cas was admitted during the day.</p>	D + 104

MOLL 172907	19	<p>Another very quiet day. HQ 15(S) Inf Div was visited during the morning and also HQ 44(L) Inf Bde.</p> <p>A cinema performance was made available to the unit during the afternoon.</p> <p>In the evening the unit was visited by the Divisional Concert party who gave an excellent performance. It was much appreciated. During the day 3 Cases were admitted.</p>	D + 105
MOLL 172907	20	<p>The day passed quietly. HQ 15(S) Inf Div &amp; HQ 44(L) Inf Div were visited again.</p> <p>During the day 7 Battle Casualties were received. All the casualties received at MOLL were severe. The Bde was holding the line of the Canal and was not attempting to cross it. Active patrolling by the 15 (S) Reconnaissance Regt &amp; the KCLY. Nearly all casualties were caused by snipers and wounds were in the main either of the head or chest. They were evacuated to 153 Fd Amb ADS at GHEEL or to No 9 FDS according to the classification of the case.</p>	D + 106
MOLL 172907  REITHOVEN 363096	21	<p>The morning passed quietly and by mid day the unit was prepared to move with the Bde Group to the EINDHOVEN area. There were considerable delays owing to the very heavy traffic on the roads &amp; the unit did not move until 1700 hrs. Even then progress for the first two hours was measured in yards. The Border of Holland was crossed in the dark and finally the unit moved into Harbour area just north of REITHOVEN in a school &amp; adjacent field which had been requeud by the harbour party. The journey was uneventful except for our vehicle which became ditched as it ran into the glare of searchlights sited on the edge of the road.</p> <p>Four Battle Casualties were admitted during the morning before leaving MOLL.</p>	D + 107
REITHOVEN  EINDHOVEN 405212	22	<p>The Bde Group were to continue the advance to the EINDHOVEN area, but numerous delays and changes in plan took place during the morning and Bde HQ were visited at frequent intervals.</p> <p>Finally at 1430 hrs the unit moved and after an uneventful journey arrived in the grounds of the Asylum to the North of EINDHOVEN on the road where it remained closed and on wheels. A Coy was in support of 44(L) Inf Bde who crossed the Canal just South East of BEST. Casualties were evacuated by Sections direct to the ADS 193 Fd Amb.</p> <p>The day was one of brilliant sunshine, and everyone was very impressed by the cleanliness &amp; tidiness of Holland and the attitude of the Dutch.</p>	D + 108

	23		The day was spent quietly. One Section of A Coy, in support of 6 RSF, were over the Canal. There was stiff opposition to 46(H) Inf Bde in the Best Area, but less to 44(L) Inf Bde who were working to the East of the main road. At 1500 hrs two bridges over the canal were complete, but they and the road were still under intermittent fire. The weather remained fair.	D + 109
EINDHOVEN 405212	24		Weather broke & heavy rain fell. Slow progress by Bde. All sects A Coy across the Canal. Casualties were still evacuated to ADS 193 Fd Amb. HQ 44 Bde visited.	D + 110
	25		Weather continued to be bad. 44 Bde advancing from BEST to VLEUT. Casualties light.	D + 111
	26		Infantry finding resistance more stubborn & difficult to cope with in the close country. Weather still very broken and casualties light.	D + 112
EINDHOVEN 425202	27		Drive by 6 KOSB from VLEUT along the S Bank of the river Dommell. One Company having reached its objective were subjected to heavy fire and suffered heavy casualties. During this fighting Capt THOMPSON RAMC MO i/c 6th KOSB went forward in a carrier under the red cross to collect casualties. He was captured but after interrogation he was released together with the personnel & carrier. During his absence Capt MacCallum RAMC did duty in his RAP.	D + 113
	28		The 6 RSF went through the KOSB, but the enemy appeared to have withdrawn a little and their objective was reached with only few casualties. Typhoon dive-rocketing was observed by the CCP, at close quarters. ADMS and OC visited forward units. News was received that the General Medical Council had requested Capt MacCallum's release from Service.	D + 114
	29		The morning provided a very welcome fine spell. At mid day 'B' Coy relieved A Coy and moved to the outskirts of ODENRODE evacuating casualties to 202 Fd Amb.	D + 115
	30		A very quiet day. OC visited HQ 15(S) Div and Bde HQ. The possibility of moving and establishing an ADS in the area of ODENRODE was considered. Very few casualties were sustained. ADMS decided ADS was unnecessary.  JB MacFarlane Lt Col	D + 116

Month and Year Feb 45

Commanding Officer LT Col JB MacFarlane

Place	Date	Hour	Summary of Events and Information	References to Appendices
TILBURG	1		CO saw Bde Comd & ADMS re further operations.	
	2	1000	CO attended 46 Bde O Gp Conference on forthcoming op Veritable.	
	3		Nil to note.	
	4	0800 1000 1500 1430	Small adv party to NIJMEGEN for billet for evacuation. GOC 30 Corps & Div Comd addressed officers of division on forthcoming op. Veritable. All officers attended. CO attended conference of Fd Amb Comds with ADMS re op. CO held co-ordinating conference with RMOs of 44 Bde & RMOs of attd armoured tps (Flails, Kangaroos, Tanks). 44 Bde have a minefield & anti tank ditch to cross which we earnestly hope will be as successful as our previous effort at BLERICK. The RMOs of the armoured tps attached are the same as before and know the job.	
TILBURG	5	1500	CO visited ADMS & found Div HQ ready to move to conc area. Heavy rain and roads around Tilburg have been badly chewed up by the mass of vehs proceeding to conc area.	
NIJMEGEN 701629	6	1600 2330	Departed for conc area and arrived NIJMEGEN 701629 at 2320 hrs minus four 3 tonners in the ditch. Rain & road dreadful. We have never had so many casualties from road movement. CO visited ADMS location to report arrival.	
	7	1200 1400 1500	CO & OC 'A' Coy attended 44 Bde O Gp Conference at 1000 hrs. Arranged for the fwd coy to be married in behind main Bde HQ for the second phase of the div battle, which consists of breaching the main Siegfried defences. CO & OC A Coy went into detail of the fwd coy which is travelling in ½ tracks & jeeps with only 2-str amb cars as we expect the road to be well nigh impossible for larger vehs. The ½ tracks belong to the armd RMOs who are incorporated in our medical plan. CO attended conference of Fd Amb comds with ADMS. Still heavy rain. CO contacted RMO 2 Gordons who are to be under comd 44 Bde for phase II. He is just back from UK leave & is now in the picture.	

		1900	CO visited Bde HQ.	
BERG EN DAL	8	1045 1430 1600 1800 2359	Moved to Berg En Dal 7459 and opened ADS in Hotel Groot. Visited fwd Coy in their CCP at BOERSTEEG. Phase I of the battle has been successful and 44 Bde are moving up. Roads are becoming very churned up in fwd area. Roads very bad and all the tanks, Kangaroos etc are making them worse. Road through Boersteeg to FUPs has "disappeared" and there is an immovable mass of vehicles mostly armoured stretching for miles!	
	9	0530 0700 0900 1030 1800	CO visited Bde HQ but could not get much information apart from the fact that a few flails had gone in & cleared up to the Anti Tk ditch but the AVRE bridges were bogged. Saw the GOC on his way to Bde HQ & gleaned that he was going to put the infantry through on foot. Got back to BERG EN DAL & marched a section down to KRANENBURG 807560 with instructions to Lt Harries SBO to contact Major Stewart via the lateral road Kranenburg - Frasselt and arrange for casualties to be evacuated to CCP at KRANENBURG. CO arrived KRANENBURG & found arrangements in hand. First casualties arrived. Evacuated to ADS Berg en Dal. The other coy in Boersteeg is cut off by jammed traffic and bad roads! 54 casualties through ADS	
	10	0900 1800	CO visited Kranenburg & found section moving to BOMSHOF 844552 in conformity with Bde's advance. Arranged to send another section to augment. It is now raining heavily and the flood water on our left flank is rising.	
	11	1700 2300	Raining heavily. Water over the road in several places between Wyler & Kranenburg. Visited ADMS. On way back water was up to hubs of wheels.	
	12	0900	Road impassable due to flooding. Only DUKWs are going through. We are therefore cut off from div. Casualties are being evacuated in DUKWs direct to CCS.	
	13		No change in floods. CCP now at outskirts of Cleve in 884558. Only way CO can visit is by DUKW through to Kranenburg & borrow jeep from 153 Fd Amb.

MELLENDORF		1430 1700 2100	H.Q. and 2 Secs "B" Coy left for MELLENDORF. Unit arrived MELLENDORF and opened ADS at M.R. 363410. Capt. Swan posted temporarily to 6 KOSB to relieve Capt. Thompson. "A" Coy moves with Bde. Orders from ADMS to move one Coy to CELLE. "B" Coy (now complete) moved to CELLE. They are to take over and supervise a hospital filled with starved civilian ex prisoners, from a concentration camp in this area. 150 Canadian Ex POWs arrived at the ADS having been released from a working camp at HAMBUHREN this afternoon. They were powdered and fed and given the whole of our supply of socks. They were mostly in poor shape, being half starved and many with sore feet. Some were evacuated through medical channels. 	14	0830 1500	Orders from ADMS to move one Coy to ESCHEDE. With both Coys committed, this took some arranging but "B" Coy was taken off the Civil Hospital, packed up and sent off. There is now only one M.O. with "B" Coy and one with H.Q. with 2 i/c acting as "A" Coy Commander. 1500 Visited Div. They are now moving on to HOSSERINGEN. The route of evacuation is now difficult as the main road from the front SOUTH of UELZEN is mined in the region of SCHELPLAH and the diversion to the north through the forest is a bad road and unfit for serious casualties. Cas are therefore being held at HOLXEN by "B" Coy until road is clear.	

CELLE		1800	Lieut. Davies sent to join "B" Coy, leaving H.Q. without a Medical Officer, apart from the C.O. This did not matter as there were no casualties to see. C.O. reced site for H.Q. to harbour in ESCHEDE

ESCHEDE	16		No change in position of Unit. Two M.Os. sent out to relieve RMO of KOSB and 190 Fd Rt RA. This leaves only two M.Os, excluding the C.O. in the unit, Major Reid and Capt. Ritchie having been posted to us about a week ago but still have not turned up.	
HOLDESNTEDT	17	0830 0900 1700	Visited "A" Coy in HOLDENSTEDT. Visited ADMS about an "Eclipse" job in UELZEN. "B" Coy will be used on this job, as post at HOLXEN has now closed down. "A" Coy moved CCP to HALLIGDORF. H.Q. moved in at HOLDENSTEDT. C.O. contacted Major Barefoot of 913 Det Mil Gov about hospitals in UELZEN. 44 Bde are now on the outskirts of UELZEN on the right of the river but 46 are still held up outside the town to left of river.	
HOLDENSTEDT	18	0730 1300 1800	C.O. visited CCP with 44 Bde, and got into the town to right of river. Found a camp with 170 French POWs in fairly good condition not requiring medical attention. Arrangements made to powder them and Mil Gov told of their whereabouts. Got into the town on left of river and found a Luftwaffe Hospital with about 270 patients. All German with sufficient staff to cope. Left a sec of "B" Coy in charge. Whole town now cleared. Found another German Hospital in Ebsdorfenstrasse with about 700 patients including 12 British. Arranged to evacuate the British at once. Another sec of "B" Coy left in charge. In the meantime Lieut. Harries had found a POW camp near a factory in the north of the town, the Zucker Farb., with 176 British, 11 U.S., 15 Belgian and French, 40 Dutch, 23 Italian. 130 British and U.S. sick and wounded evacuated same night through med channels. Unit moved, less 2 secs of "B" Coy to area of Bde at EMMENDORF. Unit moved from EMMENDORF to BEVENSEN. Light ADS open in BEVENSEN. "A" Coy left with Bde. Capt. Senior from 153 Fd Amb is attached to us for this job.

Operation 'ENTERPRISE'

29 Apr 45.

"Crossing the Elbe"

Ref. 1:25000 sheets

2528, 2529

2628, 2629

The role of the 15 Sc Div in this operation was to establish a bridgehead across the Elbe at Artlenburg 8334, and with the attached Commandos at Lauenburg 8734 and enlarge this bridgehead to Dalldorf - Lutau - Piependorf - to river at 788385.

44 L Bde was to establish the initial bridgehead.

After the advance from Uelzen 194 Field Ambulance was concentrated in Luneburg 7920, in 44 Bde area: Div HQ being at Scharnebeck 8525.

On 26th Apr, a conference was held at ADMS office at which the method of employing the medical units was arranged.

Role of 194 Fd. Amb.

Bde were crossing the river at Artlenburg in LVTs and the field ambulance would establish two CEPs on the far bank in the neighbourhood of the LVT ferries and evacuate casualties to the corresponding CDPs established by 14 Lt Fd Amb in Artlenburg. Later these posts would be combined into a CCP in the region of Schnarkenbeck from which casualties would be evacuated by LVT and storm-boat, until the arrival of the ADS, when the CCP would follow up behind Bde and establish CCP when and where necessary.

The ADS with an FSU and FTU attached would cross by the Cl. 40 raft, probably in the evening of D day and set up with an ASC in region of Schnarkenbeck.

A battalion of the A & S H, were to be attached to 44 Bde for the assault. The Bde plan was to cross with two assault battalions, passing through the other two to enlarge the bridgehead. The 8 RS on the left and the 6 RSF on the right, were the assaulting bns.

In view of the hilly nature of the country and the bad exits from the river it was decided to increase the number of SBs by attaching 8 from the Fd Amb to each Bn and to use two Officers and 20 ORs of the Fd Amb to establish each CEP. This meant using the whole of A Coy and two secs of B Coy.

To build up into a CCP vehicles would be phased over the river as follows:-

- |    |                      |       |              |
|----|----------------------|-------|--------------|
| 1. | Four stretcher jeeps | ..... | LVT ferry.   |
| 2. | 4 X 3 tonners        | ..... | Cl. 40 raft. |
|    | 6 X 2 str ambs       | ..... | " "          |
|    | 2 X 15 cwts          | ..... | " "          |
|    | 1 scout car          | ..... | " "          |

It was expected that the above would be over by about H plus 10.

The vehicle phasing table for the build up of the ADS was:-

<u>Serial</u>	<u>Vehicle</u>	<u>Remarks.</u>
1	2 x 3 tonners 1 x 15 cwt	ADS.
2.	1 x 3 tonner 1 x 4 str amb 1 water truck	cooks ADS
3.	2 x 3 tonners 2 amb jeeps	FSU ADS
4.	1 x 3 tonner 1 x 4 str amb 1 x 2 str amb	FTU ADS ADS
5.	2 x 4 str amb 1 x 2 str amb	ADS "

These vehicles would enable an ADS and ASC to open up on the evening of D day.

193 Fd Amb were to take over an ADS on 10 DUKWs and open up in Lauenburg on the afternoon of D day, evacuation would then be as follows:-

Continue by storm boat and LVT ferry to Artlenburg and or by ambulance to 193 and then by DUKW, across the river and back to the CCS at Luneburg. Either or both methods would be used as necessary. If during the night evacuation stopped then cases would be retained by both the ADSs and urgent surgery carried out at the ASC.

The further development of the use of the Fd Amb on the far bank could not be formulated at this juncture but would be considered as the occasion arose.

On the 27th, there was a conference at 33 CCS at which the DDMS Corps outlined the Corps plan.

28th. D-1. 33 FSU and 21 FTU joined this unit with transport. The parties of 8 SBs with one NCO in each party joined their bns.

At 1900 hrs, A and B Coy parties for the CEPs left with their transport for the marshalling area (see MAP). The remainder of the field ambulance stayed in Luneburg waiting to be called forward to the marshalling area.

On the 29th, D day at 0200 hrs, the operation started. The two CEP parties landed at varying times between 0215 hrs and 0245 hrs, dealt with casualties on the river bank and both CEPs were established by 0300 hrs. The actual landing was fairly quiet but shortly after the right CEP had established in a factory at 843349 shells came over and hit the factory.

This resulted in several casualties including five of the field ambulance personnel. Evacuation was carried out well although the river bank was under continuous mortar and shell fire.

The left CEP was established at 838352 and casualties evacuated satisfactorily from the bank and the cliff top.

At 0230 hrs, Tac Bde HQ was visited and it was learnt that the landing had gone well though the RS on the left had encountered considerable mortar fire.

At 0330 hrs, the right CDP was visited: they had no casualties up to date. Then the left CDP was visited: they had 25 cas from the RS, mostly resulting from mortar fire.

At 0350 hrs, the RAP of the 11 RTR was visited and it was arranged that the supply of 50 stretchers and 100 blankets previously arranged and already loaded on the MOs buffalo should be sent over at 0500 hrs. Actually it got over later and delivered to both CEPs at 0615 hrs.

At 0530 hrs, both CDPs were visited and casualties were seen coming in. There did not appear to have been any delay in getting them over the river. Total cas now 65, including about 10 PWs. At 0600 hrs, the CO met the ADMS in Artlenburg and reported on the position. Our four jeeps had not yet gone across. There did not appear to be any real urgency for the jeeps yet, and it was decided to wait a bit before agitating for them. At Crossing Control it was learnt that there was considerable delay in all 44 Bde vehicles.

At 0630 hrs, visited A Coy Commander in the marshalling area.

At 0830 hrs, CC was again visited and as the jeeps had still not gone over and priority was being given to 227 Bde, it was impressed on the officer in charge that it was now an immediate priority. The jeeps were over the river within half an hour.

The CDPs were again visited at 1000 hrs. Total casualties now 97, including 25 PWs. Shelling was still going on in the crossing area though not intense.

At 1430 hrs, the CCP was visited at 838352 and a site found for the ADS, though it was not big enough to house an ASC as well, there was nothing suitable in Schnarkenbeck and shelling was still going on. Casualties were now very light.

At 1530 hrs, the DADMS was visited and the situation discussed. None of the company vehicles save the jeeps had gone across. This was due to marked delay in building the Cl. 40 raft because of the shell fire, and priority was still being given to 227 Bde. However the CCP could continue to function as it was for some time. It was expected that the rest of their transport would cross about 2230 hrs.

At 1730 hrs, the CCP was again visited. The cross roads just to the north of the CCP were being heavily shelled. Casualties were still very light, and it was considered that it would be impracticable to open up an ASC here until

later. Evacuation was going well by storm-boat and LVT, and would continue by storm boat during the night.

At 2100 hrs, ADMS was visited and he agreed to send over the ADS in the morning.

At 1800 hrs, the ADS moved into the marshalling area.

On 30th at 0015 hrs, the ADMS visited the CO in the marshalling area and explained the new plan, which was to get 44 Bde transport over the C1.9 bridge in a block, including all field ambulance vehicles. This was tied up with Bde.

An officer was sent to the CCP with instructions to send a rep to the C1.9 bde to conduct company transport to their location and to follow up the Bde.

The ADS crossed the bridge at 0400 hrs and reached Juliusburg 8439 at 0730 hrs. Recce party was sent off to Gulzow 8342, and ADS followed up. Meanwhile the CCP was opened in Gulzow and dealt with all casualties, sending them back to the DUKW point at 193 Fd Amb location at Lauenburg. Casualties still not heavy.

1st May. The CCP moved with Bde up to Schwarzenbek 8248. The ADS took over the CCP site and opened up. Casualties coming in all day. Evacuation still proceeding to 193 Fd Amb and thence by DUKW to the DUKW CDP and thence to 33 CCS in Luneburg.

HOLLAND		<p>forward of GROSBEEK were in an extremely bad state owing to mud. The greatest difficulty was experienced all the time in keeping the flow of casualties going, in many cases light ambulance cars and even stretcher carrying Jeeps had to be towed part of the way by carriers and unending supervision was necessary to assure that a hold up did not occur. The casualties never the less were in pretty good fettle when admitted to CCP. Journey from CCP to ADS was good, although up going traffic was very heavy. It was noticeable that a marked fall off in the patients condition was apt to occur at ADS - CCS level, many being considerably shocked when reaching CCS. Whole blood and Plasma drips in ambulances were given between CCP and ADS and ADS-CCS. A section from 22(BR) Fd Dressing Stn was attached to CCP on the late afternoon 9th and assisted greatly in administration of blood and plasma.</p> <p>"B" Coy moved up to harbour at GROSBEEK, but returned to NEBO the same night as the operation for which they were intended was abandoned.</p>

	23		Locations as above. ADS admitting Sick. DUKW Point still working, evacuating from Cdn Divs only.	
	24		Locations as above. Recce Party left for TILBURG.	
GERMANY	25		ADS Site and DUKW Point handed over to CDN Fd Ambulance. During the entire period that the ADS was opened at CLEVE the DUKW Evacuation Point was functioning. Field			<p>At the beginning of the month the Division succeeded in countering the enemy break through in the LEISEL - MEIJEL area &amp; held positions covering ASTEN - DEURNE while 51 (H) Div and 49 Div moved up on the right. By the 15th, an offensive was launched on the right &amp; the Division advanced to MEIJEL and up to the DEURNE canal to conform with advances by the 51 Div. Thereafter a series of advances to contact actions were fought over the bleakest of country, under appalling weather conditions along tracks that would soon have become quite impassable but for the magnificent work of the Sappers. The enemy withdrew skilfully covering his line of withdrawal with mines &amp; booby traps, sporadic shelling and mortar fire. Few casualties were sustained and four prisoners taken. At the end of the month the Div was brought out of the line to re-equip &amp; rest.</p> <p>A high proportion of casualties was due to SCHU mines causing traumatic amputations of one or both feet. Resuscitation was of primary importance &amp; ambulance cars were attached to RAPs throughout the operation to avoid undue exposure of casualties in jeeps.</p> <p>As the C.C.S. did not move forward the distance between ADS &amp; C.C.S. was eventually forty miles.</p>	<p style="text-align: right;">WAM Scott Lieut Colonel R.A.M.C.</p>

	31		Routine duties.  The change from war to peace time organisation, the rounding up of the defeated enemy, of P.W.X. and displaced persons, the return to France Belgium & Holland of those people who were released during the advance and the provision of adequate & reasonable accommodation for Russians & Poles, have given rise to many queries both administrative & medical which could scarcely have been envisaged before the collapse. The work of the Hygiene Section attached to us in the past ten days has been necessary & invaluable. In each area at the time of taking over, the hygiene situation was bad & in the case of Bad Oldesloe when the water main had been shattered in several places during a recent Allied raid it was particularly bad. By & large the German authorities have cooperated well in reorganising their Services, but the D.Ps have been difficult to control. Of the many problems still to be solved one of the most pressing medically is the disposal by medical board of thousands of P.Ws who though not requiring a hospital bed are not fit to be sent to P.W. Cage (e.g. amputated thigh, disseminated sclerosis). The policy laid down by Army of reducing issues of medical & ordnance equipment to Hospitals to a minimum has been carried out.  D. McCallum Major	DMcC

Angmering	4		The Div Comdr, Maj. General G.H.A. MacMillan, C.B.E., D.S.O., M.C., visited the Regt and talked to each Sqn regarding forthcoming ops. He lunched with R.H.Q. Mess afterwards. During this period the whole Regt was employed feverishly waterproofing vehs, teams being run as under:- 'A' Vehs - Lieut P.C. Kerridge - (Cars). Lieut R.H. Fleet - (Carriers). 'B' Vehs - Lieut W.H. Rogers. By this date practically all stores were complete and the Regt could have moved at short notice.	
	5		At 2300 hrs a very large formation of Tp Carrying Aircraft passed over Angmering-on-Sea heading across the Channel with their lights on, followed by continual air activity all night.	
Angmering	6		The invasion of France started and the peacefulness of Angmering-on-Sea was not further disturbed until 1900 hrs, when what appeared to be a complete Airborne Division passed overhead.	
	7-10.		Final preparations made and vehs stowed for embarkation. Full loading trials held to discover whether it was possible to carry the mass of useful stores which it was proposed should be taken.	
	11		Lieut J.A. Isaac, Sgt Millroy, J., and Cpl Kay, J., left to join 227 Bde as the Regtl Advance Party.	
	16.		Orders received for the Regt to move to 'A' Marshalling Area near Portsmouth on 17 June.	
	17.		Regt, less 'B' Sqn left for the Marshalling Area, moving via Arundel, Chichester, Midhurst and Petersfield. All vehs, except 15-cwt W.T. G.S. which overturned, arrived safely at the Marshalling Area. Major K.C.C. Smith and 'B' Sqn (Major A. Gordon) remained in Angmering as Comdr Div Residues and Regtl Residues respectively. They moved to Worthing on 19 June.	

Denmead		<p>On arrival at the Marshalling area there was considerable chaos as no Ship Sheet had been sent by Movement Control, and all vehs had to be split up from Sqns and Tps into their Ship Loads, and it was not until midnight that the following Craft Loads were organised:-</p> <p>(a) L.S.T. 1107. O.C. Craft - Commanding Officer.  (b) L.S.T. 1108. " - Major H. Mills.  (c) L.S.T. 1109. " - Major L. Rowlands.  (d) L.S.T. 997. " - Lieut H.A. Green.  (e) L.S.T. 998. " - Capt. J.E.F. Lane.</p> <p>The Marshalling Camp was situated at Denmead, 4 miles south of Petersfield, where the vehs remained about a mile from the Camp, where everything was well organised by the Static Staff for the Regt.</p>	
	18.	<p>Early in the morning Embarkation Rations, lifebelts, vomit bags, etc., were drawn up and the Regt was ready to move forward by 1300 hrs, it being thought then that they would move probably that night.</p>	
Denmead	18-26.	<p>Owing to a break in the weather and a very strong gale, this period was spent in the Marshalling Area as practically all movement to France ceased. The Regt, split up into Craft Loads and thus rather disorganised, spent the time doing final preparations to the vehs and kit, letter writing, going to the cinemas and concerts and sleeping. As no move was envisaged by the end of the week, a short trg scheme was carried out on Saturday, with a considerable number of free fights developing between patrols, there being no casualties.</p> <p>The chief difficulty during this wait was to procure enough money for everyone.</p>	
	25	<p>At 2300 hrs the Camp Blower called for Serial 1107, and true to Movement Control form, having spent a week waiting, we were ordered to move in ¼ hr. This Craft Serial passed the S.P. at 0300 hrs on the 26th en route for the Embarkation Area at Gosport, where all vehs safely arrived. Serials 1108 and 1109 followed the next day. About 10 hrs were spent sitting in the streets of Gosport waiting to be called to the hards, orders for which were received at about 1900 hrs for the Regt to go forward at once, no previous notice having been given. Loading commenced at about 2200 hrs and was finished by about 0200 hrs no difficulty being experienced in loading the vehs.</p>	
	27.	<p>In spite of a gale warning and bad weather reports, the convoy left at 1000 hrs to cross, and duly ran into a first-class Channel gale, causing a considerable number of those on board to be very sick. The craft beached at about 1900 hrs that night on a falling tide and vehs commenced to disembark into about 4' of water. Owing to holes</p>	

Field.		<p>in the beaches the Beachmaster ordered unloading to cease till the following morning when the L.S.T. was re-beached and unloaded into about 1' 6" of water.</p> <p>No vehs drowned except one M.5. which went into a hole and the water came in over the back. All Serials disembarked on the beaches at Arromanches and moved forthwith to a Transit Area where first stages of de-waterproofing was completed and vehs re-stowed for battle. The a/Tk Bty did not arrive until 30 June.</p> <p>During this period the 15th (Scottish) Division was leading the fight in the Battle of the Odon, and unfortunately the Regt was not available to take its proper place.</p>	
Field.	30.	<p>The Regiment (less A/Tk Bty) moved forward in Divisional reserve to PUTOT EN BESSIN (9072), when early that morning, immediately on arrival, 'C' Sqn (Major H. Mills) was ordered forward to come under command of 44 Bde (Brigadier H.D.K. Money) to fill a gap on the Corps boundary (30/8 Corps) between 15 (S) and 49 Divs, acting more in the role of an Inf Coy than a Recce Sqn, taking up positions about 1 mile south of HOTE DE BOSQ. This position was in very thickly wooded country where vehs were of little or no value.</p> <p>At about 1335 hrs, R.H.Q. was shelled (25 shells of 10.5 c.m.) this being the first taste of battle which the Regt had had. No casualties were inflicted as a certain amount of digging had already been done. A considerably further amount of digging was done after this incident.</p>

Place	Date	Hour	Summary of Events and Information	References to Appendices
Field.	1		Regiment in Div reserve, PUTOT-EN-BESSIN. 'A' Sqn (Major Rowlands) went forward to "plug a hole" on right of 6 KOSB south of CHEUX, where they were deployed as infantry in very thick and close country. Only slight enemy activity in this area, though the enemy still insisted in making small counter attacks with tanks. A/Tk Tps went forward to join 'A' and 'C' Sqns in action. Their field of fire was normally 100 yds - hardly what they had trained for. The smell at CHEUX from dead cattle was starting to be evident in the warmer weather.	
	2.		160 Bde (53 Div) relieved 44 Inf Bde in the CHEUX sector. 'A' & 'C' Sqns relieved and returned to Regtl harbour at PUTOT, into which came at the same time, unfortunately, a battery of 155 c.m. guns.	
	3.		Maintenance at PUTOT. Div at rest after its most successful weeks actions in the "Scottish Corridor".	
	4-5.		Maintenance, baths, and cinemas. It is clear that tps are now learning how to look after themselves.	
Field.	6		Gen. Montgomery addressed all C.Os. of 15 (S) Division and gave a resume of what had been done and what he hoped would happen. Regiment still at rest.	
	7.		Regiment still resting. Inter-Tp basket ball competition won by 10 Troop, 'C' Sqn. CAEN bombed by 450 heavy bombers at 2200 hrs. Visible air support is a great moral raiser for the troops who do not understand what air support is when they can't see it.	
	8.		Regiment at rest. 'A' Sqn warned for independent role with 46 Bde.	
	9.		'A' Sqn moved up to area Verson with 46 Bde to assist in 'mopping up' WEST of CAEN, CARPIQUET aerodrome having been taken by the Canadians. Remainder of Regiment at rest.	

Field.	10.	<p>'A' Sqn went forward on reconnaissance role in front of 46 Bde in direction Verson - Eterville - Maltot and to reach line of R. Odon. It was thought that this area was fairly clear and 4 Arm'd Bde moved up to behind Eterville in the early afternoon.</p> <p>The enemy was in fact in great strength on the reverse slopes behind Eterville and 3 Troop (Lieut Arundel) on trying to recce forward to Maltot met heavy 88 mm fire from hull down tanks on crossing Rd Caen - Eterville. Both leading cars (Lieut Arundel and Sgt Ireland) hit and burnt. All Sgt Ireland's crew escaped, but Lieut Arundel and his driver, Tpr Griffiths, were killed, though this was not confirmed for about 10 days.</p> <p>The carriers of this troop were brought back rather hurriedly and it is presumed that the Sqn Comdr went forward to take charge. It was afterwards discovered that his L.R.C. had received a direct hit from probably a 105 c.m. gun, and for 24 hrs he was missing.</p> <p>No. 2 Troop was in close contact with the Glasgow Highlanders in Eterville where they were under very heavy fire and unable to move forward or gain any further information regarding the strength of the enemy.</p> <p>As dark fell the Sqn rallied back and harboured just south of Verson under Capt Davies. The loss of the Sqn Comdr, Lieut Arundel, Lieut Rencher and other casualties both from enemy action and battle exhaustion had a very bad effect on this Sqn in its first days action, and an uncomfortable night was spent under moderate shell and mortar fire. They did, however, produce some valuable information for HQ 46 Bde even though they were sent out on false information as regards the strength of the enemy. Lieut Blair's troop, who must have proceeded forward very well, got into the outskirts of Louvigny and caused casualties to German infantry to the north of the village. The moral effect which a Troop Comdr can have on his troop was very clear on this day.</p> <p>The remainder of the Regiment less 'A' Sqn still at rest at Putot-en-Bessin.</p>	
Field.	11.	<p>'A' Sqn placed under the orders of 214 Bde (43 Div) and carried out useful Officer patrols up to the forward Bns (Pt. 112) where a major battle was starting. The Sqn, apart from these Officer patrols, was not further engaged and were ordered on the relief of 46 Bde that night to return to rejoin the Regiment at Putot.</p>	
	12-13 -14.	Regiment concentrated at Putot.	

