Diversion made and advance cont. 1320 hrs-Held up by further crater at 747670 covered by SP gun, Pl of "D" Coy deployed to stalk this gun which made off under cover of smoke. Bde Comdr decided that the coln should</p>	<p>Cas: Nil PW: 40 Reinf: Nil</p> <p>Appx J.3.</p>

		cont its advance at midnight by cross-country route to UELZEN to avoid the many delays which would probably be caused by demolitions on the main axis. The Bn was given 3 hrs for rest and food.	Cas: Nil
	14th	<p>0015 hrs- CO gave out orders for continuing the adv. Fmn of coln to be as before. "C" Coy followed by "B" Coy to ride on tks followed by HQ and "A" Coys in TCVs. "D" Coy to remain in posn on far side of crater on main axis. Route:- By most direct side rds through HOSSERINGEN - SUDERBURG - HOLDENSTEDT - UELZEN. 0130 hrs- Coln moved off and made good progress with no opposition. A few enemy were overrun in the villages but the speed of our adv was unexpected. About 0430 hrs the coln passed through HOLDENSTEDT and began the final adv on UELZEN. On reaching the area 8886 the leading tks ran into an enemy coln coming towards them. Numerous flak sites on the open grd nearby sent up Verey lights and a General alarm was soon given. An enemy amn truck which had been set on fire trapped one of our leading tks in its flames and blocked the rd for a further adv. The enemy who had now been thoroughly roused began to come into action on either flank. In view of this and the fact that it was almost daylight the CO ordered Coys to hold objectives around the rd-rlly crossing at 888868. "C" Coy attempting to adv to a posn on the road junc 892876 met an enemy counter attack coming in from their right front and pulled back to a firm posn at 890870. Meanwhile a number of enemy supported by SP 4 Barrelled 20mm AA guns, infiltrated from the woods to the east and cut the main rd where "S" Coy and part of Rear Bn HQ were halted putting out of action a number of vehs and taking 16 prisoners from "S" Coy. This party then manned further 20mm AA guns on the west of the rd and set on fire some of the TCVs in the Bn coln. Prompt action was taken by the Tp of 319 Fd Bty RA which had deployed beside the rd and fire was directed against the enemy over open sights, causing the enemy finally to withdraw. At 0715 hrs, "A" Coy supported by arty fire attacked enemy in a small wooded feature at 882872, which had been giving trouble. Over 70 PW were taken bringing the total to over 200 for the night's operation. The PW were found to belong to a new unit which had just arrived from DENMARK and was in process in occupying posns for a strong def of UELZEN. Between 0800 and 0930 hrs considerable parties of enemy cont to infiltrate into our posns particularly from the woods immediately to the east. During this time the Bn was cut off from the rest of the coln and engaged groups of enemy from all sides. One SP 20 mm which remained in action cont to give serious trouble by fire at very close quarters. At 0930 hrs the Bde Comdr sent fwd</p>	<p>Cas: 7 ORs Killed  1 Off &amp; 57 ORs wounded  PW: 214  Reinf: Nil</p>