Field.	15.	<p>Orders for a further exploitation by 15 (S) Division for the capture of the area EVRECY - ETERVILLE - GAVRUS being worked out. No role for the Regiment was available and it was therefore decided by the Div Comdr that a Traffic Control Organisation under the Commanding Officer would be set up to ensure smooth traffic over the crossings of the R. ODON, where there were very severe bottlenecks. The Control HQ with exit and entrance parties for 5 routes (Hereford, Dundee, Quarry (2) and Coal (1 &amp; 2)) were set up, Control HQ being in an orchard on the Verson Rd just above QUARRY route. The attack started on the evening of 14 July and considerable difficulty in passing through was experienced owing to the large number of tanks in the area and rearward traffic of other Divs. Enemy mortar fire in this area was particularly heavy.</p> <p>It was also decided for this action that all the carriers of 'A' Sqn (21) would be available for the Bdes to assist in the evacuation of casualties. They went forward and reported to the ADMS under Lieut Dalton and carried out a most useful if unorthodox role most successfully.</p>	
Field.	16.	<p>'C' Sqn south of CARPIQUET aerodrome had the role of following up left of 227 Bde with orders to attack and capture Pt. 120 behind EVRECY once 158 Bde (53 Div), who were under command 15 (S) Div, were to capture EVRECY and the high ground just beyond. They were to exploit success down to AUNAY SUR ORNE. This attack took place late in the evening and failed to achieve any success, though 'C' Sqn moved forward at first light and waited at BARON whilst a further attack was being laid on.</p> <p>Traffic Control Organisation still functioning, though little traffic and no blocks on roads, chiefly owing to the small number of individual running through the intensity of enemy mortar fire in this area.</p> <p>Heavy bombing attack by enemy aircraft on the Verson Rd at 2230 hrs, resulting in one route being blocked, but no casualties.</p>	
	17.	<p>'C' Sqn ordered back to their original harbour as it was clear that there was to be no recce beyond EVRECY which was very strongly held and no forward movement had been made by 158 Bde. There was considerable fog of war on this day and it was never clear as to whether the enemy was being driven back or not. Traffic control organisation still set up at Verson. Remainder of the Regt moved fwd from PUTOT-EN-BESSIN to fwd harbour just south of CHEUX. Bombing attack by enemy aircraft hit 'A' Sqn harbour</p>	

			this evening and destroyed 7 vehs, all of which were completely burnt out.	
	18.		Control of Traffic routes handed over to 53 Recce Regt and control HQ returned to the Regtl Harbour south of CHEUX at 907685. 'B' Sqn (Residue) disembarked on this day.	
Field.	19.		Regt at rest. Advance Party 'B' Sqn rejoined Regt.	
	20.		'B' Sqn joined Regt in Harbour.	
	21.		In order to help 46 Bde who were still in the line to rest, the 3 Assault Tps under Major MacDiarmid went forward to LE VALTRU under comd O.C. 7 Seaforths where they took over the fwd posts and carried out for 48 hrs an inf role patrolling and sniping. Very heavy rain made this task rather unpleasant for them.	
	23.		15 (S) Div ordered to relieve 5 U.S. Div south of BALLEROY. Peace-time trg for convoy driving showed its value, though other traffic severely interfered with the column. 'C' Sqn went straight fwd into the line in support of 44 Bde as the connecting link between the right of 15 Div and 2 U.S. Div, where they took over an area from the Americans in very thick country, bocage and orchards, giving a minimum field of fire. They learnt some interesting points from our American Allies. The Assault Tps under Major MacDiarmid closed up on the Regt that night.	
Field.	24		'C' Sqn plus a Tp of A/Tk guns and a Section of the Mortar Tp carried out patrols on the right of the Div in liaison with 2 U.S. Div who made a large scale attack on this day. The remainder of the Regt concentrated at BALLEROY.	
	25.		'C' Sqn still holding the right Div area under 46 Bde, who relieved 44 Bde early this morning. Orders received for the Regt to take over BRIQUESSARD from 61 Recce Regt (50 Div). Initial recces made.	
	26.		Regt still concentrated at rest under pleasant circumstances at BALLEROY. 'C' Sqn still with 46 Bde where control of No Mans' Land was being obtained after the 'laissez faire' attitude of our Allies. 15 Div patrols took control of No Mans' Land. Late in the evening at short notice the Regt moved 600 yards across a main road in order to please the A/Q and make it easier for an Armd fmn to concentrate.	
Field.	28.		'C' Sqn returned to harbour where orders for Operation BLUECOAT (Pt 309 & St. MARTIN DES BESACES) were received. This cancelled the Regiment taking over BRIQUESSARD WOOD where complete recces had been done down to Tp Comdrs.	

	29.		Final briefing for Operation BLUECOAT in which 'A' & 'B' Sqns were to move with the Regiments of 6 Gds Tank Bde who were to exploit forward as quickly as possible to take full advantage of attacks by heavy and medium bombers. 'C' Sqn to be ready to pass through on the right flank and "attack" ST MARTIN DES BESACES. The first real Recce job that the Regt had been given.	
Field.	30.		'A' & 'B' Sqns moved forward into inf and tank F.A.A. at 0500 hrs and after heavy successful bombing by aircraft moved fwd in support of 227 Bde. 'A' Sqn, who were <del>under command</del> in support 7 Seaforths (46 Bde) did much useful work in mopping up enemy pockets behind the Gds Tank Bde. Considerable difficulty was encountered with vehicles owing to the thick country and mines which had been laid on the tracks. In the middle of the morning Capt Fordyce (B Sqn) in an LRC was blown up, he being wounded by S.A. fire and the remainder of his crew being killed. The attack by 15 (S) Division was very successful and orders were recd that the 11 Armd Div would carry out the clearing of ST MARTIN DE BESACES as it was clear that there was considerable enemy opposition in this area. At 1500 hrs the Divisional Comdr gave orders to the Commanding Officer that the Regiment would be at very short notice to move through 15 (S) Division and to try and get to the high ground at LE BENY BOCAGE that night. As the Regiment was still back at BALLEROY it was clear that there would be very little time in daylight for this operation to take place. Final orders were received from the Army and Corps Comdrs at 1700 hrs, by which time the Regiment was moving forward to a temporary harbour just north of CAUMONT, where final orders were given for the Regt to move to HERVIEUX, from where 'C' Sqn was to lead the "Second Army Break-out". The situation was painted in such rosy terms that it was decided that night recce should be undertaken, and it was not until about 1 hr before dark that 'C' Sqn moved fwd on unreconnoitred tracks to pass through the fwd inf at Pt 309 where they could fan out to the South. ST MARTIN DE BESACES was still held and a gap of only 1 mile was available for us to pass through. 'A' & 'B' Sqns by this time had concentrated on the main axis and were prepared for follow 'C'. Considerable difficulty was at once met with by the fwd tps as the vehicles were inextricably bogged in the small tracks and lanes, and it became clear that no large scale fwd movement would be possible unless ST MARTIN was clear. An Officer patrol from 'B' Sqn, 2 H.C.R. under the regiment was sent forward to discover if a fresh way could be found as it was clear that 11 Armd Div were not	
Field.				

		seriously contemplating clearing ST MARTIN that night. Tanks were reported in ST MARTIN and though active patrols took place all night, no way through was discovered. In fact it was very strongly held by the enemy.	
Field.	31.	At first light scout tps of 'C' Sqn succeeded in getting over Pt 309 and down as far as VAUX MARTIN 6948 where they succeeded in dominating the high ground and moved forward to LA MANCELLIERE. A major attack was staged by 11 Armd Div at ST MARTIN DE BESACES, which was not cleared until about 1500 hrs, when infm was received that the Gds Armd Div would have complete priority on roads the next day in order that they might pass through to gain the high ground at LE BENY BOCAGE. 'C' Sqn, therefore returned to a harbour just north of ST MARTIN DE BESACES. 'A' & 'B' Sqns were at short notice to move, in their harbours just south of HERVIEUX, as soon as the roads were clear.

Place	Date	Hour	Summary of Events and Information	References to Appendices
B.L.A.	1		The Regiment situated just behind ST MARTIN DES BESACES, which contrary to expectations was strongly held by the enemy, who were only driven out after a full day's battle. This held up our reconnaissance forward and shortly afterwards the Gds Armd Div was given priority on all roads. 'B' Sqn in support of 46 Bde late this evening were given the task of clearing up the area GALET - LA MARCELLIERE which was held by pockets of the enemy. This was successfully carried out, though Lieut CAREY and 4 O.R's lost their lives in this action. Dust was the chief problem this day.	
	2.		Regiment moved forward about 1000 hrs to protect left flank of the Div, R.H.Q. moving to LA BRESSI, which was overlooked by the high feature of MONTAGNY. 'C' Sqn moved to left flank to link up with 43 Div who were advancing from Pt 361. 'A' & 'B' Sqns were in reserve. Area of R.H.Q. was repeatedly shelled all evening from MONTAGNY, the enemy having seen the tpt moving about.	
B.L.A.	3		'A' Sqn were placed under command Gds Armd Div and sent at 0700 hrs to help the Motor Grenadier Gds at St PIERRE VASCUTIN, where they spent a most unpleasant day under continuous artillery and mortar fire. They assisted in repelling many heavy counter attacks. They were relieved at 2000 hrs and returned to BRESSI. 'C' Sqn spent the day actively patrolling the left flank and had one or two good shoots; in one case 100 Germans were seen concentrating in an avenue of trees and were effectively dispersed by our artillery.	
	4		Good progress was made by 'C' Sqn on this day, and they occupied MONTAGNY, from where the enemy had withdrawn the previous night.	
	5		R.H.Q., 'B' & 'C' Sqns moved up and harboured near MONT CHARIVEL.	
B.L.A.	6		Battle of ESTRY. Based on false information regarding the strength of the enemy, the Regiment was ordered to reconnoitre the advance of the Div from MONTCHARIVEL area SOUTH on 3 routes to VASSY. It was soon discovered that ESTRY was very heavily held and that the main road South to LE THEIL was also held and mined and covered by tanks	

			and MGs. 'C' Sqn with 9 Troop got into ESTRY and discovered much information regarding the strength of the enemy, but it was soon obvious that a full scale major attack would have to be made to get past this town. 9 Tp under Lieut ROYLE withdrew and stood off and continued to harass the enemy and passed valuable information to the infantry who made little progress throughout the day. On the other route, 10 Tp under Lieut RIESCO moved down the road towards LE THEIL but found area 788390 heavily covered by fire, and in view of vehicle casualties were ordered to withdraw to LA CAVERIE. The leading infantry got no further on this day and the troops of 'C' Sqn were ordered to withdraw back to harbour at 1700 hrs. On the left flank 'B' Sqn tried to patrol down to LASSY but again they found that the enemy was in strength, and with the bad condition of tracks made little or no progress.	
B.L.A.	7.		'A' Sqn moved out to give left flank protection on the left of 46 Bde on the Bdy between 15 Div and 43 Div. They moved out to the AU CORNU X Rds with mortars under command and captured the high ground Pt 226 without incident. Considerable enemy movement was seen on the far slopes but no attack was made on them. The remainder of the Regiment remained concentrated at MONTCHARIVEL.	
	8		In view of the large area 'A' Sqn were keeping, the Assault Tps of 'B' & 'C' Sqns were placed under command 'A' Sqn who were actively patrolling this area on the left flank. The Mortar section had their first real opportunity this day to fire at the enemy.	
	9		The Regiment still in the MONTCHARIVEL area. 'B' Sqn took over the position on the left flank from 'A' Sqn, who returned to rest.	
B.L.A.	10		Situation still static. 'B' Sqn still holding left flank where they managed to get patrols down as far as the river line in front of them. Indications were received this day to make it possible that the enemy were starting to withdraw in this area, and orders were given for the "ESTRY operation" to be laid on again should the enemy retire. Late that afternoon a Sqn of the Inns of Court (30 Corps Armd Car Regt) were ordered up to relieve 'B' Sqn. The reactions of an Armd Car Regt taking over from an Inf Div were interesting, and it was agreed to leave mortars and A/Tk guns with them so as to strengthen them.	
	11		The Div resting waiting for the enemy to withdraw as it was now the policy not to rush the "ESTRY Operation" whilst the enemy were holding their strong positions. All Orders were issued for this advance should the enemy withdraw.	
	12.		Regiment still concentrated in harbour at MONTCHARIVEL. Orders rec'd at about 1800 hrs that the Div would move early next day to an area	

B.L.A.		between the R. ORNE and LEIZE (CAEN Sector). About 2 hrs later and about ½ hr before dark orders were received on the wireless for the Operation ESTRY to be put into operation, although it was clear that nothing could be done in the remaining few minutes of daylight. Troops prepared, and in certain cases moved out of harbour, but fortunately this order was then rescinded, particularly as once again the information on which the order was based proved later to be faulty. The Orders to move the following day to the CAEN Sector were re-issued.	
	13.	The Regiment moved at mid-day to AMAYE-SUR-ORNE, the route passing through much of the previous battle areas including VILLERS BOCAGE (which was completely flat), Pt 112, and the area of our previous battles round Verson. We returned to the real battle-field area where the stink of war still remained.	
	14.	An inactive day owing to the road situation, other formations having priority; the main relief being some excellent bathing in the ORNE.	
	15.	Same location. The day was memorable for the visit of the first Canteen, a good ENSA show, and insects.	
B.L.A.	16.	Maj.Gen C.M. BARBER, DSO, who took over the Division on 8 Aug when Gen MacMILLAN was wounded, visited the Regiment and spoke to each Sqn to introduce himself, not that this was necessary as he had previously commanded 46 Bde, and to say that he felt that perhaps the Regiment was not always given credit for the work that was done by Senior Commanders who normally visited the Inf Bdes after the Division had done well in battle.	
	17.	Same Location. Nothing to report.	
	18.	Regiment moved to LA FRESNIL LA BIEUX. By this time we were practically in Army Base Sub-area and it was getting a bit depressing to be so far behind the enemy.	
	19	Orders were received for the movement Eastwards once the FALAISE gap was finally cleaned up, but no time or date of move could be given.	
	20.	Still waiting to move and still getting further into the L of C area, the Army installations actually being set up in front of the Regiment.	
B.L.A.	21.	'A' Sqn were placed under command of the "Royals" (12 Corps Armd Car Regt) and moved to LE TREPREL where they waited to get a flying start for Exercise 'GALLOP' (the move Eastwards to the R. SEINE). A report was received via various channels by 'A' Sqn this afternoon that there were 40 enemy SW of FALAISE. This was investigated by O.C. 'A' Sqn and it turned out that the location was Tac HQ 2nd Army, the first enemy to be seen being the Army Commander driving in in his Jeep!	

	22.		Still waiting for orders to go. 'A' Sqn ceased to be under command of the "Royals" but remained at their forward location of LE TREPREL.	
	23.		Final preparations for the move. Regiment moved at 1800 hrs to LA HOUGETTE preparatory for an early move next day, the FALAISE GAP having been finally cleaned up.	
B.L.A.	24.		The Regiment moved off at first light on what was really route reconnaissance eastwards, passing through the FALAISE battle area where the destruction by our aircraft and armour was obvious. Each Sqn had under command large parties of Engineers with bulldozers, and progress was very slow owing to other traffic and the enemy vehicles demolished on the road. Forward Sqns reached the line LE SAP - BRENAI that night.	
	25.		The Regiment continued its movement the following day with the object of crossing the River EAST of LE BEAUMONT DE ROGER. No contact was made but considerable reconnaissance had to be done in order to find crossing places over the many streams and rivers where the bridges had been well demolished by the Germans. The Regiment reached the line of LE NEURBOURG - BARQUET.	
	26.		Reconnaissance for the crossing of the R. SEINE started. 'C' Sqn moved forward through LOUVIERS and reached the high ground WEST of the SEINE without incident and commenced to find out as much as they could regarding the river line. Patrols were sent to the left and right and a Patrol Report (Appx 'A') was sent to Division that night.	Appx A.
B.L.A.	27.		The Regiment moved forward to just WEST of LOUVIERS and the active reconnaissance of the river line was undertaken. Though not expressly ordered, members of the Regiment were the first of the Division to cross this major obstacle. Patrols had for a long time reconnoitred the whole bank and shot up enemy on the far side, when a report was received that Lieut WHEELER and 2 N.C.O's had found a boat, crossed the SEINE and had reconnoitred PORT JOIE, which they found very nearly empty. On the right flank Lieut SHIRLEY had crossed in an Assault Boat to an island and from there to the far side, and had reconnoitred MUIDS, where it was proposed a Class 9 bridge be put down. Very full and accurate reports were sent in this day and a full Recce Patrol Report (Appx 'B') was made up and sent to the Div Comdr that night. As a result of these reports it was decided that a rush crossing should be made by 227 Bde that afternoon, much earlier than had at one time been anticipated. All the reports which these patrols had	Appx B

B.L.A.			<p>given were confirmed when this crossing was successfully made by 227 Bde. Very useful work had been done by the patrols of the Regiment, particularly 'C' Sqn, on these two days and they were largely responsible for the early crossing of the R. SEINE.</p>	
	28.		<p>As a result of representations made, Armd Car patrols of 'A' &amp; 'C' Sqns were ferried across at first light next morning so that if there was little opposition as expected these patrols could get the maximum information for the infantry. These patrols, acting very boldly, reached a considerable way inland and were able to give very valuable information regarding the small posts of the enemy to the infantry, who were able to achieve their objectives without any difficulty.</p> <p>As soon as the bridges were built - Class 9 at MUIDS and Class 40 at St PIERRE, the remainder of 'A' &amp; 'B' Sqns were to cross the river and continue to patrol actively eastwards. These patrols produced a very great amount of valuable information this day. Serious opposition was met on the right by 'A' Sqn at LE THUIT, FRETTEVILLE and LES ANDELYS, whilst 'D' Sqn also on the left ran into various enemy pockets.</p>	
B.L.A.	29.		<p>Owing to the bridges taking longer than was expected, the Regiment harboured for the night 28/29 Aug just short of the river and moved across at 0530 hrs and joined up with the Armd Cars EAST of the SEINE, and 'A' &amp; 'B' Sqns continued on their task of reconnoitring in front of the Division, 'A' Sqn having crossed the bridge at MUIDS, the remainder of the Regiment crossing at St PIERRE VAUDRAY. On the right, 'A' Sqn found very considerable opposition at FRETTEVILLE and LE THUIT where they undertook a very successful action, destroying many of the enemy.</p> <p>Of the Scout Troops under Lieuts BLOUNT, KERRIDGE and DALTON, the former was responsible for the liberation of LES ANDELYS from which the enemy had evacuated that morning. On the left 'B' Sqn reached the line of the Army Bdy up to ECOUIS where they harboured for the night, having carried out their role very well. 'C' Sqn were released at mid-day when it was clear that a breakthrough was possible and moved between 'A' &amp; 'B' Sqns to get as far as SAUSSY where they came up against strong enemy posts and made contact with the left flank of 11 Armd Div, who were starting their run which took them to BRUSSELS. RHQ moved up to LE LANDE. That night we were informed, much to our disgust, that 53 Div were to pass through 15 (S) Div next day and that we were to clear the roads for them.</p>	
B.L.A.				

	30		53 Div passed through 15 (S) Div, and the only action we were allowed to take was to patrol to our flanks and mop up certain enemy pockets in the woods nearby where the MACQUIS were very active.	
B.L.A.	31.		The Regiment concentrated in the area ECOUIS - MUSSEGROS. A letter was received by the Commanding Officer from the Divisional Commander congratulating the Regiment on its work in the past few days, and a Special Order of the Day was published and is attached at Appx 'C'. It was thought that morning that we were likely to rest for 4 or 5 days, but at 1440 hrs orders were received for the Regiment to come under command of 53 Div for flank protection of 7 Armd Div who were advancing on AMIENS and ARRAS. The Commanding Officer received orders from G.O.C. 53 Div to move at first light next morning to FRY 5223.	Appx C.

Month and Year Sep 44.

Place	Date	Hour	Summary of Events and Information	References to Appendices
B.L.A.	1		The Regiment under command 53 Div moved up at first light to the area of MARLERS. We arrived there about 1500 hrs having met no opposition on the way and having liaised with the Canadians who were on our left and who appeared to be doing very well.	
	2.		Regiment at rest in MARLERS Area and awaiting orders for the next phase, having reverted to the command of 15 (S) Div.	
	3.		5th Anniversary of outbreak of war. Regtl Church Service to commemorate this. Div Comd called and stayed to lunch. He warned us to be ready to move on or about 5 Sep. The Commanding Officer held a conference of Regtl Officers to discuss Regtl matters.	
	4.		The day was spent in briefing and preparing for the next battle, or rather chase. We were briefed for the flank protection of the Div in the advance to ROULERS in BELGIUM. The Commanding Officer attended a Div 'O' Gp at 1500 hrs.	
B.L.A.	5.		The Regiment moved up to the area of HOUVAIN. This was a peace move, the Regiment merely catching up the lag between ourselves and the Armour.	
	6.		The Regiment moved off at first light via ARRAS to BELLEGHEM, crossing the BELGIAN Frontier at about 1000 hrs. 'B' Sqn cleared an FAA for the inf in the area at BELLEGHEM. 'A' & 'C' Sqns recced out on the flanks, 'A' Sqn in the area of KIRKHOVE (0152) and 'C' Sqn at AVELGHEN (9750). 'A' & 'C' Sqns operated during the day and reached the general line COURTRAI - WAERGHEM - CRUYSHAUTEN. Pockets of enemy were encountered but no definite movement was discernible as the enemy appeared to be very disorganised and moving in all directions. Considerable execution was done, particularly by 'A' Sqn, who took a fairly large number of prisoners (about 130) and had a generally good day. Regtl locations as under:- R.H.Q. - BELLEGHEM (8751)      'A' Sqn - KIRKHOVE (0152) 'B' Sqn - BELLEGHEM (8751)      'C' Sqn - AVELGHEN (9750)	

<p>B.L.A.</p> <p>B.L.A.</p>	<p>7</p>	<p>Regt still in same locations. 'C' Sqn re-checked their area up the main COURTRAI Rd and met comparatively little opposition. 'A' Sqn, who were virtually operating with 4 Armd Bde had difficulty in moving northwards as the 4 Armd Bde were occupying most of the area and were in contact with fairly strong enemy forces. 'A' Sqn had a fairly successful day taking 40 prisoners and doing some execution among soft tpt.</p> <p>'B' Sqn operated in the area EAST &amp; WEST of COURTRAI and met fairly stiff opposition at DEERLYCK and HARLEBREKE, but managed to report on the crossing over the R. LYS. During the afternoon a severe gale was blowing and RHQ were forced under cover. During the evening 4 Armd Bde withdrew back to the line of the ESCAUT Canal into Armd Regtl blobs, 'A' Sqn operating with 44 R.T.R. in the defence of KIRKHOVE Br, 'C' Sqn with the Scots Greys at AVELGHEM Br. During the night a fairly stiff attack was put in on the KIRKHOVE Br and 'A' Sqn spent a restless night. The attack was driven off and from the questioning of PW it would appear that a large party of enemy, about 2,000 strong, had attempted to cross the ESCAUT Canal to get home to the "Fatherland". They were unable to do so.</p>	
<p>B.L.A.</p>	<p>8</p>	<p>The only Sqn allotted a specific task was 'B' Sqn, who were given the task of moving in front of 44 (L) Inf Bde on the centre line COURTRAI - GHENT (J.1980). 'B' Sqn were also given the task of protecting the right flank of the Bde. Leading troops crossed the S.P. X Rds HARLEBEKE at 0800 hrs. At 0900 hrs leading elements were still on the start line, and on enquiries being made it was discovered that the troops had encountered slight opposition which they had quickly mopped up, and were now embroiled in collecting PW. The rate of progress was not increased until it was firmly impressed upon the Tp Leaders that it was their job to reconnoitre and <u>NOT</u> to collect PW. 'B' Sqn patrols finally contacted 7 Armd Div in GHENT, who were greatly relieved to know that their left flank was covered. The troop of 'B' Sqn doing right flank protection met opposition at DEERLYKE which was finally cleared up, and by 1800 hrs the Sqn having done all that could usefully be done in this area, was ordered to concentrate at OYCKE (J. 0562). During the day the Sqn reported all Brs over the R. LYS between COURTRAI and DENTZE were blown, the enemy being seen on the NORTH Bank. 'C' Sqn had 3 Officer patrols out during the day and reconnoitred the area of VICHTE which was held. They operated in that area during the day and had a fairly successful day, capturing VICHTE themselves (!) and some 18 to 20 prisoners, and killing a fairly large number of enemy and shooting up a number of soft vehicles. 'A' Sqn were ordered to recce a Regtl</p>	

		harbour at OYCKE. The Regiment concentrated there in the evening and spent a quiet night.	
	9	A day of rest, maintenance being first priority. Church Services were held in the evening and a Regtl rep went to Div HQ at ORDENARDE to receive orders for a move to an area NORTH of BRUSSELS next day.	
B.L.A.	10.	The Regiment moved up to a new area BREENDONCK (J.6277) arriving there about 1500 hrs. The route was via ALOST and HAECHE. From 1600 hrs the village was "en fete" and a Dance was arranged for the Regt. During the evening the C.O. attended a conference at Div HQ. Information was extremely scanty, especially with regard to 30 Corps on our right and the position on the ALBERT Canal. The Regt was to send patrols into this area next day to obtain all available information. 'A' Sqn was to do this job with Armoured Cars. 'C' Sqn were to be prepared to provide 2 Officer patrols if required.	
	11 Sep.	'A' Sqn operated in the area of the ALBERT Canal from excl ANTWERP to incl HERENTHALS. A great deal of useful information was gained about the enemy and our own troops. A summary of patrol report is attached as Appendix 'A'.	
B.L.A.	12	'A' Sqn carried out the same task till relieved by a Bn of 227 Bde who were to move up during the day. The Regt moved up to a new harbour in the area of VEERLE, crossing the S.P. at 1105 hrs and arriving at 1455 hrs. Locations:- RHQ & 'A' Ech - VOORST 103791. 'A' Sqn - 105793. 'B' Sqn - 107791. 'C' Sqn - 105791. 'A' Sqn did well. Report having met no opposition of an aggressive nature. They only fired at some enemy at long range and despite "stooging" failed to draw any serious fire. Contact with flanks of 50 Div and 53 Div was established and the Sqn duly returned to harbour of 2100 hrs, having been relieved by 2 Bn Gordons. The C.O. attended a Div 'O' Gp at 2045 hrs. The Regtl tasks were as under:- 'C' Sqn to recce the area of the ALBERT Canal Bank from incl 121823 to the Class I Br. 'B' Sqn to similarly recce from incl KAPEL 0286 to the inter-Div Bdy. 'A' Sqn - maintenance.	
B.L.A.	13.	The day developed very differently from what was expected and the Regt did far more than on previous occasions when it has been possible to fully brief Sqns and patrols the night before. 'C' & 'B' Sqns moved out at 0715 hrs and it soon became obvious that the situation had considerably altered during the night and the enemy were in nothing like the strength they were supposed to be. At 0830	

B.L.A.			<p>hrs the C.O. gave fresh instructions to 'A' &amp; 'B' Sqns. 'A' Sqn were to recce Brs 1193 and 0793 and the area between them. 'B' Sqn to recce the area between the two canals excl GHEEL and up to RETHY. 'A' Sqn patrols met no opposition until approaching the Brs. Both brs were blown and a considerable amount of opposition was encountered on the far bank of the canal, but comparatively little on this side.</p> <p>'B' Sqn met no opposition until approaching MOLL at about 1415 hrs, where a battle took place and lasted some considerable time. However, a by-pass was found by which the tanks and inf could go round to seize and hold the br at DONCK. A loud explosion had been heard by 'B' Sqn at 1530 hrs, which was, in fact, the blowing of the Br at DONCK. This infm was not confirmed until 1830 hrs. The Div Comd wanted the area between MOLL and GHEEL to be combed and the Canal searched for any likely bridging sites. 'C' Sqn was allotted this task at about 1400 hrs and reported that a certain amount of opposition was met on both sides of the canal although all the Brs were blown.</p> <p>Rep was sent to recce a Regtl harbour area in MEERHOUT 1484 and at 1530 hrs the C.O. decided it was advisable to get the whole Regt across the ALBERT Canal and therefore ordered the Regt to harbour in MEERHOUT that evening. All Sqns concentrated at dusk. Locations:- RHQ, 'B' Sqn, 'A' Echelon - 152858. 'C' &amp; 'A' Sqns - MEERHOUT.</p>	
B.L.A.	14.		<p>'B' Sqn were ordered to recce the Brs between the ALBERT Canal and the JUNCTION Canal on the Canal D'EMBRANCHEMENT. All Brs on this canal were reported to be blown. The C.O. attended Div 'O' Gp where it was stated that the 7 Armd Div were coming up on our left flank to the area SOUTH of HERENTHALS and that 15 Div were most anxious that no enemy should escape EAST from HERENTHALS before 7 Armd Div arrived. 'B' Sqn were ordered to do this job and to contact 7 Armd Div tomorrow, 15th. 'B' Sqn were also ordered to send a patrol to accompany an RE Recce Offr to examine the Br at 2594.</p>	
	15		<p>'C' Sqn were ordered to watch the area SOUTH of the JUNCTION Canal to prevent any infiltration between the DONCK Br and the 44 Bde B'head at 0792. They remained there during the day.</p> <p>'B' Sqn carried out the task of contacting 7 Armd Div and returned to harbour having completed the task of handing over to 7 Armd Div by 1500 hrs.</p> <p>Field Marshall Sir Bernard L. Montgomery, DSO, MC, visited Div HQ to present medal ribbons awarded in earlier battles. The Regt formed</p>	

			the Guard of Honour which was commanded by Capt L.T. FORD. The Div Comd complimented the Regt on the high standard of turn-out.	
B.L.A.	16		<p>A quiet day for the Regt, except 'C' Sqn who continued their task of watching the JUNCTION Canal from incl 117938 to 206960. Small parties of the enemy only were encountered and the Sqn remained on this task during the day.</p> <p>The Padre left us for 193 Fd. Amb. on temporary attachment.</p>	
	17		Similar to the 16th with 'C' Sqn continuing with their task of watching the JUNCTION Canal. The Assault Tp of 'A' Sqn was placed under command of 'C' Sqn to assist them. 'B' Sqn provided an escort to RE Br building at 200928.	
	18		'C' Sqn were again allotted the task on the JUNCTION Canal. Higher authority were very worried about this area and a composite force - 6 Royal Scots, 'C' Coy 1 Mx (MGs), Pl 'D' Coy 1 Mx (Mortars) with considerable arty support was put under comd of the C.O. The enemy was fairly active in patrolling during the late afternoon and captured 2 men from 'C' Sqn.	
	19.		The C.O. remained in command of assault forces watching SOUTH bank of Canal. Nothing of interest happened.	
B.L.A.	20		<p>Nothing of operational interest.</p> <p>Lieut. Colonel J.A. GRANT PETERKIN was posted to 43 Div as GSO 1, and Major K.C.C. SMITH assumed command of the Regt. Major P.T.I. MacDIARMID was appointed 2 i/c of Regt and various other internal alterations were made.</p> <p>The Regt was ordered to move up to HOLLAND (STEENSEL area) tomorrow.</p> <p>'B' Sqn were to remain and help 44 Bde in the MOLL area watching the SOUTH bank of the JUNCTION Canal.</p>	
B.L.A.	21		<p>The Regt arrived in HOLLAND and were harboured in the HEIKE area about 4000 yards WEST of EINDHOVEN. 'C' Sqn sent out Officer patrols to the line of the WILHELMINA Canal to contact U.S. Forces in the area of EINDHOVEN and SON (ZON). 'C' Sqn reced the brs SOUTH of BEST and OIRSCHOT. They contacted the 502 Parachute Inf Regt, U.S. Army, in the SON (ZON) and EINDHOVEN areas and tied up with them. The Regt, less one Sqn ('B' Sqn) under command 46 Bde Gp which was going to attempt an assault crossing of the WILHELMINA Canal tomorrow. Regtl re-organisation completed as under:-</p> <p>Major K.C.C. SMITH assumes command.</p> <p>Major P.T.I. MacDIARMID to 2 i/c Regt.</p> <p>Lieut G.R. BLOUNT to be Capt &amp; Adjt.</p> <p>Capt W.B. LIDDELL to be 2 i/c 'C' Sqn</p> <p>Capt L.T. FORD from 2 i/c 'C' Sqn to O.C. 'HQ' Sqn.</p>	