		<p>an additional Sqn of tks to reopen the main axis to the Bn while at the same time the 2 A&amp;SH began to move fwd along our right flank to clear the enemy from the woods 8985 and 8986. By 1030 hrs the situation had eased except that "A" Coy in a rather isolated posn were being subjected to rather heavy mortar and MG fire. "D" Coy who had rejoined the Bn at this time were sent to assist them by taking up a supporting posn on their left flank. Since it was now appreciated that the enemy was holding UELZEN in strength the Bn consolidated and re-organised in its existing area while a Bde attack on UELZEN was prepared, to take place overnight. There was intermittent shelling of our posns during the remainder of the day. 2030 hrs- CO gave orders to the Coy Comdrs for the night attack. The Bn to capture the village of VEERSEN while 2 GORDONS passed through to enter UELZEN. Bn attack was to be made at 0030 hrs with "B" and "D" Coys fwd on tks and "A" and "C" Coys following to mop up. Arty fire plan to be put down before the advance.</p>	
	15th	<p>0030 hrs- Leading Coys moved off with tks. Strong opposition was met in the village but "D" and "C" Coys on the left succeeded in reaching their objectives at 8898883 and 887881 respectively. "B" and "A" Coys on the right had more trouble in dealing with enemy in houses and the tks were unable to penetrate more than 100 yds into the village owing to the narrow streets and presence of numerous "Panzerfaust" squads. At 0500 hrs all Coys were engaged in heavy fighting inside the village. "D" Coy had been counter attacked by an enemy force incl SP guns which fired into their posns at close range and made them untenable. "C" Coy in its firm posn at 887881 now became fwd Coy on the left. "A" and "B" Coys in their areas now began house clearing against heavy opposition which was now found to consist of 6 SP guns closely supported by infantry escorts of 6 to 10 men with Panzerfaust and automatics while snipers and MGs were sighted in houses covering every approach. Close quarter fighting cont all morning and in the course of it the CO was wounded. By mid-day it was decided that "A" and "B" Coys would continue their house clearing until the Bn was est on the line of the east-west rd running through the centre of the village. When this was finally achieved in the afternoon, there was still unlocated snipers in the area and the fwd posns were dominated by SP guns at ranges even of less than 50 yds. Numerous attempts which were made to stalk these resulted in one being put out of action, but the infantry escorts surrounding them made approach very difficult. As a result of the resistance on our objective and equally strong opposition on the main rd, 2 GORDONS on our right</p>	<p>Cas: 1 Offr &amp; 17 ORs wounded PW: 23 Reinf: Nil</p>

		had been unable to advance any further than we had. It was decided therefore that 46 Bde should attack the town, while 44 Bde cleared that part of the town east of the river in 9089. 46 Bde would take over existing posns of 227 Bde during the night. During the hours of darkness 9 Cams relieved the Bn.

	18th	Bde Comdr brought change of plan during morning, UELZEN had now been by-passed by 11 Armd Div and the eastern portion of it captured by 44 Bde. 227 Bde would advance through UELZEN when it was finally cleared and advance to area BEVENSEN 9002, BARUM 8698, VINSTEDT 8497 ; 1330 hrs CO attended Bde O Group. In view of 11 Armd Divs breakthrough to LUNEBURG advance of 227 Bde now to be extended to area WENTHAUSEN 8921 : HOLZEN 9020 : REINSTORF 9819. Time of move dependent on time taken by 46 Bde to clear UELZEN. Advance later to be cont by whole Div to the ELBE and an immediate crossing made if opposition was light. 2000 hrs- Bn "O" Group. 	20th	<p>0005 hrs- Bn reached LUEDERSHAUSEN where br was still being built, infm received from Coy of 1st CHESHIREs in this location that ARTLENBURG was occupied by at least 1 Pl of enemy. 0100 hrs- Bn "O" Group. As Bde Comdr did not wish night attack to be made on ARTLENBURG, Bn would occupy posns at LUEDERSHAUSEN with "C" Coy fwd at MARIENTHAL 8233 as firm base for patrols. Each Coy to send Offr Recce Patrol to a selected area of the river bank to make a report on suitability of bank for storm boats or LVTs. 0230 hrs- "C" Coy est in posn and patrols began. 0600 hrs- All patrols returned and reported that they were unable to carry out full recce on account of enemy posns. Enemy were reported at southern, eastern and western approaches to ARTLENBURG. Also at AVENDORF 8135 and at points on river bank between these places. 0930 hrs- Enemy carried out recce of "C" Coy posns which was beaten off with cas. During the day REs attempted to build bridge over crater 823326 but were prevented from doing so by enemy SP guns dominating the ground from the far bank of the river. 1700 hrs- Bn "O" Group. Bn to capture ARTLENBURG by night exploiting to AVENDORF. 2 A&amp;SH on right and 2 GORDONS on left would be closing on river at same time. Attack to be supported by arty fire plan and "pepper pot" of MMGs, 4.2" Mortars and tks. Attack on ARTLENBURG to be made from FAA in "C" Coy area by "B" Coy right-"D" Coy left. Bn now warned that an immediate crossing of the river would not be made and that the Bde would remain in its posns for a week or 10 days during which time OPs and listening posts would be manned to gain infm about enemy posns, etc., on far bank.