		Major G.A. GADDUM from O.C. 'HQ' Sqn to O.C. 'A' Sqn.	
B.L.A.	22	<p>46 Bde Gp were involved in the BEST area and were to inform the Regt when it was safe to cross the Class 9 Br and carry out tasks as follows:-</p> <p>'A' Sqn to move NORTH via BOXTEL and in the event of all well to carry straight on to HERTOGENBOSCH, 44 Bde following them up.</p> <p>'B' Sqn in support of 46 Bde, as soon as the situation allowed, to pass through 46 Bde and recce on their front to OIRSCHOT and then along the main Rd running NE and to the SOUTH of this road.</p> <p>'C' Sqn to recce the area between the main BEST - HERTOGENBOSCH Rd and the BEST - OIRSCHOT - TILBURG Rd.</p> <p>As there was only a Cl 9 Br, the 2 Staghounds of 'B' Sqn could not cross, and therefore they were ordered to move on 30 Corps Maintenance Route via SON (ZON) and St OEDENRODE and to join their Sqn by coming down the St OEDENRODE - BEST Rd.</p> <p>46 Bde were seriously involved in BEST and it was not until 1400 hrs that they considered it reasonable for 'A' Sqn to commence their advance Northwards across the Br. 'A' Sqn quickly made contact with the enemy who were holding strong posns across the main Rd about 4000 yds NORTH of BEST. They patrolled EAST and WEST but could find no way round and it soon became evident that it would require a considerable force to clear this posn up. The other two Sqns remained on the SOUTH side of the Canal and 'A' Sqn were drawn back at night. R.H.Q. was established at AACHT (3922) with the Sqns harboured on either side the main Rd.</p> <p>'B' Sqn Staghound patrol made very slow progress owing to considerable traffic congestion, but eventually contacted the Americans at St OEDENRODE and got very valuable information on the general situation on the St OEDENRODE - BEST Rd. It was clear that the enemy were in the general vicinity of this rd although they were not taking a particularly active part. This patrol withdrew back into St OEDENRODE for the night.</p>	
B.L.A.	23.	<p>The plan of the 22 Sep was to be put into operation in the event of it being feasible, but again 'A' Sqn were held up in a similar position to the day before, having crossed the Br at 0600 hrs. 44 Bde following up 'A' Sqn made abortive efforts all day to clear up the situation and allow 'A' Sqn to proceed.</p> <p>'B' Sqn's Staghound patrol repeated yesterday's performance.</p>	
	24	<p>'A' Sqn continued patrolling on the front of 44 Bde but could make no progress and were then ordered to commence patrolling down the main Rd BEST - St. OEDENRODE. 'C' Sqn were ordered to take over the</p>	

B.L.A.			close protection of the Cl 9 and Cl 40 Bns at BEST, so relieving the inf who were holding them.	
	25.		'A' Sqn continued to patrol in the bridge-head and moved up axis Rd BEST - DONDENDONK - St OEDENRODE. Enemy reported in fairly large numbers in the woods NORTH of Rd 3830 - 3930. 'B' Sqn ordered to recce to the Rly line NORTH of BEST to see if there had been any withdrawal by the enemy. If possible they were to try and recce the tracks to the WEST. The enemy were still covering the Rly so it was impossible for 'B' Sqn to make any progress.	
	26		R.H.Q. moved up to LE VEULT (25,000 Sheet 5 (Holland) 389284). 'A' Sqn reced the general area of large woods 3830 - 3930. 'B' Sqn moved up to St OEDENRODE and reced the area on the EAST of 'A' Sqn along the line of the R. DOMMEL towards LIEMPDE. 'C' Sqn remained in close protection of the Bns. In the evening 'A' Sqn were moved to the X Rds at BEST to take over their protection from 6 KOSB.	
B.L.A.	27		'A' Sqn relieved of BEST X Rds by 2 GORDONS and moved up to LE VEULT area to fill the gap between 2 GORDONS and 2 A & SH. 'B' Sqn continued recce role on right flank, working from their base at St OEDENRODE. 'C' Sqn relieved of Br protection by RE at 0800 hrs and rested until taking over from 'A' Sqn in LE VEULT area at 1600 hrs, when 'A' Sqn went into reserve SOUTH of the canal.	
	28		R.H.Q. same location. 'A' Sqn rest SOUTH of the bridge-head in AACHT area. 'B' Sqn continued patrolling on the right flank and they gained very valuable and accurate information. 44 Bde attacked in this area and gained a certain amount of ground. 'C' Sqn remained in LE VEULT area holding the gap. About 1730 hrs the Div were most anxious about enemy reported forming up in wood 3931. This was dealt with by Arty and after reced by 'B' Sqn patrol. Div were still most unhappy about the position but later the C.O. discovered it was adequately protected by 2 Searchlight detachments and crews on both sides the wood.	
B.L.A.	29		R.H.Q. static in same area. 'B' Sqn continue patrolling in St. OEDENRODE area until relieved by 'A' Sqn in the late afternoon. 'B' Sqn remained in this area. 'C' Sqn holding the gap in LE VEULT area.	
	30		R.H.Q. moved to St OEDENRODE. 'A' Sqn in support of 158 Bde carried out reces on EAST of R. DOMMEL. They gained valuable information during the day. They moved forward to 426328 where they acted as "long stop" to 158 Bde who were very spread out. 'B' Sqn resting in St. OEDENRODE area. 'C' Sqn in LE VEULT area.

B.L.A.	1		R.H.Q. located at St OEDENRODE. The Regt generally employed on the same task: 'A' Sqn patrolling on the EAST side of the R. DOMMEL for 158 Bde of 53 Div: 'B' Sqn resting: 'C' Sqn protecting 30 Corps C.L. in the LE VLEUT area. A Regt Harbour rep met the A.A. & Q.M.G. at BEEK for an allocation of a concentration area on the Div moving to 8 Corps. The Regt was allotted a harbour area on the NORTH side of HELMOND. During the day 'A' Sqn did some very good foot patrolling which gained valuable information for 158 Bde and towards evening their Sqn HQ and reserve Tp was moved to the Rd Junc NORTH of St OEDENRODE to act as a back stop to 158 Bde.	
	2.		Regt Harbour party moved to HELMOND. R.H.Q. remained static at St OEDENRODE. 'A' & 'C' Sqns also remained in the St OEDENRODE - VLEUT area doing the same jobs as yesterday. 'B' Sqn moved to the concentration area and were settled in by 1700 hrs.	
B.L.A.	3.		R.H.Q. remained at St OEDENRODE till 1600 hrs when they moved to concentration area at HELMOND (Ref HOLLAND 1/100,000 Sh 4, 560223). 'C' Sqn were relieved from protection of 30 Corps C.L. by 2 Derby Yeo, and moved to join 'B' Sqn and R.H.Q. in the concentration area. 'A' Sqn remained as back stop to 158 Bde till relieved the next day by elements of 51 (H) Div who were relieving 15 (S) Div in the Best - St OEDENRODE area.	
	4		'A' Sqn relieved and joined the rest of the Regt at HELMOND.	
	5		Regt static and at rest in HELMOND.	
	6		Regt static and at rest in HELMOND. In the afternoon the G.O.C., Maj.Gen. C.M. BARBER, DSO, addressed the Officers of the Div and in the evening the massed Pipes and Drums of the 15 (S) Division beat the retreat in the grounds of HELMOND Castle.	
	7		Regt at rest.	
	8		In the morning the Regt held a ceremonial Regt Church Parade. The Pipe Band of 2 Bn Gordon Highlanders marched us to Church and	

B.L.A.		Lieut.Colonel K.C.C. SMITH inspected the Regt and took the salute. At lunch time the C.O. was ordered to report to HQ 8 Corps at 1430 hrs as there was the possibility of the Regt coming under comd 11 Armd Div. The Regt was ordered to provide protection and to link up between the right of 11 Armd Div and the left of U.S. Forces (7 U.S. Armd Div) between the wood NORTH of DEURNE and the wood NORTH of MILLHEEZE. 'B' Sqn were allotted this task and ordered to be in posn by dark. They left HELMOND 1745 hrs with additional orders to patrol fwd to the line of the canal WEST of DEURNE the next day if possible. Regt came under comd 11 Armd Div w.e.f. this order.	
	9	The Regt less 'B' Sqn remained at rest in the HELMOND area. 'B' Sqn in posn as ordered on the rd DEURNE - RIPS. During the day they attempted to patrol fwd but regrettably the patrol was ambushed and Lieut GOODRICH was lost, believed PW and wounded.	
	10	Regt less 'B' Sqn at rest. 'B' Sqn remained out in posn until relieved by 'A' Sqn in the afternoon.	
B.L.A.	11	Regt at rest. 'A' Sqn in posn on Rd DEURNE - RIPS.	
	12	'A' Sqn in posn until relieved by 'C' Sqn in the afternoon. Remainder of Regt at rest in HELMOND.	
	13	Regt resting. 'C' Sqn doing protection and link between 11 Armd Div and 7 US Armd Div.	
	14	'C' Sqn remained on their job until relieved by 'B' Sqn in the afternoon. Remainder of Regt at rest in HELMOND.	
	15	'B' Sqn continued role in area DEURNE - RIPS. In the morning 11 Armd Div had indications that the enemy had withdrawn from the canal and 'B' Sqn were ordered at 1200 hrs to confirm this, by patrols up to the canal. By 1530 hrs they confirmed that there were no enemy on the line of the canal and drew back to their original posns at dusk. As a result of these patrols 11 Armd Div commenced building a Br at 690270 at 1630 hrs.	
B.L.A.	16	'C' Sqn were ordered to re-comb the area again and confirm that there were still no enemy on the line of the canal, and to link up with 7 US Armd Div. They remained on the canal all day and were called back to HELMOND at dusk. 'A' Sqn were placed under comd 46 Bde for future ops and carried out a rehearsal with that Inf Bde. 'B' Sqn and R.H.Q. remained at rest in HELMOND. 1 Tp 'B' Sqn were ordered at 1600 hrs to take up posns to prevent the C1 40 Br at 690270 from being blown up by saboteurs during the night. No incidents occurred during the night.	
	17	'B' Sqn Tp released from job on Br and returned to HELMOND at 1200 hrs.	

	18		<p>Regt reverted to comd 15 (S) Div. 46 Bde Op cancelled and 'A' Sqn reverted to comd Regt. At 2200 hrs C.O. went to 227 Bde HQ for 'O' Gp and Regt was put under comd of 227 Bde. 227 Bde Group to take over from 2 Bdes of 51 Inf Div and 2 Derby Yeo in area of BEST - St OEDENRODE.</p> <p>Regt was to leave HELMOND 1030 hrs 19 Oct and move up to relieve 2 Derby Yeo and 5 Coys of 5 Camerons in the area LE VLEUT - BEST.</p>	
B.L.A.	19		<p>Regt moved up without incident and take-over was completed by 1700 hrs.</p> <p>Locations as under:- (Ref HOLLAND Sh 18NW, 18 SW, 1/25,000).</p> <p>R.H.Q. - X Track 389284. 'A' Sqn - Area STEENEEG - X Tracks 372278. 'B' Sqn - took over the area which was held before by 2 A &amp; SH, nicknamed the "Box" (382293). These posns were within 100 yards of the enemy FDLs. 'C' Sqn - area of LE VLEUT. Regt was very thin on the ground, covering, in fact, what had been a Bde front previously. 10 HLI were on our RIGHT in the area DONDERDONK; 9 Cams on our LEFT in the BEST area.</p>	
	20		<p>A very quiet night. No change in locations. In the morning 'B' Sqn had trouble; a mortar stonk killing one OR and wounding 6 others, all from the same Assault Section. Sporadic mortar and arty fire during the day.</p>	
B.L.A.	21.		<p>A quiet night and a quiet day, with nothing to report but occasional shell and mortar fire. The A &amp; SH are to do patrols through our posns at night, and HLI and 9 Cams on our RIGHT and LEFT respectively.</p> <p>The Regt was too thin on the ground to provide any patrols.</p>	
	22		<p>A very quiet night except for our own arty which by the noise must have included quite a number of Medium guns.</p>	
	23		<p>A very quiet day with locations unchanged, and except for occasional shelling, mostly in the area of the BEST Br and X Rds there is nothing to report.</p>	
	24		<p>An extraordinarily quiet night. 'B' Sqn reported at about 0715 hrs that they believed the enemy had withdrawn from our front, there having been none of the usual coughing and noise of take-over, as was usual at this time in the morning. 'C' Sqn was ordered by the C.O. to patrol through 'B' Sqn and try and confirm this. In the meantime this infm was passed to 227 Bde HQ, who, on questioning their own Bns, were of the same opinion. 'C' Sqn moved up NORTH through 'B' Sqn and at the same time moved a patrol on the RIGHT flank so as to try and have a look at LIEMPDE from the EAST. As a result of the early infm from these patrols</p>	

B.L.A.		<p>the C.O. was convinced that the enemy had drawn back, at least from our immediate front. 'A' Sqn was ordered by him to move up the main BEST - BOXTEL Rd to VRILKHOVEN and at the same time to tap out WEST towards our old "friend" the Rly running from BEST to BOXTEL. 'C' Sqn was soon held up by the bad going, and a number of mines and Rd blocks across the tracks in the woods, but 'A' Sqn were able to reach VRILKHOVEN with little incidence apart from a rather large Rd block which was mined and booby-trapped. The Rd block, of approx 120 yds, consisted of felled trees which were mined and booby-trapped. 'A' Sqn were able to by-pass this block to the EAST and push fwd. As all infm now pointed to the fact that the enemy had now made a general withdrawal. 'C' Sqn, as they could not get on, were ordered to concentrate at VLEUT. 'A' Sqn were going well and so were ordered to contact 51 (H) Div, who were reported in the village of LIEMPDE, approaching the village from the WEST. 'A' Sqn contacted 51 (H) Div (5 Seaforths) in LIEMPDE. Another patrol reached the outskirts of BOXTEL</p>	
B.L.A.		<p>confirming the Br on the main Rd was blown and crossing the river by assault boat they managed to contact the Dutch Resistance who confirmed that BOXTEL was evacuated but that the Highland Div was still shelling it and had made no attempt to enter the town. This was all passed back to Corps who said they would put the matter in hand. 'B' Sqn, at 1000 hrs, were released from the "Box" and allowed to reform into a Reconnaissance Sqn, and were ready to move Westwards towards OIRSCHOT at 1130 hrs, but 227 Bde were not prepared to let them go until Inf had confirmed that NASTEBEST was clear of enemy. At 1300 hrs it was stressed that unless the Sqn was released forthwith little could be done that day as the hours of daylight were very short. By nightfall, 'B' Sqn had reached SPORDONK where they caught a few Germans napping. The Br was partly blown. This Br they held until relieved by a Unit of 44 Bde at approx 2000 hrs. The RE were ordered to repair the Br during the night ready for an early start next morning. 'B' Sqn concentrated and spent the night in SPORDONK.</p>	
B.L.A.		<p>'A' Sqn, having completed their job, concentrated in the BEST area for the night, and 'C' Sqn remained in the LE VEULT area with orders to be ready to patrol with one Tp along the line of the WILHELMINA Canal on the front of 44 Bde so as to approach TILBURG from the SOUTH. Generally this was a very good day, especially by 'B' Sqn who advanced some 9 or 10 miles and by 'A' Sqn who did some very quick work on the BEST - BOXTEL Rd.</p>	

B.L.A.		<p>Unfortunately Major G.A. GADDUM was wounded during the afternoon when he stepped on an A.P. mine, and has since been reported as "died of wounds". Very few enemy were seen during the day and only 7 PW were taken. The main problems were Rd blocks, which were mined and booby-trapped, and the tracks, some of which were almost impassable while others were mined. (Infm about mines and definite locality of one mine-field where a carrier of 'A' Sqn had been blown up was pointed out to the Inf by the C.O. when he heard they were going by that route the next day. It is regretted that the Inf took no notice of this infm, and, of course, blew up one of their carriers alongside 'A' Sqn's).</p>	
B.L.A.	25	<p>'B' Sqn advanced on the front of 46 Bde to the outskirts of TILBURG. They had one brush with the enemy and they succeeded in killing some 10 - 15 Germans. Progress was slow owing to Br demolitions which were extensive. Contact was made with the enemy just short of MOERGESTEL and an Inf and Tank attack was planned. However, as this was forming up the enemy withdrew and the tanks went fwd and threw a Br across the stream which enabled our patrols to proceed. No other contact was made with the enemy until reaching the WILHELMINA Canal, it being quite clear from reports sent back that TILBURG could only be lightly held at this stage.</p> <p>Extensive patrolling was carried out to find what Brs were intact. 'B' Sqn managed to seize a Br at 189322 intact which would enable a raid to be carried out on the main Rly Br at 177327. 9 Cams took over from 'B' Sqn and were to put in an attack on the Rly Br to try and seize it during the night. The patrol from 'C' Sqn moving along the canal bank found progress almost impossible [owing] to slit trenches and very bad going. Every effort was made to by-pass, but by 1200 hrs it was found no further progress could be made and the patrol withdrawn.</p> <p>Locations:-  'A' &amp; 'C' Sqns, R.H.Q. - LE VEULT Area.  'B' Sqn - MOERGESTEL.</p>	
	26	<p>R.H.Q. moved to OIRSCHOT, being est by 0930 hrs. 'B' Sqn remained in area MOERGESTEL, being turned out of their covered accommodation to enable HQ 227 Bde to go in. 'C' Sqn were moved up to OIRSCHOT, arriving approx 1100 hrs. 'C' Sqn were ordered to carry out Offr patrols SOUTH of the WILHELMINA Canal, crossing the BIEST Br, with the job of contacting 4 Armd Bde and carrying out a full route recce of the rds in the area. Owing to traffic congestion these patrols did not get across the BIEST Br before</p>	

B.L.A.		<p>approx 1400 hrs, thus being left with very little daylight to complete their recce. However, some very valuable infm was obtained. 'A' Sqn was moved into OIRSCHOT during the afternoon, and it was decided as 'C' Sqn might be required to carry out further recces, to move them to the area BIEST and their location at OIRSCHOT allotted to the Tps of 'B' Sqn who had been turned out by 227 Bde HQ.</p>	
	27	<p>The Inf of the Div moved into TILBURG with virtually no opposition and the Regt was now squeezed out, and without a role. Locations were as under:- R.H.Q. - OIRSCHOT. 'A' Sqn - OIRSCHOT. 'C' Sqn Area of BIEST. 'B' Sqn - Sqn HQ and 1 Tp at OIRSCHOT; remainder at MOERGESTEL.</p>	
B.L.A.	28	<p>C.O. appreciated we should either be used for role WEST of TILBURG towards BREDA or moved back again to the area of the German counter-attack SE of HELMOND, and this being so, tried to find out from Div. It appeared clear there were two possible roles for the Regt. 1. To move to TILBURG and operate Westwards. (2) The whole Div to be called back to assist 8 Corps in stemming the German counter-attack against U.S. Armd Div. Strong representations were made to allow the Regt to remain in situ. Div HQ, however, moved that the Regt must move and concentrate at HILVARENBEEK. This meant one day's valuable maintenance was lost. A rep was ordered to report to Div HQ at 2130 hrs to receive instrs which were to the effect that the Div would move across to the general area of HELMOND to stop the counter-attack.</p>	
	29	<p>The Regt moved to HELMOND, arriving at 1415 hrs, and was billeted in the town. 'B' Sqn harbour area received a direct hit from a bomb during the night which made a crater 20' deep and 40' wide across, only 2 minor casualties but a tremendous mess.</p>	
B.L.A.	30	<p>The Regt was given the task of acting as long stop to the Inf Bdes to endeavour to prevent infiltration. This was done by placing 'A' Sqn to the NORTH operating from OMMEL; 'C' Sqn to the SOUTH operating from HEUSDEN. As very little was known about the enemy, active patrolling was ordered. 'A' Sqn wanted to move NORTH to SOUTH across 11 Armd Div front, but as 15/19 Hussars were in posn of obs with excellent covering fire posns it was decided that 15/19 Hussars would get better infm than ourselves over this type of country and the fire of the tanks would not be masked, therefore limited patrolling only was possible. Two cars were knocked out by an A/Tk weapon in LIESEL but the crews escaped without injury. 'C' Sqn managed to gain very valuable</p>	

		<p>infrm both of the enemy and of the ground, and in particular Lieut MORRIS put up a very good performance on the RIGHT of the Glasgow Highlanders where he greatly assisted in breaking up a very nasty German counter-attack. 'B' Sqn were detailed to provide two Offr patrols to contact and gain as much infm from U.S. Armd Div. The Sqn itself moved to the SOUTH end of ZOMEREN at approx 1400 hrs and remained in reserve. Locations for the night:- R.H.Q. - ZOMEREN 598107. 'A' Sqn - OMMEL 6115. 'B' Sqn - ZOMEREN 605086. 'C' Sqn - HEUSDEN 6212.</p>	
B.L.A.	31	<p>'A' Sqn carried out liaison patrols with 11 Armd Div. 'C' Sqn limited patrols on 227 Bde front. 'B' Sqn ordered to carry out RIGHT Flank protection to 227 Bde and to liaise with 7 U.S. Armd Div. 'A' Sqn were later pulled into res in the ZOMEREN Area. 'C' Sqn had a quiet day and remained in HEUSDEN.</p> <p>A Tp of 'B' Sqn had a most interesting party at the school 635069 which had been re-occupied by the Germans. This "battle" was entirely organised by the Tp Leader on the spot, and close co-operation with 7 US Armd Div. While the Americans were not prepared to do anything on their own to turn out the enemy, they were perfectly willing to give us all the assistance they could. The Tp was loaned two SP guns by the Americans and these guns brought to within 200 yds of the buildings around the school, and proceeded to deal with these buildings, while the Tp mopped up as the rabbits bolted. PW stated that the party consisted of 22 Germans, of which 13 were killed and 7 taken prisoner. Identification 6 Para LEHR Regt HERMANN. It was clear from study of the map that these buildings were vital to the Div as right flank protection, and in spite of the fact that they were in 7 US Armd Div area, as the Americans were not prepared to hold the buildings, 'B' Sqn were ordered to leave a troop in the area to hold these buildings at all costs.</p>

B.L.A.	1		<p>Locations : RHQ ZOMEREN (Holland Sh 26 NE 1/25,000, MR 598107)            'A' Sqn Concentrated for night OMMEL 6115            'B' Sqn School NIEWWE PAROCHIE            'C' Sqn HEUSDEN 6212</p> <p>In the morning 'A' Sqn relieved 'B' Sqn in the NIEWWE PAROCHIE area, and took over the posn at the sch, on the bdy between 15 (S) Div and 7 US Armd Div. One tp held this posn and the remainder of the Sqn was available for patrolling if necessary. 'B' Sqn moved up to the area S of HEUSDEN and remained at rest the whole day. 'C' Sqn were to patrol down the LIESEL - MEIJEL Axis in front of 46 Bde. During the day a call was made on 'A' Sqn for patrols who were to patrol in the area S of the HLI posn, one Tp of 'B' Sqn was put under comd 'A' Sqn to assist them in this patrolling. Patrolling was carried out in this area and in front of 44 Bde psns from WEST to EAST, that is towards LIESEL - MOOSDIJK rd. Generally infm was good; a number of mines and mined areas being discovered and enemy posns pin-pointed at a number of places. A posn of about pl strength discovered at Pt 283 (6507) yesterday, was again investigated prior to an attack by 2 A &amp; SH. During the day the patrol of 'A' Sqn spotted a Panther and acted as OP while Med arty stonked it. A definite hit is not claimed but no further movement was seen from the tank. 'C' Sqn carried out their task in front of 46 Bde, pinpointing two 75mm guns and various inf posns. Mines were also discovered, mostly in the verges and on the tracks leading to the main rd. Later in the afternoon 'A' Sqn reported that their posn at the sch on the inter-allied bdy was engaged by some enemy NBWs and SP guns. A request to Div for arty sup was refused on the grounds that the enemy were over Div bdy. However, a rep was sent to contact the US fmn on our right who were very helpful and used their guns to good effect. At about 1800 hrs 227 Bde enquired if we were holding the posn in the woods S of the HLI (which we had held</p>	

		last night). As the Argylls had attacked during the day towards the pimple (Pt 283) it had not been considered necessary for the Regt to hold the wood posn, but as an insurance 'B' Sqn took over these posns in the dark.	
	2	RHQ static at same locn. 'A' Sqn continued patrolling in the area S of the HLI and 227 Bde and maintained their posn at the Sch. This was found to be very useful as a means of liaison between ourselves and the Americans. Generally the day was quiet except for intermittent shelling. 'A' Sqns patrols visited the pimple attacked by the Argylls yesterday and found no enemy in that area. 'C' Sqn patrolled on the axis LIESEL - MEIJEL and pin-pointed several more enemy posns S of MOOSDIJK. During the day Comd of this Bde wanted further patrols and it was necessary to put in 'B' Sqn who had been in reserve in the area of HEUSDEN.	
	3	RHQ static same locn. 'A' Sqn had a very quiet day, still holding their posn at the Sqn and patrolling in the area of the pimple to ensure no enemy infiltrated. 'B' Sqn were ordered to patrol in front of 44 Bde during their adv towards MEIJEL. In point of fact very little progress was made as the Inf were virtually in contact before the adv started. However, we were able to flush several 75mm A.Tk guns which were on the E of the DEURNE Canal which could certainly not have been discovered unless B Sqn did this patrol. C Sqn patrolled along the main axis HEUSDEN - MEIJEL and discovered several minefields and one specially good foot patrol by Lt. ROYLE who discovered a crater and sent back accurate infm despite very hy enemy shelling. B Sqn were placed under comd 46 Bde for flank protection to the Div during the attack on MEIJEL, which is to take place tomorrow.	
	4	The Div attack was postponed for 24 hrs so B Sqn were not needed today. A and C Sqns both remained in their last locns and generally a very quiet and restful day.	
	5.	B Sqn under comd 46 Bde, took up their posns as left flank protection in the area E of LIESEL, facing the canal. The Div attack fizzled out as the majority of tanks were bogged at the commencement of the attack. RHQ, A and C Sqns remained static in same locns.	
	6	A quiet day. B Sqn remained on left flank protection role under comd 46 Bde. The Regt to arrange our own reliefs of this Sqn in conjunction with 46 Bde. Regt relief plan is: 1 Sqn to be under 46 Bde comd for flank protection role; 1 Sqn in res in the area of HEUSDEN for any immediate tasks and 1 Sqn to rest in HELMOND.	

			This is to take effect tomorrow 7 NOV. Regt harbour rep arranged accm in HELMOND.	
	7		C Sqn relieved B Sqn and came under comd 46 Bde in the bog area E of LIESEL. They had a very quiet day and had nothing to report. B Sqn moved to HELMOND and took over the rest area. A Sqn in reserve in the HEUSDEN area, but kept their commitments of a standing patrol at the Sch on the inter-allied bdy. RHQ static same locn.	
	8		A quiet day: all Sqns in same locns. During the afternoon A Sqn were relieved of their commitments of the Sch and RHQ moved into ZOMEREN itself (593116) to allow elements of 51 (H) Div to take over on our rt in the general area as occupied by 7 US Div.	
	9		A quiet day. A Sqn relieved C Sqn at 1100 hrs. C Sqn to rest in HELMOND. B Sqn into res at HEUSDEN. In the afternoon the Sch suddenly assumed importance in the minds of the staff and a tp was sent back there for the night.	
	10		A Sqn left flank protection under comd 46 Bde. C Sqn at rest in HELMOND. B Sqn in reserve at HEUSDEN, retaining post at the Sch. RHQ were static in same locn.	
	11		B Sqn relieved A Sqn and A Sqn moved to HELMOND. C Sqn to HEUSDEN.	
	12		B Sqn left flank protection of Div. During the night they reported an enemy patrol that approached their posn. This was fired at and withdrew. They had nothing else to report except a slight increase in shelling in their general area. Remainder of Regt no change.	
	13		B Sqn left flank protection. A, C and RHQ static in same locns. A warning order was received from Div that a Sqn might be needed for an unspecified role on the morning of the 15th.	
	14		C Sqn relieved B Sqn who moved to HELMOND. A Sqn to HEUSDEN. OC A Sqn attended Div O Gp for role tomorrow with 7 Seaforths.	
	15		C Sqn in the bog on left flank protection. B Sqn at rest in HELMOND. A Sqns task was cancelled almost as soon as the orders were given and they remained in Regt res at HEUSDEN.	
	16		Locns unchanged. Nothing to report.	
	17		A Sqn relieved C Sqn who moved to HELMOND.	
	18		A Sqn patrolled as ordered by 46 Bde and reached the canal banks at 707128 and made contact with small enemy outposts in that area. They had nothing further to report. During the time the Sqns were resting in HELMOND a small percentage was also sent from RHQ and HQ Sqn.	

19		<p>In view of pending ops C Sqn were recalled from HELMOND and ordered to harbour by dark in the MEIJEL area. One of their tps was to be ready to move in the morning under comd of B Sqn over the Canal de DEURNE. The whole of the MEIJEL area was very heavily mined and C Sqn lost two vehs whilst moving into a fwd post where they were to relieve the RSF to enable the Inf to be in posn to follow B Sqn in the morning. No personnel cas. A RHQ harbour rep reced MEIJEL for a likely area for RHQ to move up to. A Sqn patrolled to the canal again for 46 Bde to confirm if possible whether the enemy had moved back from the canal to HELENAVEEN. A Sqn patrol did not make contact with the enemy. Plan for 20 NOV: 227 Bde are to cross the Canal and move up to BERINGEN. 49 Recce holding BERINGEN for the night. Regt task: B Sqn with under comd one tp C Sqn to patrol up the main BERINGEN - SEVENUM axis under 227 Bde, also to patrol northwards towards HELENAVEEN. C Sqn to move over the Canal as soon as practicable after B Sqn and harbour as a Regt res in the BERINGE area. A Sqn to precede 46 Bde when the necessary bridging has been made and HELENAVEEN cleared.</p>	
20		<p>RHQ moved to MEIJEL (709075) and A Ech and HQ Sqn moved to HEITRACK (694108). B Sqn moved over the Canal at first light, and reached the outskirts of HELENAVEEN by midday. They made several small contacts in the woods S of this village but the mines and bad going made movement difficult. In the centre they reced up the main Div axis which was in fact a track across peat. They made best progress possible under very difficult going conditions discovering much valuable infm regarding mines and craters etc., on the route, and also pin-pointing several enemy posns on the centre line and also on the rt flank. By last light the Sqn was half way to SEVENUM and the Inf of 227 Bde moved up and took over from them. The Sqn then drew to the BERINGEN area. C Sqn had moved over the canal as ordered and remained in res all day. B Sqn to be relieved by C Sqn in the morning. On A Sqns front 46 Bde made very slow progress because of bad going and A Sqn did not move at all remaining in the LIESEL area.</p>	
21		<p>C Sqn moved out on the main axis at first light and during a day of very good patrolling obtained excellent infm despite the very bad weather and fearful going. By night they had reached BROEK (8011) on the outskirts of VOORSTE STEEG. They made contact in BROEK with SP guns and in the general area they found a fair number of mines. The bridge on the outskirts of VOORSTE STEEG was found to be blown. The proposed Div axis (SKYE route) was fast</p>	

		<p>becoming a quagmire. A Sqn got over the canal at HELENAVEEN at midday and obtained much useful infm regarding the approaches to SEVENUM from the WEST. They encountered one A.Tk gun but again their main difficulties were mines and the bad going on the tracks. This Sqn was withdrawn by 46 Bde to their old area of LIESEL for the night. C Sqn were ordered to remain in the area of BROEK in the open for the night as the rds were so bad that it was not practicable to return to BERINGEN. The main infm of the day was of only slight resistance but mines, craters, and mud in plenty.</p>	
	22	<p>A Sqn less one tp reverted to comd of the Regt. The one tp did patrols in the area of AMERIKA on the line of the VENLO - HELMOND rly for 46 Bde. Remainder of the Sqn remained at LIESEL. B Sqn remained as Regt res at BERINGEN. RHQ moved over the canal and HQ were established BERINGEN (754058) C Sqn. This was a grand day for this Sqn. By 1000 hrs they were in SEVENUM and reported the town clear apart from demolitions (the Church steeple blown across the rd) and general mining of all the exits from the town towards the R. MAAS. By midday they had reached the rly crossing N of the town at 819157 and reported craters and slight enemy opposition from the area of the rly stn. This was successfully dealt with. At 1200 hrs Div ordered a patrol to investigate HORST (8318) and HEGELSOM. By 1600 hrs the Sqn had completed this and reported both towns clear. A grand day by C Sqn of quick adv, but of mines, demolitions and again, only slight enemy opposition. Nine weasels had been obtained before this op started which we found invaluable for supplying the Sqns. By nightfall today all the Inf were trying to borrow these from us.</p>	
	23	<p>The Regt was given four priority tasks for today by the GOC which were to be carried out by C Sqn. First, to report on the village of KASTENRAIJ. Secondly, TEN RAIJ. Thirdly, BROCK, and fourthly the Woods just S of BROCK. Despite very hy mining especially on the northern exits of HORST, and demolitions and rd blocks, C Sqn reported the first priority, KASTENRAIJ, clear by 1215 hrs. This enabled the inf of the 3 Div to march down the rd and occupy this village. The third and fourth priorities of BROCK and the woods to the south, were reported clear by 1100 hrs, and on the second priority TENRAIJ they made contact at 1500 hrs with MGs dug-in along the line of the rly. This patrol carried out foot recce about 500 yards from the village itself and reported all that was necessary to Div by 1500 hrs, namely that the village was held; and reported the pinpoints of several enemy posns. Another very</p>	

		good day by C Sqn, who had obtained a vast amount of extraordinarily accurate infm, especially regarding mines, craters, rd blocks, and demolitions.	
	24	C Sqn were again ordered to patrol to TENRAIJ and to confirm that the enemy was still there. Patrols progressed well despite hy mining and demolitions and without any assistance from sappers or of scissors tk-br, both of which were requested. They made contact about 1,500 yds from TENRAIJ itself which disclosed that the enemy had seeped fwd standing patrols about 1,000 yds during the night. By 1400 hrs the Corps Comd told the Regt that C Sqn patrols could withdraw as they had got all the infm he desired. Patrols withdrew having done another very good job.	
	25	RHQ moved up to VOORST STEEG (805128) and HQ established there. This was a day of local patrolling by C Sqn mostly on behalf of the inf who had not the experience to really patrol on their own behalf. Our own inf took over in TENRAIJ and the towns of HORST and SEVENUM pushing up behind C Sqn along the line of the rly running into BLERICK. The MAAS pocket has shrunk considerably during the last few days largely due to C Sqn who have done terrific work and is now only a small strip along the river bank with pockets in the riverside villages and in the town of BLERICK which is the western suburb of VENLO. During the day the remainder of the Regt moved up, A Sqn to HORST and B Sqn to ULFERHOEK (825153). Plan for tomorrow. C Sqn in front of 227 Bde to recce the villages of WANSSUM - BLITTERWIJK - BROEK HUIZENVORST, and A Sqn in front of 46 Bde to make a firm base N of GRUBBENVORST and patrol N to BROEKHUIZEL, and flush the hun N so as to leave 49 Div clear to deal with BLERICK.	
	26	By 1030 hrs C Sqn has reached all three of their objectives and had reported all the infm necessary. A Sqn recced out in front of 46 Bde and by midday the MAAS pocket on our front was only a very narrow strip which consisted of a few strongpoints along the river bank. The Div Inf moved up and took over from the Sqns ready to finish the Hun off during the course of the next day. The Sqns returned to their harbour areas for the night. 49 Div closed in preparatory for their attack on BLERICK.	
	27	The Regt had no op role today. C Sqn started a much and well deserved rest. Locns. RHQ - VOORST STEEG, A Sqn - HORST, B Sqn - ULFERHOEK, C Sqn - HORST.	
	28	No change from yesterday.	

	29		There was regrouping on a Corps level; 15 Div to deal with BLERICK and NOT 49 Div. The Regt was given commitment of one Sqn who were to act as left flank protection to the attack on BLERICK and to dominate the W bank of the MAAS by observation. The Sqn area was S of GRUBBENVORST with posns along the wood (8193) and the rly line running N from VENLO. B Sqn took over this commitment and were in posn by the early afternoon. Sqn HQ was established at 869124. RHQ, A and C Sqns remained in same locns.	
	30.		RHQ, C and A Sqns in same locns. B Sqn in posn S of GRUBBENVORST. They had nothing to report during today except occasional arty and NBW fire.

B.L.A.	1		'B' Sqn in the line holding from excl GRUBBENVORST to 8112, with Sqn HQ at 869134. RHQ located at VOORSTE STEEG 805129. A quiet day apart from some NBW and Arty fire.	
B.L.A.	2		<p>Situation unchanged. 'C' Sqn preparing to take part as Gap and Traffic Control for Operation "GUILDFORD" (44 (L) Inf Bde attack on BLERICK). The Regiment is running the Control layout which was worked out on Exercise "BLACKCOCK" in ENGLAND last year. There are to be 6 lanes, one for wheels, one for tracks, and one spare on each of the two main routes fwd, and we are having three control points on each lane, an entrance party, a mid-way party and an exit party. Officers are to be in charge of the entrance and exit parties on each lane and Sqn HQ are to be Regulating HQ. It was represented that to enable this task to be carried out satisfactorily, better protection than an Armd Car or Carrier would be required. Four Churchill Tanks were therefore lent to us, much against the wishes of the Tk Bn Comd concerned.</p> <p>'B' Sqn in the fwd area were in the centre of a dummy FUP, but despite the carrying out of deception on a fairly large scale, incl the noise of tanks, and activity to simulate the forming up of inf and arty, they did not suffer any real enemy "stonking" during the day.</p>	
	3		Situation unchanged. 'C' Sqn Gap Control party worked very smoothly and to the satisfaction of all concerned, the G.O.C. sending a congratulatory message thanking Major MILLS, his Officers and ORs for a good job of work. 'C' Sqn party suffered no casualties in spite of exceptionally heavy shelling, which proved the value of the Churchills. 'B' Sqn had a very quiet day with nothing to report.	
	4		Situation unchanged.	
	5		'A' Sqn relieved 'B' Sqn. 'A' Sqn made their HQ at 869134. 'B' Sqn returned to rest, establishing their HQ at 834182.	
	6		Situation unchanged.	

B.L.A.	7	Regt Harbour rep sent to LIEROP 573156 to recce a suitable harbour area for RHQ, 'A' Echelon and for the two Sqns not committed to the role on the banks of the R. MAAS.
	8	Harbour area at LIEROP confirmed.
	9	'A' Sqn relieved by 'C' Sqn, to come under comd 44 (L) Inf Bde. RHQ and 'A' Echelon moved to new location, passing S.P. at 1000 hrs; locations as under:- 'A' Sqn - 834182.                    'B' Sqn - 824153. 'C' " - 869133                        RHQ - 573156.
	10	'A' Sqn moved to LIEROP. The accn is very poor, billets being in barns and the attics of the farms, but the advantage of being near a centre of entertainment at HELMOND, and well out of range of enemy shell-fire out-weigh this.
	11-12.	Situation unchanged.
B.L.A.	13	Situation unchanged. Field Marshall Sir Bernard L. MONTGOMERY visited the Div to present medal ribbons to recipients of awards granted to date. He presented medal ribbons to 5 Officers and 7 ORs of the Regiment and afterwards spoke to the assembled recipients of the Div on the War in general, and later to the Comds and 2 i/c's of the Bns and Regts in the Div on the War in more detail.
	14	'B' Sqn relieved 'C' Sqn. 'C' Sqn moved to LIEROP.
	15-19.	Situation unchanged.
	20	'A' Sqn relieved 'B' Sqn and came under comd 44 (L) Inf Bde. 'B' Sqn returned to LIEROP. Over the last 7 days there has been a certain amount of enemy patrol activity on our front. The Sqn is, in fact, holding the line opposite two of the seven most likely crossing places on the Div front.
	21	Situation unchanged. During the night one of their posts was ambushed by a fairly strong enemy patrol and 9 ORs reported missing. The post ambushed were in houses and would appear to have been taken more or less by surprise.
B.L.A.	22	Regt commitment is changed. The area of GRUBBENVORST is now to be held by an Inf Bn and the Regt commitment is to be the village of HOUT BLERICK, which is to be taken over today. 'A' Sqn was relieved from the commitment at GRUBBENVORST by 6 RSF and 'C' Sqn took over the new posns in the village of HOUT BELRICK from 6 KOSB. RHQ & 'B' Sqn remain at LIEROP.
	23-27	'C' Sqn in the area of HOUT BLERICK under comd 44 (L) Inf Bde. During this period they had nothing to report except for the cold and damp. Remainder of the Regt at rest and maintenance in LIEROP.

			'A', 'B' & 'HQ' Sqns each in turn were able to organise a Christmas Dinner, 'A' & 'B' Sqns holding theirs in HELMOND.	
	28		'B' Sqn relieved 'C' Sqn. 'C' Sqn to LIEROP.	
	29-30.		Situation unchanged. 'C' Sqn Christmas Dinner in HELMOND on 30 Dec.	
B.L.A.	31.		<p>Regt has one Sqn committed in the line. i.e. 'B' Sqn under comd 44 (L) Inf Bde at HOUT BLERICK. Two Sabre Sqns are resting; 'A' &amp; 'C' Sqns in the village of LIEROP; RHQ &amp; 'A' Echelon static and located at LIEROP 573156. 'B' Echelon has remained the whole month in the Div RASC area at ZOMEREN 598107.</p> <p>The following courses were run during the month:-</p> <p><u>Wireless Cadre.</u> Commenced 11 Dec. Place	Date	Hour	Summary of Events and Information	References to Appendices
B.L.A.	1		Regiment located as under:- RHQ, 'B' & 'C' Sqns, LAD - Monastery, TILBURG (191305). 'A' Sqn billeted in TILBURG. 'A' & 'B' Echelons - 192304. A further wireless exercise was held today - Ex SNOGGER II. The points noted yesterday were brought out and righted.	
	2		Regt static and in same locations. Regt Harbour party sent to NIJMEGEN to recce conc area for Op VERITABLE.	
	3-5.		Regt static.	
	6		Regt moved up to conc area for Op VERITABLE. Time past SP 1900 hrs; time of arrival at NIJMEGEN - 'B' Sqn 0300 hrs, 'C' Sqn 0345 hrs, RHQ 0345 hrs, 'A' Sqn 0600 hrs.	
	7		Regt static. Maintenance and preparation for Op VERITABLE. 'C' Sqn Gap Control party join 46 & 227 Bdes at 2300 hrs ready to move off with Bde columns at 0400 hrs on 8 Feb. Full details of this Gap control organisation and how it worked, with lessons, is given at Appx 'A'.	
B.L.A.	8		Regt (less 'C' Sqn gap control party) static in NIJMEGEN. Op "VERITABLE" started. Tanks of Regt:- (i) Regt to endeavour to pass through inf and recce advance of two mobile columns - (a) Axis CLEVE - CALCAR, (b) Axis CLEVE - UDEM. (ii) Regt to recce route between CLEVE and the REICHSWALD FOREST to allow 2 HCR to pass through and recce towards GOCH - "flood the country with Armd Cars".	
	9		Regt static in NIJMEGEN, waiting for off! (a) 'B' Sqn allotted task of passing through inf and reconnoitring route through or around CLEVE and to carry on if possible as far as the rly line, and then if possible to push on towards UDEM. (b) 'A' Sqn are to be ready to pass through CLEVE and push towards CALCAR. (c) 'C' Sqn, as the majority of officers and senior NCOs were on Gap Control and it will take them some little time to re-organise once released, in reserve.	

B.L.A.		<p>The going was deplorable and the tracks cut up badly, which resulted in the attack proceeding slower than was anticipated. 'B' Sqn ordered to send an offr patrol to recce routes NIJMEGEN - KRANENBURG. Reports were as follows:-</p> <p>Northern route through WYLER under 2'6" of water - Southern route fair but very heavy traffic.</p> <p>At 1445 hrs Regt was given orders by GOC to move off, the Southern Route to be cleared for Regt's move. Order of march - 'B' Sqn, RHQ, 'A' Sqn, 'C' Sqn. 'A' Echelon to remain at NIJMEGEN.</p> <p>The Northern route was not a practicable proposition as it was 2'6" under water, and the accidents through vehs going off the road straight into flooded country-side would be considerable, and the C.O. decided the risk was not worth taking. The Southern route was still heavily congested with traffic moving in every possible direction, and this seriously delayed the fwd mov of the Regt and resulted in the leading patrol of 'B' Sqn arriving at the X Rds in NUTTERDEN at 1715 hrs. The light was beginning to fail and 'B' Sqn were ordered to push on with the greatest possible speed to make the most of what little daylight was left. Pushing SOUTH from NUTTERDEN 'B' Sqn patrols ran into tks and buffaloes returning, having placed the inf on their objectives. This made fwd mov of our patrols impossible and by 1800 hrs little or no progress had been made, and it was then dark. Div HQ were asked what was required of the Regt during the night, and we were ordered to continue in the dark in an endeavour to find routes through CLEVE and to move as far as the rly line. Mov light, i.e. searchlights, were in the area and gave a little assistance. 'B' Sqn carried on all night and gained some most valuable infm, but, of course, infm could not be guaranteed as accurate. During the night several recce parties from 43 Div called in at RHQ. These recce parties appeared to be under the impression that CLEVE was in our hands and it was merely a matter of motoring through and signposting routes without any form of protection whatsoever. The majority of these recce parties were persuaded that there were large quantities of the enemy still in the area. At approx 2330 hrs a Bn Gp of 43 Div moved up to CLEVE area with a patrol of 'B' Sqn in front of them. This Bn Gp made quite good progress, meeting a certain amount of enemy opposition, but unfortunately at about 0130 hrs they halted and made no further mov during the night, although it did not appear to our patrols that there was anything to justify their stopping. It is considered that had this Bn Gp carried on energetically, giving 'B' Sqn patrols adequate sp, it would have been possible to have been est on the rly</p>	
B.L.A.			
B.L.A.			

			<p>line at first light. Without this Bn Gp following up it was not a fair risk of war to ask the patrols to push on alone, particularly as the opposition was beginning to stiffen.</p> <p>During the night 'B' Sqn patrols collected some 2 Offrs and 50 OR POW who had no idea of what the sit was and thought that they were arriving to reinforce the fwd defs of the SIEGFRIED line.</p> <p>The Regt, less 'B' Sqn, harboured in the area of NUTTERDEN for the night.</p>	
B.L.A.	10		<p>Sitrep at 0730 hrs, based on infm obtained by 'B' Sqn, was as follows:- "In CLEVE there only appeared to be a few disorganised enemy, but no definite conclusion should be drawn until it is lighter. The Bn Gp of 43 Div is now on the outskirts of CLEVE where they are static, and have been there for some hours without being fired at".</p> <p>At 0810 hrs 'A' Sqn was ordered to move off and pass through CLEVE and recce towards CALCAR, but at 0900 hrs 'B' Sqn reported confused fighting had broken out in the centre of CLEVE, and 'A' Sqn was stopped. During the day 'B' Sqn continued to patrol in the area on their original task of trying to get out to the SOUTH. Some pockets of enemy were encountered and some SP guns located. One Scout Car was knocked out.</p> <p>During the day 'C' Sqn Gap Control party came in by bits and pieces, having been very badly bogged down. They should have joined us as the Regt passed through KRANENBURG the evening before.</p>	
B.L.A.	11		<p>'A' Sqn relieved 'B' Sqn and continued patrolling, but found the sit was very much the same as the day before, and it would appear to be an inf task to soften up the enemy before there was any hope of us getting out, and therefore at 1200 hrs 'A' Sqn was drawn in to NUTTERDEN again.</p> <p>At 1700 hrs Div HQ ordered the Regt to send a Sqn forthwith to CLEVE and try to push out onto the CALCAR Rd as CLEVE was now firmly in our hands. 'A' Sqn was allotted this task and managed to get tps away in ¼ hr despite the fact that they had been stood down. 'A' Sqn managed to get patrols through the fwd inf in CLEVE and very shortly came under fire. As it was getting dark it was quite impossible to carry out any further recce, so 'A' Sqn was withdrawn.</p> <p>Orders were issued during the evening for a mobile column, with the Regt, less one Sqn, leading to push out in the direction of CALCAR.</p>	
B.L.A.	12		<p>At 0730 hrs 'A' Sqn moved out from CLEVE across an improvised Cl 12 br and proceeded to fan out on the far side. The Cl 40 br was not ready before 1030 hrs and so no tanks or inf in Kangaroos could pass</p>	

B.L.A.		<p>before this hour. The Regt, less one Sqn ('B' Sqn) was under comd 7 Seafortths, who were mounted in Kangaroos, with a Sqn of tks also under comd Seafortths. By 1100 hrs it was clear that the enemy were holding in some strength on the outskirts of CLEVE and that it was an inf and tk battle and not a Reconnaissance Sqn's job. On the infm given by 'A' Sqn the Force Comd decided to push his van-guard straight through and destroy the enemy which we had encountered. At approx 1230 hrs the van-guard passed through CLEVE onto the CALCAR Rd. The inf with tk sup fought their way fwd, 'A' Sqn patrols passing through whenever there was a pause, but it is becoming perfectly clear that the enemy was going to fight all the way back, and therefore our patrols were withdrawn back along the main axis to the outskirts of CLEVE. As it was getting dusk the inf reached HASSELT and had a confused battle there, and eventually withdrew to the WEST side of QUALBERG for the night. Our patrols naturally withdrew at dark.</p> <p>The Regt was now concentrated at CLEVE except for 'B' Sqn who were still in the NUTTERDEN area.</p>	
B.L.A.	13	<p>'C' Sqn relieved 'A' Sqn and carried out similar patrols. They found that the enemy had pulled back along the whole front. Mines were located at 938534 on the outskirts of HASSELT, but these were by-passed and HASSELT reached at 1100 hrs and found to be clear. A carrier tp was left to hold HASSELT until relieved by the inf. A patrol pushed fwd, but contacted enemy inf in the wood 948531. Enemy were also encountered on the southern outskirts of ROSENDALL 9452. Very hy and accurate fire was brought down on these patrols and it was necessary for them to withdraw. A further patrol was endeavouring to make for HURSBERDEN but could get no further than Rd Junc 940557, where it came under fire from SP Guns. A patrol working northwards from HASSELT could only reach the line of the rly where it also came under fire. It was quite obvious that the enemy was still prepared to fight hard.</p>	
	14	<p>'C' Sqn were ordered to repeat the patrols of the previous day to check up whether there had been any alteration during the night. Considerable flooding was found both on the CLEVE - CALCAR Rd and on the CLEVE - KELLEN rd. 'C' Sqn endeavoured to find some way round the floods keeping to the NORTH of CLEVE - CALCAR Rd as the inf were fighting SOUTH of it. They found it quite impossible; even the rly CLEVE - CALCAR was flooded to anything up to 6'. Efforts were made to test the depth of water by use of Recce boats. 'A' Sqn were moved up to BEDBURG sanatorium in case there should be a break to the SOUTH. 'B' Sqn moved up from NUTTERDEN in place of 'A' Sqn.</p>	

	15-18		<p>Locations:- RHQ, 'B' &amp; 'C' Sqns - CLEVE.  'A' Sqn - BEDBURG.  'A' Echelon, LAD, - NIJMEGEN. 'B' Echelon - GOIRLE.</p> <p>On 16 Feb 'A' Echelon were ordered up from NIJMEGEN to NUTTERDEN, but flooding was so bad that only 3-tonners could get through, and therefore 'A' Echelon was split and small vehs returned to NIJMEGEN eventually joining up on 18 Feb 45.</p>	
	19		<p>RHQ moved to BEDBURG to be close to Div HQ. 'A' Sqn were ordered to send patrols to discover the sit in GOCH and to see if there was any possibility of pushing through the town with our patrols. The fighting, however, in GOCH was still extremely hy and it was quite out of the question for any patrols to get through.</p>	
	20		<p>'A' Sqn were again ordered to send contact patrols to GOCH, but again the sit was found to be quite unsuitable for us.</p>	
B.L.A.	21		<p>The Regt was ordered to find out the posn at the Southern end of the wood 9542, which was reported to be clear of enemy by an inf patrol. 'B' Sqn were ordered to move up from CLEVE to PFALZDORF and given the job of finding out the posn at the bottom end of this wood and to est themselves there to prevent infiltration through the wood, so giving left flank protection to our inf attacking southwards. All the tracks in the area were found to be almost impassable, having been badly churned up by the tks. A tp of carriers was pushed through the inf at BUCHOLT and soon came under considerable arty and mortar fire from UDEM. This tp pushed on and came under S.A. fire from the houses in area 958431. As a result of hy Besa fire and setting a haystack on fire they collected from these houses 30 POW, incl the crew of a Panther tank. It was clearly quite impossible to get a mounted patrol down to the bottom of the wood, and therefore it was decided to get down a dismounted party during the night. The Assault Tp of 'C' Sqn was placed under comd 'B' Sqn. At about 0300 hrs 'B' Sqn was est at the X Tracks 957424.</p>	
B.L.A.	22		<p>At first light 'B' Sqn pushed out dismounted patrols to discover the exact posn at the bottom of the wood. These patrols soon ran into trouble, encountering mines and coming under fairly hy spandau fire. An SP gun also opened fire, bursting the rounds in the trees. 'C' Sqn Assault Tp Leader, who was in comd of the party decided it was not on to stay at the X Tracks and withdrew his whole party back level with the inf coys in the area 951428.</p> <p>This wood was under very hy shell-fire all day and personnel were not properly organised for a protracted stay in slit trenches. 'A' Sqn Assault Tp was therefore placed under comd 'B' Sqn to enable reliefs to take place and troops to be rested and re-organised out</p>	

			of range of this hy shelling. 'C' Sqn were moved up from CLEVE to PFALZDORF and later into GOCH, 'B' Sqn having moved across to the farm at 944445 the previous evening.	
B.L.A.	23		The inf were ordered to relieve us in the posns in the wood. Again the shelling was very hy all morning and it was not possible to commence this relief until approx 1400 hrs. During the morning 'B' Sqn filtered back by troops to GOCH, where they harboured. 'C' Sqn were ordered to send out carrier patrols to give left flank protection to 44 Bde during their attack to the SOUTH. They were in posn at 1030 hrs and were relieved by inf at 1800 hrs. They were under very hy shell fire all day, losing 1 killed and 3 wounded; 5 vehs ditched or burnt out. The going was quite impossible owing to softness of the ground, which had been cut up by tks.	
	24		Harbour parties sent to LOUVAIN. Shortly after they had left fresh orders came for harbour parties to proceed to TILBURG. Locns:- RHQ, 'A' Sqn - BEDBURG. 'B' & 'C' Sqns - GOCH. 'A' Echelon, LAD, - CLEVE.	
	25		Regt crossed SP at GOCH at 0740 hrs and reached TILBURG 1200 hrs. The Regt was accommodated in civilian billets in the town.	
	26-28		TILBURG. Maintenance and re-organisation.

B.L.A.	1		Ref Maps 1/100,000, Sheets P.1., Q.1. Regt concentrated and accommodated in TILBURG, HOLLAND. Maintenance and re-organisation.	
	2-4.		Maintenance and re-organisation.	
	5		Regt Harbour rep sent to BOURG LEOPOLD.	
	6		Regt & LAD arrived in BOURG LEOPOLD, and were accommodated in barracks. T.P.M. received to say that change over from HUMBER to DAIMLER Armd Cars was to take place forthwith.	
	7-10.		Re-organising. DAIMLER Armd Cars collected from Second Army Vehicle Park and HUMBERS handed in.	
B.L.A.	11		In view of the change over from HUMBER to DAIMLER Armd Cars, Regt D & M and Gunnery Cadres were arranged. Attached as Appx 'A' is programme and layout of gunnery & D & M courses, also a statement of the instructors lent to the Regiment by other Units. No arrangements for any training were made by Higher Authority, but all had to be made by mutual arrangement with Units concerned, which entailed motoring some 500 miles.	
	12-20.		Maintenance, re-organisation and Cadres (D & M and Gunnery).	
	21		Regt left BOURG LEOPOLD at 2300 hrs for concentration area for Operation "TORCHLIGHT" (the RHINE crossing), arriving at WINNEKDONK, GERMANY, (MR ) in the early hours of the morning 22 Mar 45.	
	22		Regt concentrated at WINNEKDONK and briefed for Operation "TORCHLIGHT". In the initial stages of the crossing each Sqn to supply six half-tracks for the towing of storm-boats and bridging materials. In addition six carriers were to be supplied to tpt Mil Government personnel over the RHINE. Two carriers to be supplied to RASC to act as wireless link to RASC Dump on EAST bank of RHINE. 'C' Sqn were to supply five officer patrols to recce the immediate vicinities of the bridge-head, to be passed over the RHINE as and when the situation warranted.	

B.L.A.	23		The Assault Crossing of the RHINE started at 2130 hrs by Commandos, followed by the 51st (Highland) Division and our own Division at 0200 hrs on 24 Mar 45.	
	24		'C' Sqn patrols called forward to marshalling area at 1500 hrs to cross the RHINE, but remained in the area until the early hours of 25 Mar 45, except for one carrier patrol which crossed the river at approximately 1500 hrs and proceeded to patrol to contact the Airborne Division.	
	25		Officer patrols of 'C' Sqn moved over the RHINE and began to reconnoitre in front of 44 Bde. RHQ, 'A' & 'B' Sqns moved to Marshalling area STAR ready to move across the RHINE when called forward, leaving WINNEKDONK at 2300 hrs.	
B.L.A.	26.		Regt began to move across Cl 9 br at 0600 hrs, RHQ crossing at 0700 hrs, and concentrated in the area 103472. 'A' and 'B' Sqns concentrated. 'C' Sqn under comd 44 Bde. In the late afternoon 'B' Sqn in support of 227 Bde to secure the left flank and link with 51 (H) Division at REES.	
	27		RHQ and 'A' Echelon same area. 'C' Sqn under comd 44 (L) Bde reconnoitring the approaches to BOCHOLT. During the afternoon 'A' Sqn were sent out to hold a gap between 44 and 46 Bdes, 'B' Sqn remained in support of 227 Bde on the left flank. RHQ moved in the evening to the village of HABERN.	
	28		'C' Sqn remained under comd of 44 Bde, and the Regiment, less one Sqn, were made responsible for the whole of the left flank as from 1800 hrs, as 227 Bde were withdrawn to take part in the operation to clear HALDERN tomorrow. 'A' Sqn were moved back from the gap between 44 and 46 Bdes to assist in flank protection.	
B.L.A.	29		'C' Sqn still under comd 44 Bde. 'A' & 'B' Sqns on the left flank. 'B' Sqn were ordered to carry out a shoot to assist 227 Bde to get on to their objective. It was obvious to us from observation that the enemy had withdrawn from the general area, and during the advance of 227 Bde towards their first objective, other British tps were observed advancing from the WEST towards HALDERN (227 Bdes final objective). This was checked up and it was found that HALDERN was already in possession of troops of 3rd Br Division. This information was immediately passed back to Divisional HQ and a disaster averted as the 15 (S) Inf Div had been ordered to capture HALDERN at all costs and they had no knowledge of 3rd Div being in possession.	
	30		The Regt was ordered to concentrate and moved up to 150486, except for 'C' Sqn who remained in the area of HAMMENKELN.	
	31		Regt located as under. RHQ, 'A' Echelon, LAD - 150486.	

			'A' & 'B' Sqns - 150486. 'C' Sqn & 'B' Echelon - HAMMENKELN.

Commanding Officer Lt.Col. K.C.C. Smith

Place	Date	Hour	Summary of Events and Information	References to Appendices
B.L.A.	1		Regt static ALLERN 1549. Maintenance and interior economy.	
	2		As above. Received warning order of a possible move.	
	3		The Regt moved. Harbour parties found the route ordered was impassable, and there was a delay of about 2½ hrs while the Regt got onto a new route. Regt harboured at school at WINTERSWIJK (HOLLAND) 3176.	
	4		Regt moved at 0530 hrs. Route BOCHOLT - BERKEN - OSTERWIJK - ALTENBURG - 8795 (between MUNSTER and RHEINE). Arrived 1200 hrs. Regt placed under comd 6 Airborne Div and moved off again at 1600 hrs to harbour in their area. Route GREVEN - LENGERICH - IBURG. Harboured area MUNDROP 2703 at 2100 hrs. The Commanding Officer went ahead to contact 6 Airborne Div.	
	5		Regt moved via BISSENDORF - RABBER - OLDENDORF at 0800 hrs and came up with 6 Airborne Div at 0900 hrs. 'A' Sqn was given the task of reconnoitring across the EMS - WESER Canal towards the R. WESER supported by elements of 6 Gds Tk Bde. Opposition was light. The speed with which the Airborne moved compared with an ordinary Div was most illuminating. This force kept up something like an average of 15 m.p.h. including stops to brush aside resistance. RHQ moved across the EMS - WESER Canal to harbour area SOUTH of DESTEL 6219 at 1800 hrs.	
	6		Regt concentrated in area WEGHOLM 7621 ready to move across R. WESER next day.	
	7		Task. The Regt was to adv on a 2-Sqn front covering elements of 6 Airborne Div. On the right 'C' Sqn was to protect the right flank of the spearhead of 6 Airborne Div (5 Para Bde), and on the left 'B' Sqn to (a) route recce on the one centre line of 5 Para Bde, (b) recce along the SOUTH side of the STEINHADERMEER ZEE, and (c) one Tp to push ahead and try to seize and hold the crossings over the R. LEINE at BORDENAY and at NEUSTADT. 'C' Sqn to contact the AMERICANS on their right.	

The original route chosen by 6 Airborne Div was a circuitous one mainly through woods and along cross-country tracks, as far as possible avoiding the main rds. 'B' Sqn moved out at approx 0500 hrs to contact elements of the Airborne B'head Tps (6 Air Landing Bde) and then they moved in a NE direction towards the town of WINDHEIM 8725. The town was held and covered by mines across the rd. The situation was a bit confused and after a certain amount of shooting to get a 'B' Echelon of the Airborne out of trouble which had gone astray, the Sqn withdrew into the B'head again.

At 0700 hrs 'A' Sqn was ordered to take over WINDHEIM, and 'B' Sqn pushed out of the B'head on the Airborne main centre line in a due Easterly direction. At ROSENHAGEN, the centre patrol contacted bazookas and 50 or 60 enemy. The leading Airborne inf (12 Para Regt), tank-borne, was quickly on the scene and there was considerable shooting before the village was cleared up. At 0730 hrs 'C' Sqn reported the village at 9120 held.

As soon as ROSENHAGEN was cleared, 'B' Sqn pushed on, one tp recceing the main rd to the NORTH. The selected centre line, owing to the bad nature of the tracks, was found unsuitable. The Sqn stuck to the metal rds to avoid being bogged; the Airborne Tps followed up.

On the request of 11 Armd Div 'A' Sqn cleared WINDHEIM and the next village to the EAST, and at 1035 hrs reported the village of DOHREN 8926. At 1130 hrs they reported ROSENHARD 9223 and NEWCLICK 9126 clear, also the classification of the brs - Cl 40 at 919280 and Cl 12 at 910238. 11 Armd Div then passed though 'A' Sqn but would not move until these villages had been cleared.

When ROSENHAGEN had been cleared 'B' Sqn went forward, meeting little opposition until HAGENSBURG 080272, where 2 Tps got inside the village and could not get out on the far side. 12 Para Regt with its tanks cleared up the village and 'B' Sqn pushed on.

'C' Sqn was moving up against opposition of varying strength, but mostly small arms, and an occasional bazooka. Each village had to be cleared 'A' Sqn were ordered to clear NEWKINK 985273.

On the aerodrome on the outskirts of WUNSDORF 1556, 'B' Sqn again ran into trouble. They initially shot up several Germans, but some 20-mm and rather heavier A.A. guns opened up on them. At this point the tank-borne paratroops cut straight across from this rd to a parallel rd which led up the side of the river to BORDENAY Br. There was then a mad helter-skelter for the Br at BORDENAY, and after considerable firing the leading tks and the Armd Cars crossed in a bunch. The enemy were observed pulling out at the back of the

		<p>village in half a dozen lorries. A small B'head was quickly formed by the paratroops, and the charges drawn out of the Br. 'B' Sqn sent a patrol NORTH to try and take the NEUSTADT Br from the EAST, but, owing to the delay likely to be caused by clearing of BORDENAY village itself and by a certain amount of shelling of this area, the patrol was diverted to move up the Western bank. When it got approx 1 mile off the Br it was fired on. A foot patrol was sent fwd to see if the Br was blown. This patrol reported there was no indication of it being blown, but that the Br surroundings appeared held. That night 'B' Sqn harboured in the BORDENAY B'head at about 2000 hrs.</p> <p>'C' Sqn's progress was slow, having no tank and inf support. There were repeated diversions because of non-existent or very bad tracks. 'C' Sqn finally ended up with their fwd tps in the area 923283 - 922184. 3 Para Bde were ordered to move up behind 'C' Sqn at 1500 hrs.</p> <p>'A' Sqn continued their clearing ops on the Northern flank, and cleared MUNCHENHAGEN where they spent the night. RHQ remained for the night in an S.S. Camp at 865215.</p>	
	8	<p>'C' Sqn continued their adv towards the LEINE at RECKLINGEN, supported by 3 Para Bde and tanks: 'B' Sqn at rest in the BORDENAY B'head. RHQ moved at 0700 hrs to KLEIN HEIBORNE.</p> <p>The Regt received orders (a) to patrol to a depth of approx 2000 yds to the EAST of the BORDENAY and NEUSTADT B'heads, and also between them: (b) to patrol SOUTH to the RECKLINGEN Br and find out if this br was intact, and if so to hold it until the arrival of 'C' Sqn with 3 Para Bde - estimated time 3 hours.</p> <p>These tasks were allotted to 'B' Sqn. The patrols sent up in a circular route to NEUSTADT and out 1000 yds from there, and then back to the BORDENAY B'head, reported all clear except for one area directly in front of the BORDENAY B'head, which was an A.A. site with guns and inf.</p> <p>Meanwhile one Carrier Tp and the Assault Tp with one A/Tk gun were despatched at 0900 hrs to the Br at RECKLINGEN 202272. At about 1030 hrs the Tp Comd reported the Br intact. German Engineer personnel were found completing preparations to blow the Br but they were seized and forced to cut the wire, and draw the charges. At about 1130 hrs there was a certain amount of shelling of the Br area of RECKLINGEN. 'B' Sqn called for a medium stonk on the wood due EAST of RECKLINGEN.</p> <p>At about 1240 hrs 'C' Sqn's leading elements were on the outskirts of LUTTHE, some 3 miles WEST of the RECKLINGEN Br. Civilians reported three tks carrying inf in this village.</p>	

		<p>At 1315 hrs the shelling started again on the RECKLINGEN Br area, and there appeared to be movement from the wood towards the village of RECKLINGEN of an SP gun. Shortly after 'B' Sqn reported three enemy tks carrying inf and some half-tracks moving towards the village, and asked for support.</p> <p>By 1400 hrs 'C' Sqn was definitely held up outside LUTTHE, and the inf and tks had taken over the job of clearing the village.</p> <p>At approx 1415 hrs the enemy attacked 'B' Sqn in some strength from the EAST of RECKLINGEN with tks carrying inf and more inf in half-tracks. 'B' Sqn succeeded in shooting the majority of inf, but in spite of firing all their PIAT amn could not stop the tks, who played havoc with the vehs. The A/Tk gun was placed to face WEST as tks were known to be in LUTTHE. When the tks attacked from the EAST it was impossible to re-position the gun. This battle continued for approx 1 hr, when 3 Para Bde supported by tks appeared and the enemy withdrew, but continued to shell the area. 3 Para Bde in fact ran cross country for the last 2 miles to help us out. Total casualties suffered by 'B' Sqn were:-</p> <p style="text-align: center;">Personnel - 2 wounded, 4 missing. Vehicles - 7 Carriers, 3 half-tracks.</p> <p>'C' Sqn were ordered to contact AMERICAN tps who were clearing the wood 2025.</p> <p>At 1635 hrs further infm was called for of the NEUSTADT B'head area. 'A' Sqn was allotted the task of reconnoitring EAST in front of the NEUSTADT B'head and to contact 11 Armd Div.</p> <p>'C' Sqn reported that owing to the Brs on the AMERICAN front all being blown the AMERICAN forces were switching NORTH and going over the RECKLINGEN Br.</p> <p>'A' Sqn found about 12 enemy in the houses in the village of SUTTORG. The Br at 2551 was blown, and contact was made with 11 Armd Div. Troops of 'A' Sqn not on patrol were moved up to KLEIN HEINDORN. 'B' Sqn were also pulled back to this area. The Regt was concentrated by dusk in area KLEIN HEINDORN.</p>	
	9	<p>No task was given to 6 Airborne Div.</p> <p>At 1500 hrs 'A' Sqn were given the task of a limited recce to the NE of the BORDENAY B'head. They repeatedly ran into 11 Armd Div and also into AMERICAN patrols. By 1640 hrs they were in the outskirts of the village of NIGGENBORNE and had not contacted any enemy. 'A' Sqn was withdrawn to the previous nights harbour.</p>	

Tasks. The Regt had to recce the limited adv of 6 Airborne Div who were increasing their b'head to take in the high ground due NORTH of HANOVER in the area BISSENDORF - ELZE - WEITZE. In addition the Regt was to keep contact with the AMERICANS on their right and to recce on a limited scale towards the town of CELLE. 'A' Sqn was on the left and 'C' Sqn on the right. Contact with the AMERICANS to be established by 'C' Sqn. RHQ were to follow up behind, eventually getting into an area around SCHERENDOSTEL. 'B' Sqn in reserve in the area of NIGGENBORNE.

To begin with the going was slow, largely owing to poor visibility caused by mist. On the left 'A' Sqn reported one village after another clear and there were no signs of the enemy, and finally reached FUHRBERG without a shot being fired. By this time they collected some 6 Offr and 90 OR PW. They est their HQ in this area and from here on their adv was slowed up owing to a Br at 482462 being blown, and there being thick woods on either side ~~so that~~ it was impossible to loop. It was at this point that they met their first active enemy opposition in the form of two or three bazooka teams, which they shot up. The bazooka teams disappeared into the woods. These teams were obviously making for FUHRBERG but had been forestalled.

'C' Sqn on the right flank had had rather the worse of the going because of poor tracks which continually petered out into fields and woods, but there was not much opposition, and AMERICANS were contacted. A Royal Tiger Tank was discovered abandoned at one point, and attempts were made by the Sqn to get this tk back to our lines, but the AMERICANS who were taking NO chances, blew it up.

'C' Sqn, in addition to advancing EAST, had been tapping SOUTH, and their first contact was gained at the village in 3553. There was the usual crop of civilian reports and Ex PW reports of little groups of enemy lying up in the woods, but in many cases these were found to be wrong. Civilians reported that the area of UNTERLUSS was a gun testing area and there were large stocks of amn dumped there. 'C' Sqn again reported a contact in the area just NORTH of 366305, and here a rd block was found to be manned by about 30 inf and a Q.F. gun of a light calibre. After taking 15 POW 'C' Sqn withdrew this patrol to a position of observation, the rd block being obviously manned by a fairly determined force. The AMERICANS took over this area and 'C' Sqn concentrated behind 'A' Sqn in the area of FUHRBERG. It was clear that opposition was light to the EAST, but that the Northern approaches to HANOVER were held.

			<p>This was the last day that the Regt was to work with 6 Airborne Div. The Regt were to continue the next day with 15 Div.</p>	
	11		<p>The Regt reverted to comd 15 (S) Div who had come up from the RHINE. Tasks for the Regt were to recce the adv of 15 Div to CELLE. The Div object was to get 227 Bde into CELLE from the WEST supported by 'A' Sqn on the main rd FUHRBERG - CELLE, while 46 Bde were to move along SOUTH of CELLE on a centre line to be reced by 'B' Sqn, with the object of coming into CELLE from the SOUTH and EAST. The Div had elements of 6 Gds Tk Bde in support and were starting approx 60 miles behind our present locns. 'A' Sqn left to push out due EAST. 'B' Sqn centre axis of adv BISSENDORF - Gr. BURGROEDEL - RAMLINGEN - EHLERSHAUSEN. 'C' Sqn to tap SOUTH towards HANOVER and thus protect the right flank of the Div. It was estimated that the Div would be in a posn to give close support to the Regt by 0930 - 1000 hrs.</p> <p>By 0820 hrs 'A' Sqn had contacted the enemy in the area X Rds 483463 where they had reported demolitions the night before, and considered that that area would have to be cleared up by the inf before the Engineers could get properly to work. They had tapped out to the NORTH but had found the rds bad and the woods thick and impassable, while on the SOUTH of their centre line they had a little more success, but contacted enemy in the wood at 501460. They were finally held up by a blown Br in the area 4714 covered by enemy fire.</p> <p>227 Bde had reached 'A' Sqn by this time (about 1300 hrs) and the Sqn reported that the tks were piling up in the bottle-neck. At this point 'A' Sqn were ordered to hand over to the inf, and to re-organise and prepare to tap due EAST, NE and SE and get all possible infm on the ground, and possible diversions, as it was obvious that this area was rather enclosed and lacked facilities for switching troops. By 1330 hrs the inf had taken over from 'A' Sqn and were proceeding to clear the area. From here on there was little that 'A' Sqn could do - it was mainly an inf and tk battle to clear either side of the rd and clear the demolitions.</p> <p>'B' Sqn moved off, and after a short delay they reported clear as far as 5337. Then there was a very rapid advance with little further infm until at 1021 hrs they reported contact, two cars being knocked out by bazooka fire at approx 560390 in the area about 400 yds short of the station at EHLERSHAUSEN. There appeared to be a considerable number of enemy in the station area covering all approaches. Loops on either flank gained more contacts. The enemy started infiltrating through the woods round the fwd troop, who withdrew and observed.</p>	

		<p>'B' Sqn then made a firm base at RAMLINGEN and watched for enemy movement round the flanks to the SOUTH. Their route report showed that although the rds were quite first-class main rds, some of the Bns were only Cl 12 (RE classification), but it was thought by the Sqn that, in fact, they would take tks. The enemy that 'B' Sqn had contacted were identified as S.S. and estimated at over 100, with bazookas, small arms and possibly some guns. 'B' Sqn remained in observation until the recce parties of 46 Bde arrived at approx 1630 hrs in the afternoon followed by the main body at about 1700 - 1800 hrs.</p> <p>'C' Sqn tapped SOUTH and contacted the AMERICANS, who did not appear to be going to adv that day. They also found some enemy back in the area of the rd block 366305. They took 9 POW and handed them over to the AMERICANS. An SP or A/Tk gun was reported at 577382. This was reported to be one of the pair which had been causing trouble to 'B' Sqn. 'C' Sqn thus came up behind 'B' Sqn. They had managed to get further SOUTH and formed a firm base for 'B' Sqn in the village due WEST of RAMLINGEN. Here 'C' Sqn remained for the rest of the day, less 2 patrols under comd 'B' Sqn watching 'B' Sqn's SE flank. By night-fall RHQ and 'A' Sqn locns were unchanged. 'B' Sqn were at RAMLINGEN with 'C' Sqn in the village due WEST of RAMLINGEN.</p>	
	12	<p>During the night the Div had been clearing the enemy located by the Regt and were still fighting in CELLE. 'B' Sqn sent patrols from RAMLINGEN NORTH towards the town and were everywhere held up by blown Bns. 'A' Sqn were ordered to patrol NORTH and NE to CELLE. They were considerably hampered by bad going and close country, also by the Div traffic moving into CELLE. They contacted a bazooka and spandau at 488509 - one car knocked out. The remainder of the day was uneventful and consisted of moves to the EAST and NE of CELLE as and when the Bns over the rivers were completed. The Regt was concentrated as follows by dark:- 'A' Sqn - CELLE 5951. 'B' Sqn - 600512. 'C' Sqn - 611511. RHQ approx 621522.</p>	
	13	<p>The regtl task for 13 Apr was to recce on a wide front ahead of the Div to UELZEN 8989. The Regt was deployed 3 Sqns up: 'A' Sqn on the left with centre line SHEWEN 5856 - Track Junc 6061 - RABER 6463 - Track junc 685680 - UNTERLUSS 7374 - HOSSERINGEN 8077 - BAHNSEN 8084: in the centre 'B' Sqn on the main rd through ESCHEDA 6962 - WEYHAUSEN 7969 - UELZEN: on the right 'C' Sqn approx centre line OHE 6656 - HOFER 7656 - BEADENBOSTEL 7052 - LUTTERN 7355 - ELDIGAN 859631 - BOKEL 8971 - NETTELKAMP. All Sqns had elements of the Div and 6 Gds Tk Bde behind them.</p>	

		<p>Throughout the day all Sqns were handicapped by demolitions and thick wooded country.</p> <p>On the left 'A' Sqn proceeded with only minor opposition until they reached the area of UNTERLUSS where considerable opposition was met. At UNTERLUSS 'A' Sqn reported a large enclosure of girls at 686681 and a large enclosed Ordnance dump in the area 592567. At UNTERLUSS the estimated strength of the enemy was a minimum of a company and it required inf and tks to deal with them. By the time the inf had cleared UNTERLUSS it was getting dark and 'A' Sqn remained there for the night.</p> <p>'B' Sqn proceeded without hindrance as far as the pond at 667601 where they came across a crater. They tried flanking left over the rly and were greeted by a couple of shots from an SP Gun. After a certain amount of delay they flanked right and continued up through ESCHEDE as far as Br 709646 where they were again shot at by an SP, and simultaneously the Br blew up under their noses. It was at this point that the aged Field Marshal Von MACKENSEN was found. After the tks and inf had cleared this opposition the adv continued to the next crater at 770686. On the way there was a short battle at SCHELPLAH. Up to date the inf had been somewhat skeptical of the Sqn reports of the enemy, and getting impatient they pushed on ahead merely to draw fire on themselves. At this crater there was a considerable delay and eventually a way was found round the left flank to X Tracks 771709, up to HESSERINGEN and then back to the centre line again, but this again was opposed in the area of the X Tracks because the enemy retreating from 'A' Sqn's area of UNTERLUSS ran into 'B' Sqn and 227 Bde as they were coming down to WEYHAUSEN, which was held both by inf and arty.</p> <p>'C' Sqn on the right made their first contact of the day at rd block 660560, but this they speedily cleared and the adv continued, the chief impediment being bad sandy tracks. In the area 801622 - 681614, 'C' Sqn reported an Armd Car and Volkswagen with some men on it, and the main impression that this was a mobile rear-guard to hold up the adv. By 2100 hrs they had reached ENDGERHOLST 7461.</p> <p>'B' Sqn were located for the night at SCHELPLAH and RHQ at ESCHEDE 6962.</p>	
	14	<p>The centre line had been by-passed during the night by 227 Bde, as in the area of the crater at 770686 several unexploded time-bombs had been found. The main rd to UELZEN was therefore impassable. Everything had to go around forest tracks behind 227 Bde. 'A' and 'C' Sqns were employed continuing up their previous centre lines. 'A' Sqn's further task was to recce due NORTH when they reached the</p>	

		<p>area of the rly line by GRAULINGEN 8182 and HAMERSTORF 8383. 'C' Sqn were to continue up to NETTELKAMP and if possible to get round the right flank of UELZEN. 227 Bde had got up during the night to approx HOLDENSTEDT 8783 where they were held up by considerable opposition assumed to be the outer defences of the UELZEN Garrison.</p> <p>At 0815 hrs 'A' Sqn were ordered to recce the following routes:- 7275 - 7877 - DREILINGEN 7683 - BAHNSEN 8084 - BARGFELD - then the main rd back to LINTZEL 6990.</p> <p>'C' Sqn made their first contact at 1130 hrs at 695631 and were bazookad by Hitler Youth. Thereafter they reported periodical small contacts with bazooka teams and odd parties on the ground, but they pushed on. By 1610 hrs they reported the village of BOKEL clear and had collected 170 PW. They appeared to have caught these people completely by surprise. Later in the evening a released PW reported that the village of NETTELKAMP 920799 was held by S.S. Troops and that one tk and 6 half-tracks had left the village heading NORTH to the village of WRESTEDT 7092. 'C' Sqn followed up to this village and found WRESTEDT clear. They were ordered to concentrate for the night and selected the village of NETTELKAMP.</p> <p>'B' Sqn were brought up to give left flank protection to the Div between RABER 8079 incl to UNTERLUSS 7874 inclusive.</p> <p>'A' Sqn patrolled NORTH without any operational contacts and by the evening had their HQ at BAHNSEN 8084.</p>	
	15	<p>By first light the Div was containing the Garrison of UELZEN and preparations were being made to clear the town. 'C' Sqn were supposed to be in NETTELKAMP with the Glasgow Highlanders at STADENSEN 9079. No contact on the air could be gained with 'C' Sqn by first light, and rather alarming reports had been telephoned through from one of the Bdes that they had picked up a Sgt survivor who stated that the Sqn had been counter-attacked in the night and the Sqn wiped out. 'B' Sqn were thereupon ordered to send an Officer patrol out at once to try and find out the situation. Their route was to be SUDERBURG 8381 - X Tracks 867804 - STADENSEN - NETTELKAMP. A liaison officer arrived at about 1020 hrs from STADENSEN who stated that the Glasgow Highlanders have also been counter-attacked during the night and there had been considerable confusion. Some of their pls had been overrun, but that the situation was under control. He stated that NETTELKAMP was believed to be in enemy hands. Meanwhile contact had been gained at last with 'C' Sqn who confirmed that there had been a heavy counter-attack starting at about midnight and continuing until dawn. After holding out until dawn the village was evacuated.</p>	

The counter attack was put in with tks, SPs and half-tracks. The attackers must have either been drugged or drunk, as many of them took crazy risks, howled and screamed like Red Indian tribesmen. The attack was led by inf in rubber boats who had very detailed information of our posns, followed by half-tracks with 20mm cannon who came down the centre of the main street, and supported by SP guns which circled the village and fired into it. Part of this enemy force must have been detached to NETTELKAMP while the remainder of the force went on to the 2nd G.H. at STADENSEN. The strength of the force can be gauged from the fact that one member of the Sqn counted no less than 3 Mk IV Tks, 8 SPs and 29 half-tracks going through the village to STADENSEN. It was obvious that the local inhabitants had given detailed locns of all the tps to the Germans, because as soon as the men left their billets to take up action stations on the alarm being given, Spandaus opened up on all exits, and almost at once SPs started shelling the buildings that were occupied by our men and set them alight. This meant that it was impossible for the men to get to their vehs, as these had been parked tactically around the houses that we had occupied.

The 'B' Sqn patrol, after observing for some time from the edge of the woods in area 833802, pushed fwd into the village of NETTELKAMP with some inf carriers. Here they found considerable chaos, and 60 enemy gave themselves up from a school-house cellar without a shot being fired, in spite of having large quantities of weapons and bazookas still at their disposal. It is admitted that the village had been heavily shelled by our own guns, but even allowing for this it seems difficult to account for this docility in the demons of the night before - possibly the drug(?) had worn off. 6 half-tracks were also found abandoned in the village. The only opposition to the 'B' Sqn patrol and the inf carriers was a certain amount of shelling from the area of the woods about 9380 - 9480. 'C' Sqn casualties in this operation were:-

Personnel:- Killed - 5. Wounded - 14. Missing - 39.

Vehicles:- Carriers - 8. Armd Cars - 4. Half-tracks - 1.

'A' Sqn's orders were to recce NORTH and EAST of the rd HOLDENSTEDT 8884 - UELZEN. They began in the village of WRESTEDT reporting that it was bigger than on the map and that it would take some time to clear. Released PW reported that the enemy and possibly tks were in STEDERDORF 9283. The inf took on the job of clearing these villages and 'A' Sqn pushed NORTH towards NIENDORF.

		<p>One of 'A' Sqn's patrols got as far NORTH as HALLIGDORF 9186 where they contacted and withdrew. The enemy appeared to be all along the main rd between ESTERHOLZ and UELZEN. There seems little further that 'A' Sqn could do as the inf appeared to be permanently in contact and it was a pure inf task.</p>	
	16.	<p>Little happened until late in the evening. 'B' Sqn's task and locn same as before. 'A' Sqn located same as before: 'C' Sqn &amp; RHQ at SUDERBURG. Most of the day was spent in re-organising and sorting out veh casualties, etc. However, late in the afternoon 'B' Sqn were ordered to patrol on the Northern flank round the Western edge of the UELZENER Forest to contact the enemy and also make any contact possible with the advancing 11 Armd Div. 'B' Sqn moved up to HOLTHUSEN 8188. They found that the edges of the forest were held, but that the roads round the outside were not held except at BARNSEN 8290 and BOLSEN 8389. 'A' Sqn moved up to HANSEN 8587. That evening 11 Armd Div cleared both these villages and drove the enemy back into the forest.</p>	
	17	<p>Sqns were in the same area. 'A' Sqn verified 'B' Sqn's patrols of the day before and in addition verified 'B' Sqn's patrol through the UELZENER Forest up to Track junc 871911 and found no organised enemy resistance. RHQ moved up to Kl SUSTEDT 8585 in the evening. Otherwise the day was uneventful.</p> <p>Contact was made with 2nd S.A.S. Regt at BOHLSSEN, about 6 km WEST of UELZEN. As this force, (FRANK FORCE) was an independent command under Lieut. Colonel B.M. FRANKS, DSO, MC, it was decided that he should work in support of the Regt for mutual advantage during further operations.</p>	
	18	<p>The task for today was for the Regt to find the form NORTH and NE of UELZEN <del>and if possible</del> to get as far NORTH as possible. 'A' Sqn were employed on this task. They again reced the UELZENER Forest from SOUTH to NORTH and from WEST to EAST to the outskirts of the town itself. They reported the only enemy were those being chased out of the town itself by the advancing inf, and that these were in great disorder. They then went on NORTH to WESTERWEYHE 8793, KIRCHWEYHE 8397, and then up the main rd with the ultimate objective BEVENSEN 9002. 'A' Sqn's only opposition came from a few Spandaus in the area of EMMENDORF 9095, otherwise they continued up the rd and found great confusion amongst the enemy who were obviously trying to pull out as best they could. It appeared as if the village of BARUM was a collecting post for them as they kept coming in and the patrols there got a good bag. In the area of EMMENDORF 11 Armd Div personnel coming down from the NORTH met 'A' Sqn. From here they</p>	

			<p>motored on to BEVENSEN which they found to be clear. The remainder of the Regt was ordered to concentrate in BEVENSEN. Sqns were moving into BEVENSEN when the Germans attacked from the air, there were no casualties or damage.</p>	
	19		<p>The Regtl task was to recce fwd on two main routes towards the R. ELBE with 'B' Sqn on the right, 'C' Sqn on the left. 'A' Sqn to remain in reserve and bound up with Regtl Echelons behind Tac RHQ. The SAS remained with 'B' &amp; 'C' Sqns for this role.</p> <p>'C' Sqn on the left reported the villages of SECKLENDORF 9205 and EDDLESTORF 9309 clear by about 0930 hrs, and progressed very rapidly up the centre line through BAVENDORF, THOMASBURG and NEETZE without meeting any real opposition. A number of PW were taken, and a large PW camp of both AMERICANS and BRITISH was discovered just WEST of BAVENDORF 9415. 11 Armd Div on our left took over the responsibility of this camp. The Sqn continued to tap out from NEETZE towards the R. ELBE but on approaching the banks contact was made on the approaches to the small town of BLACKEDE 985248. It was clear that fairly strong outpost posns were established on rds running into the town. 'C' Sqn set up their HQ at NEETZE and remained in posn of observation on the rds running into BLACKEDE.</p> <p>RHQ bounded up 'C' Sqn centre line and set up temporary HQ at BAVENDORF about midday. A small party of HITLER JUGEND wearing Volksturm arm-bands attempted to stalk RHQ in the hopes of using the Panzerfaust with which they were equipped. They were spotted, fired on, and one PW taken, who on interrogation stated that they were in fact a small recce party which had been sent out to find any infm about the British posns, etc, and if they could, of course, to brew up HQs. Nothing further was seen of the remainder of this party during that day.</p> <p>'B' Sqn on the right met far more opposition, on all the rds running into the large forest of GOHRDE. They made contacts in the following villages: STOITZE 0401, HIMBERGEN 0004, and Gr. THORNDORF 9807. That, in conjunction with civilian reports of enemy mov, made it clear that the Germans were using the forest as some sort of a collecting place for his remnants prior to getting them across the ELBE. In the late afternoon orders from Div HQ were received to the effect that the Regt was to protect the right flank of the Div from incl GARZE to incl BAVENDORF, a distance of some 14 miles. To do this the Regt was deployed as follows: 'A' Sqn, RHQ, and HQ SAS at NEETZE. 'C' Sqn at THOMASBURG, and 'B' Sqn BAVENDORF. The main difficulty was the disposal of PW which had been collected during the day, being some 10 miles ahead of the Inf who were in BEVENSEN</p>	

		<p>9002. However, we sent them down the rd under their own steam, walking towards the inf.</p> <p>The Div plan for tomorrow was for 46 Bde to adv up on the right flank along the general centre line of 'B' Sqn's axis and to seize the town of BLACKEDE. 227 Bde on the left to close up to the ELBE in the area of AHRENSBURG. The Regt spent a quiet night with nothing to report.</p>	
	20	<p>'B' Sqn were pushed out to recce the adv of 46 Bde and made contact as we thought on the main approaches into BLACKEDE from the SOUTH. 46 Bde making a plan for a 7 phase attack to reach the same posns as our fwd patrols. 'A' Sqn patrolled out from NEETZE and made contact again in the same sort of area as 'C' Sqn had yesterday on the approaches to BLACKEDE from the WEST and NW. The remainder of the day was quite uneventful, and apart from standing patrols in the approaches to BLACKEDE the Regt concentrated as follows:- 'A' &amp; 'B' Sqns, RHQ, Echelons &amp; LAD at NEETZE. 'C' Sqn THOMASBURG 9519.</p>	
	21	<p>Regt static. Nothing to report.</p>	
	22	<p>Locns unchanged. Nothing to report.</p>	
	23	<p>Command of the Regt devolved on Major P.T.I. MACDIARMID, MC, Lieut. Colonel K.C.C. SMITH going to the UK on a course and Privilege Leave.</p>	
	24-27.	<p>Locns unchanged. Nothing to report.</p>	
	28	<p>In conjunction with the Div plan for crossing the ELBE, the Regt was ordered to take over the area of 46 Bde on the ELBE bank. In view of the fact that there had been practically no enemy activity, 'A' Sqn were given this commitment, and took up their posns along the line of the ELBE. At about 2100 hrs in the evening a further force was asked for to relieve 227 Bde at TEPSE. A small mixed force from 'HQ' Sqn and the residue 'B' Sqn were sent up under Capt GRAY, MC. A quiet night with nothing to report.</p>	
	29	<p>During the night the Div made the assault crossing of the ELBE. 'C' Sqn Tac HQ and two patrols were standing by ready to cross the ELBE and recce from the B'head as soon as called fwd by Div. By mid-afternoon 'C' Sqn Tac HQ and patrols were across. They had a very unpleasant time in the marshalling area and crossing, due to enemy aircraft, and shelling. Both veh and personnel casualties were caused through enemy air activity. The Regt with under comd 2 Sqns 2nd SAS Regt were given the task of reconnoitring out from the B'head next day, and the Regt was allotted timing to cross the Cl 9 Br at first light on the 30th. Nothing further to report.</p>	
	30	<p>Regt with under comd 2 Sqns 2nd SAS Regt crossed the ELBE Br at 0630 hrs without incident and met up with 'C' Sqn and proceeded to</p>	

		<p>recce. 'C' Sqn on the centre line KOLLOW - SCHWARZENBECK. 'A' Sqn on the left - centre line HAMWADE - WORTH 7545. RHQ est at JULIUSBURG.</p> <p>'C' Sqn progressed very well and by 0930 hrs were sitting in SCHWARZENBECK, having taken a fairly large number of PW. 'A' Sqn on the left made contact in HAMWADE and were generally held up in that area. 'C' Sqn held the southern half of SCHWARZENBECK and made contact with various enemy troops, incl S.S., in the Northern part of this town, on the left in BRUNSTORF 7847 and on the right in the small village 843480. Due to some fast talking on the part of a Troop Comd of 'C' Sqn and the I.O. of the SAS, negotiations were made for the surrender of some 1800 S.S. troops in the general area. These negotiations dragged out during the whole day and did not in fact come to fruition, but quite a large number of S.S. troops and offrs did surrender, although in fact the major part did not. By evening the Regt was relieved by 2 Inf Bns of 44 Bde in SCHWARZENBECK and an Inf Bn of 227 Bde came up to help. 'A' Sqn on the left flank. The Regt concentrated - RHQ &amp; 'C' Sqn in KOLLOW, 'A' Sqn in HAMWADE, with the task of protecting the Div centre line up to SCHWARZENBECK during the night.</p> <p>During the day some four to five hundred PW were taken. The Regt by night-fall was located as under:-</p> <ul style="list-style-type: none"><li>RHQ, 'A' Echelon &amp; 'C' Sqn - KOLLOW 814445.</li><li>'B' Sqn (Residue Sqn) &amp; LAD - NEETZE.</li><li>'B' Echelon in the Div Adm area BAVENDORF.</li></ul> <p>Orders were received that night for patrolling NORTH and NW from the Corps B'head tomorrow.</p>

B.L.A.	1		<p>Regt located as under -            RHQ KOLLOW 814445 with C Sqn and A Ech            A Sqn HAMWADE            B Sqn (Residue Sqn) and LAD NEETZE            B Ech in Div Adm Area BAVENDORF.</p> <p>The main task today was to patrol outside the perimeter of the Corps brhead and to seize, if possible, the village of BRUNSDORF and to patrol out westwards from HAMWADE towards HAMBURG. C Sqn patrolled northward and finally took the village of BRUNSDORF at approx 1800 hrs, where they were relieved by 6 KOSB.</p> <p>A Sqn with under comd two patrols SAS patrolled westwards from HAMWADE and made contact in the general area of the woods some 5 miles further on. They had to withdraw for the night as the inf had not come up but remained static during the day.</p>	
	2		<p>Local patrolling from the brhead westwards to HAMBURG and northwards on the main axis towards LUBECK. Very little to report during the day except on the western side where A Sqn was approached by German Officers with the initial surrender of forces within the small town of BERGDORF. In point of fact this finally developed through various channels to the complete surrender of the German Armies in the NW of GERMANY.</p> <p>Otherwise this was a fairly uneventful day.</p>	
	3		<p>Ordered today to push on if possible to cut the HAMBURG - LUBECK Autobahn in the areas of BARGTEHEIDE 6673 and AHRENSBURG 6667, when we would be followed up by 44 Bde on the rt and 44 Bde on the left. Sqns set out at first light with two tps SAS in support; A Sqn on the rt and C Sqn on the left. By 1000 hrs A Sqn had cleared the general area in which the Bde was going to lie up, that is, TRITTAU, LUTJENSEE, C Sqn on the left had cleared up as far as PAPENDORF and LAGELAKE 6858. A Sqn made rapid progress on the rt and cut the Autobahn at HAMMOR at about 1130 hrs. They had a certain amount of trouble with a fair number of stragglers and one or two organised</p>	

		<p>posts of SS who appeared to be holding the general line of the Autobahn.</p> <p>C Sqn on the left, having cleared PAPENDORF and area were going to continue on to their objective when they were approached by a German Staff Officer with a Stop Line which he said had been arranged by Treaty and which briefly was a line drawn round the outskirts of the suburbs of HAMBURG. This was referred to Div for their guidance and after some delay it was finally found that this was in fact the initial surrender of HAMBURG. C Sqn were therefore unable to progress any further. A Sqn continued on the rt and captured BARGTEHEIDE, and C Sqn then side-stepped behind A Sqn so as not to interfere with the demarcation line and continued and captured AHRENSBURG. Up until about 1600 hrs the Regt had taken some 5 - 600 PW. About this time the Commander 2nd SAS Regt was called to Corps, and he and the CO motored up the Autobahn as far as LUBECK, and were able to report the whole line of the Autobahn clear. The remainder of the day was spent with the Sqns patrolling in a westerly and northwesterly direction from firm bases at BARGTEHEIDE and AHRENSBURG.</p> <p>No enemy were found within 7 to 10 miles from these firm bases. Contact was made with 11 Armd Div at BAD ODESLOE. The Regt harboured for the night, A Sqn BARGTEHEIDE, C Sqn AHRENSBURG, RHQ and HQ 2 SAS, A Ech at GROSS HANS DORF. Orders were received from Div to hold BARGTEHEIDE and AHRENSBURG for the night.</p> <p>At about 1900 hrs a flying patrol was sent to FRIEDRISK SRAH 730512 to guard documents of importance to the Allies which were located in the Schloss at this town, which was being used by the SWEDISH and NORWEGIAN Legations.</p>	
	4	<p>Regt remained in situ until Bdes took over from us at BARGTEHEIDE and AHRENSBURG, when the Regt less B Sqn, A Ech and LAD, were moved to ELMENHORST 669776. Regt spent a quiet day on maintenance, until at about midnight Comd 2 SAS, who had harboured his Regt at BORSTAL some 2 miles from ELMENHORST, came in to state that one of his jeeps had been ambushed in the area HEIDERFELD 6489. The Burgomaster of that village had come down by bicycle to tell him that a number of SS Tps had set up in the village and ambushed his jeep, and were remaining in the village. OC 2 SAS Regt requested assistance for an early strike tomorrow morning before the "cease fire" came into effect at 0800 hrs. Arrangements to this effect were made.</p>	
	5	<p>The striking force under the CO of 4 car patrols with mortars and A/Tk guns, and 2 Sqns SAS, RVd at LEEZEN 6588 at 0530 hrs. Patrols pushed into HEIDERFELD and met no opposition, but a jeep was found</p>	

		<p>abandoned and shot up. On enquiries locally it was confirmed that about 60 SS had been in the village the night before when the driver and co-driver of the jeep had been very badly wounded, if not killed. The remaining two occupants of the jeep were slightly wounded. The enemy had withdrawn from the village about 2 hours before we arrived. Patrols then pushed on through TODESFELD 6091 to BARK 6193 where they caught up with about 10 SS who were taken prisoner. They stated that the main force had withdrawn into the forest at SEGEBURG with strong posts in the villages of WITTENBORN 6395 WANSTEDT 6398. As the Armistice came into effect whilst we were clearing up the 10 SS in BARK it was decided that no further action could be taken and the force returned to LEEZEN. The remainder of the day was uneventful.</p>									
	6	Nothing to report.									
	7	<p>Locns as above. One Sqn required for force consisting of 46 Bde Gp who were to go and occupy KIEL. A Sqn were put under comd 46 Bde Gp and proceeded with them to KIEL. The occupation was entirely uneventful; the Sqn seized and held the various brs in the harbour area required of them without any opposition at all. Sqn HQ was est in KIEL.</p> <p>B Sqn (Residue Sqn) and the LAD were brought up from KOLLOW and were harboured at NERITZE 6880.</p>									
	8	<p>A further Sqn was required to form a stop on the brs over the KIEL CANAL to control the remainder of the German Armies from DENMARK who were coming South towards HAMBURG to surrender. C Sqn were sent out on this and seized and held without opposition the line of the KIEL CANAL from BRUNSBUTEL 5290 - br 0416, where they formed crossing patrols on all crossing places between these two points.</p> <p>Locns of the Regt for the night -</p> <table style="margin-left: 40px;"> <tr> <td>RHQ, A Ech, LAD</td> <td>ELMENHORST 6777</td> </tr> <tr> <td>A Sqn</td> <td>KIEL</td> </tr> <tr> <td>B Sqn</td> <td>NERITZE 6880</td> </tr> <tr> <td>C Sqn</td> <td>BRUNSBUTEL 5290</td> </tr> </table>	RHQ, A Ech, LAD	ELMENHORST 6777	A Sqn	KIEL	B Sqn	NERITZE 6880	C Sqn	BRUNSBUTEL 5290

	9	<p>No change in locns. During the day the CO was called to Div for an O Gp when it was stated that by arrangements with 8 Corps a GERMAN Force was to attempt to clear the forest of SEGEBURG of the SS who were still holding out in that area. Steps were required to ensure that the main axis BAD SEGEBURG 6896 - NEUMUNSTER 4711 was not interfered with, and the residue Sqn was put out to do this! They took up posns on the morning of the 10th.</p>									

	10		Locns - "A" Sqn - KIEL. "B" Sqn - stops in the Wehrmacht - SS battle on the main SEGEBURG - NEUMUNSTER Rd. RHQ, A Ech and LAD - ELMENHORST. "C" Sqn - BRUNSBUTEL.	
	11		Nothing to report. B Ech joined RHQ at ELMENHORST.	
	12-13		Nothing to report.	
	14		C Sqn relieved from commitment on KIEL CANAL and returned to previous locn at ELMENHORST.	
	15		B Sqn relieved from commitment on axis BAD SEGEBURG - NEUMUNSTER and returned to NERITZE. A Sqn remained at KIEL. RHQ, A Ech, B Ech and LAD at ELMENHORST. Warning Order received from Div that the Regt would be required to take over a PW staging camp commitment on the BALTIC Coast, probably on 16 or 17 MAY. Orders to this effect were confirmed that evening.	
	16.		Lt. Col. K.C.C. SMITH returned from UK and re-assumed comd of the Regt, Major P.T.I. MacDIARMID reverting to 2 i/c. Regt less A Sqn moved to TIMMENDORFER STRAND 9905 preparatory to taking over PW Staging Camp Commitments in that area. Recces were made and camps set up in the large woods 9806 - 9905. Final arrangements were made to meet the PW who were supposed to arrive in US PW Tpt.	
	17		Locns - RHQ, B & C Sqns, A & B Ech and LAD - TIMMENDORFER STRAND A Sqn - KIEL The IO was sent to a co-ordinating conference at LUBECK and arrived back at RHQ at approx 1600 hrs with two LOs from the American 8 Div (18 Corps) with the infm that the PW were not now arriving by rd, but would, in fact, arrive by train. A complete re-shuffle of the staging area was therefore necessary and arrangements had to be made to receive PW from the trains and take them into the staging camp and then continue as before, marching to NEUSTADT. It was quite apparent that as the train had to be on to NEUSTADT to complete the circuit that it would be very much easier to detrain, if possible, in NEUSTADT and hand the German PW straight to the German control instead of staging them in TIMMENDORFER and continue to march them up the already overcrowded rd, overcrowding being caused by a very considerable number of DPs in the general area. Arrangements to second the motion with US 80 Corps to bring this about.	
	18		The first batch of 23,000 PW arrived by train without major incident and were staged for the night in the prepared camps. Permission was obtained during the day to change the plan and to detrain at NEUSTADT and hand PW straight to German Control without staging. Recces and arrangements were accordingly made for this. It was decided that the staging camp would be emptied as follows -	

		3,000 - 19 MAY. 10,000 - 20 MAY. 10,000 - 21 MAY. A Sqn were relieved of commitment at KIEL and reverted to comd of the Regt. They were located at NIENDORF 0401.	
	19	Detraining commenced at NEUSTADT 0116. The vehs of the German PW arrived by rd and had to be passed by us into the German area.	
	20-23	Regt continued with PW commitment at NEUSTADT.	
	24	Two Sqns ordered to take over from RA in the northern part of KREIS STORMAN in the towns of BAD ODESLOE and REINFELD 8185. A and C Sqns were ordered for this task and moved that day.	
	25	Regt located as under - RHQ, A and B Echs, LAD - TIMMENDORFER STRAND A Sqn - BAD ODESLOE - commitment of VPs and DPs. B Sqn - TIMMENDORFER STRAND C Sqn - REINFELD - commitment, control of DPs in that area.	
	26-27	As above with extra commitment of C Sqn producing 3 tps of Armd Cars to escort SS PW to Second Army SS Camp.	
	28-30	Nothing to report.	
	31	Nothing to report. Locns of Regt as under - RHQ, A and B Echs, LAD, B Sqn - TIMMENDORFER STRAND. A Sqn - BAD ODESLOE C Sqn - REINFELD.

Anti-Tank Regt RA.

Month and Year December 1944

Commanding Officer Lieut-Colonel R.W. JELF RA

Place	Date	Hour	Summary of Events and Information	References to Appendices															
	1.		<p>1000 hrs. RHQ moved from OOSTERHOUT to the Barracks in NIJMEGEN to join 99 Bty preparatory to the move to DEURNE area. At 0930 hrs Lt F. MOORE L.O. at HQ RA 50 Div arrived at RHQ with the last instructions to the Regt from them. Everyone is feeling rather sad. The C.O. leaves at 0945 hrs to contact HQ 97 A Tk Regt RA and HQ RA of our new Division. 2000 hrs. Column consisting of RHQ and 99 Bty leave NIJMEGEN for new area. Fine moonlight night. Arrive area LIEROP 5715 at 0115 hrs. Good journey down. Park vehicles round farm buildings and settle for the night. Men in barns. Area does not seem too bad and the hot tea waiting for us cheers everyone up. Good work by Major BARNETT, Lt QM HUTCHINSON and RHQ B Echelon.</p>																
	2.		<p>Changeover with 97 A Tk Regt has been postponed for 24 hrs. So there is little to do except remain in our incredibly uncomfortable concentration area, apart from recce of the areas occupied by 97 A Tk Regt. Filthy wet day. Everyone is naturally rather depressed including 97 A Tk Regt. It is always sad when necessities of war make it imperative for moves which have recently come about to take place. <del>Attached Appx gives account of the recent changes.</del> Major-General BARBER DSO Commanding 15 (S) Div paid an informal visit with his AQ - Lt-Col LETHBRIDGE.</p>																
	3.		<p>RHQ moves from area LIEROP 571156 to DEURNE and is located at 650199. 97 A Tk Regt pulled out of Div area at 0900 hrs today. 288 Bty move from area LIEROP to area Locations are as follows :-</p> <table data-bbox="761 1289 1344 1442"> <tr> <td>RHQ Main/B Ech/LAD</td> <td>...</td> <td>650199</td> </tr> <tr> <td>99 Bty</td> <td>...</td> <td></td> </tr> <tr> <td>107 Bty</td> <td>...</td> <td></td> </tr> <tr> <td>288 Bty</td> <td>...</td> <td></td> </tr> <tr> <td>289 Bty</td> <td>...</td> <td></td> </tr> </table>	RHQ Main/B Ech/LAD	...	650199	99 Bty	...		107 Bty	...		288 Bty	...		289 Bty	...

107 Bty	...																		
288 Bty	...																		
289 Bty	...																		

		<p>The Regt is at the moment concentrated in these areas. Troops are all under cover but areas are not comfortable. 44 (L) Bde is today clearing BLERICK and up to R. MAAS at VENLO. The Regt is not taking part in the battle as the area is waterlogged and not at all suitable for employment of tanks. Tank threat is nil. HQ 15 (S) Div is situated at PANNINGEN 7704.</p> <p>It is a very long time since the Regt was in a Division having a battle which it was not in, it is doubtful if it ever happened before. It is nearly as long since RHQ was as far from Div HQ (18 miles) during operations.</p> <p>Today has been spent settling in and trying to find out the workings of our new division. Much running about has been entailed for everyone and there is not a lot to show for it.</p> <p>Filthy wet day - with very odd bright intervals.</p>	
	4.	<p>Today has been taken up in settling in and getting to know the form in our new Division - 15 (S) Div. Already we have noted many differences from 50 (N) Div, which is only natural.</p> <p>It has not been decided yet what area the Regt is to occupy but the general form for the next few weeks seems to be that the Regt will remain in the rear of the Divisional area to rest and train. 288 Bty set up an Officers and Sgts Mess for the first time since landing (almost six months to the day).</p>	
	5.	<p>288 Bty find themselves concentrated and able for the first time since landing to lay on a Bty parade and to see all the men and vehicles in one place at one time. An orgy of maintenance and re-drilling is begun.</p>	
	6.	<p>C.O. visits range near BOURG LEOPOLD and sees Valentine SP Tp of 107 Bty shoot. OC 107 Bty and Capt F.R. ROBERTS accompany C.O. Maintenance in full swing.</p>	
	7.	<p>Nothing fresh to report. Second-in-Comd still trying to find an area for the Regt where we will have a roof over our heads and be able to do some training. So far the search has been exhaustive and fruitless.</p> <p>C.O. spends day co-ordinating B.Cs answers to the SP questionnaire preparatory to discussing the matter with representatives from Army tomorrow. For questionnaire and answers see Appx "A".</p> <p>Raining today.</p>	
	8.	<p>C.O. endeavouring to make arrangements for at least two Btys and Cadre Class to be accommodated in the Dutch Refugee Camp between LIESEL and DEURNE. This is an excellent camp and if we can get it we will be able to settle down in comparative comfort to training.</p>	

		<p>Accommodation is terribly short in the whole Div area and up to date the 2 i/c, I.O. and even the C.O. himself have spent the best part of five days recceing the area and having meetings with the AQ and his Staff in an endeavour to reach a solution.</p> <p>Lt-Col KING visits C.O. and the questionnaire on SP eqpts is discussed.</p> <p>Brig L. BOLTON (CRA 15 (S) Div) also attends.</p> <p>288 Bty M.10 Tp depart for Re-organisation Centre at BOURG LEOPOLD for change-over to Valentines.</p>	
	9.	<p>It is now decided that the following moves will take place tomorrow. RHQ will move from present location in DEURNE to nearer HQ RA at PANNINGEN and 289 Bty will move from present location to RHQ's present location at DEURNE. L.A.D. will move from DEURNE into what we call the wilderness in area 7508.</p> <p>A bit of a crisis has also arisen in 99 Bty's area. The 15 (S) Recce Regt have to pull into that area and so we shall have to move 99 Bty and also 107 Bty. It is decided to move 99 Bty to the wilderness on 11 Dec and to try and find a place to put 107 Bty. C.O. visits AQ and is given the area of VOSBERG. It is decided to put 107 Bty in VOSBERG but meantime on a previous arrangement OsC 107 Bty and 289 Bty are out today looking at areas outside the Div area as also is Lieut MARRIOTT. After all these officers have done their recces they are to report to RHQ this evening at 1700 hrs. 1700 hrs. B.C's Conference about moves. Both Majors TRIPPIER and STALLARD have found excellent places for their Btys outside the Div area and Lieut MARRIOTT has found billets and good accommodation for whole Regt in VALKENSWAARD. However, we must not now go outside the Div area.</p> <p>It is finally fixed up 289 Bty move to DEURNE tomorrow. RHQ move to PANNINGEN and on 11th 99 Bty will move to wilderness and 107 Bty to VOSBERG.</p> <p>288 Bty remain in present location during all this.</p> <p>After these moves have taken place it is still not firm that we will remain in these areas.</p>	
	10.	<p>RHQ move from DEURNE to PANNINGEN 781050.</p> <p>289 Bty move to DEURNE 650198.</p> <p>LAD move to wilderness area 7508.</p> <p>There is a lot of work to be done in both RHQ and LAD's new areas as there are no lights and no heating. If there were lights there is no blackout!! Everyone now concentrates on getting stores of every description out of ADOS, AQ, EME etc.</p>	

11.		<p>99 Bty move to wilderness (751086). 107 Bty move to VOSBERG (7706). Both areas are pretty bloody and there is a lot of work to be done to make them "liveable in".</p> <p>C.O. is still working on the Dutch Camp idea and sees innumerable AQ people to find out whether or not we are to have the Camp. It is a case of one day "Yes", another day "No", next day "Part".</p> <p>Nothing is definite in this world we know, but ..... !</p>																
12.		<p>Major-General BARBER DSO, Cdg 15 (S) Div does an informal tour of the Btys accompanied by CRA (Brig L. BOLTON) and C.O.</p> <p>The General addresses the men in each Bty and welcomes the Regt to the Div adding that he expects us shortly to be wearing tam-o-shaners !</p> <p>Shape of things to come.</p> <p>New Div signs for our arms arrive - 7<sup>th</sup> per pr ! These new signs become quite expensive as this is the fourth Div the Regt has been with.</p> <table data-bbox="741 643 1323 791"> <tr> <td>Greece 1941</td> <td>...</td> <td>2 Armd Div</td> </tr> <tr> <td>Western Desert 1941-42</td> <td></td> <td>7 Armd Div</td> </tr> <tr> <td>Western Desert/Tunisia</td> <td></td> <td></td> </tr> <tr> <td>Sicily/Europe 1942-44</td> <td></td> <td>50 (N) Div</td> </tr> <tr> <td>Europe 1944</td> <td></td> <td>15 (S) Div</td> </tr> </table> <p>288 Bty can add more being with 4 Indian Div for a time as well and also for a very short time with 1 Armd Div, to mention two.</p> <p>We received news today that Major R. 13.		<p>Field-Marshal Sir B.L. MONTGOMERY held a presentation today at ZOMEREN. Sgt WHERRELL R.J. of 99 Bty received the M.M. for the BEMMEL party. C-in-C's Certificates arrived by post for the C.O. to present to Lieut GARNER, (289 Bty), S/Sgt BATES (RHQ) and L/Bdr GIFFORD (288 Bty).</p> <p>The C-in-C addressed officers of the DIV down to Second - in - Comd after the presentation.</p> <p>C.O. still endeavouring to get an answer about the Dutch Camp. Arrangements are made to go ahead and put the Cadre Class into the accommodation in the camp which is spare at the moment.</p> <p>C.O. is invited to spend the night with Lt.General BARBER at 8 Corps HQ near HELMOND.</p>																

	14		C.O. goes straight from 8 Corps HQ to BOURG LEOPOLD to spend day with 288 Btys M.10. Troop which is at the RA Reorganisation Centre being reorganised into a troop of 3 SP 17 pdr Valentines. B.C. 107 Bty accompanied by Capt. E.R. ROBERTS visits Brigadier of 44 Bde.	
	15		Positions remain unchanged. C.O. Major G.R. BALFOUR MC and Capt. W.S. BRAMELD DSO visit 288 Bty SP troop at BOURG LEOPOLD and watch practice shoot with Valentines. B.C.'s conference at RHQ 1730 hrs on subject "Blighty" Leave. Officers ballot for leave.	
	16		Owing to general manpower shortage Regt has to post off as Inf reinforcements 29 men. These men must be A.1 and under 30 and must not hold a campaign medal. They will probably be replaced by A.2 personnel over 30. Draw for "Blighty" Leave.	
	17		Good deal of Air Activity over DIV area. DEURNE bombed. 289 Bty suffer a casualty and have a couple of vehicles damaged (A.P. bomb splinters). 289 Bty recce an area in LIESEL as they may have to move into that area.	
	18		It is now thought DIV will move from this area and concentrate 10/15 miles North of ANTWERP in V 1 & V 2 alley and fair ground.	
	19		Regtl Recce parties under Major R.A. BARNETT MC RA proceed to recce area North of ANTWERP. B.C. of 107 Bty and Capt ROBERTS do a recce in BLERICK area prior to shooting up two houses on other side of river suspected of being occupied by enemy HQ's. Fairly heavy shelling in BLERICK. 289 Bty moved to LIESEL 6714.	
	20		Regtl recce parties report on new area is very depressing. Buildings very badly damaged and not a pane of glass to be found anywhere. Heating arrangements nil. Major BARNETT MC RA was constrained to say a few pertinent words to a local Town Major who found that "troops coming out of the line did not mind what sort of area they occupied as any change was usually for the better".	
	21		Inf A/Tk plns of 46 Bde visit 288 Bty and arrangements made for them to use Miniature Range. All Btys now have a miniature range going.	
	22		Dull Foggy day. Slight drizzle.	

		<p>C.O. visits HQ RA at 1200 hrs to discuss local defence with Lt-Col YOUNG and BMRA.</p> <p>Officers i/c Bty Recce parties visit RHQ and report result of their Recce's North of ANTWERP to 2i/c.</p> <p>2i/c makes a trace of area and writes a description of the billets which is forwarded to HQ RA.</p> <p>Move to area North of ANTWERP now considered to be fairly definitely off. DIV taking over a bit more frontage. This is no doubt due to RUNSTEDTs unexpected and large counter offensive against the 1st American Army in the ARDENNES. It is rumoured that C-in-C 21 Army Group has now taken over Command of all operations in the threatened area and things are beginning to happen on a large scale.</p>	
	23	<p>C.O. leaves RHQ with Capt. C.S. SPENCE to see the Valentines of 99 Bty do their shooting.</p> <p>Major BARNETT goes to see CRA at 1000 hrs. DIV are worried about enemy patrols crossing the river and infiltrating. A mild flap.</p> <p>Major BARNETT sees OsC 99, 288 &amp; 289 Btys and gives them areas to recce in case of enemy infiltration. Btys are to keep a Duty Troop with necessary tpt at short notice to move out in an Inf role. SP Troops are to be held available for special jobs and crews of SP's not to be used for the Inf role of the Duty troop.</p> <p>CRA visited and addressed the senior NCOs Cadre Class accompanied by Major R.A. BARNETT MC RA. A good show was put on and CRA expressed his pleasure. The following Officers arrived to be attached to the Regt.</p> <p style="padding-left: 40px;">Major. TURNBULL MC ) Capt . LANE ) both late 97 A/Tk Regt RA.</p> <p>The idea behind the attachment is to keep them from rotting in RHUs. They will also be useful when leave starts. We are now considerably over-strength in Officers as follows:-</p> <p style="padding-left: 40px;">99 Bty 2 Subalterns 107 Bty 1 " 288 Bty 1 Captain 289 Bty 1 Subaltern</p> <p>and we understand still another Capt is on his way. Major. K. TURNBULL MC goes to 107 Bty and takes over from Major. A.T.F. STALLARD posted to 190 Fld Regt.</p>	
	24	<p>Cadre Class breaks up. Btys preparing for Xmas celebration. 1500 hrs. CRA thinks the enemy may definitely try something on over the festive season and it is decided by DIV that we had</p>	

		<p>better have at least the equivalent of 2 full strength Plns per Bty standing by at short notice to move.</p> <p>1700 hrs. BC's conference and C.O. lays on the plot with Bty Cmdrs.</p> <p>C.O. inspects 289 Bty.</p> <p>289 Bty play LIESEL at soccer and win 9 - 0.</p>	
	25	<p>C.O. visits Christmas dinners of 289 &amp; 288 Btys.</p> <p>Major RA BARNETT MC visits Christmas dinners of RHQ 99 &amp; 107 Btys.</p> <p>Rations are excellent.</p>	
	26	<p>Training carries on as usual.</p> <p>No change in location.</p>	
	27	<p>Second senior NCO's Cadre Class assembles in Maria School ASTEN.</p> <p>Other Training goes on as usual.</p> <p>Foggy frosty weather continues.</p>	
	28	<p>Division are still worried about the thinness of the Infantry on the ground. DIV front covers some 30,000 yards from 899148 (GRUBBENVORE) to 777942 (BUGGENUM). Positions are to be recced in the 3 Bde fronts for the Regtl or individual Bty (platoons) to take up and hold in event of a flap. BCs are to do recces and contact the Bde Cmdrs. Major BARNETT is to tie up the day after BC's have done their recces.</p>	
	29	<p>BC's conference 0930. Defensive positions for Regtl or Bty Plns have been recced in 46 Bde Area (288 Bty) and 227 Bde area (289 Bty). BCs point out areas which are in squares 7496 &amp; 7397 for 46 Bde and squares 8001 and 8405 for 227 Bde.</p> <p>Brig. of 44 Bde does not allot areas as he does not know definitely where threat will come from nor definitely that we will be available and in what strength if a threat does come.</p>	
	30	<p>C.O. visits A/Tk Range in LOMMEL near BOURG LEOPOLD and arranges for the Regts shoot on 4, 5, 6 and 7th of Jan.</p> <p>289 Btys M.10 Troop (the last in the Regt for reorganization) is at the RA reorganization centre.</p> <p>Lt. MARRIOTT finds billets to be occupied by the Btys during the forthcoming practice camp.</p> <p>Second-in-Command recces Regtl defensive localities with B.C. 288 Bty in the morning and B.C. 289 Bty in the afternoon.</p>	
	31	<p>C.C.R.A. is going to visit Regt tomorrow at 1415 hrs to present C-in-C's Certificates.</p> <p>Regtl parade of 42 OR's per Bty and 12 from RHQ is laid on to take place on the Football ground at PANNINGEN at 780047.</p> <p>Shells continue to land in the general PANNINGEN area at the usual daily rate of about 12.</p>	

		<p>We are gradually finding our feet in our new surroundings but it is going to take us a while to get used to the new administrative ideas.</p> <p>The amount of paper seems to be terrific and peace time accounting the rule rather than the exception.</p> <p>This hits us particularly hard after Regts long period away from England. The six months in England prior to the invasion were rather too busy to learn up all multifarious orders, instructions, systems on administration and we just could not compete, so we really are hardly equipped to compete now.</p>

Learned that the former has passed medical board and has been instructed now to spend two months on A Tk course in U.K. before joining Regt. It is very mysterious trying to fathom out how the "Back Boys" in England work out such instructions. No news of Major DUNKERLEY. C.O. visits 289 Bty to see Lieut WILLIAMS and also to see Cadre Class in new accommodation. 288 Bty SP Tp now not to move. Rumours of move.	
	21.		Move now certain. The whole Regt less two SP Tps to move 22 Jan - rather short notice. Recce parties set off for BOOM 20 miles North of BRUSSELS. Instructors for inf cancelled. Considering state of roads this would be most difficult. An officer to be sent to TILBURG for details of move.</p> <p>Div say at Conference that rations are to be drawn at TILBURG - 70 miles away. Arrangements trying to be made to draw at ANTWERP.</p> <p>EME goes back to sort out vehicles left at PANNINGEN.</p>

Div cannot understand how we manage to get rations not going through them. We also manage to get one ton of coal - good work by 2 i/c and Lt QM.</p>	

		<p>Big scare in RHQ - one of our billets is occupied by girls returned from Germany with V.D. Officers' Mess is once again in a collaborator's house - pity we don't want any Mess equipment. Lot of work caused by changing money back into Belgian francs, bearing in mind that we shall need Guilders again in a couple of days.</p> <p>Two or three days lost through the fear of having to move any day. Recce parties are left at new area, getting everything squared up for move. No news of the two SP Tps we left behind.</p>	
	25.	<p>No fear of moving so the Regt got down to some real work. Still without news of the C.O.</p> <p>At 1830 the bomb falls, L.O. arrives at RHQ from Div, carrying enough bump to sink a battleship, and also the orders for move, which were :-</p> <p style="padding-left: 40px;">The Regt will move in Bty gps starting at 0830 hrs on 26 Jan. Most personnel were enjoying well-earned entertainment, so once again Major BARNETT was loaded with tons of work.</p>	
	26.	<p>Regt moves to new location, route ANTWERP, BREDA, TILBURG, HILVARENBEK. Order of march: RHQ, 288, 99, 107, 289 Btys. Good progress was made and the first party arrived at 1230 hrs. Excellent organisation by recce parties, all personnel in civvy billets, which are very good.</p> <p>Btys with Bdes: 107 Bty with 44 Bde: 288 Bty with 46 Bde: 289 Bty with 227 Bde: 99 Bty in reserve with RHQ.</p> <p>Locations: RHQ and 99 Bty at HILVARENBEK: 107 Bty at TILBURG: 288 Bty at TILBURG: 289 Bty 143283. C.O. at new location on arrival. The two SP Tps are on the way to us. SP Tps arrive plus 4 M/Cs left behind by RHQ.</p>	
	27.	<p>C.O. attends secret conference at Div. Orders received for disposal of Lieut JACKSON. At last we are in touch with Div with line although they are 30 miles away.</p> <p>All personnel very cold - Lt QM unable to supply any fuel. C.O. and the C.O. of 119 LAA Regt return to RHQ after conference. Everyone greatly impressed by Russian progress, a lot of money being laid on the end of the war.</p> <p>T/Adjt busy with Accident Reports owing to our long marches on bad roads. Lieut WILLIAMS sees G.O.C.</p>	
	28.	<p>C.O.'s conference on future operations. Subjects discussed :- Getting prepared for future operations. Dumping of M/Cs which are useless on these roads.</p>	

		<p>Have we to dump any more kit? Bty Comds think we can move in one. C.O. gets the changing of 6-pr Tps for 17-prs 'put off' for time being.</p> <p>We are supposed to receive 9 Valentines for BCs and Tp Comds. Impossible to cope with these at this stage.</p> <p>New W.E. discussed and we put in for amendment.</p> <p>C.O. goes to HQ RA, returns in good spirits, told he will fly home on 30 Jan.</p> <p>Lieut WILLIAMS sees the C.O. for compassionate leave and is sent to Second Army.</p>	
	29.	<p>C.O. goes on leave. Major RA BARNETT MC RA takes over comd. Div trying to take L.A.D. 15-cwt from us. Impossible to move without it so we put up a fight, many of our vehicles having been in wksps for many weeks and we are below W.E.</p> <p>Acting C.O. goes to HQ RA.</p>	
	30.	<p>Major WARD reports to RHQ to assist while the C.O. is away. Capt ROBERTS visits RHQ for maps etc for coming operations. Maps not yet received. The amount of 'bumph' being received is terrific, orders coming in one day to be amended or cancelled the next results in a lot of unnecessary and hard work.</p> <p>Bdes putting their Btys in full picture for coming events.</p> <p>EME and T/Adjt chasing new engines etc to get all vehicles on the road.</p> <p>RSM ROCKETT and BSM McCREEDY attend demonstration of blanket drying in 3-ton lorry.</p>	
	31.	<p>Complete change in weather, raining and nearly all the snow disappears. Major BARNETT goes to HQ RA for a ruling on a TOP SECRET letter, returns just the same in the dark, the reason being the staff could not explain their own letters.</p> <p>C.O.'s conference on future operations. Subjects discussed were what personnel and vehicles could L.O.B. in next operations.</p> <p>Lt QM collects three Tabbys, which are TOP SECRET, something to do with lighting in the dark.</p> <p>289 Bty unable to attend conference as they are at a Bde Conference.</p> <p>Major BARNETT attends bottle party given by G.O.C. at TILBURG.</p>

	1		<p>Transport still causing trouble. Unable to get vehicles from Wksp. Regt offered a quantity of champagne at 130 Belgian francs and white wine at 50 Belgian francs.</p> <p>Capt ROBERTS called to see Major BARNETT to discuss future operations. Sgts SPOWART, CULLEN and HYNES called to say goodbye - a sad blow to the Regt after such long and good service.</p> <p>SCRA visits Regt to put us in the picture - we still find we are looking through dark spectacles after he has gone.</p> <p>C.O. goes to HQ RA.</p> <p>Adjt returns from leave after being A.W.O.L. one day.</p>																			
	2		Locations unchanged.																			
	3		<p>Major RA BARNETT accompanied by Major TA WIGGLESWORTH went off and did a recce of the area allotted for our two SP Tps which are taking part in the "Pepperpot" fire plan. Rather unsuccessful as the area had already been allotted to Fd Regts in the Gds Armd Div.</p> <p>Major FW WARD reced assembly area for Tac/Main RHQ and A Bty. This is in the middle of a town and is going to be very cramped. Space for the forthcoming operations is going to be at a premium, and as much as possible is to be left back in the Admin Gp area which is being established for the Div in this area.</p> <p>We are leaving personnel and vehicles behind as follows :-</p> <table style="margin-left: 40px;"> <tr> <td>RHQ/LAD</td> <td>12 Vehs</td> <td>21 O.Rs</td> <td>107 Bty</td> <td>3 Vehs</td> <td>12 O.Rs</td> </tr> <tr> <td>99 Bty</td> <td>3 "</td> <td>12 "</td> <td>288 Bty</td> <td>3 "</td> <td>15 "</td> </tr> <tr> <td></td> <td></td> <td>289 Bty</td> <td>4 Vehs</td> <td>19 O.Rs.</td> <td></td> </tr> </table> <p>Until some progress is made with the battle it is going to be very difficult.</p>	RHQ/LAD	12 Vehs	21 O.Rs	107 Bty	3 Vehs	12 O.Rs	99 Bty	3 "	12 "	288 Bty	3 "	15 "			289 Bty	4 Vehs	19 O.Rs.

	4.		<p>Lt-Gen HORROCKS Comd 30 Corps addresses all officers in 15 (S) Div in the ENSA Cinema, TILBURG, at 1030 hrs. He outlines the plan for future ops. This is the first time 15 (S) Div have been in 30 Corps. Maj-Gen BARBER gives a short address after the Corps Commander. Major BARNETT holds a B.C's Conference at 107 Bty HQ in</p>																			

		<p>TILBURG at 1200 hrs. (After Corps Comd's talk). Major BALFOUR of 288 Bty tells Major BARNETT detailed plan for 46 Bde's effort. 288 Bty are moving up to assembly area tonight.</p> <p>Capt ROBERTS outlines 289 Bty's part in 227 Bde's effort. Arrangements for the Admin Gp are laid on.</p> <p>Still no sign of the Regt getting the various vehs of which it is deficient, i.e. 4 Carriers, one 3-tonner, 2 Jeeps. This is rather serious as we now no longer carry spares - having reduced our spare vehs over the past couple of months since joining 15 (S) Div.</p> <p>288 Bty move off with 46 Bde Gp to assembly area in NIJMEGEN. Night move. Regt is still short of 4 Carriers Mortar, 1 Carrier AOP, 1 Jeep, 1 3-tonner 4x4.</p> <p>This is now getting serious as time is short. The position is aggravated by the fact that 3 of the Regt's 4x4 15-cwts are now only 4x2 because of shortage of spare parts of Cdn 4x4, which is chronic.</p>	
	5.	<p>Preparation for move. Move order received from HQ RA stating RA Gp and HQ RA move tonight. There is doubt as to whether this includes RHQ and 99 Bty. I.O. goes off to HQ RA, to find out. Meanwhile we prepare to move. I.O. returns from HQ RA and announces that we do not move until Div Tps move tomorrow night.</p> <p>289 Bty with 227 Bde Gp move during night to assembly area in NIJMEGEN. Release for 1 Jeep and 3 Carriers (2 Mortar and 1 AOP) came through.</p> <p>Capt LESLIE spent the whole day getting them. The AOP had no towing attachment. It is disgraceful that in the sixth year of war vehs are still being issued to units about to go into action without towing attachments.</p> <p>As we are still short of 2 Carriers and 1 3-tonner 4x4 it is decided to send Capt LESLIE with the necessary driver to Veh Park at 30 Corps to wait for release coming through, while EME goes to Rear Div ADOS to sit there and wait for the release. Everyone is moving or has moved and it is now imperative to get these vehs. All the Regt's spare carriers etc have been handed in and if these vehs do not come through before the battle starts we may have to begin with a gun short.</p>	
	6.	<p>Major BARNETT leaves RHQ at 1100 hrs to attend a CRA's Co-ordinating Conference at NIJMEGEN.</p> <p>107 Bty goes to NIJMEGEN with 44 Bde Gp.</p> <p>RHQ and 99 Bty leave HILVARENBEK at 1900 hrs and proceed to NIJMEGEN, arriving at 0700 hrs 7 Feb.</p>	

7.		<p>Concentration of the Regt now effected in NIJMEGEN. EME and Capt LESLIE report to RHQ at 1840 hrs having brought remaining 2 Carriers from OFP. Unfortunately these are Lloyd Carriers and are likely to be more trouble than they are worth. So far the Regt had succeeded in avoiding these gun towers like the plague.</p>										
8.		<p>1030 hrs. 288 Bty move with 46 Bde. SP Tp is moving with 2 Bn Glasgow Highlanders. 289 Bty move with 227 Bde. The roads are in very bad condition and it is almost impossible to move 6-prs. Lt L.B. BATES of 289 Bty SP Tp is wounded and 2 O.Rs are also wounded. Valentine of 289 Bty is written off on a mine. Lt WRIDE takes over SP Tp.</p> <p>107 Bty move to forming-up area. Bty HQ at SCHILDBROEK 783554.</p> <p>2345 hrs. Plan of attack for 44 Bde changed and Axis switched from 'AYR' route to 'PEARL BLACK' route. 'AYR' is impassable owing to mud. Tp of 289 Bty 6-prs gets completely bogged.</p>										
9.		<p>Lt WARD collects a replacement Valentine for 289 Bty at GRAVE at 0800 hrs. Major BARNETT goes off at 0730 hrs to visit Btys forward. He found the going very bad indeed - the roads are in bad shape.</p> <p>Lt WRIDE of 289 Bty badly wounded in the head by mortar splinter. 289 Bty also have 2 O.Rs wounded.</p> <p>288 Bty HQ established in GROESBEEK MR 745560.</p> <p>2200 hrs. 107 Bty HQ established in NUTTERDEN 8455.</p>										
10.		<p>Major BARNETT goes off at 0745 hrs to visit Btys. Going now worse than ever. Major BARNETT goes off at 1315 hrs and visits 107 Bty, 288 Bty and 289 Bty, who are located at :-</p> <table data-bbox="824 979 1227 1066"> <tr> <td>107 Bty</td> <td>...</td> <td>843577</td> </tr> <tr> <td>288 Bty</td> <td>...</td> <td>742566</td> </tr> <tr> <td>289 Bty</td> <td>...</td> <td>835554</td> </tr> </table> <p>One 6-pr Tp of 289 Bty is completely bogged in the middle of a minefield and is unable to move.</p> <p>43 Div start to pass through 15(S) Div.</p> <p>1500 hrs. 44 Bde with 107 Bty in sp ordered to take CLEVE.</p>	107 Bty	...	843577	288 Bty	...	742566	289 Bty	...	835554

11.		<p>C.O. arrives back from leave at 1330 hrs.</p> <p>Tac RHQ moves forward to area NUTTERDEN 8455 at 1000 hrs.</p> <p>Main Div and HQ RA move at same time but HQ RA only allow us to send a Tac. Tac consists of Maj BARNETT, Lt MARRIOTT and 10 O.Rs, M.14 and 2 Jeeps.</p> <p>C.O. leaves RHQ at 1500 hrs to take over from Major BARNETT at Tac HQ. Situation in CLEVE is still obscure.</p>										

		<p>An attack is laid on to take place this afternoon. 227 Bde with 289 Bty attacking from NW and 44 Bde with 107 Bty from West. 46 Bde with 288 Bty are moving up this afternoon to take over the ground East of NUTTERDEN.</p> <p>Usual heavy rain falling in intermittent showers of about 2 hours duration. Conditions for movement very bad. All roads from NIJMEGEN to KRANENBURG impassable except for the main road NIJMEGEN - CLEVE.</p> <p>6 German Para Div has put in an appearance at CLEVE and is fighting well.</p> <p>Message received from Tac to send recce parties from Main RHQ and 99 Bty to Tac at 0930 hrs tomorrow.</p> <p>Div is being relieved by a Cdn Div and is going into Corps reserve. Regt is going to concentrate in NUTTERDEN/KRANENBURG area.</p> <p>288 Bty HQ established in NUTTERDEN 854555.</p>	
	12.	<p>Only 3-tonners can now make the journey from NIJMEGEN to NUTTERDEN. Floods across road are up to 3 ft deep. Recce party consisting of 15-cwt, Jeep and M/C set off. 15-cwt just managed to get through the flood. Jeep, M/C had to come back.</p> <p>Move now out of question owing to floods. 15-cwt unable to come back because of floods. Water rising 1" per hour. Recce party except for driver of 15-cwt hitch-hike their way back on 3-tonners and DUKWs. Tac RHQ have a few requests. 2 i/c of 119 LAA Regt who have borrowed a Weasel take up a few things for us. Lt QM sets off in a 3-tonner with various things they require but after spending 5 hours on the road is turned back because floods are now impassable even by a 3-tonner. 43 Div, who have passed through 15 (S) Div and gone South of CLEVE, bump into 116 Panzers who have come up from VENLO area.</p> <p>Major APT MASON arrives. He has been posted to us from 31 RHU. He is ex-97 A Tk Regt RA. There is actually no vacancy for him as both Majors DUNKERLEY and PUMPHREY have been posted back by War Office and will arrive at end of this month.</p> <p>Capt J. Trucks are parked very close together and several amn and petrol dumps in area go up along with half a dozen Cdn vehs. 288 Bty personnel O.K. as there are good cellars, but B.C. decides vehs must be moved and moves Bty to an area 2 miles away. 44 Bde clear GOCH. 99 Bty relieve 289 Bty and 289 Bty go to CLEVE area and take over 99 Bty's billets. 99 Bty in sp 227 Bde for an attack to area of SCHLOSS CALBECK 941430 and rly crossing (941422). 99 Bty HQ established by 1200 hrs at 922471.</p>

	23.	<p>It is now known that 15 (S) Div is to be relieved by 3 Brit Div during the period 24 - 26 Feb. It is anticipated that the Div will move to TILBURG area where for a period of 14 days it will</p>	

		<p>rest and re-fit. It is considered likely that the regt will re-organise on to an establishment of one Bty SP Valentine and three Btys of two Tps of towed 17-pr and one SP Valentine 17-pr_Tp. All Tps will be three-gun and the number of guns in the Regt will be reduced to 36.</p> <p>No-one is pleased at the idea of either three-gun Tps or towed 17-prs.</p> <p>44 Bde pass through 46 Bde. 288 Bty concentrate guns in Tp areas. 107 Bty Valentines get a few shots at a Panther and an SP gun but results not observed.</p> <p>107 Bty area subjected to fairly heavy shelling and mortaring all day.</p> <p>99 Bty and whole area round SCHLOSS CALBECK heavily shelled. 	25.	<p>RHQ, 99 Bty and 289 Bty leave CLEVE/GOCH area at 0930 hrs and proceed to TILBURG area via S'HERTOGENBOSCH. Village of HILVARENBEEK is to be Regtl Area and RHQ will be returning once more to billets. We left on 6 Feb to take part in the attack on CLEVE and the breaching of the Siegfried Line. We have now returned after "hanging up our washing" and arrive in HILVARENBEEK at 1700 hrs.</p> <p>Flying bombs continue to fly over regularly with the odd one dropping in the neighbourhood. TILBURG seems to be one of the objectives. Lt J. DAY joins Regt as a reinforcement and is posted to 288 Bty. Three casualties in 107 Bty during morning. Area still under heavy shell and mortar fire. Relief of 107 Bty completed by nightfall by Bty of 20 A Tk Regt.</p>	
	26.	<p>288 Bty move out with 46 Bde and proceed to DIESEN in HOLLAND, SW of TILBURG.</p> <p>107 Bty move off with Bde Gp to DIESEN.</p> <p>99 and 289 Btys in HILVARENBEEK. Maintenance.</p> <p>B.C's Conference at RHQ in HILVARENBEEK. C.O. tells BCs of the new establishment, i.e., one bty of nine SP Valentines and three btys of one tp of three Valentines and two tps of three towed 17-prs.</p> <p>99 Bty is to be the reserve and SP Bty.</p>	

	27.		The unanimous opinion of all officers of experience in the Regt is that it is not a good establishment to say the least. The towers for the 17-prs are to be M.14s. This would seem to be an improvement on quads. The present period is to be one of rest and maintenance. It is hoped to get every-one in the Div off for 48-hrs to BRUSSELS.	
	28.		Locations remain unchanged.	

Instructions regarding War Diaries and Intelligence Summaries are contained in F.S. Regs., Vol. 1. Monthly War Diaries will be enclosed in A.F. C.2119. If this is not available, and for Intelligence Summaries, the cover will be prepared in manuscript.

Unit 102 (Northumberland Hussars)  
Anti-Tank Regt RA.

Commanding Officer Lt-Col R.W. JELF OBE RA

Month and Year March 1945.

Place	Date	Hour	Summary of Events and Information	References to Appendices
	1.		Regt gets large allotment of 48 hours BRUSSELS leave. It is hoped to get everyone through in a week.	
	2.		Rest, maintenance, Brussels leave. C.O. visits 1 Cdn Army to arrange release for M.14s.	
	3.		Rest, maintenance, Brussels leave.	
	4.		Maintenance still in full swing. Massed pipes and drums of the Div play in TILBURG. Wet day, of course.	
	5.		Information received in the early hours that 289 Bty are moving with 227 Bde to area LEUTH 602628. 289 Bty move off to new area with 227 Bde at 1545 hrs. Recce parties from Regt go to new area. Major G.W. DUNKERLEY MC RA having at last succeeded in breaking out of England arrives back in the Regt to take over 107 Bty. Major DUNKERLEY was wounded in the early NORMANDY days. He has been fit to return for some months but could not break loose. He tells us that Major J.M. PUMPHREY is also on his way back to join us. Tpt is immediately despatched to pick up Major PUMPHREY but as he is an ex-P.O.W. and not ex-B.L.A. he is not allowed to rejoin until the necessary forms have been filled in and the truck returns empty.	
	6.		107 Bty move to LOXBERGEN near DIEST. RHQ move to MOLL (near BOURG LEOPOLD). 99 Bty move with RHQ.	
	7.		289 Bty have to vacate present area and recce party goes to area of NEERHARAN. Regt gets down to re-equipping and try with new equipment as it becomes available. Carriers have to be handed in and all 6-prs. Regt has to re-organise on the new W.E. 17-prs and M.14s have to be drawn and also 6 Valentine SPs.	

		<p>All this is accompanied by the usual order and counter order - availability and non-availability.</p> <p>The Regt is well concentrated for just such work being scattered over about 300 square miles of BELGIUM!! Communication except by D.R. is practically out of the question.</p> <p>Major J.M. PUMPHREY rejoins the Regt. Major PUMPHREY was taken prisoner at MSUS Western Desert in 1942 and escaped from ITALY last year.</p>	
	8.	<p>289 Bty move to NEERHARAN.</p> <p>17-prs begin to arrive and are issued to Btys.</p> <p>C.O. carries out a detailed inspection of 99 Bty.</p>	
	9.	<p>Major G.W. DUNKERLEY MC RA goes to 107 Bty and assumes comd.</p> <p>99 Bty having drawn an additional 6 SP Valentines now begin intensive training, instructors being provided by the old SP tp of the Bty.</p>	
	10.	<p>C.O. C.O.2 and B.Cs attend a briefing conference at 12 Corp HQ.</p> <p>Subject - forthcoming operations.</p> <p>Training continues.</p>	
	11.	<p>B.Cs conference at MOLL.</p> <p>C.O. goes through the new establishment with B.Cs and appointments and promotions are brought up to date. Shortage of tpt in the Regt is a source of worry. We are six 3-tonners short. Workshops main pre-occupation seems to be rather more inclined to the trade of clerks than that of engineering and all our vehicles seem to be "Beyond local repair" although all that is wanted in most cases is the fitting of a new engine. It is decided that amount of 1st line amn carried can be reduced from 90 rds per gun to 60 rds per gun for towed 17-prs and 90 for SPs.</p>	
	12.	<p>289 Bty practice boating drill on the Meuse with M.14s and 17-prs.</p> <p>Lieut H.W. SMITH comes to RHQ from 107 Bty as I.O.</p> <p>Lieut J.D. MARRIOTT goes to 289 Bty from RHQ as L.O.</p>	
	13.	<p>Boating exercise on the Meuse. Regt supplies a composite tp of three 17-prs towed by M.14s and-three SP Valentines. The detachments are made up by personnel from all Btys so as to spread the knowledge. Lieut J. LANE who has been attached to the Regt from 31 RHU is absorbed into W.E. and is posted from 288 Bty to 107 Bty as L.O.</p>	
	14.	<p>Boating exercise continues and regtl composite tps under comd OC</p> <p>289 Bty get on board Cl 50/60 rafts and are ferried over the Meuse.</p>	
	15.	<p>Night exercise cancelled for composite tps.</p>	

		Lieut SAUNDERS is posted from 289 Bty to 107 Bty and takes over 17-pr tp.	
	16.	Maintenance and painting of new vehicles and guns. Major G.R. BALFOUR MC comes to RHQ from 288 Bty where he has been relieved by Major J.M. PUMPHREY. Major BALFOUR who has more than four years of actual fighting service to his credit is being posted to Home Establishment.	
	17.	Practice shoot at LOMMEL for all Btys. Towed 17-pr detachments use 288 Bty's guns. Performance of 288 Bty's guns brings up need for zeroing. Recce parties depart for area of SONSBECK to recce concentration area prior to Regt taking part in assault across RHINE.	
	18.	All Btys (less SP Bty) take their 17-prs to LOMMEL range and zero. BC's conference at RHQ at MOLL. C.O. puts BCs in the picture regarding the next operation which is to be the assault crossing of the RHINE. We are the assaulting Div of 12 Corps with the Highland Division (30 Corps) on our left assaulting REES and the Commando Bde assaulting WESEL on our right. 15 (S) Div assault is to take place between BISLICH (1342) and VYNEN (0845). It is not anticipated that any A Tk guns will be across before D plus 2. It is decided to press for much earlier priority for at least one Bty which it is decided will be 99 Bty (SPs). The operation is to be carried out according to "12 Corps Assault Crossing Technique" which is no doubt an excellent and bulky volume. The Regt however is quite confident it will be able to compete and the pamphlet is not indented for. Lieut McGREGOR who has volunteered for airborne ops is posted from 107 Bty to 99 Bty while awaiting the result of his application.	
	19.	Orders are received that the Regt will be required to provide 2 offrs and 20 O.Rs to take over the job of running the Vehicle Marshalling Areas (SUN and STAR) which are to be established between the MAAS and the RHINE and through which all vehicles will pass and assemble on their way to the ferries. Capt E.J. BONSALL MM and Capt R.E. WHEATLEY are the officers who are to take on these jobs. SP 17-prs of Regt are to take part in the fire plan for next operation and gun posns are reced by C.O.2.	
	20.	Capt C.S. SPENCE goes up to new area (SONSBECK) to arrange for the deployment of SPs in their gun area for the PEPPERPOT shoot. SP Tps move off to new area. They are concentrating in area South of SONSBECK. Route is via MAESEYCK, VENLO, GELDERN to SONSBECK.	

21.		<p>Regt less SP Tps moves to concentration area South of SONSBECK. Leave MOLL at 2130 hrs with 288 Bty joining in column at BOURG LEOPOLD. 107 Bty at HECHTEL and 289 Bty at MAESYCK. Arrive in new area at 0600 hrs.</p> <p>Locations :- RHQ - 048341  99 Bty - 047341      288 Bty - 049344  107 Bty - 0734      289 Bty - 0734</p>	
22.		<p>Capt BONSALL MM and Capt WHEATLEY go off to Div HQ to fix up the Marshalling area job. It now transpires that each of these officers requires a party of one subaltern and 30 O.Rs including cooks, DRs, wireless operators etc. Capt ROBERTS of 107 Bty is required to report to CRE with 12 M.14s and 24 men for the purpose of towing sledges containing raft bldg material from Rear down to fwd Bdes and thence on night of D-1/D Day to the river bank for assembly.</p> <p>It now looks as if all the initial A Tk work will be done by SPs. We have had and are having a lot of trouble with the Valentines - chiefly burnt out clutches. Unfortunately the Div Workshops are not able to effect repairs and when one goes to Div Workshops it is necessary for us to send in Craftsmen from our own L.A.D. The position at the moment is that 99 Bty are complete and all on the road. 107 Bty are one deficient in Workshops and have lent one complete with crew to 288 Bty. 289 Bty have two off the road and have lent one complete with detachment to 288 Bty who have two off the road. 288 Bty can therefore put a complete troop of three in the field but 107 and 289 have only a one-gun SP Tp each. In any case as the Marshalling Area parties have been found by 107 and 289 and also the M.14 sledge party 107 and 289 are out of the battle.</p>	
23.		<p>This is D-1 and the assault is due to start at 2130 hrs tonight. It is now arranged that 99 Bty's SP guns will cross on first priority on the Cl 50/60 rafts. It is hoped to start getting them across about H + 10 hrs and not on D + 2 as originally estimated.</p>	
24.		<p>289 Bty get one of their SPs back on the road and it is ordered to report to 107 Bty.</p> <p>SPs return to Bty areas after taking part in fire plan.</p> <p>H Hour for 15 (S) Div is 0200 hrs.</p> <p>Assaulting Bdes are 44 and 227 Bdes.</p> <p>At 0930 hrs the Airborne forces sail overhead and the sky is filled with aircraft all day. About 8 are seen coming down in flames from RHQ area.</p> <p>At 1100 hrs BC of 99 Bty and L.O. cross the RHINE.</p>	

		See Appx "A" for account of 99 Bty's part in the RHINE battle.	
	25.	<p>Orders are received from Tac that the Regt will move over the RHINE probably tomorrow.</p> <p>107 Bty will concentrate on the other side in area of BERGEN with RHQ. 288 Bty will report to 44 Bde, 99 Bty echelon to 46 Bde and 289 Bty to 227 Bde.</p> <p>A Residue will be left to deal with U.K. leave personnel and L.A.D. will concentrate Bty sections in present Regtl area where they will finish the work in hand and rejoin Regt later. Regt is to cross the RHINE over a Cl 12 Br.</p>	
	26.	<p>Regtl column consisting of 107, 288, 289 Btys, RHQ and 99 Bty echelon move off at 1100 hrs.</p> <p>RHINE crossed between 1600 and 1700 hrs. Column got split up on the move and the Cl 12 br turned out to be a Cl 9 so the Regt had to cross at a different place over a Cl 40.</p> <p>107 Bty goes off in sp of 157 Bde of 52 (L) Div. This Bde was put under comd 15 (S) Div and arrived without its supporting arms.</p> <p>289 Bty location MR 122477</p> <p>RHQ location BERGEN 1445 (Tac and Main join up again).</p> <p>289 Bty SP Tp made up with an SP from 288 Bty which had been in L.A.D. move up from SONSBECK.</p> <p>288 Bty location area 1147.</p>	
	27.	<p>289 Bty maintenance and preparation to sp a 227 Bde attack laid on for tomorrow.</p> <p>289 Bty SP Tp Sgt reports to RHQ that his Tp have bedded down at side of road on this side of RHINE for night.</p> <p>Lt SMITH sent out to contact Tp Comd of 289 Tp SP and to tell him to join his Bty at first light.</p> <p>288 Bty assist 44 Bde to clear woods at 170505. Day of fierce close quarter fighting and heavy mortaring and SP shelling on Bde front.</p>	
	28.	<p>289 Bty move to area MR 143497. SP Tp from 107 Bty joins 289 Bty.</p> <p>227 Bde attack at 1400 hrs after 46 Bde had secured their objectives.</p> <p>227 Bde on their objectives by 1800 hrs.</p> <p>107 Bty take over from 99 Bty with 44 Bde in area NE of HAMMENKELN.</p> <p>Relief completed and all guns in action before dark.</p>	
	29.	107 Bty SPs return from 289 Bty to 107 Bty.	
	30.	New Valentine SP issued to 289 Bty bringing their SP Tp up to strength. 289 Bty concentrate in 227 Bde area 1449.	
	31.	No change. Nothing to report.

			<p>The first news received by RHQ of the battle in STADENSEN was at about 0930 hrs on the morning of 16 Apr at HQ RA, and nothing was said or appreciated that the attack concerned had any significance apart from a village skirmish. This of course was not the case and the German plan was to push through STADENSEN and cut the main Div and Corps axis. Fortunately the attack was held in STADENSEN as otherwise the Germans would have broken right through and cut the axis. Our reserve SP Bty (99 Bty) was not deployed to meet the attack, had it pressed on further because (a) No infm came to us until the party was almost over and (b) The object of the STADENSEN attack was not appreciated.</p> <p>107 Bty move to MOLDERSTAR.</p>

	29.	D Day for ELBE crossing. PEPPERPOT successfully fired by one Tp each from 107 and 289 Btys and two Tps from 288 Bty. 99 Bty's SPs and SP Tp of 289 Bty cross ELBE in evening. Opposition slight but a fair amount of shelling of crossing places.	
	30.	Bridgehead expanded. RHQ, 288 and 289 Btys plus SP Tp of 107 Bty cross ELBE by C1 40 bridge at ARTLENBURG. Some shelling on far bank while head of column crosses bridge brews up six amn 3-tonners just ahead and brings column to a standstill. RHQ arrive at JULIUSBURG. It is thought that a PEPPERPOT shoot will be required in sp of 158 (W) Bde's attack on GEESTHACHT. 107 Bty recce positions to fire from near bank of ELBE. Shoot later cancelled. 288 Bty cross ELBE during the afternoon and join 46 Bde in area of LAUENBURG.	

Appx 'A' to War Diary, 102 (Northumberland Hussars) A Tk Regt RA

An account of the part played by C Battery Northumberland Hussars when an enemy column attacked the village of STEDENSON during the night of the 14/15 April, 1945.

-----

In the early hours of 15 April 1945, the battalion group of the 2 Glasgow Highlanders which was concentrated at STADENSEN was attacked by an enemy column of about 15 SP guns and 30 half-tracks. The enemy attacked from NETTLEKAMP (a little over a mile to the East) after surprising a squadron of the Recce Regt. The force in STADENSEN consisted of the 2 G.H., a troop of towed 17-pr guns and Bty HQ of C Bty Northumberland Hussars (in charge of Capt W.S. BRAMELD DSO), one tp of 63 A Tk Regt (M.10s), one bty of 190 Fd Regt, one pl of 1 Mx, one sqn Coldstream Gds Churchill tanks, and some R.Es etc.

The Bty received no warning of the attack and at about 0400 hrs half-tracks entered the village from East and South, infantry coming in from N.W. Until firing began they were thought to be American as they were shouting "O.K. Sarge!" and using other American slang. Capt BRAMELD went out of Bty HQ to get the 17-pr troop into action but found them cut off. The guns, which had not been sited to fire in the NETTLEKAMP direction, as this was held by the Recce Regt, could not be brought to bear and were over-run. The personnel of the troop joined and fought with the infantry. Capt BRAMELD then went to see what the tanks could do, and found that they were parked in a long double line. The front tank had been put out of action by a bazooka and they were unable to move. Capt BRAMELD next went to the M.10s of the 63 A Tk Regt, who were leaguered with the tanks. The officer of this tp had earlier become a casualty and so Capt BRAMELD took command and led one gun up to a position on the East side of the village where the infantry had said there was an enemy SP gun towing a damaged one. There were found to be several enemy SPs in the area and the towing one was engaged and knocked out first shot. The M.10 then pulled back and waited for half-an-hour and then went out again and shot up two half-tracks. Capt BRAMELD then left this gun, and went to make another attempt to contact the N.H. 17-pr tp, but found the enemy still in possession. On the way he met a Sgt-Major of the Glasgow Highlanders who was trying to get the assistance of another of the M.10s of 63 A Tk Regt to deal with some enemy SP guns on the N.E. side of the village. After some difficulty they brought the gun into position and killed two SPs. Capt BRAMELD then returned to the first M.10 and arrived just in time to see it reverse into a wood-pile and turn over after knocking out an enemy SP gun at 20 yds range. The third M.10 of the tp had meanwhile caught fire from a neighbouring house and jammed its turret. The driver could not be found, so Capt BRAMELD roped in a Sgt-Major of the Coldstream Gds to drive it. He then collected together the gun crew, put out the fire and sited the gun in a position where it could fire. He then went back to the other M.10 still in action and, personally directing its fire, accounted for three more S.Ps and some probables.

By 0900 hrs what was left of the enemy column had withdrawn. A captured map revealed that its objectives were far-reaching and that it was intended to take the whole division in the rear and then to disrupt the L of C. Capt BRAMELD's initiative in taking control of and directing all and every anti-tank resource in the village had been largely instrumental in foiling this ambitious plan. In a period of 5 hours he had been responsible for the destruction of at least 7 SP guns and 2 half-tracks.

The crews of the towed guns which had been destroyed also assisted greatly in clearing the enemy infantry from the village. The personnel of Bty HQ, under Lieut M.A. MAY, after finding an enemy SP gun parked outside their front door, left by the back entrance, carried out a patrol and, taking the enemy in the rear, accounted for a considerable number of Germans.

	26		The NH Cinema opened in MOLLN but the Regtl commitments are so great that the audience is very small. C.O. holds BC conference on recreational training, and came to the conclusion that the Regt too busy for any play.	
	27-31		General admin of area. ELBE-TRAVE stop line gave a lot of trouble, holding up crowds of Germans wishing to return home or fleeing from the Russians. These were simply turned back. All Germans, discharged from the Wehrmacht after 1 May were sent to the POW Cage run by 119 LAA. Lt Col Henderson flew home on priv leave on 30 May. Major Barnett assumed command of the Regt.

Month and Year Aug 44

Place	Date	Hour	Summary of Events and Information	References to Appendices
CAUMONT	1st		Issue stores continued ☉ considerable difficulty is being experienced in getting mech equip operators' blankets and kit carried to their harbour area. Especially on small machinery (ie D6 & D4) there is NOT room for 2 operators kit and blankets ☉ they frequently work with different pls & units during one day and have not time to send back for their kit before moving on ☉ it is recommended that a small trailer (about size of a small handcart) be provided for each D6 & D4 so that when they are working for long periods away from their transporter they can take kit, blankets, rations, maintenance equip etc with them. This unit has captured a small German horse drawn trailer which is proving ideal. There is room to carry it on the transporter when the mech equip is travelling on the transporter.	
HERVIEU	2		Coy moved complete with 150 tons stores from dump to area HERVIEU starting 1600 hrs and all being in by 2200 hrs. Loading pty 30 men & 20 RASC lorries provided. New design for tank track notice boards brought out ☉ experience shows nothing less than 4' x 4' timber or 6' x 3' CGI is any good for size. The former takes an immense amount of timber and the latter is very slow to paint. Recommended large size notice boards (Provost type) be made an ord issue. These require tripod (like blackboard easel) each leg made out of 1½ angle iron pickets welded together, the three legs being wired together with snake lashing of 14 gauge wire. Large scale production of these tripods started but painters a serious bottleneck.	
	3		Painting new design signs ☉ very unsatisfactory as CGI difficult and slow to paint ☉ issue stores carried on	
	4		Orders received to move following day first light. 30 load stores returned to Corps Fd Pk. 15 loads sent fwd with CSM to form adv pty. RAF disposed of U.S. A/P bomb dropped Gordons during afternoon. Home made Div RE shower bath erected.	

Le Tourneur	5		Coy moved during morning in 2's & 3's as roads very congested. RAF disposed 2 U.S. A/P bombs one at Main, one at rear div. Air strip completed. Jar air O.P. opposite coy locn.	
	6		Issue of stores continued ☉ ME much in demand. 1½ pls Bailey Br from Br Coy RASC under command. RE 15 (S) Div Op Instr No 5 received 0730 hrs.	
	7		Issue stores and ME continued up to 2200 hrs. Otherwise quiet day. Making and painting signs as usual. Could do with at least 3 more painters permanently as painters are bottleneck in this. 50 sheets 22 gauge sheet metal 6' x 3' arrived from Corps for experimenting as signs (see my suggestion on 2nd Aug). These require stiffening - experiments in hand.	
	8		Experiments successful with 2 battens down back. Started on production. Other types notices continued in production	
	9		Production signs etc continued ☉ semi rest period - coy shower in full blast for 4 days now bathing other coys ☉ ME, Stellar trailers and Petter pumps overhauled and repaired	
	10		1½ pls Bailey, FBE & 2 Arm D7's all reverted from under command this unit ☉ Production of signs continued. Estimated signs made since arrival 6' x 3' - 100, 4' x 4' 300, 2'-3" x 2'-3" 500. Miscellaneous smaller signs 500. Since most of these were made of timber, the value of the circular saw has been enormous. It has seldom worked for less than 8 hours a day.	
	11		Painting signs, repairing ME & Stellers, & generally getting ready for next move fwd expected soon.	
	12		Received warning order to move near future as Div leaving 8 Corps & joining 12 Corps. Returned certain stores & packed up	
	13		Move postponed one day - rested coy.	
AVENAY	14		Coy moved to AVENAY. 8 lorries sent back to lift remainder of dump	
	15		2 secs FBE under command for br over ORNE built by 279. 2 - 500 lbs and one 1000 lbs (British) bombs removed by RAF	
	16		Resting, visit by Div Commander	
	17		OC reced new area near FRESNAY LE VIEUX. Half dump moved out in evening with adv pty under CSM. RAF disposed 4 Allied Bombs (one - 1000 lb British 3 - 500 lb British & American)	
FRESNAY LE VIEUX	18		Coy moved new location arriving 1400 hrs ☉ digging in not possible due to rock at depth 6" ☉ however long way from front so not worried	
	19		One 500 lb bomb (Brit) removed by RAF. RE 15 (S) Div Op Instr No 8 issued for next operations. One pl Bailey under command	

VILLERS-CANIVET	20		OC reced new area 0600 hrs, coy started moving 0900 hrs and all in incl extra 10 loads. 6 extra lorries from Div RASC, 4 Cl II angledozers and 2 tptrs. 4 Landing Stage units and 2 centre panel units under command. Operation postponed 48 hours.	
	21		Very heavy rain from midnight till late afternoon.	
	22		Received orders to make 20 brackets for assault boats, new General's caravan from a TCV (unfortunately the general is very tall), new G.3 I's office ⊙ fixed up details and ordered stores, received RE Op Instr No 10 allotting stores etc.	
	23		Issued br equip and stores to coys as follows: to 279 Fd Coy, 26 Br Pl, 1 Arm D7, 1 Arm D6, 5 stores vehs, 4 Landing Stage Units & 2 Centre Panel Units FBE, to 20 Fd Coy, 1 Pl Bailey, 2 unarmd TD 18's, 4 stores vehs. Drew 6 more RASC lorries and was able to become fully mobile in one shift. Work proceeding on signs brackets & caravans	
FALAISE	24		H hour for Op GALLOP 0830. Coy moved to 4 miles E of FALAISE. 10 Assault Boat lorries under command plus 45 Seagull engines. Difficulty in keeping ME on move as one transporter did not turn up, one was bogged and one was lost.	
GRANDCHAIN	25		Coy moved 0750 destination being unknown. OC ahead & moved 278 Fd Coy. Bridging equip (incl refilled 26 Br Pl and new pl from Br Coy picked up en route) & rest of coy in priority convoy to GRANDCHAIN. One pl Bailey immediately sent fwd 2 secs each to 278 279 fd coys ⊙ new Bailey pl drawn & 2 secs FBE night 25/26 ⊙ own Br pl in reserve	
ECANDEVILLE	26		Coy moved 1200 hrs to ECANDEVILLE ⊙ 26 Br Pl moved 0700 hrs to LOUVIERS with pl 20 Fd Coy ⊙ additional 8 Panels 4 Decking 2 Accessory from att br veh sent fwd 1800 hrs to same location. Mech equip collected & reissued	
QUATREMARE	27		Empty br vehs returned ⊙ 26 Br Pl made up from remaining loads of att 147 Br Coy vehicles ⊙ this pl returned to GRANDCHAIN and new pl 147 Br Coy drawn in lieu. Coy moved to QUATREMARE

Strong representations have been made about the grossly inadequate scale of cooks, cookers &amp; cooking apparatus for both the basic fd pk &amp; the br pl. The br pl is actually supposed to cook for 42 people when detached with nothing more than 2 camp kettles (no frying pans, no containers, etc) on 3 No3 cookers. Although the LAD is permanently attached it is not counted against our WE for scaling in regard to cooks, and as we have almost invariably a minimum of 20 - 40 other men attached the situation is further aggravated.</p> <p>Further, the LAD recovery vehicle a Chevrolet Light recovery proved to be useless for 50% of its work and a Heavy Recovery Vehicle Scammel is being obtained.</p> <p>Additional tentage for workshop pl was also obtained but an Aldershot shelter is really required so that vehs may be got under cover as one of our permanent tasks is building in vehs for commanders etc.</p> <p style="text-align: right;">M.D. Wilkinson Major RE</p>

Main Div at 565215 and Rear Div 545211 CSO 8 Corps visits C.O. followed by 8 Corps lines officers. Most helpful with line assistance but O.C. 1 Coy on ahead in the morning has much of it arranged already. Wireless excellent throughout a day of rather feverish line activity - the evening finds lines to all Bdes (44 through 227) including 6 Gds Tk Bde, line to 11 Armd Div, 7 U.S. Armd Div, two lines to Rear Div, Recce, line to Main Corps and to Rear Corps Air raid over HELMOND. Slight casualties at Rear Div HQ, only rather serious casualty among Sigs personnel being 1 cipher sgt evacuated with cuts from anti-personnel bombs. This will refresh in the minds of all ranks the still very necessary slit-trench being dug on arrival in a new location.	DGH  DGH  DGH
HELMOND  ZOMEREN	30	0900  1130  1300	OC 1 Coy and usual train of line section personnel leave for 7 U.S. Armd Div area, which 15 (S) Div is today taking over. To ascertain line-layout and commence new Div lines. Main Div HQ moves to ZOMEREN (598108) arriving at approx 1245 hrs, followed in the afternoon by Rear Div HQ to 586120. Wireless excellent throughout the move. On arrival here, a complete HSSU FCP is found to be working, having been handed on to us, as it were, by 7 U.S. Armd Div, who left without even giving them the day's routines. Signal Centre established at ASTEN (6113) and together with that and 8 Corps "SWAN" Signal Centre in DEURNE (6419) today's line layout makes good progress. At the end of the day there is a most comprehensive layout to everyone except 1 Middlesex and nothing to Rear Corps. One line only to Main Corps - lateral to 7 US Armd Div, but not to 11 Armd Div as expected. Some of the officers in the HQ buildings for first time - extensions both telephone and W/T satisfactory	DGH  DGH  DGH

ZOMEREN	31	0800	O.C. "C" Sec (LT RADWAY) sick - section temporarily under comd LT STEARS and engaged today on further consolidation of yesterday's line layout (sec line diagram issued as at 1500 hrs today). 	27	0830	Wireless OK throughout day - step-up out to 44 Bde again	DGH
		1030	227 move again. New line extended to them, also later lateral to 46 Bde. Line section out laying line to 56 Bde of 49 (WR) Div from whom 44 Bde are taking over night 28/29. Line through to 56 Bde at approx 1600 hrs	DGH

		1900	Another day of rather desperate activity in the line world especially on the part of Bank Gp Sigs, who, having asked for 14 clear days to complete his line layout, has had to do it in 4 - some of it will NOT be finished by H hour. These 4 days not unhampered, as smoke necessary for daylight line-laying and the programme altered about extremely inconveniently several times	DGH DGH
		2045	CR Sigs leaves for Bank Control and other fwd areas	
		2300	Wireless opens - CV1 OK all round immediately (44, 46, 227, 4 Armd, Recce, 1 Mx, Tac Div HQ & LO at 51 Div) also all links to Corps - trouble on CV2 - set goes faulty. Bdes not up (except 4 Armd & Recce Regt) but 19 set opens and Bdes called up. CV7 OK except 153 which is being relayed through 193 - CV8 OK except for 46 who were late on the air - CV15 OK except 399 Coy who were late on the draw - by 2359 all culprits dealt with and all comms OK - R5 all round - distances very reasonable. 		1900	44 Bde HQ already across & line comms established via Right Crossing Control	DGH

		1200	157 Bde of 52 (L) Div comes under comd 15 Div - netted on R/T and C/W Comd nets at 1230 hrs precisely - comms R/5 each way	DGH
		1430	15 (S) Div Main moves up and joins Tac HQ which ceases to exist to BONGERTSHOF (091428) arriving at approx 1600 hrs - line layout suitably adjusted and lines shortly through across the river to 46 Tac and 227 Tac HQs. Recce party has already been out across the RHINE this afternoon and Main Div is crossing tomorrow morning	DGH
		1800		DGH
BONGERTSHOF	26	1000	Main Div HQ all ready for move across RHINE but move delayed due to timings over the bridges until 1200 hrs approx when Div HQ moves out and arrives at new location (BERGEN 140460) at approx 1545 hrs	DGH
BERGEN		1600	Signal centre in position prior to arrival of Div to take on lines and lines through shortly - 2 to Rear Div, 46, 227 Bdes - lateral between 46 & 227 and Recce from 227. No lines being laid to either 4 Armd or 157 Bdes as these are both passing from comd tomorrow, but parties out on 44 Bde line, which is a very considerable lay, especially in view of the congested state of the roads	
		2300	The above also caused a good deal of trouble with line faults. Wireless no trouble throughout day - except for a very temporary breakdown of CV8 - CV13 took comd of the group until CV8 on the air again	DGH
BERGEN	27	0900	- onwards. A day of build-up on lines, exceedingly hampered by road congestion but apart from 44 Bde, not through until late evening, all fmns through as per schedule - Sig Centre established in 46/227 area. Two bns under Div comd at various times of day (2 A&SH & 6 HLI of 52 Div) but 2 A&SH revert to own 227 Bde and 6 HLI go to 46 Bde	DGH
		1230	CSO 12 Corps visits and stays for lunch	DGH
		1500	157 Bde pass from comd - 4 Armd Bde having already done so at 0600 hrs

		2100	Lorries from QM dept at Rear Div arrive with stores, cable etc having taken 6 hours for the journey	DGH
	28	0100	Div Comd R/T net freq changes to 2064 Kc/s (former 46 Bde comd) & 46 to borrowed freq of 2544 Kc/s (original Main of 2260 Kc/s being recalled)	DGH

BERGEN		0900	A morning of little interest - building up of line layout first from Sig Centre - line through now from Main Div HQ - RASC FWD DUMP	DGH
		1430	CR Sigs and Adjt pay routine to all three Bdes - 44, 46 & 227 Bdes and do not return until 1800 hrs approx	DGH
	29	0100	All borrowed freqs for op (except 2544 Kc/s acquired yesterday when this first began) returned and Div now back on normal Inf List "A" - not convenient as our own freqs seem to have the whole world also working on them at present - hence the necessity for keeping the borrowed 2544 - given to 46 Bde and the 46 Bde freq of 2064 Kc/s now used for Div Comd R/T net	DGH
		1000	Main Div HQ moves to area HALSHORSER (182501) and Rear Div HQ moves across RHINE to VISSEL (137453) both arriving new location approx 1130 hrs. Sig Centre remains firm and line layout most satisfactorily built up throughout day around this. Wireless very little in use at present - present op virtually over	DGH
HALSHORSER	30	0900	- onwards. A very much quieter day generally - line maintenance, set maintenance and make and mend	DGH
		1200	Issued line diagram as at 1200 hrs	DGH Appx
		1500	Last of borrowed freqs (2544 Kc/s mentioned yesterday) withdrawn by Corps. 46 Bde given former Div Comd freq in lieu	DGH
		1730	GSO 1 addresses all ranks Main Div HQ on the progress of the last battle and events to date	DGH
	31	1000	Another reasonably quiet day of maintenance etc	DGH
		1200	CR Sigs 52 (L) Div arrives and stays for lunch - that is our first real meeting with our original parent unit since the war began - only too few left now in either unit to whom the association means anything at all	DGH
		1500	CR Sigs and Adjt proceed on tour around Div area inspecting the building, maintenance etc of the line layout	DGH

Place	Date	Hour	Summary of Events and Information	References to Appendices

		1400	The rest of the day fairly quiet again - even Corps is now forward of the Division	DGH
	2	0900	Following changes in offr's appts - CAPT BLACK relinquishes HQ Coy and is posted to 1 Coy - proceeds to Rear Div as Signalmaster vice Lt PRINGLE who comes up to Main for Signalmaster's duties (CAPT ORR about to proceed on UK leave). CAPT TONER assumes comd of HQ Coy and the duties of Camp Comdt Main Div and relinquishes "A" Sec. LT SOUTAR (at present on UK leave) is appointed OC "A" Sec	DGH
		1500	CR Sigs proceeds to 46 Bde - arguments raging since submission of last monitoring report on 46 Bde Comd net!	DGH
		1800	Lecture by Mil Gov officer to offr's Main Div HQ (CR Sigs, Adj't, OC 1 Coy, OC HQ Coy attend). Adj't produces lists on these matters for all Secs	DGH Appx
HALSHORSER	3	1000	A day of preparations for moving tomorrow - Recce party out at Tac Div HQ for move fwd of Div HQ and 1 Bde (227 Bde) to take over from 155 Bde of 52 Div in RIESENBECK area. The remainder of the Div to concentrate in area EAST of BOCHOLT prior to returning into the line with 12 Corps	DGH
		1600	46 Bde and Recce move into a/m area - wr'ls comms OK but rather stretched while moving and for "Q" net at Rear Div - direct comms with Tac Div HQ (a distance of some 60 miles) OK after Tac Div static	DGH
		1830	Remainder of lines at Sig Centre strapped through to Rear Div, 227 Bde and Mx and Sig Centre brought in to Div	DGH
		2200	All preparations made for move at 0645 hrs tomorrow but plans suddenly changed - no move before 0900 hrs and 15 Div going under comd 8 Corps and proceeding to completely different area from that rec'd and planned for. Admin arrangements altered to	DGH

			suit - not much else can be done - recce party will contact ½ cable sec gone fwd earlier	
HALSHORSER	4	0900	Main Div HQ - 15 (S) Div now under comd 8 Corps. 6 Gds Armd Bde under comd 15 (S) Div and 15 (S) Recce Regt under comd 6 Airborne Div - moves to TECKLENBURG (051022) after making short halt at GREVEN (9188) arriving at approx 1930 hrs, having covered a distance of 87 miles	DGH
TECKLENBURG		2000	No lines being laid - at present the nearest Bde is over 20 miles away, with Rear Div HQ and remainder of Div still 60 miles away in the BOCHOLT area	DGH
		2100	Wrls comms fairly good, considering extreme ranges - most serious problem being mutual interference between Div R/T Comd and 8 Corps C/W Comd - some changes will have to be made when the Div is more concentrated tomorrow	DGH
TECKLENBURG	5	1000	A day of concentration of the remainder of the Div, with attention focused entirely on wrls comms which have really stood up to the strain very well and given good service over the ranges they have been asked to work. Certain frequency changes effected at this hour today, which have the effect of restoring the allotment completely to normal	DGH
		1730	The only line being laid in this area - Main Div - 227 Bde now completed. A difficult proposition due to the congestion on the roads	DGH
LAVELSLOH	6	1000	Main Div HQ followed by Rear Div HQ moves to LAVELSLOH (686254) arriving at approx 1915 hrs - Rear Div not till approx 2200 hrs	DGH
		2200	No Bdes in as yet, so no lines. No corps lines through there under way. Quad ready for Rear Div to pick up on arrival. Wireless comms almost impossible tonight - Corps nets OK - but Div nets, with Bdes on move with only short aerials not through at all satisfactorily. Div Comd R/T even with two step-ups out not through at all - freq hopeless due to proximity of Rear Corps - Rear Div freq and set on loan to Recce Regt. This freq recalled but change of freq out of the question at present	DGH
LAVELSLOH	7	0800	Wrls situation greatly improved - interference much reduced - all stns OK - 44 Bde through step up in last location, but direct later as Bde nears this area and step up (ACV) recalled.	DGH
		0930	CR Sigs inspects cookhouse etc with ADMS - some rather unfavourable comments - these being attended to by OC HQ Coy	DGH
		1000	Lines to Bdes under way (PL possible for 227 Bde) and pairs Main Div - Main Corps - Rear Div - Rear Corps in last night and by	DGH
		1700	1700 hrs lines completed to all four Bdes (6 Gds Armd Bde under comd) and 1 Mx, 44 Bde the last Bde to arrive, moving to new HQ	DGH

			by approx 1600 hrs. Lateral to 11 Armd Div also completed (by Corps)	
		1800	Adjdt attends A/Q conference with OC Sigs Rear at Rear Div HQ	DGH
LAVELSLOH	8	0900	A day of maintenance, both vehs and equipment, and of baths. Early morning patrols out today, 2 secs of Div Sigs, hunting Germans in the surrounding woods - 3 prisoners brought back. Signalmaster, Cipher officer and lines officer were out on this ploy and there is to be another similar foray tomorrow morning	DGH
		1000	Church parade in village church - reasonably good attendance	DGH
		1700	Apart from a/m - a quiet day with most wrls lines closed, though Rear lines to Corps now open again, as Corps moved at approx 1500 hrs	DGH
	9	0600	CR Sigs, 2 i/c and Adjdt out on Div HQ patrol in woods of 46 Bde area on another search for lurking Germans but none found	DGH
		1100	CR Sigs inspects general area vehs cookhouse etc and finds good progress being made on maintenance and general cleaning up	DGH
		1415	CR Sigs and Adjdt pay routine visits to all three Bdes, returning	DGH
		1730	at approx 1730 hrs	
HAGENBURG	10	1200	Main and Rear Div HQ move to HAGENBURG (068276) arriving at approx 1630 and 1730 hrs respectively. Main Div occupying the palace of the Prince of Schaumburg-Lippe, he and his entourage being turned out by the Div recce party.	DGH
		1830	Lines to Main Corps, Rear Div - Rear Corps, 227 Bde and a line from Main Corps - 46 Bde arranged through CSO channels, after a visit from the CSO after tea	DGH
		1945	CSO Sigs attends Div Comd "O" Gp conference Wrlds position fairly good, but interference on Div Comd R/T net and freq is being changed tomorrow morning to alt freq which is once again being recalled from on loan to Recce	DGH
	11	0700	Div Comd R/T net changes satisfactorily to alt freq, a big improvement, but Recce Regt takes over former freq in preference to their own	DGH
		1000	A/Q addresses all ranks on the subject of looting	DGH
		1030	Div HQ in a state of half-readiness for move, promised for mid-day but now somewhat postponed - 227 Bde making slower progress in front than anticipated	DGH
		1830	Main and Rear Div HQ move to FUHRBERG (434428) arriving at approx 2000 hrs. Wrlds OK all round. Corps line in but no Div lines laid except locals (incl 6 Gds Armd Bde & Rear Div)	DGH
FUHRBERG	12	1000	Main and Rear Div HQ move at very short notice to CELLE - just captured and ahead of Bdes! Main Div at 589501 in former palace of the wife of George I (arriving at approx 1230 hrs)	DGH

CELLE		1300	CR Sigs and Adjts visit concentration camp - sights too vile to be described	DGH
		1830	No lines being laid other than locals in this location 6 KOSB on Div Comd R/T net for task - also set with LO at 11 Armd Div. Wrls state OK but R/T comn extremely difficult to 44 Bde, still in yesterday's area and also to Corps	DGH
ESCHEDE	13	1030	Main Div HQ (followed in the afternoon by Rear Div HQ) moves to ESCHÉDE (695621) after harbouring for about 4 hrs, still in CELLE, but on the NORTH side of R. ALLER. Main Div HQ not into new location till approx 1700 hrs. Corps line in and short lines laid to all lower fmns except 44 Bde and 227 Bde. Wrls situation good tonight, after slight difficulty with Rear Div on today's moves	DGH DGH DGH
ESCHEDE	14	1000	One of the mornings so prevalent just now of starting by waiting for orders to move - wrls OK throughout and routine work proceeds apace - the amount of paper reaching this office now is very heavily on the increase	DGH
		1430	Main Div HQ <u>only</u> moves to HOSSERINGEN (807770) - a long and tedious journey for a short distance, arriving at approx 1830 hrs, leaving Rear Div HQ, 44 Bde & 6 Gds Bde in former area	DGH
HOSSERINGEN		2200	Wrls OK all round, except to Rear Div which is rather feeble on both nets - lines to 44 Bde, and from there to 227 Bde and Recce, and to 46 Bde, all reasonably short distances	DGH
HOSSERINGEN	15	1000	Open air church parade - not a very good attendance, probably due to the rather cold weather. Not expected that there will be move today, the Div being somewhat held up on the approaches to UELZEN and line build-up planned, but requires alteration when decision made to move in afternoon after all.	DGH
		1445	Main Div HQ moves to HAMERSTORF (833833) arriving at approx 1630 hrs - Rear Div HQ established this morning at RABER (800790)	DGH
HAMERSTORF		1800	Lines laid to all 4 Bdes, Recce (from 6 Gds exchange) and two lines to Rear Div - all lines quad tails and the majority railway PL. Lines also to Main Corps and Rear Div - Main Corps	DGH
		2200	Wrls OK throughout day - Med net now very scattered and only 193 Fd Amb possible	DGH
	16	1000	The Division rather halted in its advance today before UELZEN with no moves for either Main or Rear Div - quite a welcome relief and a rather quieter day at Div HQ, especially as most of the wrls nets are closed at varying times throughout the day.	DGH
		1600	Lines comms being satisfactory all round The following awards notified today - CROIX DE GUERRE with gilt star - Major P.B. Pitney (OC 2 Coy), Capt W.H. Munro (46 Bde),	DGH

	JUN 26	0730	<p style="text-align: center;"><u>No 4 Pl A Coy</u></p> <p>Put in sp of 6 R.S.F. - task of reorganising on objective after the village of ST. MAUVIEU has been captured. Move off to N. NORREY EN BESSIN. As we approach ST. MAUVIEU, extreme resistance is encountered in the shape of large numbers of snipers hidden in the buildings on the outskirts of the village, and it is with the greatest difficulty that the Pl Comd makes his way to the objective of A Coy RSF, a small wood &amp; orchard 934688. A recce is made from one sec position in the fwd edges of the wood, and right &amp; left of track through wood. No infantry, with the exception of one RSF ANTI TANK platoon has reached this area at all. This is presumably due to the presence of at least 6 German snipers &amp; 2 enemy MG positions in the wood at 931687. The D.R. with some difficulty returns to Pl R.V. at Br 927692 and brings up Pl to the wood. The Right hand section is completely unable to take up a position as anyone entering the wood is immediately finished off by the snipers. They are therefore held as a mobile reserve just to the rear. No 2 sec goes into action in the orchard L of track firing centre of arc on MARCELET.</p>	
		1200	<p>Enemy counter attack from area 939657. The R hand sec is brought round into the orchard to reinforce the L flank. This enables the attack to be repelled and it is thought that most of the enemy are wiped out. However a few have filtered through again into the wood. Tanks are periodically being sent into the wood to clear away the enemy but do not seem to have much success.</p>	

		2230	A Coy of KOSB arrive to relieve R.S.F. and it is thought that one of their Pls following 3 Churchill & 2 Crocodile tanks, eventually clear the wood.	
		2300	Pl relieved by 4 Pl 8 Mx.

	24		A & B Coy Comds assume the role of assistant Counter-Mortar Officers in Div plan. The intention is that as soon as a bomb or shell lands in a Bde area, the A/C.M.O. orders immediate retaliation on selected targets by 3 Pl's M.M.G.'s, two or more Pls' 4.2" mortars and all available 3" mortars. Deliberate retaliation is carried out with the aid of artillery on a Divisional scale by Div C.M.O. The Bn has taken a defensive role and periodical counter-mortar fire proves to be very successful. Lt Livemore (D Coy) has an excellent O.P. in CAUMONT from which many shoots are carried out.

The German is underneath and is dragged out by the Provost Sgt &amp; stripped. A guard is then placed over him. One of our fellows knows a smattering of German and with some little difficulty we glean that he is 23 years old and is a telephone operator. He had been living on raw eggs for two days. There is much fraternising as the enemy had only been gone that same day.  Bn harbours for the night just beyond BERNAY.</p>	
	26	1100	<p>Bn HQ, HQ &amp; D Coys move fwd to COMBON.  The Division is now given the role of forming a bridgehead over the R SEINE, with certain objectives. When these are taken 12 Corps will come through and break out of the bridgehead.</p>

They are firing as fast as they can. They are also supported by the mortars.  An attempt is made to cross the river by infantry and after a while a crossing is made with very few casualties.</p>	
	28		<p>All Pls are now across the SEINE and the enemy is in full flight.</p>	
	29		<p>Lieut Gerrard, 'D' Coy organises a small party comprising his OP personnel to investigate the wood at 314955. 3 men of the SS Adolf Hitler Div are captured after a short action during which a grenade is thrown at Lieut Gerrard which fortunately fails to explode.</p>

AARLE 549258	1st.		The Bn adopts revised methods for compilation of the War Diary. As far as possible 2 copies of op. orders, instructions etc are now set aside specifically for the War Diary but, in the case of documents received, whenever there is only one copy available it is retained for use with the War Diary Original. In view of this Bn's widely dispersed activities and continual changes of plan it is not found possible to rely on operational documents to "paint the picture" and the narrative merely an explanatory link between phrases.	
	3rd		4 Pl rejoins A Coy from 53 Div.

At 3,000 yds from the posn, however, only 2 of 4 bombs are heard, due to M.T. movement at the time. This camp consists of some 947 German and Hungarian PW. 9 pl C Coy hand over REFORM CAMP to 131 Field Regt. 4 pl A Coy start another camp at a Glass Factory between DELLINGSDORF and AHRENSBURG. 1,000 PW sent to A Coy and a further 800 admitted to D Coy's camp.	
	10	9 pl C Coy placed under comd D Coy to assist at Factory Camp. B Coy move to VOLKSDORF. D Coy dispose of 900 PW.	
	11	A Coy hand over commitments to 2 Gordons and conc at MOLLHAGEN. C Coy hand over to 2 Gordons STELLMORE CAGE.	
	14	Bn concs in VOLKSDORF. Excellent billets. Coys move independently with Bn HQ and HQ Coy bringing up the rear, arriving at midday. Locations :- Bn HQ and HQ 614639 - A 614640 - B 615644 - C 613629 - D 612639.	D4 J39 D 5-6-7.
	15	All arrangements made to celebrate ALBUHERA DAY tomorrow. News comes at midday that Bn may have to move at short notice.	

		At 1500 the move is confirmed and we leave tomorrow for TRAVEMUNDE to land and escort PW (from BALTIC) to OLDENBURG PENINSULAR. Recce parties go off at 1800 hrs. CO leaves for area and holds O Gp at 2315 hrs after a recce.	D 8-9.
	16	Albuhera Day. Bn (less B Coy) moves to Baltic coast at 0700 hrs, arriving about 0930 hrs. Locations :- HQ 036026 A 055038 B 615644 C 064007 D 051017 Prisoners start to land at 1300 hrs. C Coy arrange disembarkation in conjunction with elts of Royal Navy. About 6,000 are disembarked during the day and taken off to transit camp est by D Coy. M.O. and staff are kept busy with anti louse powder and guns.	
	17	Another boat in and disembarkation by C Coy is started at about 0830 hrs. A Coy collect the PW in D Coy's cage and march them off to WINTERSHAGEN where they are handed over to reps of a WEHRMACHT Corps. Demonstrations by civilians who cheer and attempt to give food etc., to PW cause some difficulties. Arrogance on the part of PW is ruthlessly dealt with also slackness. 3 ton lorries follow the column but only stragglers picked up are men whose feet are bleeding badly or who have lost consciousness. Bayonets and sticks have to be used on many occasions. B Coy who have arrived during the day join A Coy and share the marching problems. Our own troops had to march with the PW as control could not be maintained from the carriers. Approx 6,000 more PW are passed through the cage and on to the German Corps during the day.	
	18	During the next few days there is not much on and the time is mainly spent on odd drill parades, a little firing out at sea, bathing and sun-bathing on the sands. D Coy move nearer to A and B Coys (058041).	
	19	Entertainment in LUBECK starts and various cinema and ENSA shows are seen each day. 20 PW arrive and are passed straight through to WINTERSHAGEN. 120 PW are again passed straight through to WINTERSHAGEN.	
	22	Bn moves back from TRAVEMUNDE area in "penny packets". A good convoy spread over about 30 miles of autobahn.
